APPENDIX NO. 1

Under the terms of § 501.65 (g) of this subpart, the rated load carrying ability of the tires mounted on the running wheels of a motor truck shall be determined by multiplying the number of tires mounted on the running wheels of such motor truck, of the size and description actually used, by the number of pounds appearing opposite the description of such tires in this Appendix.

Example: A motor truck uses 10 running tires, size 9.00–20, ten ply. The rated load carrying ability of each such tire, in pounds per tire, as shown in this Appendix, is 3450. Multiply 10 (number of tires) by 3450 (rated load carrying ability of each tire). The result is 34,500 pounds, which is the "rated load carrying ability" of the motor truck as defined in § 501.65 (g).

[Docket No. B-212]

CHARLES BOWERS, CODE MEMBER

ORDER APPROVING AND ADOPTING PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW, AND RECOMMENDATION OF EXAMINERS, AND ORDER REVOKING AND CANCELLING CODE MEMBERSHIP

This proceeding was instituted upon a complaint filed with the Bituminous Coal Division on February 10, 1942, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, by District Board No. 1, wherein complainant alleged that Charles Bowers, a code member producer in District No. 1, had wilfully violated the Bituminous Coal Code and the Schedule of Effective Minimum Prices for District No. 1 for Truck Shipments, particularly Price Instruction No. 6, by failing to add the cost of transportation to the f. o. b. mine price of certain coal sold by him between February and August 1941. Complainant prayed that the Division revoke and cancel code membership or, in its discretion, direct the code member to cease and desist from further violations of the Act.

Pursuant to an Order of the Acting Director, dated February 18, 1942, this matter came on for hearing on March 25, 1942, before Joseph A. Huston, a duly designated Examiner of the Division, at a hearing room thereof in Altoona, Pennsylvania. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise participate fully in the hearing. District Board No. 1 and Charles Bowers appeared at the hearing. The Examiner on June 20, 1942, submitted his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation. He found that Charles Bowers, a code member producer in District No. 1, operating the Bowers No. 1 Mine, Mine Index No. 696, wilfully violated the Bituminous Coal Act, the Bituminous Coal Code, the Schedule of Effective Minimum Prices for District No. 1 for Truck Shipments, and particularly Price Instruction No. 6 of the Price Schedules by selling at various dates (1) during the period February 1941 to and including August 1941, (2) 856,645 tons of run of mine coal produced at his mine at (3) $2.20 per net ton, delivered at Curwensville, Pennsylvania, (4) whereas the effective minimum price therefor, was $2.20 per net ton f. o. b. the mine, code member thus failing to add the cost of transportation as required by Price Instruction No. 6 in the Schedule of Effective Minimum Prices for District No. 1 for Truck Shipments, (5) and recommended that the code membership of Charles Bowers be revoked and cancelled and that as a condition precedent to reinstatement to membership in the Code, Bowers should be required, as provided in section 5 (c) of the Act, to pay a tax to the United States in the amount of $735.00.

An opportunity was afforded to all parties to file exceptions to the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation of the Examiner. No exceptions thereto have been filed.

The undersigned has determined that the proposed findings of fact and the proposed conclusions of law of the Examiner in this matter should be approved and adopted as the findings of fact and conclusions of law of the undersigned.

Now, therefore, it is ordered, That the said proposed findings of fact and the proposed conclusions of law of the Examiner be, and they hereby are, approved and adopted as the findings of fact and conclusions of law of the undersigned.

ENGLER COAL AND COKE CO.

ORDER ADOPTING PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW AND RECOMMENDATIONS OF THE EXAMINER, AND CEASE AND DESIST ORDER

In the matter of Nina C. Engler, individual, doing business as Engler Coal and Coke Company, registered distributor, registration No. 2774, respondent.

This proceeding was instituted by the Bituminous Coal Division (the "Division"), pursuant to the provisions of the Bituminous Coal Act of 1937 (the "Act"), in order to investigate and determine whether or not Nina C. Engler, individual, doing business as Engler Coal and Coke Company, a registered distributor, Registration No. 2774, whose address is 503 Omerhall Loan Building, Omaha, Nebraska, had violated any provisions of the Act, the Marketing Rules and Regulations, the Rules and Regulations for Registration of Distributors and the Distributors' Agreement, executed on December 16, 1940, by respondent, and whether or not the registration of said distributor should be revoked or suspended or other proper penalties should be imposed.

The Notice of and Order for Hearing charged that the respondent, acting in the capacity of sub-sales agent, pursuant to a sub-sales agency agreement filed with the Division December 11, 1940, with Ed Sweeney (doing business as Triple "C" Coal Company) operating the Sweeney Mine, Mine Index No. 188, located in Le Flore County, Oklahoma, in District No. 14, during the period from January 2, 1941 to January 21, 1941, both dates inclusive, sold on behalf of said code member approximately three carloads of coal to various purchasers, produced by the aforesaid code member and charged that the respondent accepted and retained commissions on the above transaction in addition to the 9 percent commission stipulated in said agreement. Although certified copies of an agreement modifying the stipulated commission in their sales agency agreement was not filed with the Division, as required by Rule 4 (b) of section 2 of the Marketing Rules and Regulations.

Pursuant to a notice, dated November 22, 1941, a hearing in this matter was held on January 14, 1942, before D. C. McCurtain, a duly designated examiner of the Division, at a hearing room thereof at Omaha, Nebraska. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise participate fully in the hearing. The Examiner, on June 20, 1942, submitted a Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation. He found that the respondent, acting in the capacity of a sub-sales agent, pursuant to an agreement filed with the Division on December 11, 1940, with the Triple "C" Coal Company, code member, operating the Sweeney Mine, Mine Index No. 188, during the period from January 2, 1941 to January 21, 1941, received and retained compensation in excess of 9 percent commission provided in said sub-sales agency agreement, although no certified copy of an agreement modifying the stipulated commission in said sub-sales agency agreement was filed with the Division as required by Rule 4 (b) of section 4 II of the Marketing Rules and Regulations. Based upon the proposed findings of fact, the Examiner recommended that an order be entered directing the Engler Coal and Coke Company, a registered distributor, Registration No. 2774, to cease and desist from violations of the Act, the regulations made thereunder or the Distributors' Agreement.

An opportunity was afforded to all parties to file exceptions to the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation of the Examiner. No exceptions thereto have been filed.

The undersigned has determined that the proposed findings of fact and the proposed conclusions of law of the Examiner in this matter should be approved and adopted as the findings of fact and conclusions of law of the undersigned.

Now, therefore, it is ordered, That the said proposed findings of fact and the proposed conclusions of law of the Examiner be, and they hereby are, approved and adopted as the findings of fact and conclusions of law of the undersigned.

It is further ordered, That effective fifteen (15) days from the date hereof that the Engler Coal and Coke Company, a registered distributor, Registration No. 2774, its representatives, agents, servants, employees, attorneys, successors or assigns and all persons acting or claiming to act for or in its behalf be and they hereby are directed to cease and desist from violations of the Bituminous Coal Act, the regulations made thereunder, particularly the Distributors' Rules and the Distributors' Agreement.

It is further ordered, That upon the failure of such distributor to comply with the Order that the Division may reopen the case and take appropriate action under the circumstances for the enforcement hereof, or take such further action as may be appropriate in the premises.

WHITELEY & BUCKALEW, INC.

ORDER ADOPTING PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW AND RECOMMENDATION OF THE EXAMINER AND CEASE AND DESIST ORDER

This proceeding was instituted by the Bituminous Coal Division pursuant to the provisions of the Bituminous Coal Act of 1937, in order to investigate and determine:

(a) Whether or not Whiteley & Buckalew, Incorporated, Registered Distributor, Registration No. 9675, the respondent in the above-entitled matter, had violated any provisions of the Act, the Code, or any orders or regulations of the Division, including the Marketing Rules and Regulations, the Rules and Regulations for the Registration of Distributors, and the Distributor's Agreement, executed July 25, 1940, by the respondent; and (b) whether or not the registration of said distributor should be revoked or suspended or other appropriate penalty should be imposed.

The Notice of and Order for Hearing dated November 22, 1941, charged that the respondent accepted and retained excessive commissions from various operators while acting in the capacity of sales agent, and sub-sales agent, during the period from October 9, 1940, to August 12, 1941, and that respondent in accepting and retaining the excessive commissions participated in transactions in violation of Rule 9 (a) of section II of the Marketing Rules and Regulations, and thereby violated Paragraph (e) of the Distributor's Agreement executed on July 25, 1940, by the respondent.

Pursuant to notice dated November 22, 1941, a hearing in this matter was held on January 13, 1942, before Scott A. Dahlquist, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise participate fully in the hearing. The Examiner on June 18, 1942, submitted a Report, Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendation.

The Examiner found:

(1) That the respondent, acting in the capacity of sales agent, pursuant to an agreement dated October 2, 1940 and modified on April 2, 1941, with the Pursglove Coal Mining Company, a code member principal operating mines Nos. 120, 119, and 121, in District No. 3, during the period from October 9, 1940 to August 12, 1941, both dates inclusive, sold in behalf of said code member 53 cars, or approximately 2510.99 net tons of various sizes of coal produced at the aforesaid mines; and that the respondent accepted and retained, at least for a time, commissions in the aggregate amount of $593.30 on said transactions, which was $228.45 in excess of $364.85 which is the aggregate amount of commissions to which respondent was entitled on said transactions as stipulated in the sales agency agreement.

(2) That the respondent acting in the capacity of sales agent, pursuant to an agreement dated December 30, 1940 with the Reitz Coal Company, a code member principal, operating the Reitz Nos. 2, 4, 5 and 8 Mines, Mine Index Nos. 420, 423, 424, and 425, respectively, in District No. 1, during the period from October 10, 1940, to August 8, 1941, both dates inclusive, sold in behalf of said code member 32 cars or approximately 1639.95 net tons of various sizes of coal, produced at the aforesaid mines, and accepted and retained, at least for a time, commissions in excess of that to which he was entitled on said transactions, as stipulated in said sales agency agreement.

(3) That the respondent acting in the capacity of sales agent, pursuant to an agreement dated October 1, 1940, with the Canyon Coal Company, code member principal, operating mine designated as Mine Index No. 32, located in District No. 3 during the period from January 6, 1941, to January 20, 1941, both dates inclusive, sold in behalf of said code member 3 cars or approximately 141.05 net tons of coal of various sizes produced by the code member, and that respondent accepted, and at least for a time, retained commissions in excess of that to which he was entitled on said transactions as stipulated in said sales agency agreement between the respondent and said code member, and that therefore the respondent in accepting and retaining, at least for a time, said excessive commissions, participated in the violation of Rule 9 (a) of the Marketing Rules and Regulations, and thereby violated Paragraph (e) of the Distributor's Agreement executed by the respondent on July 25, 1940, and filed with the Division.

Based upon his proposed findings of fact, the Examiner recommended that an order be entered directing Whiteley & Buckalew, Incorporated, a registered distributor, Registration No. 9675, to cease and desist from violations of the Act, the regulations made thereunder, or the Distributor's Agreement.

An opportunity was afforded all parties to file exceptions to the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation of the Examiner. No exceptions thereto have been filed.

The undersigned has determined that the proposed findings of fact and the proposed conclusions of law of the Examiner in this matter should be approved and adopted as the findings of fact and conclusions of law of the undersigned.

Now, therefore, it is ordered, That the said proposed findings of fact and the proposed conclusions of law of the Examiner be, and they hereby are, approved and adopted as the findings of fact and conclusions of law of the undersigned.

It is further ordered, That effective fifteen (15) days from the date hereof, Whiteley & Buckalew, Incorporated, registered distributor, Registration No. 9675, its representatives, agents, servants, employees, attorneys, successors or assigns, and all persons acting or claiming to act for or in its behalf, be and they hereby are directed to cease and desist from further violations of the Act, the regulations made thereunder, or the Distributor's Agreement.

It is further ordered, That upon the failure of such distributor to comply with this order, the Division may reopen the case and take appropriate action under the circumstances for the enforcement thereof, or take such further action as may be appropriate in the premises.

Dated July 22, 1942.

THOMAS B. BLEAKNEY,[1] CODE MEMBER

ORDER APPROVING AND ADOPTING PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW, AND RECOMMENDATION OF THE EXAMINER, AND CEASE AND DESIST ORDER

This proceeding was instituted upon a complaint filed on February 10, 1942, with the Bituminous Coal Division by District Board No. 1, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, against Thomas B. Bleakney, code member. The complaint alleges that code member wilfully violated the effective minimum prices, as set forth in the Schedule of Effective Minimum Prices for District No. 1 for Truck Shipments, and prayed that the Division revoke and cancel the code membership of Thomas B. Bleakney or, in its discretion, direct him to cease and desist from further violations of the Act.

Pursuant to an Order of the Acting Director dated February 21, 1942, and after due notice to interested persons, a hearing in this matter was held at Altoona, Pennsylvania, before Joseph A. Huston, a duly designated Examiner of the Division. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise participate fully in the hearing. Appearances were entered on behalf of District Board No. 1 and Thomas B. Bleakney.

The Examiner, on June 15, 1942, submitted his Report, Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendation. He found that Thomas B. Bleakney, a code member producer in District No. 1, wilfully vio-

lated section 4 II (e) of the Act, the Bituminous Coal Code, and the Schedule of Effective Minimum Prices for District No. 1 for Truck Shipments by selling and delivering on November 11, 1940, approximately 1,600 lbs. of slack coal (Size Group 4 or 5) at $1.75 per net ton f. o. b. the mine when the established effective minimum price therefor was $2.15 per net ton f. o. b. the mine. The Examiner also found that the code member violated Order No. 308 by failing to maintain and file with the Statistical Bureau of the Division for District No. 1, as prescribed in said Order, copies of all truck tickets, sales slips, and other memoranda or records relating to sales and shipments of bituminous coal produced by said code member. Based upon his proposed findings of fact, the Examiner recommended that an order be entered directing Thomas B. Bleakney, his officers, representatives, agents, servants, employees, and successors or assigns, and all persons acting or claiming to act for or in his behalf or interest, to cease and desist from further violations of the Act and of the Code by selling or offering to sell coal at less than the effective minimum price established therefor, and from failing to maintain and preserve and file information relating to sales of coal as required by the rules and regulations issued pursuant to the Act, or from otherwise violating the Act, the Code, and the Schedule of Effective Minimum Prices for District No. 1 for Truck Shipments or the rules and regulations promulgated pursuant to the Act.

An opportunity was afforded to all parties to file exceptions to the Proposed Findings of Fact, Proposed Conclusions of Law, and Recommendation of the Examiner. No Exceptions thereto have been filed.

The undersigned has determined that the proposed findings of fact and the proposed conclusions of law of the Examiner in this matter should be approved and adopted as the findings of fact and conclusions of law of the undersigned.

Now, therefore, it is ordered, That the said proposed findings of fact and proposed conclusions of law of the Examiner be, and they hereby are, approved and adopted as the findings of fact and conclusions of law of the undersigned.

It is further ordered, That effective fifteen (15) days from the date hereof, Thomas B. Bleakney, his officers, representatives, agents, servants, employees, and successors or assigns, and all persons acting or claiming to act for or in his behalf or interest be, and they hereby are, directed to cease and desist from selling coal below the effective minimum price established therefor, from violating Order No. 308, issued pursuant to the Bituminous Coal Act, or from otherwise violating any provisions of the Bituminous Coal Act of 1937, the Code or the Schedule of Effective Minimum Prices for District No. 1 for Truck Shipments and the rules and regulations promulgated under the Act.

It is further ordered, That if the code member fails or refuses to comply with this order, the Division may apply to the Circuit Court of Appeals, for the circuit wherein the code member resides or does business for the enforcement thereof, or take such further action as may be appropriate in the premises.

FEDERAL COMMUNICATIONS COMMISSION.

AGRICULTURE, COASTAL, MARINE RELAY, AND FIXED PUBLIC SERVICES

MEMORANDUM OPINION ON POLICY AND PROCEDURE FOR HANDLING CERTAIN APPLICATIONS

In the matter of policy and procedure for handling applications relating to stations in the Agriculture, Coastal, Marine Relay, and Fixed Public Services.

It has become increasingly apparent that the public interest requires a curtailment of the use of materials for the construction or change of the transmitting facilities of stations operating in the Agriculture, Coastal, Marine Relay and Fixed Public radio services.

On June 29, 1942, the Board of War Communications made the following two recommendations to the War Production Board and to this Commission:

1. No future authorizations involving the use of any materials shall be issued by the Federal Communications Commission nor shall further materials be allocated by the War Production Board, to construct or to change the transmitting facilities of any station in the Agriculture Service.

2. No future authorizations involving the use of any materials shall be issued by the Federal Communications Commission nor shall further materials be allocated by the War Production Board, to construct or to change the transmitting facilities of any station operating in the Coastal, Marine Relay, or Fixed Public services: *Provided, however*, That upon a proper showing that any such station serves an essential military need or a vital public need, which cannot otherwise be met, the Commission and the War Production Board will take action commensurate with the importance of the particular facility in question.

The Commission has adopted the recommendation numbered one, and hereafter as a matter of policy, until further notice, will grant no application for an authorization involving the use of any materials to construct or change the transmitting facilities of any point-to-point radio station in the Agriculture service.

In accordance with the recommendation numbered two, the Commission has adopted the policy, until further notice, of not granting any application for an authorization which involves the use of any materials to construct or change the transmitting facilities of any station operating in the Coastal, Marine Relay, or Fixed Public services; except where it appears that the facilities to be constructed or changed will serve either (1) an essential military need or (2) a vital public need, which cannot otherwise be met.

Any application hereafter filed involving the use of any materials to construct or to change the transmitting facilities of any class of station set forth under recommendation (2) will be considered defective and returned to the applicant unless it is accompanied by a verified statement showing all the facts and circumstances which the applicant believes to demonstrate that the facilities to be constructed or changed will serve either (1) an essential military need, or (2) a vital public need, which cannot otherwise be met.

In the case of any application now pending[1] before the Commission, or postmarked prior to the date hereof, a verified statement need not be submitted unless the Commission specifically requests such statement. Failure to file the required statement within the time designated by the Commission shall be deemed an abandonment of the pending application and such application will be retired to the closed files of the Commission and dismissed without prejudice.

In the event that the Commission is unable to determine from the verified statement that the proposed facilities will serve either an essential military need or a vital public need, which cannot otherwise be met, the application will be designated for a public hearing.

[Amendment 3 to Administrative Notice 1[1]]

EXCEPTIONS GRANTED TO MACHINERY MANUFACTURERS

During the fall and winter of 1941-1942, when the Office of Price Administration requested manufacturers of a wide variety of machines and parts not to increase prices, such manufacturers were advised that exceptions would be considered where maintenance of requested prices caused undue hardship. A certain number of exceptions have been granted to manufacturers filing applications supported by proper data. A list of these exceptions is contained in Administrative Notice No. 1 and two Amendments thereto.[1]

Upon applications duly made by manufacturers, and after consideration of the evidence submitted thereupon, additional exceptions have been granted, some of which were not included in the Administrative Notice by inadvertence and some of which took place subsequent thereto.

Pursuant to authority vested in the Price Administrator by the Emergency Price Control Act of 1942, it is ordered that:

A new paragraph be added to the end of Administrative Notice No. 1 as set forth below.

Exceptions are granted to the manufacturers of machines and parts named, establishing as maximum prices for the specified products the prices set forth, below:

PART 332—MINIMUM PRICE SCHEDULE, DISTRICT No. 12

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 12 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 12.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 12; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 332.2 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and No. 12 for All Shipments Except Truck or supplements thereto as follows: Beck Mine (Mine Index No. 226) of Beck Coal Co. (Albert Fuson), Docket No. A–675; No. 1 Mine (Mine Index No. 796) of Premier Coal Company, Inc., c/o Glen A. Beebout, Docket No. A–1328; No. 2 Mine (Mine Index No. 737) of Premier Coal Company, Inc., c/o Glen A. Beebout, Docket No. A–794; Wholesale Coal Co. PART 333—MINIMUM PRICE SCHEDULE, DISTRICT No. 13

ORDER GRANTING RELIEF

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 13 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 13.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 13; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 333.6 (*General prices*) is amended by adding thereto Supplement R–I, § 333.7 (*Special prices*—(a) *Prices for shipment to all railroads and for exclusive use of railroads*) is amended by adding thereto Supplement R–II, § 333.7 (*Special prices*—(c) *Prices for shipment by railroad, applicable to all coal sold for steamship vessel fuel*) is amended by adding thereto Supplement R–III, § 333.24 (*General prices*) is amended by adding thereto Supplement R–IV § 333.25 (*Special prices*—(b) *Prices for shipment to all railroads for locomotive fuel, station heating, power plants and other uses*) is amended by adding thereto Supplement R–V, § 333.34 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T–I, and § 333.43 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T–II, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

No relief is granted herein as to the coals of the Gillison Coal Company (Mine Index No. 1273) of W. C. Carr (Carr Coal Company) for all shipments except truck for the reason that records of the Division indicate that no freight rates are applicable for rail shipment from Argo, Alabama, the shipping point proposed by the original petitioner. By letter dated June 19, 1942, the original petitioner indicated it had discovered this fact and requested that Mine Index No. 1273 be deleted from its petition for that reason.

No relief is granted herein as to the coals of the Happy Hollow Mine (Mine Index No. 326) of J. A. Garrett or as to the coals of the Cross Roads Mine (Mine Index No. 171) of Supreme Black Creek Coal Company, Inc., for the reasons set forth in an order severing that portion of Docket No. A–1481 which relates to them and designating such portion as Docket No. A–1481, Part II, granting temporary relief in part and scheduling a hearing therein.

No relief is granted herein as to the coals of the Brown Mine of Roy Lee Schlageter which the original petition designates as Mine Index No. 1159 for the reason that records of the Division indicate that the correct mine index number for this mine is Mine Index No. 859 and that price classifications and minimum prices have already been established for Mine Index No. 859 under the name of Brown and Morris (C. R. Brown) for truck shipment in Docket No. A–205 and for all shipments except truck in Docket No. A–1089.

Dated: July 6, 1942.

Subchapter A—General Provisions

PART 904—PROCUREMENT

[Directive No. 6]

CONTRACT PROVISIONS FOR WEIGHT DETERMINATION

§ 904.5 *Directive No. 6.* Pursuant to the authority vested in me by Executive Order No. 9024 of January 16, 1942, and Executive Order No. 9040 of January 24, 1942, the following policy is prescribed for all Departments and agencies now or hereafter engaged in war procurement:

(a) Contractual provisions specifying or requiring that weights be determined by railroad or warehouse scale shall not be used where such provisions may require back-hauling or cross-switching or cause congestion or delay in traffic or traffic handling. Under such circumstances contractual provisions shall authorize the determination of weights by cubic content, standard unit weights, sampling, estimates or other method mutually agreeable. Existing contracts should be modified when practicable in conformity with this policy. (E.O. 9024, Jan. 16, 1942, 7 F.R. 329, E.O. 9040, Jan. 24, 1942, 7 F.R. 527; sec. 201, Pub. Subchapter B—Director General for Operations

PART 937—ZINC

[Conservation Order M–11–b]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of zinc for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 937.13 *Conservation Order M–11–b*—(a) *Prohibition on use of zinc in articles appearing on List A.* (1) Between July 24, 1942 and September 1, 1942, no person shall put into process in the manufacture of any item on List A more weight of zinc than 50% of the average monthly weight of zinc put into process by him during 1941 in the making of such item, and no person shall put into process any zinc in the making of such item unless processing thereof will be completed within such period.

(2) Effective September 1, 1942, no person shall process any zinc to make any item on List A.

(b) *Limitation on other uses of zinc.* No person shall put into process during any calendar quarter in the manufacture of items not on List A more than 75% of the weight of zinc of prime western grade or, more than 50% of the weight of zinc of any other grade respectively put into process by him in the manufacture of such items during the corresponding calendar quarter of 1941.

(c) *General exceptions.* The prohibitions and restrictions in paragraphs (a) and (b) shall not apply to the use of zinc in any item which is being produced:

(1) Under a specific contract or subcontract covering the manufacture of any product, or any component to be physically incorporated into such product, produced by or for the account of the Army or Navy of the United States or the United States Maritime Commission, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development, or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to promote the Defense of the United States", (Lend-Lease Act) to the extent required by specifications, including performance specifications, applicable to the contracts, subcontracts or purchase orders of these organizations.

(2) For use to comply with safety regulations issued under governmental authority which require the use of zinc to the extent employed, or

(3) For use in chemical and industrial plants to the extent that corrosive or chemical action makes the use of any other material impractical, or

(4) For use in research laboratories where and to the extent that the physical or chemical properties make the use of any other material impractical.

(d) *Prohibitions against sales or deliveries of zinc.* No person shall hereafter sell or deliver zinc to any person if he knows, or has reason to believe such

material is to be used in violation of the terms of this order.

(e) *Limitation of inventories.* No person shall accumulate an inventory of zinc or products thereof, in the form of raw materials, semiprocessed materials, finished parts or sub-assemblies in quantities in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the production of zinc products by this order. Any person who has an inventory in excess of a minimum practicable working inventory is prohibited from receiving additional zinc or products thereof beyond that extent necessary to maintain a minimum practicable working inventory.

(f) *Miscellaneous provisions.*—(1) *Appeal.* Any appeal from the provisions of this order must be made on Form PD–500 and must be filed with the field office of the War Production Board for the district in which is located the plant to which the appeal relates.

(2) *Applicability of order.* The prohibitions and restrictions contained in this order shall apply to the use of material in all items or articles hereafter manufactured irrespective of whether such items are manufactured pursuant to a contract made prior or subsequent to the effective date hereof, or pursuant to a contract supported by a preference rating. Insofar as any other order of the Director General for Operations may have the effect of limiting or curtailing to a greater extent than herein provided, the use of zinc in the production of any article, the limitation of such other order shall be observed.

(3) *Violations or false statements.* Any person who wilfully violates any provision of this order or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the Director General for Operations.

(4) *Definitions.* For the purposes of this order:

(i) "Zinc" means zinc metal which has been produced by any electrolytic, electro-thermic, or fire refining process. It shall include zinc dust (for Sheradizing only), scrap zinc, zinc metal produced from scrap and any alloy in the composition of which the percentage of zinc metal by weight equals or exceeds the percentage of all other metals.

(ii) "Prime western zinc" means zinc of no higher grade than that conforming to American Society for Testing Materials specification B6–37, grade 5, and zinc dust for Sheradizing.

(iii) "Zinc of any other grade" means zinc conforming to American Society for Testing Materials specification B6–37, grades 1a, 1, 2, 3, or 4, and any alloy in the composition of which the percentage of zinc metal by weight equals or exceeds the percentage of all other metals.

(iv) "Inventory" of a person includes the inventory of affiliates and subsidiaries of such person, and the inventory of others where such inventory is under the control of or under common control with or available for the use of such person.

(v) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not (including, but not limited to, any trustee, receiver, assignee, or personal representative thereof).

(vi) "Item" means any article or component part thereof.

(vii) "Process" means cut, draw, machine, stamp, melt, cast, forge, roll, turn, spin or otherwise shape.

(viii) "Put into process" means the first change by a manufacturer in the form of material from that form in which it is received by him.

(ix) "Sheradizing" means any process which uses zinc dust or finely divided zinc as a raw material for impregnating the surface of a ferrous material with zinc by process of cementation. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 24th day of July 1942.

PART 1499—COMMODITIES AND SERVICES

[General Maximum Price Regulation [1]—Amendment 1 to Supplementary Regulation 14 [2]]

FRUIT CAKE

A statement of the considerations involved in the issuance of this Amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.* A new subparagraph (2) is added to paragraph (a) of § 1499.73 as set forth below:

§ 1499.73 *Modification of maximum prices established by § 1499.2 of General Maximum Price Regulation for certain commodities, services and transactions.* (a) The maximum prices established by § 1499.2 of the General Maximum Price Regulation for the commodities, services, and transactions listed below are modified as hereinafter provided:

• • • • •

(2) *Fruit cake*—(i) *Sales by producers of fruit cake.* (a) Producers of fruit cake who dealt in fruit cake of a comparable type in the period October 1 to December 31, 1941, inclusive, shall determine maximum prices to each class of purchaser as follows: Each producer shall ascertain the cost of ingredients and packaging materials as if such ingredients and packaging materials had been purchased in March, 1942. To the figure so obtained he shall add the difference between his average selling price to a purchaser of the same class and his average ingredient and packaging material cost for fruit cake of a comparable type sold by him during the period October 1 to December 31, 1941, inclusive. In computing the cost of ingredients and packaging materials as of March, 1942, each producer shall ascertain said costs from the highest prices quoted in March, 1942 by his usual supplier or suppliers; or, if any usual supplier was not quoting prices in March, 1942, from prices quoted in March, 1942 by a seller of the same class as his usual supplier.

(b) A producer of fruit cake who did not deal in fruit cake of a comparable type in the period October 1 to December 31, 1941, inclusive, shall determine his maximum price to each class of purchaser applying the maximum price to the same class of purchaser of his most closely competitive seller selling a similar fruit cake.

(ii) *Sales by others than producers of fruit cake.* (a) A seller, other than a producer of fruit cake, who dealt in fruit cake of a comparable type in the period October 1 to December 31, 1941, inclusive, shall determine his maximum price to each class of purchaser by adding to the cost of the fruit cake to him his average dollar mark-up taken by him on sales to purchasers of the same class of fruit cake of a comparable type during the period October 1 to December 31, 1941, inclusive.

(b) A seller, other than a producer of fruit cake, who did not deal in fruit cake of a comparable type in the period October 1 to December 31, 1941, inclusive, shall determine his maximum price to each class of purchaser of his most closely competitive seller selling a fruit cake of the same or substantially like cost.

(iii) *Definitions.* For purposes of this subparagraph (2):

(a) "Fruit cake of a comparable type sold by the producer in the period October 1 to December 31, 1941, inclusive", means a fruit cake (*1*) the ingredients of which would have had the same approximate total cost if such ingredients had been purchased in March, 1942 as the total cost of ingredients used in making the fruit cake for which a maximum price is to be determined if such ingredients had also been purchased in March, 1942, and (*2*) of the same weight when completed and ready for packaging as the fruit cake for which a maximum price is to be determined.

(b) "Similar fruit cake" means a fruit cake of approximately the same total cost of ingredients and packaging materials and of the same weight when completed and ready for packaging as the fruit cake for which a maximum price is to be determined.

(c) All other terms used in this subparagraph (2) shall have the meaning given them by the General Maximum Price Regulation.

(b) Effective dates. • • •

(2) Amendment No. 1 (§ 1499.73 (a) (2)) to Supplementary Regulation No. 14 shall become effective July 27, 1942. (Pub. Law 421, 77th Cong.)

Issued this 23d day of July 1942.

CERTIFIED GROCERS OF CALIFORNIA, LTD.

OLEOMARGARINE PRICES

Certified Grocers of California, Ltd., a cooperative wholesale organization, 4455 Fruitland Avenue, Los Angeles, California, has filed a Protest against the General Maximum Price Regulation and has requested specific adjustment of the maximum prices established for it for the sale of Parkay Oleo Margarine on the grounds that such maximum prices cause it substantial hardship, are abnormally low in relation to the maximum prices established for competitive sellers of Parkay Oleo Margarine, and that establishing for it a maximum price, bearing a normal relation to the maximum prices established for competitive sellers of Parkay Oleo Margarine, will not cause or threaten to cause an increase in the level of retail prices. Due consideration has been given to the Protest and an Opinion in support of this Order, issued simultaneously herewith, has been filed with the Division of the Federal Register.* For the reasons set out in the Opinion and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 it is ordered:

The maximum prices established herein are not below the average price of such commodities in the year 1941.

HOFFMAN BEVERAGE CO.

Hoffman Beverage Company of 402 Grove Street, Newark, New Jersey, filed a Petition for Amendment of the General Maximum Price Regulation on May 20, 1942 (Docket Number GF3-72) and a Protest against the provisions of the General Maximum Price Regulation on June 27, 1942 (Docket Number GF1-324-P), both requesting specific adjustment of the maximum prices established for it for sales of malt beverages on the grounds that such maximum prices cause it substantial hardship and are abnormally low in relation to the maximum prices established for competitive sellers of malt beverages. Due consideration has been given to the petition and to the Protest and an opinion in support of this order, issued simultaneously herewith, has been filed with the Division of the Federal Register. For the reasons set out in the opinion and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 it is ordered:

4 cents per case of 24 twelve ounce bottles.
10 cents per case of 12 quart bottles.
25 cents per half barrel (15½ gallons).

Provided, however, That such increases may only be made in the State of Connecticut, in the Counties of Bronx, Kings, Nassau, New York, Queens, Richmond, Suffolk, and Westchester, State of New York, and the Counties of Bergen, Camden, Essex, Hudson, Mercer, Monmouth, Morris, Passaic, and Union, State of New Jersey.

(b) *Retailers:* On and after July 24, 1942, any retailer may increase the maximum prices established for his sales of Hoffman Beverage Company's malt beverages in the area described in paragraph (a) of this order by 1 cent for 3 twelve ounce bottles and 1 cent for each quart bottle; *Provided, however,* That such maximum prices as increased shall not exceed 27 cents for 3 twelve ounce bottles and 22 cents for each quart bottle.

(c) *Notification of retailers:* Within a period of 15 days from and after the effective date of this order, Hoffman Beverage Company shall by circular or other appropriate means, notify all retailers selling its malt beverages in the area described in paragraph (a) of this order that they may increase their maximum prices as provided in paragraph (b) of this order.

(d) This Order No. 1 may be revoked or amended by the Price Administrator at any time.

(e) This Order No. 1 (§ 1499.301) shall become effective July 24, 1942.

PART 502—VESTING ORDERS

VESTING 29 ITALIAN AND GERMAN VESSELS

§ 502.52 *Vesting Order No. 52.* Under the authority of the Trading with the enemy Act of October 6, 1917, as amended, including particularly but not limited to sections 5 (b) and 7 (c) thereof, as amended, and of Executive Order No. 9095 of March 11, 1942,[1] as amended, and pursuant to law, the undersigned, finding upon investigation that the right, title and interest, if any, of the persons, firms and corporations listed in Exhibit A attached hereto and made a part hereof (which persons, firms and corporations are herein called "Claimants") in the vessels designated on said Exhibit A opposite the names of Claimants, respectively, are the property of Nationals of a Foreign Country designated in Executive Order No. 8389, as amended,[2] as defined therein, and that each of said Claimants is an enemy as defined in sec. 2 of said Act of October 6, 1917, not holding a license from the President, and that the action herein taken is in the public interest, hereby demands and seizes, and declares vested in the Alien Property Custodian, forthwith and upon the terms herein provided, all right, title and interest, if any, of Claimants, and each of them, in any or all of the aforesaid vessels (as hereinafter defined), to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The term "vessels" as used in this order means the vessels, their engines, boilers, tackle, apparel, furniture, spare parts and equipment, and all stores and fuel whether aboard such vessels or appertaining thereto and the proceeds of said vessels, and includes any claim against the United States for compensation for anything heretofore or hereafter done under the Act of June 6, 1941 (Public Law 101, 77th Congress) in respect of said vessels. In the case of the *M. S. Odenwald (Willmoto)* the term "vessel" includes also the cargo that was on board at the time the libel for salvage against the same was filed in the United States District Court for Puerto Rico, and the proceeds of said cargo, and includes also any claim against the United States for compensation for anything heretofore or hereafter done under the Act of October 10, 1940 in respect of said cargo. In the case of the *SS. Brennero* the term "vessel" includes also the proceeds of the cargo that was on board at the time the libel for forfeiture against the *SS. Brennero* was filed in the United States District Court for the District of New Jersey, which cargo has since been sold by order of said court.

The divesting and seizure hereunder of all right, title and interest of Claimants, and each of them, and the vesting thereof in the Alien Property Custodian is unconditional and without redress or right of compensation to said Claimants, or any of them, except as may be otherwise provided by future legislation.

Nothing in this order shall be construed as impairing the right of compensation in accordance with the applicable provisions of the Act of June 6, 1941, and of section 902 of the Merchant Marine Act of 1936, as amended, of any person interested except claimants, and each of them, and except other enemies; but nothing in this order shall be construed as impairing such rights as the United States may already have in respect of said vessels, including specifically but not exclusively rights of forfeiture and salvage rights, whether or not already established by adjudication. Nothing in this order shall be construed as recognizing any right of compensation for any interests found subject to defeasance or without value by reason of the paramount rights of the United States.

Nothing in this order shall be construed as impairing any authority which the United States Maritime Commission or the War Shipping Administration may have to take any action in respect of said vessels which the Act of June 6, 1941, or Executive Order No. 8771,[3] or any amendment thereof, heretofore or hereafter made, authorizes with respect to vessels taken under the Act of June 6, 1941, or to continue, modify or revoke any arrangements heretofore made by them in respect of said vessels.

Nothing in this order shall be construed as recognizing that Claimants, or any of them, have any right, title or interest in said vessels. This order and all action taken pursuant thereto is in strict subordination to the rights of the United States including rights of forfeiture and salvage rights. It is the intention of this order to effect a complete substitution of the Alien Property Custodian for Claimants, and each of them, in respect of any right, title or interest they, or any of them, may have in any or all of said vessels.

Copies of this order shall be served by mail on the proctors for the Claimants in the various proceedings in admiralty heretofore brought by the United States against said vessels (E.O. 9095, 7 F.R. 1971).

Chapter IX—War Production Board

Subchapter A—General Provisions

PART 902—REGULATIONS UNDER THE REQUISITIONING ACTS

ADDITIONAL AMENDMENTS

Pursuant to the authority vested in the Chairman of the War Production Board by Executive Order No. 9024 of January 16, 1942[2] and Executive Order No. 9040 of January 24, 1942,[3] the Regulations under Requisitioning Acts approved by the Supply Priorities and Allocations Board, December 8, 1941, (Part 1600),[4] as amended by War Production Board Regulation No. 2 of January 26, 1942,[5] (§ 902.5), are hereby amended to read as follows:

§ 902.1 *General provisions applicable to all requisitioning proceedings.* (a) As used in these regulations, the term "Requisitioning Authority" means the Chairman of the War Production Board in all cases except when requisitioning is initiated under paragraph 4 of Executive Order 8942, as amended by Executive Order 9138, in which case the term "Requisitioning Authority" means the head of the department or agency who shall have submitted the proposal for requisitioning to the Chairman of the War Production Board.

(b) Promptly after any property has been requisitioned, notice of such requisition, in such manner and form as may be approved by the General Counsel of the War Production Board, shall, to the extent practicable, be given by the Requisitioning Authority to all persons known to have or claim any interest in such property; and all such persons shall be directed to file their claims with the Requisitioning Authority.

(c) As promptly as practicable after property has been requisitioned, the Requisitioning Authority shall make a preliminary determination of the fair and just compensation to be paid for such property. It shall, to the extent practicable, give notice of such determination to all persons known to have or claim an interest in the property requisitioned. Within 30 days after such notice, any claimant may file written objections to such preliminary determination, specifying in reasonable detail the grounds for his objection. The preliminary determination may be modified on the basis of such objections.

(d) In any case in which the Requisitioning Authority is in doubt as to the proper measure to be applied in determining fair and just compensation, or in any case in which there is a difference of opinion between the Requisitioning Authority and any person known to have or claim an interest in property requisitioned as to the proper measure to be applied in determining fair and just compensation, the Requisitioning Authority may, in its discretion, either before or after making a preliminary determination pursuant to paragraph (c), designate a time and place for all persons known to have or claim an interest in the property requisitioned to appear in support of their claims. Such appearance shall be before a board or official designated by the Requisitioning Authority for such purpose. Such board or official shall hear the claimants who appear and shall receive any evidence relevant to the inquiry. A stenographic transcript of the proceedings before such board or official and copies of all written evidence submitted shall be preserved. Following such inquiry, such board or official shall make a recommendation to the Requisitioning Authority as to the amount of compensation to be paid, and the Requisitioning Authority shall consider such recommendation, and thereafter may make or affirm, increase or decrease its preliminary determination.

(e) No payment shall be made to any claimant until he has presented such proof of his title as the Requisitioning Authority may require and the Requisitioning Authority has determined that compensation or any part thereof may be safely paid to him. If the Requisitioning Authority determines that compensation cannot safely be paid to any claimant, the Requisitioning Authority shall make an award of compensation and the amount of the award shall be set aside and retained, or the proper appropriation charged therefor, until the person or persons entitled to receive the same shall be established. If the Requisitioning Authority determines that compensation can safely be paid to any claimant, it shall make an award of compensation and shall pay to the person or persons entitled thereto the amount of such award or, if such person or persons are unwilling to accept such compensation, shall pay 50 per centum of such amount in accordance with the Act of October 10, 1940, as amended, or the Act of October 16, 1941, as amended, whichever shall be applicable.

(f) At any time after property has been requisitioned, the Requisitioning Authority may make a settlement with claimants as to the amount of compensation and the persons entitled thereto, provided that at the time of making any such settlement, the Requisitioning Authority shall make a determination that the amount of such settlement constitutes fair and just compensation for the property requisitioned.

(g) A Requisitioning Authority may exercise any power, duty or discretion vested in it under Executive Order 8942, Executive Order 9024, Executive Order 9040, Executive Order 9138 or this Regulation through such person or persons as it may designate.

(h) Any Requisitioning Authority, for the purpose of requiring and compelling a disclosure of information under section 4 of the Act of October 16, 1941, as amended, may administer oaths and affirmations, may require by subpoena or otherwise the attendance and testimony of witnesses and the production of any books or records or any other documentary or physical evidence which may be relevant to the inquiry. Such attendance and testimony of witnesses and the production of such books, records or other documentary or physical evidence may be required at any designated place from any State, Territory, or other place subject to the jurisdiction of the United States.

§ 902.2 *Provisions applicable to action initiated by the head of a Department or Agency other than the Chairman of the War Production Board.* (a) The Secretary of the Treasury, the Secretary of War, the Secretary of the Navy, the Secretary of Agriculture, the Chairman of the United States Maritime Commission, the Executive Director of the Board of Economic Warfare, or the head of such other agency as the President may from time to time designate shall, prior to requisitioning any property pursuant to the power granted by paragraph 4 of Executive Order 8942, as amended by Executive Order 9138, submit to the Chairman of the War Production Board a written statement (in such form as may be approved by the General Counsel of the War Production Board) setting forth in reasonable detail all pertinent facts with respect to the property which he proposes to requisition and the proposed disposal thereof, and certifying that he has made the determinations required under said paragraph 4.

(b) Upon the submission of any such proposal, the Chairman of the War Production Board shall determine whether such proposal is consistent with his priorities and allocations program and general production and supply plan. The Chairman of the War Production Board may consider and act upon the proposed requisitioning separately from the proposed disposal. The determination of the Chairman of the War Production Board shall be transmitted in writing to the Requisitioning Authority.

(c) If the proposed requisitioning is determined to be consistent with the priorities and allocations program and general production and supply plan of the Chairman of the War Production Board, the Requisitioning Authority may requisition the property in accordance with § 902.1 hereof. If the proposed disposal of such property has been determined to be consistent with the priorities and allocations program and general production and supply plan of the Chairman of the War Production Board, such property shall be disposed of in accordance with such proposal; but if the Requisitioning Authority desires otherwise to dispose of such property, it may submit a new proposal for such disposal to the Chairman of the War Production Board.

(d) In any case in which any Requisitioning Authority which has requisitioned property pursuant to paragraph 4 of Executive Order 8942, as amended by Executive Order 9138, determines that property requisitioned by it and retained is no longer needed for the defense of the United States and proposes to return it to the original owner thereof, it shall submit such proposal to the Chairman of the War Production Board, in the same manner as provided in § 902.1 hereof, for determination as to whether such proposal is consistent with the priorities and allocations program and general production and supply plan of the Chairman of the War Production Board. The determination of the Chairman of the War Production Board shall be transmitted in writing to the Requisitioning Authority.

(e) In any case in which property is requisitioned or disposed of, or a determination of compensation or of a person entitled thereto is made, or property is returned to the original owner thereof, in accordance with this section or § 902.4 hereof, the Requisitioning Authority shall report in reasonable detail concerning such requisitioning, determination and payment of compensation, disposal or return to the Chairman of the War Production Board within 15 days after the event.

§ 902.3 *Provisions applicable only to requisitioning by the Chairman of the War Production Board.* (a) The Chairman of the War Production Board shall keep a written record of each determination made by him, pursuant to the provisions of Executive Order 8942, as amended by Executive Order 9138, and the Acts, of the necessity for requisitioning property.

(b) Whenever the Chairman of the War Production Board determines to requisition property through another department or agency pursuant to paragraphs 2 and 3 of Executive Order 8942, as amended by Executive Order 9138, he shall notify such department or agency and request (in such form as may be approved by the General Counsel of the War Production Board) it to requisition and dispose of such property, and all action taken shall be in accordance with the determination of the Chairman of the War Production Board.

§ 902.4 *Matters pending under the Act of October 10, 1940.* This regulation shall apply only with respect to property requisitioned after December 8, 1941. If any property was requisitioned prior to December 8, 1941, under the Act of October 10, 1940, and such property has not heretofore been disposed of or the determination of the fair and just compensation therefore has not been made, such disposal or determination shall be made in accordance with said Act of October 10, 1940, and all Executive Orders and Regulations of the President thereunder in effect immediately prior to December 8, 1941.

PART 1281—RAYON STAPLE FIBER

[General Preference Order M–176]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of rayon fiber for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1281.1 *General Preference Order M–176*—(a) *Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(b) *Additional definitions.* For the purpose of this order:

(1) "Wool" shall mean the fiber from the fleece of the sheep or lamb, or the hair of the Angora or Cashmere goat or camel or the alpaca, llama, vicuna, and related fibers, including fine carpet wool and coarse carpet wool, but shall not include noils, waste, reprocessed or reused wool, or yarn or cloth.

[2] 6 F.R. 4587, 5255, 5995, 6736; 7 F.R. 1626, 3324, 3881, 5661.

[1] 7 F.R. 2454.

[2] 7 F.R. 5167, 5604.

(2) "Basic quarterly poundage" for any single system shall mean one half of the number of pounds of wool put into process on that system by a person or for his account during the period from December 29, 1940 to June 28, 1941, both inclusive, or for the period from January 1, 1941, to June 30, 1941, both inclusive, according to the method of keeping production records maintained by such persons during such period. Such poundage shall be determined as follows:

(i) On the worsted system or any other system using tops, the weight of tops put into process at 15 per cent moisture regain, 3¼ per cent of oil and natural fats.

(ii) On the woolen system, scoured wool at 12 per cent moisture.

(iii) On the felt or any other system, the weight of wool in the stage immediately preceding putting into process.

(c) *Viscose rayon staple fiber and acetate rayon staple fiber for use of persons putting wool into process.* (1) Each producer of viscose rayon staple fiber or acetate rayon staple fiber shall set aside each month such amount of his production thereof in excess of that necessary to fill rated orders as may be designated by the Director General for Operations for sale and delivery to or for the account of persons putting wool into process, or causing wool to be put into process by others for their account, on any system, as provided in subparagraph (2) of this paragraph.

(2) Each person putting wool owned by him into process, or causing such wool to be put into process by others for his account, shall be eligible to purchase each month, out of the viscose rayon staple fiber or acetate rayon staple fiber set aside by the producers thereof, pursuant to the terms of subparagraph (1) of this paragraph, an amount not to exceed such percentage of his basic quarterly poundage for that system as may from month to month be prescribed by the Director General for Operations; *Provided, however,* That amounts of such staple fiber so allocated on the basis of such percentages which are not covered by orders placed by persons entitled thereto within the time prescribed for placing orders in subparagraph (3) of this paragraph may be distributed by the Director General for Operations among such persons as have placed orders within such time and have indicated thereon a desire to receive additional amounts if made available.

(3) Each person eligible to purchase viscose rayon staple fiber or acetate rayon staple fiber set aside by the producers thereof, pursuant to the terms of subparagraph (1) of this paragraph, shall place his order with the producer thereof on or before the fifteenth day of the second month before the month in which delivery is to be made. Each producer receiving any such orders shall notify the War Production Board within one week after such day of the amount of staple fiber for which orders have been placed and the names of persons who have indicated a desire for additional amounts, together with the amounts so indicated.

(d) *Prohibitions against sales of rayon staple fiber in form received.* No person purchasing viscose rayon staple fiber or acetate rayon staple fiber pursuant to paragraph (c) hereof shall sell or deliver any such rayon staple fiber in the form in which received from the producer thereof to any person other than such producer.

(e) *Restriction on use of rayon staple fiber purchased under allocation.* No person purchasing viscose rayon staple fiber or acetate rayon staple fiber pursuant to paragraph (c) hereof, or from any person who has purchased the same pursuant thereto, shall use such staple fiber in the manufacture of floor coverings, or drapery or upholstery fabrics.

(f) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of rayon staple fiber conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the War Production Board by letter or telegraph, Reference M-176, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(g) *Violations.* Any person who wilfully violates any provision of this order, or who in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(h) *Communications to the War Production Board.* All communications concerning this order, or any reports that may hereafter be required to be filed, shall, unless otherwise directed, be addressed to: War Production Board, Textile Clothing and Leather Branch, Washington, D. C. Ref: M-176.

(i) This order shall take effect on August 3, 1942. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Chapter XI—Office of Price Administration

PART 1388—DEFENSE-RENTAL AREAS

[Maximum Rent Regulation 33]

HOUSING ACCOMMODATIONS OTHER THAN HOTELS AND ROOMING HOUSES IN A PORTION OF THE PETERSBURG DEFENSE-RENTAL AREA

In the judgment of the Administrator, rents for housing accommodations within that portion of the Petersburg Defense-Rental Area designated in the Designation and Rent Declaration issued by the Administrator on April 28, 1942 (consisting of the Independent City of Petersburg, and the Counties of Dinwiddie and Prince George, in the State of Virginia), have not been reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in said Designation and Rent Declaration.

The Administrator has ascertained and given due consideration to the rents prevailing for housing accommodations within the said portion of the Petersburg Defense-Rental Area on or about April 1, 1941. It is his judgment that defense activities had not resulted in increases in rents for such housing accommodations inconsistent with the purposes of the Emergency Price Control Act of 1942 prior to April 1, 1941, but did result in such increases commencing on or about that date. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this Maximum Rent Regulation for housing accommodations within the said portion of the Petersburg Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this Maximum Rent Regulation is hereby issued.

AUTHORITY: § 1388.2051 to § 1388.2064, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1388.2051 *Scope of regulation.* (a) This Maximum Rent Regulation No. 33 applies to all housing accommodations within that portion of the Petersburg Defense-Rental Area designated in the Designation and Rent Declaration (§§ 1388.1101 to 1388.1105, inclusive) issued by the Administrator on April 28, 1942 (consisting of the Independent City of Petersburg, and the Counties of Dinwiddie and Prince George, in the State of Virginia—hereinafter referred to in this Maximum Rent Regulation as the "Defense-Rental Area"), except as provided in paragraph (b) of this section.

(b) This Maximum Rent Regulation No. 33 does not apply to the following:

(1) Housing accommodations situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon;

(2) Dwelling space occupied by domestic servants, caretakers, managers, or other employees to whom the space is provided as part of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the dwelling space is a part;

(3) Rooms or other housing accommodations within hotels or rooming houses, or housing accommodations which have been, with the consent of the Administrator, brought under the control of the Maximum Rent Regulation for Hotels and Rooming Houses pursuant to the provisions of that Regulation: *Provided,* That this Maximum Rent Regulation No. 33 does apply to entire structures or premises though used as hotels or rooming houses.

(c) The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except insofar as those provisions are inconsistent with this Maximum Rent Regulation No. 33.

(d) An agreement by the tenant to waive the benefit of any provision of this Maximum Rent Regulation No. 33 is void. A tenant shall not be entitled by reason of this Maximum Rent Regulation to refuse to pay or to recover any portion of any rents due or paid for use or occupancy prior to the effective date of this Maximum Rent Regulation.

§ 1388.2052 *Prohibition against higher than maximum rents.* Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person shall demand or receive any rent for use or occupancy on and after the effective date of this Maximum Rent Regulation No. 33 of any housing accommodations within the Defense-Rental Area higher than the maximum rents provided by this Maximum Rent Regulation; and no person shall offer, solicit, attempt, or agree to do any of the foregoing. Lower rents than those provided by this Maximum Rent Regulation may be demanded or received.

§ 1388.2053 *Minimum services.* The maximum rents provided by this Maximum Rent Regulation No. 33 are for housing accommodations including, as a minimum, services of the same type, quantity, and quality as those provided on the date determining the maximum rent. If, on the effective date of this Maximum Rent Regulation, the services provided for housing accommodations are less than such minimum services the landlord shall either restore and maintain the minimum services or, within 30 days after such effective date, file a petition pursuant to § 1388.2055 (b) for approval of the decreased services. In all other cases, except as provided in § 1388.2055 (b), the landlord shall provide the minimum services unless and until an order is entered pursuant to that section approving a decrease of such services.

§ 1388.2054 *Maximum rents.* Maximum rents (unless and until changed by the Administrator as provided in § 1388.2055) shall be:

(a) For housing accommodations rented on April 1, 1941, the rent for such accommodations on that date.

(b) For housing accommodations not rented on April 1, 1941, but rented at any time during the two months ending on that date, the last rent for such accommodations during that two month period.

(c) For housing accommodations not rented on April 1, 1941 nor during the two months ending on that date, but rented prior to the effective date of this Maximum Rent Regulation, the first rent for such accommodations after April 1, 1941. The Administrator may order a decrease in the maximum rent as provided in § 1388.2055 (c).

(d) For (1) newly constructed housing accommodations without priority rating first rented after April 1, 1941 and before the effective date of this Maximum Rent Regulation No. 33, or (2) housing accommodations changed between those dates so as to result in an increase or decrease of the number of dwelling units in such housing accommodations, or (3) housing accommodations changed between those dates from unfurnished to fully furnished, or from fully furnished to unfurnished, or (4) housing accommodations substantially changed between those dates by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, the first rent for such accommodations after such construction or change: *Provided, however,* That, where such first rent was fixed by a lease which was in force at the time of a major capital improvement, the maximum rent shall be the first rent after termination of such lease. The Administrator may order a decrease in the maximum rent as provided in § 1388.2055 (c).

(e) For (1) newly constructed housing accommodations without priority rating first rented on or after the effective date of this Maximum Rent Regulation No. 33, or (2) housing accommodations changed on or after such effective date so as to result in an increase or decrease of the number of dwelling units in such housing accommodations, or (3) housing accommodations not rented at any time between February 1, 1941 and such effective date, the rent fixed by the Administrator. The landlord shall, prior to renting and in time to allow 15 days for action thereon, file a petition requesting the Administrator to enter an order fixing the maximum rent therefor. Such order shall be entered on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on April 1, 1941. In cases involving construction due consideration shall be given to increased costs of construction, if any, since April 1, 1941.

If no order is entered on such petition within 15 days after filing, the landlord may rent such accommodations and the first rent therefor shall be the maximum rent. Within 5 days after so renting, the landlord shall report the maximum rent. The Administrator may order a decrease

in such maximum rent as provided in § 1388.2055 (c).

(f) For housing accommodations constructed with priority rating from the United States or any agency thereof for which the rent has been heretofore or is hereafter approved by the United States or any agency thereof, the rent so approved but in no event more than the first rent for such accommodations.

(g) For housing accommodations constructed by the United States or any agency thereof, or by a State of the United States or any of its political subdivisions, or any agency of the State or any of its political subdivisions, and owned by any of the foregoing, the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on April 1, 1941, as determined by the owner of such accommodations; *Provided, however,* That any corporation formed under the laws of a State shall not be considered an agency of the United States within the meaning of this paragraph. The Administrator may order a decrease in the maximum rent as provided in § 1388.2055 (c).

§ 1388.2055 *Adjustments and other determinations.* In the circumstances enumerated in this section, the Administrator may issue an order changing the maximum rents otherwise allowable or the minimum services required. In those cases involving a major capital improvement, an increase or decrease in the furniture, furnishings or equipment, an increase or decrease of services, or a deterioration, the adjustment in the maximum rent shall be the amount the Administrator finds would have been on April 1, 1941 the difference in the rental value of the housing accommodations by reason of such change. In all other cases, except those under paragraphs (a) (7) and (c) (6) of this section, the adjustment shall be on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on April 1, 1941. In cases involving construction due consideration shall be given to increased costs of construction, if any, since April 1, 1941. In cases under paragraphs (a) (7) and (c) (6) of this section the adjustment shall be on the basis of the rents which the Administrator finds were generally prevailing in the Defense-Rental Area for comparable housing accommodations during the year ending on April 1, 1941.

(a) Any landlord may file a petition for adjustment to increase the maximum rent otherwise allowable, only on the grounds that:

(1) There has been on or after the effective date of this Maximum Rent Regulation No. 33 a substantial change in the housing accommodations by a major capital improvement as distinguished from ordinary repair, replacement and maintenance.

(2) There was, prior to April 1, 1941 and within the six months ending on that date, a substantial change in the housing accommodations by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, and the rent on April 1, 1941 was fixed by a lease which was in force at the time of such change.

(3) There has been a substantial increase in the services, furniture, furnishings or equipment provided with the housing accommodations since the date or order determining its maximum rent.

(4) The rent on the date determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant and as a result was substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on April 1, 1941.

(5) There was in force on April 1, 1941 a written lease, which had been in force for more than one year on that date, requiring a rent substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on April 1, 1941; or the housing accommodations were not rented on April 1, 1941, but were rented during the two months ending on that date, and the last rent for such accommodations during that two-month period was fixed by a written lease, which was in force more than one year prior to April 1, 1941, requiring a rent substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on April 1, 1941.

6) The rent on the date determining the maximum rent was established by a lease or other rental agreement which provided for a substantially higher rent at other periods during the term of such lease or agreement.

(7) The rent on the date determining the maximum rent was substantially lower than at other times of year by reason of seasonal demand for such housing accommodations. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(b) If, on the effective date of this Maximum Rent Regulation No. 33 the services provided for housing accommodations are less than those provided on the date determining the maximum rent, the landlord shall either restore the services to those provided on the date determining the maximum rent and maintain such services or, within 30 days after such effective date, file a petition requesting approval of the decreased services. Except as above provided, the landlord shall maintain the minimum services unless and until he has filed a petition to decrease services and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, he shall file a petition within five days after the change of services occurs. The order on any petition under this paragraph may require an appropriate adjustment in the maximum rent.

(c) The Administrator at any time, on his own initiative or on application of the tenant, may order a decrease of the maximum rent otherwise allowable, only on the grounds that;

(1) The maximum rent for housing accommodations under paragraphs (c), (d), or (g) of § 1388.2054 is higher than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on April 1, 1941; or the maximum rent for housing accommodations under paragraph (e) of § 1388.2054 for which the rent was not fixed by the Administrator is higher than such generally prevailing rent.

(2) There has been a substantial deterioration of the housing accommodations other than ordinary wear and tear since the date or order determining its maximum rent.

(3) There has been a substantial decrease in the services, furniture, furnishings or equipment provided with the housing accommodations since the date or order determining its maximum rent.

(4) The rent on the date determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant and as a result was substantially higher than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on April 1, 1941.

(5) The rent on the date determining the maximum rent was established by a lease or other rental agreement which provided for a substantially lower rent at other periods during the term of such lease or agreement.

(6) The rent on the date determining the maximum rent was substantially higher than at other times of year by reason of seasonal demand for such housing accommodations. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(d) If the rent on the date determining the maximum rent, or any other fact necessary to the determination of the maximum rent, is in dispute between the landlord and the tenant, or is in doubt, or is not known, the Administrator on petition of the landlord filed within 30 days after the effective date of this Maximum Rent Regulation No. 33, or at any time on his own initiative, may enter an order fixing the maximum rent by determining such fact; or if the Administrator is unable to ascertain such fact he shall enter the order on the basis of the rent which he finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on April 1, 1941.

(e) Where, at the expiration or other termination of an underlying lease or other rental agreement, housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons occupying under a rental agreement with the tenant, the landlord may rent the entire premises for use by similar occupancy for a rent not in excess of the aggregate maximum rents of the separate dwelling units, or may rent the separate dwelling units for rents not in excess of the maximum rents applicable to such units.

Where housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons occupying under a rental agreement with the tenant, the tenant may petition the Administrator for leave to exercise any right he would have except for this Maximum Rent Regulation No. 33 to sell his underlying lease or other rental agreement. The Administrator may grant such petition if he finds that the sale will not result, and that sales of such character would not be likely to result, in the circumvention or evasion of the Act or this Maximum Rent Regulation. He may require that the sale be made on such terms as he deems necessary to prevent such circumvention or evasion.

§ 1388.2056 *Restrictions on removal of tenant.* (a) So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant shall be removed from any housing accommodations, by action to evict or to recover possession, by exclusion from possession, or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated, unless:

(1) The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year but otherwise on the same terms and conditions as the previous lease or agreement except insofar as such terms and conditions are inconsistent with this Maximum Rent Regulation No. 33; or

(2) The tenant has unreasonably refused the landlord access to the housing accommodations for the purpose of inspection or of showing the accommodations to a prospective purchaser, mortgagee or prospective mortgagee, or other person having a legitimate interest therein: *Provided, however,* That such refusal shall not be ground for removal or eviction if such inspection or showing of the accommodations is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure, such violation after written notice by the landlord that the violation cease, or (ii) is committing or permitting a nuisance or is using or permitting a use of the housing accommodations for an immoral or illegal purpose; or

(4) The tenant's lease or other rental agreement has expired or otherwise terminated, and at the time of termination the housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons who occupied under a rental agreement with the tenant; or

(5) The landlord seeks in good faith to recover possession for the immediate purpose of demolishing the housing accommodations or of substantially altering or remodeling it in a manner which cannot practicably be done with the tenant in occupancy and the plans for such alteration or remodeling have been approved by the proper authorities, if such approval is required by local law; or

(6) The landlord seeks in good faith to recover possession of the housing accommodations for immediate use and occupancy as a dwelling by himself, his family or dependents; or he has in good faith contracted in writing to sell the accommodations for immediate use and occupancy by a purchaser, who in good faith has represented in writing that he will use the accommodations as a dwelling for himself, his family or dependents; or the landlord seeks in good faith not to offer the housing accommodations for rent. If a tenant has been removed or evicted under this paragraph (a) (6) from housing accommodations, such accommodations shall not be rented for a period of six months after such removal or eviction without permission of the Administrator. The landlord may petition the Administrator for permission to rent the accommodations during such six month period, and the Administrator shall grant such permission if he finds that the action was in good faith and not for the purpose of evading any provision of the Act or this Maximum Rent Regulation.

(b) No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the Act or this Maximum Rent Regulation No. 33 and would not be likely to result in the circumvention or evasion thereof.

(c) The provisions of this section do not apply to a subtenant or other person who occupied under a rental agreement with the tenant, where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant.

(d) At the time of commencing any action to remove or evict a tenant (except an action based on non-payment of a rent not in excess of the maximum rent) the landlord shall give written notice thereof to the Area Rent Office stating the title and number of the case, the court in which it is filed, the name and address of the tenant and the grounds on which eviction is sought.

(e) No provision of this section shall be construed to authorize the removal of a tenant unless such removal is authorized under the local law.

§ 1388.2057 *Registration.* Within 45 days after the effective date of this Maximum Rent Regulation No. 33, or within 30 days after the property is first rented, whichever date is the later, every landlord of housing accommodations rented or offered for rent shall file in triplicate a written statement on the form provided therefor to be known as a registration statement. The statement shall identify each dwelling unit and specify the maximum rent provided by this Maximum Rent Regulation for such dwelling unit and shall contain such other information as the Administrator shall require. The original shall remain on file with the Administrator and he shall cause one copy to be delivered to the tenant and one copy, stamped to indicate that it is a correct copy of the original, to be returned to the landlord. In any subsequent change of tenancy the landlord shall exhibit to the new tenant his stamped copy of the registration statement, and shall obtain the tenant's signature and the date thereof on the back of such statement. Within five days after renting to a new tenant, the landlord shall file a notice on the form provided therefor, on which he shall obtain the tenant's signature, stating that there has been a change in tenancy, that the stamped copy of the registration statement has been exhibited to the new tenant and that the rent for such accommodations is in conformity therewith.

No payment of rent need be made unless the landlord tenders a receipt for the amount to be paid.

When the maximum rent is changed by order of the Administrator the landlord shall deliver his stamped copy of the registration statement to the Area Rent Office for appropriate action reflecting such change.

§ 1388.2058 *Inspection.* Any person who rents or offers for rent or acts as a broker or agent for the rental of housing accommodations and any tenant shall permit such inspection of the accommodations by the Administrator as he may, from time to time, require.

§ 1388.2059 *Evasion.* The maximum rents, and other requirements provided in this Maximum Rent Regulation No. 33 shall not be evaded, either directly or indirectly, in connection with the renting or leasing or the transfer of a lease of housing accommodations, by way of absolute or conditional sale; sale with purchase money or other form of mortgage, or sale with option to repurchase, or by modification of the practices relating to payment of commissions or other charges, or by modification of the services furnished with housing accommodations, or otherwise.

§ 1388.2060 *Enforcement.* Persons violating any provision of this Maximum Rent Regulation are subject to criminal penalties, civil enforcement actions and suits for treble damages as provided for by the Act.

§ 1388.2061 *Procedure.* All registration statements, reports and notices provided for by this Maximum Rent Regulation shall be filed with the Area Rent Office. All landlord's petitions and tenant's applications shall be filed with such office in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

§ 1388.2062 *Petitions for amendment.* Persons seeking any amendment of general applicability to any provision of this Maximum Rent Regulation No. 33 may file petitions therefor in accordance with

Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

PART 1388—DEFENSE-RENTAL AREAS

[Maximum Rent Regulation 34A]

HOTELS AND ROOMING HOUSES IN A PORTION OF THE PETERSBURG DEFENSE-RENTAL AREA

In the judgment of the Administrator, rents for housing accommodations within that portion of the Petersburg Defense-Rental Area designated in the Designation and Rent Declaration issued by the Administrator on April 28, 1942 (consisting of the Independent City of Petersburg, and the Counties of Dinwiddie and Prince George, in the State of Virginia), have not been reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in said Designation and Rent Declaration.

The Administrator has ascertained and given due consideration to the rents prevailing for housing accommodations within the said portion of the Petersburg Defense-Rental Area on or about April 1, 1941. It is his judgment that defense activities had not resulted in increases in rents for such housing accommodations inconsistent with the purposes of the Emergency Price Control Act of 1942 prior to April 1, 1941, but did result in such increases commencing on or about that date. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this Maximum Rent Regulation No. 34A for housing accommodations within the said portion of the Petersburg Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this Maximum Rent Regulation is hereby issued.

AUTHORITY: §§ 1388.3001 to 1388.3014, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1388.3001 *Scope of regulation.* (a) This Maximum Rent Regulation No. 34A applies to all rooms in hotels and rooming houses within that portion of the Petersburg Defense-Rental Area designated in the Designation and Rent Declaration (§§ 1388.1101 to 1388.1105, inclusive) issued by the Administrator on April 28, 1942 (consisting of the Independent City of Petersburg, and the Counties of Dinwiddie and Prince George, in the State of Virginia—hereinafter referred to in this Maximum Rent Regulation as the "Defense-Rental Area"), except as provided in paragraph (b) of this section.

(b) This Maximum Rent Regulation does not apply to the following:

(1) Rooms situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon;

(2) Rooms occupied by domestic servants, caretakers, managers, or other employees to whom the rooms are provided as part of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the rooms are a part;

(3) Rooms in hospitals, or rooms of charitable or educational institutions used in carrying out their charitable or educational purposes;

(4) Entire structures or premises used as hotels or rooming houses, as distinguished from the rooms within such hotels or rooming houses.

(c) The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except insofar as those provisions are inconsistent with this Maximum Rent Regulation.

(d) An agreement by the tenant to waive the benefit of any provision of this Maximum Rent Regulation is void. A tenant shall not be entitled by reason of this Maximum Rent Regulation to refuse to pay or to recover any portion of any rents due or paid for use or occupancy prior to the effective date of this Maximum Rent Regulation.

(e) Where a building or establishment which does not come within the definitions of a hotel or rooming house contains one or more furnished rooms or other furnished housing accommodations rented on a daily, weekly or monthly basis, the landlord may, with the consent of the Administrator, elect to bring all housing accommodations within such building or establishment under the control of this Maximum Rent Regulation. A landlord who so elects shall file a registration statement under this Maximum Rent Regulation for all such housing accommodations, accompanied by a written request to the Administrator to consent to such election.

If the Administrator finds that the provisions of this Maximum Rent Regulation No. 34A establishing maximum rents are better adapted to the rental practices for such building or establishment than the provisions of the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses, he shall consent to the landlord's election. Upon such consent, all housing accommodations within such building or establishment which are or hereafter may be rented or offered for rent shall become subject to the provisions of this Maximum Rent Regulation, and shall be considered rooms within a rooming house for the purposes of the provisions relating to eviction.

The landlord may at any time, with the consent of the Administrator, revoke his election, and thereby bring under the control of the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses all housing accommodations previously brought under this Maximum Rent Regulation by such election. He shall make such revocation by filing a registration statement or statements under the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses, including in such registration statement or statements all housing accommodations brought under this Maximum Rent Regulation by such election. Such registration statement or statements shall be accompanied by a written request to the Administrator to consent to such revocation. The Administrator may defer action on such request if he has taken or is about to take action to decrease the maximum rents of any housing accommodations within such building or establishment. If the Administrator finds that the revocation so requested will not result in substantial increases in the maximum rents of housing accommodations affected by such revocation, he shall give such consent. Upon such consent, all housing accommodations affected by such revocation shall become subject to the provisions of the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses.

§ 1388.3002 *Prohibitions.* (a) Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person shall demand or receive any rent for use or occupancy on and after the effective date of this Maximum Rent Regulation of any room in a hotel or rooming house within the Defense-Rental Area higher than the maximum rents provided by this Maximum Rent Regulation No. 34A; and no person shall offer, solicit, attempt, or agree to do any of the foregoing. Lower rents than those provided by this Maximum Rent Regulation may be demanded or received.

(b) No tenant shall be required to change his term of occupancy if that will result in the payment of a higher amount per day than the maximum rent established for his present term of occupancy. Where, on June 15, 1942, or between that date and the effective date of this Maximum Rent Regulation, a room was regularly rented or offered for rent for a weekly or monthly term of occupancy, the landlord shall continue to offer the room for rent for that term of occupancy, unless he offers another term of occupancy for a rent which results in the payment of an amount no higher per day.

§ 1388.3003 *Minimum services.* The maximum rents provided by this Maximum Rent Regulation No. 34A are for rooms including, as a minimum, services of the same type, quantity, and quality as those provided on the date or during the thirty-day period determining the maximum rent. If, on the effective date of this Maximum Rent Regulation, the services provided for rooms are less than such minimum services, the landlord shall either restore and maintain the minimum services, or within 30 days after such effective date, file a petition pursuant to § 1388.3005 (b) for approval of the decreased services. In all other cases, except as provided in § 1388.3005 (b), the landlord shall provide the minimum services unless and until an order is entered pursuant to that section approving a decrease of such services.

§ 1388.3004 *Maximum rents.* This section establishes separate maximum rents for different terms of occupancy (daily, weekly or monthly) and numbers of occupants of a particular room. Maximum rents for rooms in a hotel or rooming house (unless and until changed by the Administrator as provided in § 1388.3005) shall be:

(a) For a room rented or regularly offered for rent during the thirty days ending on April 1, 1941, the highest rent for each term or number of occupants for which the room was rented during that thirty-day period; or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(b) For a room neither rented nor regularly offered for rent during the thirty days ending on April 1, 1941, the highest rent for each term or number of occupants for which the room was rented during the thirty days commencing when it was first offered for rent after April 1, 1941; or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(c) For a room rented for a particular term or number of occupants for which no maximum rent is established under paragraphs (a) or (b) of this section, the first rent for the room after April 1, 1941, for that term and number of occupants, but not more than the maximum rent for similar rooms for the same term and number of occupants in the same hotel or rooming house.

(d) For a room constructed by the United States or any agency thereof, or by a State of the United States or any of its political subdivisions, or any agency of the State or any of its political subdivisions, and owned by any of the foregoing, the rent generally prevailing in the Defense-Rental Area for comparable rooms on April 1, 1941, as determined by the owner of such room: *Provided, however,* That any corporation formed under the laws of a State shall not be considered an agency of the United States within the meaning of this paragraph. The Administrator may order a decrease in the maximum rent as provided in § 1388.3005 (c) (1).

(e) For a room with which meals were provided during the thirty-day period determining the maximum rent without separate charge therefor, the rent apportioned by the landlord from the total charge for the room and meals. The landlord's apportionment shall be fair and reasonable and shall be reported in the registration statement for such room. The Administrator at any time on his own initiative or on application of the tenant may by order decrease the maximum rent established by such apportionment if he finds that the apportionment was unfair or unreasonable.

Every landlord who provides meals with accommodations shall make separate charges for the two. No landlord shall require the taking of meals as a condition of renting any room unless the room was rented or offered for rent on that basis on June 15, 1942.

§ 1388.3005 *Adjustments and other determinations.* In the circumstances enumerated in this section, the Administrator may issue an order changing the maximum rents otherwise allowable or the minimum services required. Except in cases under paragraphs (a) (7) and (c) (4) of this section, every adjustment of a maximum rent shall be on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable rooms on April 1, 1941: *Provided, however,* That no maximum rent shall be increased, because of a major capital improvement or an increase in services, furniture, furnishings or equipment, by more than the amount which the Administrator finds would have been on April 1, 1941 the difference in the rental value of the accommodations by reason of such improvement or increase. In cases involving construction due consideration shall be given to increased costs of construction, if any, since April 1, 1941. In cases under paragraphs (a) (7) and (c) (4) of this section the adjustment shall be on the basis of the rents which the Administrator finds were generally prevailing in the Defense-Rental Area for comparable rooms during the year ending on April 1, 1941.

(a) Any landlord may file a petition for adjustment to increase the maximum rent otherwise allowable, only on the grounds that:

(1) There has been, since the thirty-day period or the order determining the maximum rent for the room, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement and maintenance.

(2) There was, on or prior to April 1, 1941 and within the six months ending on that date, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, and the rent during the thirty-day period ending on April 1, 1941 was fixed by a lease which was in force at the time of such change.

(3) There has been a substantial increase in the services, furniture, furnishings or equipment provided with the room since the thirty-day period or the order determining its maximum rent.

(4) The rent during the thirty-day period determining the maximum rent was materially affected by the blood, personal or other special relationship between landlord and the tenant, or by an allowance or discount to a tenant of a class of persons to whom the landlord regularly offered such an allowance or discount, and as a result was substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable rooms on April 1, 1941.

(5) There was in force on April 1, 1941 a written lease, which had been in force for more than one year on that date, requiring a rent substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable rooms on April 1, 1941.

(6) The rent during the thirty-day period determining the maximum rent was established by a lease or other rental agreement which provided for a substantially higher rent at other periods during the term of such lease or agreement.

(7) The rent during the thirty-day period determining the maximum rent for the room was substantially lower than at other times of the year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different rents for different periods of the calendar year.

(b) If, on the effective date of this Maximum Rent Regulation No. 34A, the services provided for a room are less than those provided on the date or during the thirty-day period determining the maximum rent, the landlord shall either restore the services to those provided on the date or during the thirty-day period determining the maximum rent and maintain such services or, within 30 days after such effective date, file a petition requesting approval of the decreased services. Except as above provided, the landlord shall maintain the minimum services unless and until he has filed a petition to decrease services and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, he shall file a petition within five days after the change of services occurs. The order on any petition under this paragraph may require an appropriate adjustment in the maximum rent.

(c) The Administrator at any time, on his own initiative or on application of the tenant, may order a decrease of the maximum rent otherwise allowable, only on the grounds that:

(1) The maximum rent for the room is higher than the rent generally prevailing in the Defense-Rental Area for comparable rooms on April 1, 1941.

(2) There has been a substantial deterioration of the room other than ordinary wear and tear since the date or order determining its maximum rent.

(3) There has been a substantial decrease in the services, furniture, furnishings or equipment provided with the room since the date or order determining its maximum rent.

(4) The rent on the date determining the maximum rent for the room was substantially higher than at other times of the year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(d) If the rent on the date determining the maximum rent, or any other fact necessary to the determination of the maximum rent, is in dispute between the landlord and the tenant, or is in doubt, or is not known, the Administrator on petition of the landlord filed within 30 days after the effective date of this Maximum Rent Regulation, or at any time on his own initiative, may enter an order fixing the maximum rent by determining such fact; or if the Administrator is unable to ascertain such fact he shall enter the order on the basis of the rent which he finds was generally prevailing in the Defense-Rental Area for comparable rooms on April 1, 1941.

§ 1388.3006 *Restrictions on removal of tenant.* (a) So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant of a room within a hotel or rooming house shall be removed from such room, by action to evict or to recover possession, by exclusion from possession or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated, unless:

(1) The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year but otherwise on the same terms and conditions as the previous lease or agreement except insofar as such terms and conditions are inconsistent with this Maximum Rent Regulation No. 34A; or

(2) The tenant has unreasonably refused the landlord access to the room for the purpose of inspection or of showing the room to a prospective purchaser, mortgagee or prospective mortgagee, or other person having a legitimate interest therein: *Provided, however,* That such refusal shall not be ground for removal or eviction if such inspection or showing of the room is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure, such violation after written notice by the landlord that the violation cease, or (ii) is committing or permitting a nuisance or is using or permitting a use of the room for an immoral or illegal purpose; or

(4) The landlord seeks in good faith to recover possession for the immediate purpose of demolishing the room or of substantially altering or remodeling it in a manner which cannot practicably be done with the tenant in occupancy and the plans for such alteration or remodeling have been approved by the proper authorities, if such approval is required by local law; or

(5) The landlord seeks in good faith not to offer the room for rent. If a tenant has been removed or evicted from a a room under this paragraph (a) (5), such room shall not be rented for a period of six months after such removal or eviction without permission of the Administrator. The landlord may petition the Administrator for permission to rent the room during such six month period, and the Administrator shall grant such permission if he finds that the action was in good faith and not for the purpose of evading any provision of the Act or this Maximum Rent Regulation.

(b) No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the Act or this Maximum Rent Regulation and would not be likely to result in the circumvention or evasion thereof.

(c) At the time of commencing any action to remove or evict a tenant (except an action based on non-payment of a rent not in excess of the maximum rent) the landlord shall give written notice thereof to the Area Rent Office stating the title and number of the case, the court in which it is filed, the name and address of the tenant and the grounds on which eviction is sought.

(d) The provisions of this section do not apply to:

(1) A subtenant or other person who occupied under a rental agreement with the tenant, where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant; or

(2) A tenant occupying a room within a hotel on a daily or weekly basis; or a tenant occupying on a daily basis a room within a rooming house which has heretofore usually been rented on a daily basis.

No provision of this section shall be construed to authorize the removal of a tenant unless such removal is authorized under the local law.

§ 1388.3007 *Registration.* (a) Within 45 days after the effective date of this Maximum Rent Regulation, every landlord of a room rented or offered for rent shall file a written statement on the form provided therefor, containing such information as the Administrator shall require, to be known as a registration statement. Any maximum rent established after the effective date of this Maximum Rent Regulation under paragraphs (b) or (c) of § 1388.3004 shall be reported either on the first registration statement or on a statement filed within 5 days after such rent is established.

(b) Every landlord shall conspicuously display in each room rented or offered for rent a card or sign plainly stating the maximum rent or rents for all terms of occupancy and for all numbers of occupants for which the room is rented or offered for rent. Where the taking of meals by the tenant or prospective tenant is a condition of renting such room, the card or sign shall so state. Should the maximum rent or rents for the room be changed by order of the Administrator, the landlord shall alter the card or sign so that it states the changed rent or rents.

(c) No payment of rent need be made unless the landlord tenders a receipt for the amount to be paid.

§ 1388.3008 *Inspection.* Any person who rents or offers for rent or acts as a broker or agent for the rental of a room and any tenant shall permit such inspection of the room by the Administrator as he may, from time to time, require.

§ 1388.3009 *Evasion.* The maximum rents and other requirements provided in this Maximum Rent Regulation No. 34A shall not be evaded, either directly or indirectly, in connection with the renting or leasing or the transfer of a lease of a room, by requiring the tenant to pay or obligate himself for membership or other fees, or by modification of the practices relating to payment of commissions or other charges, or by modification of the services furnished with the room, or otherwise.

§ 1388.3010 *Enforcement.* Persons violating any provision of this Maximum Rent Regulation No. 34A are subject to criminal penalties, civil enforcement actions and suits for treble damages as provided for by the Act.

§ 1388.3011 *Procedure.* All registration statements, reports and notices provided for by this Maximum Rent Regulation shall be filed with the Area Rent Office. All landlord's petitions and tenant's applications shall be filed with such office in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

PART 1388—DEFENSE-RENTAL AREAS

[Maximum Rent Regulation 35]

HOUSING ACCOMMODATIONS OTHER THAN HOTELS AND ROOMING HOUSES

In the judgment of the Administrator, rents for housing accommodations within each of the Defense-Rental Areas set out in § 1388.3051 (a) of this Maximum Rent Regulation, as designated in the Designation and Rent Declaration issued by the Administrator on April 28, 1942, have not been reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in said Designation and Rent Declaration.

It is the judgment of the Administrator that by April 1, 1941, defense activities had not yet resulted in increases in rents for housing accommodations within the said Defense-Rental Areas inconsistent with the purposes of the Emergency Price Control Act of 1942. The Administrator has therefore ascertained and given due consideration to the rents prevailing for housing accommodations within each such Defense-Rental Area on or about March 1, 1942. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this Maximum Rent Regulation for housing accommodations within each such Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this Maximum Rent Regulation is hereby issued.

AUTHORITY: §§ 1388.3051 to 1388.3064, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1388.3051 *Scope of regulation.* (a) This Maximum Rent Regulation No. 35 applies to all housing accommodations within each of the following Defense-Rental Areas (each of which is referred to hereinafter in this Maximum Rent Regulation as the "Defense-Rental Area"), as designated in the Designation and Rent Declaration (§§ 1388.1201 to 1388.1205, inclusive) issued by the Administrator on April 28, 1942, except as provided in paragraph (b) of this section:

(1) The Little Rock Defense-Rental Area, consisting of the Counties of Lonoke and Pulaski, in the State of Arkansas.

(2) The Pine Bluff Defense-Rental Area, consisting of the County of Jefferson, in the State of Arkansas.

(3) The Denver Defense-Rental Area, consisting of the Counties of Adams, Arapahoe, Denver, and Jefferson, in the State of Colorado.

(4) The Key West Defense-Rental Area, consisting of the County of Monroe, in the State of Florida.

(7) The Portland Defense-Rental Area, consisting of the Counties of Androscoggin and Cumberland, in the State of Maine.

(8) The Grand Island Defense-Rental Area, consisting of the County of Hall in the State of Nebraska.

(9) The Wahoo-Fremont Defense-Rental Area, consisting of the Counties of Dodge and Saunders, in the State of Nebraska.

(10) The Corpus Christi Defense-Rental Area, consisting of the Counties of Nueces and San Patricio, in the State of Texas.

(11) The Waco Defense-Rental Area, consisting of the County of McLennan, in the State of Texas.

(12) The Provo, Utah Defense-Rental Area, consisting of the County of Utah, in the State of Utah.

(14) The Milwaukee Defense-Rental Area, consisting of the Counties of Kenosha, Milwaukee, Racine, and Waukesha, in the State of Wisconsin.

(b) This Maximum Rent Regulation No. 35 does not apply to the following:

(1) Housing accommodations situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon;

(2) Dwelling space occupied by domestic servants, caretakers, managers, or other employees to whom the space is provided as part of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the dwelling space is a part;

(3) Rooms or other housing accommodations within hotels or rooming houses, or housing accommodations which have been, with the consent of the Administrator, brought under the control of the Maximum Rent Regulation for Hotels and Rooming Houses pursuant to the provisions of that Regulation; *Provided*, That this Maximum Rent Regulation No. 35 does apply to entire structures or premises though used as hotels or rooming houses.

(c) The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except insofar as those provisions are inconsistent with this Maximum Rent Regulation No. 35.

(d) An agreement by the tenant to waive the benefit of any provision of this Maximum Rent Regulation No. 35 is void. A tenant shall not be entitled by reason of this Maximum Rent Regulation to refuse to pay or to recover any portion of any rents due or paid for use or occupancy prior to the effective date of this Maximum Rent Regulation.

§ 1388.3052 *Prohibition against higher than maximum rents.* Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person shall demand or receive any rent for use or occupancy on and after the effective date of this Maximum Rent Regulation No. 35 of any housing accommodations within the Defense-Rental Area higher than the maximum rents provided by this Maximum Rent Regulation; and no person shall offer, solicit, attempt, or agree to do any of the foregoing. Lower rents than those provided by this Maximum Rent Regulation may be demanded or received.

§ 1388.3053 *Minimum services.* The maximum rents provided by this Maximum Rent Regulation No. 35 are for housing accommodations including, as a minimum, services of the same type, quantity, and quality as those provided on the date determining the maximum rent. If, on the effective date of this Maximum Rent Regulation, the services provided for housing accommodations are less than such minimum services the landlord shall either restore and maintain the minimum services or, within 30 days after such effective date, file a petition pursuant to § 1388.3055 (b) for approval of the decreased services. In all other cases, except as provided in § 1388.3055 (b), the landlord shall provide the minimum services unless and until an order is entered pursuant to that section approving a decrease of such services.

§ 1388.3054 *Maximum rents.* Maximum rents (unless and until changed by the Administrator as provided in § 1388.3055) shall be:

(a) For housing accommodations rented on March 1, 1942, the rent for such accommodations on that date.

(b) For housing accommodations not rented on March 1, 1942, but rented at any time during the two months ending on that date, the last rent for such accommodations during that two month period.

(c) For housing accommodations not rented on March 1, 1942, nor during the two months ending on that date, but rented prior to the effective date of this Maximum Rent Regulation No. 35, the first rent for such accommodations after March 1, 1942. The Administrator may order a decrease in the maximum rent as provided in § 1388.3055 (c).

(d) For (1) newly constructed housing accommodations without priority rating first rented after March 1, 1942 and before the effective date of this Maximum Rent Regulation No. 35, or (2) housing accommodations changed between those dates so as to result in an increase or decrease of the number of dwelling units in such housing accommodations, or (3) housing accommodations changed betwen those dates from unfurnished to fully furnished, or from fully furnished to unfurnished, or (4) housing accommodations substantially changed between those dates by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, the first rent for such accommodations after such construction or change: *Provided, however*, That where such first rent was fixed by a lease which was in force at the time of a major capital improvement, the maximum rent shall be the first rent after termination of such lease. The Administrator may order a decrease in the maximum rent as provided in § 1388.3055 (c).

(e) For (1) newly constructed housing accommodations without priority rating first rented on or after the effective date of this Maximum Rent Regulation No. 35, or (2) housing accommodations changed on or after such effective date so as to result in an increase or decrease of the number of dwelling units in such housing accommodations, or (3) housing accommodations not rented at any time between January 1, 1942 and such effective date, the rent fixed by the Administrator. The landlord shall, prior to renting and in time to allow 15 days for action thereon, file a petition requesting the Administrator to enter an order fixing the maximum rent therefor. Such order shall be entered on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1942. In cases involving construction due consideration shall be given to increased costs of construction, if any, since March 1, 1942.

If no order is entered on such petition within 15 days after filing, the landlord may rent such accommodations and the first rent therefor shall be the maximum rent. Within 5 days after so renting, the landlord shall report the maximum rent. The Administrator may order a decrease in such maximum rent as provided in § 1388.3055 (c).

(f) For housing accommodations constructed with priority rating from the United States or any agency thereof for which the rent has been heretofore or is hereafter approved by the United States or any agency thereof, the rent so approved, but in no event more than the rent on March 1, 1942 or, if the accommodations were not rented on that date, more than the first rent after that date.

(g) For housing accommodations constructed by the United States or any agency thereof, or by a State of the United States or any of its political subdivisions, or any agency of the State or any of its political subdivisions, and owned by any of the foregoing, the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1942, as determined by the owner of such accommodations: *Provided, however*, That any corporation formed under the laws of a State shall not be considered an agency of the United States within

the meaning of this paragraph. The Administrator may order a decrease in the maximum rent as provided in § 1388.3055 (c).

§ 1388.3055 *Adjustments and other determinations.* In the circumstances enumerated in this section, the Administrator may issue an order changing the maximum rents otherwise allowable or the minimum services required. In those cases involving a major capital improvement, an increase or decrease in the furniture, furnishings or equipment, an increase or decrease of services, or a deterioration, the adjustment in the maximum rent shall be the amount the Administrator finds would have been on March 1, 1942, the difference in the rental value of the housing accommodations by reason of such change. In all other cases, except those under paragraphs (a) (7) and (c) (6) of this section, the adjustment shall be on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1942. In cases involving construction due consideration shall be given to increased costs of construction, if any, since March 1, 1942. In cases under paragraphs (a) (7) and (c) (6) of this section the adjustment shall be on the basis of the rents which the Administrator finds were generally prevailing in the Defense-Rental Area for comparable housing accommodations during the year ending on March 1, 1942.

(a) Any landlord may file a petition for adjustment to increase the maximum rent otherwise allowable, only on the grounds that:

(1) There has been on or after the effective date of this Maximum Rent Regulation No. 35 a substantial change in the housing accommodations by a major capital improvement as distinguished from ordinary repair, replacement and maintenance.

(2) There was, prior to March 1, 1942, and within the six months ending on that date, a substantial change in the housing accommodations by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, and the rent on March 1, 1942, was fixed by a lease which was in force at the time of such change.

(3) There has been a substantial increase in the services, furniture, furnishings or equipment provided with the housing accommodations since the date or order determining its maximum rent.

(4) The rent on the date determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant and as a result was substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1942.

(5) There was in force on March 1, 1942, a written lease, which had been in force for more than one year on that date, requiring a rent substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1942; or the housing accommodations were not rented on March 1, 1942, but were rented during the two months ending on that date, and the last rent for such accommodations during that two-month period was fixed by a written lease, which was in force more than one year prior to March 1, 1942, requiring a rent substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1942.

(6) The rent on the date determining the maximum rent was established by a lease or other rental agreement which provided for a substantially higher rent at other periods during the term of such lease or agreement.

(7) The rent on the date determining the maximum rent was substantially lower than at other times of year by reason of seasonal demand for such housing accommodations. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(b) If, on the effective date of this Maximum Rent Regulation No. 35 the services provided for housing accommodations are less than those provided on the date determining the maximum rent, the landlord shall either restore the services to those provided on the date determining the maximum rent and maintain such services or, within 30 days after such effective date, file a petition requesting approval of the decreased services. Except as above provided, the landlord shall maintain the minimum services unless and until he has filed a petition to decrease services and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, he shall file a petition within five days after the change of services occurs. The order on any petition under this paragraph may require an appropriate adjustment in the maximum rent.

(c) The Administrator at any time, on his own initiative or on application of the tenant, may order a decrease of the maximum rent otherwise allowable, only on the grounds that;

(1) The maximum rent for housing accommodations under paragraph (c), (d), or (g) of § 1388.3054 is higher than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1942; or the maximum rent for housing accommodations under paragraph (e) of § 1388.3054 for which the rent was not fixed by the Administrator is higher than such generally prevailing rent.

(2) There has been a substantial deterioration of the housing accommodations other than ordinary wear and tear since the date or order determining its maximum rent.

(3) There has been a substantial decrease in the services, furniture, furnishings or equipment provided with the housing accommodations since the date or order determining its maximum rent.

(4) The rent on the date determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant and as a result was substantially higher than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1942.

(5) The rent on the date determining the maximum rent was established by a lease or other rental agreement which provided for a substantially lower rent at other periods during the term of such lease or agreement.

(6) The rent on the date determining the maximum rent was substantially higher than at other times of year by reason of seasonal demand for such housing accommodations. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(d) If the rent on the date determining the maximum rent, or any other fact necessary to the determination of the maximum rent, is in dispute between the landlord and the tenant, or is in doubt, or is not known, the Administrator on petition of the landlord filed within 30 days after the effective date of this Maximum Rent Regulation No. 35, or at any time on his own initiative, may enter an order fixing the maximum rent by determining such fact; or if the Administrator is unable to ascertain such fact he shall enter the order on the basis of the rent which he finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on March 1, 1942.

(e) Where, at the expiration or other termination of an underlying lease or other rental agreement, housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons occupying under a rental agreement with the tenant, the landlord may rent the entire premises for use by similar occupancy for a rent not in excess of the aggregate maximum rents of the separate dwelling units, or may rent the separate dwelling units for rents not in excess of the maximum rents applicable to such units.

Where housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons occupying under a rental agreement with the tenant, the tenant may petition the Administrator for leave to exercise any right he would have except for this Maximum Rent Regulation No. 35 to sell his underlying lease or other rental agreement. The Administrator may grant such petition if he finds that the sale will not result, and that sales of such character would not be likely to result, in the circumvention or evasion of the Act or this Maximum Rent Regulation. He may require that the sale be made on such terms as he deems necessary to prevent such circumvention or evasion.

§ 1388.3056 *Restrictions on removal of tenant.* (a) So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant shall be removed from any housing accommodations, by action to evict or to recover possession, by exclusion from possession, or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or

other rental agreement has expired or otherwise terminated, unless:

(1) The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year but otherwise on the same terms and conditions as the previous lease or agreement except insofar as such terms and conditions are inconsistent with this Maximum Rent Regulation No. 35; or

(2) The tenant has unreasonably refused the landlord access to the housing accommodations for the purpose of inspection or of showing the accommodations to a prospective purchaser mortgagee or prospective mortgagee, or other person having a legitimate interest therein: *Provided, however,* That such refusal shall not be ground for removal or eviction if such inspection or showing of the accommodations is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure, such violation after written notice by the landlord that the violation cease, or (ii) is committing or permitting a nuisance or is using or permitting a use of the housing accommodations for an immoral or illegal purpose; or

(4) The tenant's lease or other rental agreement has expired or otherwise terminated, and at the time of termination the housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons who occupied under a rental agreement with the tenant; or

(5) The landlord seeks in good faith to recover possession for the immediate purpose of demolishing the housing accommodations or of substantially altering or remodeling it in a manner which cannot practicably be done with the tenant in occupancy and the plans for such alteration or remodeling have been approved by the proper authorities, if such approval is required by local law; or

(6) The landlord seeks in good faith to recover possession of the housing accommodations for immediate use and occupancy as a dwelling by himself, his family or dependents; or he has in good faith contracted in writing to sell the accommodations for immediate use and occupancy by a purchaser, who in good faith has represented in writing that he will use the accommodations as a dwelling for himself, his family or dependents; or the landlord seeks in good faith not to offer the housing accommodations for rent. If a tenant has been removed or evicted under this paragraph (a) (6) from housing accommodations, such accommodations shall not be rented for a period of six months after such removal or eviction without permission of the Administrator. The landlord may petition the Administrator for permission to rent the accommodations during such six month period, and the Administrator shall grant such permission if he finds that the action was in good faith and not for the purpose of evading any provision of the Act or this Maximum Rent Regulation No. 35.

(b) No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the Act or this Maximum Rent Regulation and would not be likely to result in the circumvention or evasion thereof.

(c) The provisions of this section do not apply to a subtenant or other person who occupied under a rental agreement with the tenant, where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant.

(d) At the time of commencing any action to remove or evict a tenant (except an action based on non-payment of a rent not in excess of the maximum rent) the landlord shall give written notice thereof to the Area Rent Office stating the title and number of the case, the court in which it is filed, the name and address of the tenant and the grounds on which eviction is sought.

(e) No provision of this section shall be construed to authorize the removal of a tenant unless such removal is authorized under the local law.

§ 1388.3057 *Registration.* Within 45 days after the effective date of this Maximum Rent Regulation No. 35, or within 30 days after the property is first rented, whichever date is the later, every landlord of housing accommodations rented or offered for rent shall file in triplicate a written statement on the form provided therefor to be known as a registration statement. The statement shall identify each dwelling unit and specify the maximum rent provided by this Maximum Rent Regulation for such dwelling unit and shall contain such other information as the Administrator shall require. The original shall remain on file with the Administrator and he shall cause one copy to be delivered to the tenant and one copy, stamped to indicate that it is a correct copy of the original, to be returned to the landlord. In any subsequent change of tenancy the landlord shall exhibit to the new tenant his stamped copy of the registration statement, and shall obtain the tenant's signature and the date thereof on the back of such statement. Within five days after renting to a new tenant, the landlord shall file a notice on the form provided therefor, on which he shall obtain the tenant's signature, stating that there has been a change in tenancy, that the stamped copy of the registration statement has been exhibited to the new tenant and that the rent for such accommodations is in conformity therewith.

No payment of rent need be made unless the landlord tenders a receipt for the amount to be paid.

When the maximum rent is changed by order of the Administrator the landlord shall deliver his stamped copy of the registration statement to the Area Rent Office for appropriate action reflecting such change.

§ 1388.3058 *Inspection.* Any person who rents or offers for rent or acts as a broker or agent for the rental of housing accommodations and any tenant shall permit such inspection of the accommodations by the Administrator as he may, from time to time, require.

§ 1388.3059 *Evasion.* The maximum rents and other requirements provided in this Maximum Rent Regulation shall not be evaded, either directly or indirectly, in connection with the renting or leasing or the transfer of a lease of housing accommodations, by way of absolute or conditional sale, sale with purchase money or other form of mortgage, or sale with option to repurchase, or by modification of the practices relating to payment of commissions or other charges, or by modification of the services furnished with housing accommodations, or otherwise.

§ 1388.3060 *Enforcement.* Persons violating any provision of this Maximum Rent Regulation are subject to criminal penalties, civil enforcement actions and suits for treble damages as provided for by the Act.

§ 1388.3061 *Procedure.* All registration statements, reports and notices provided for by this Maximum Rent Regulation shall be filed with the Area Rent Office. All landlord's petitions and tenant's applications shall be filed with such office in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

§ 1388.3062 *Petitions for amendment.* Persons seeking any amendment of general applicability to any provision of this Maximum Rent Regulation may file petitions therefor in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

PART 1388—DEFENSE-RENTAL AREAS

[Maximum Rent Regulation 36A]

HOTELS AND ROOMING HOUSES

In the judgment of the Administrator, rents for housing accommodations within each of the Defense-Rental Areas set out in § 1388.4001 (a) of this Maximum Rent Regulation, as designated in the Designation and Rent Declaration issued by the Administrator on April 28, 1942, have not been reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in said Designation and Rent Declaration.

It is the judgment of the Administrator that by April 1, 1941, defense activities had not yet resulted in increases in rents for housing accommodations within the said Defense-Rental Areas inconsistent with the purposes of the Emergency Price Control Act of 1942. The Administrator has therefore ascertained and given due consideration to the rents prevailing for housing accommodations within each such Defense-Rental Area on or about March 1, 1942. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this Maximum Rent Regulation for rooms in hotels and rooming houses within each such Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this Maximum Rent Regulation is hereby issued.

AUTHORITY: §§ 1388.4001 to 1388.4014, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1388.4001 *Scope of regulation.* (a) This Maximum Rent Regulation No. 36A applies to all rooms in hotels and rooming houses within each of the following Defense-Rental Areas (each of which is referred to hereinafter in this Maximum Rent Regulation as the "Defense-Rental Area"), as designated in the Designation and Rent Declaration (§§ 1388.1201 to 1388.1205, inclusive) issued by the Administrator on April 28, 1942, except as provided in paragraph (b) of this section:

(1) The Little Rock Defense-Rental Area, consisting of the Counties of Lonoke and Pulaski, in the State of Arkansas.

(6) The Springfield-Decatur Defense-Rental Area, consisting of the Counties of Christian, Logan, Macon, and Sangamon, in the State of Illinois.

(7) The Portland Defense-Rental Area, consisting of the Counties of Androscoggin and Cumberland, in the State of Maine.

(9) The Wahoo-Fremont Defense-Rental Area, consisting of the Counties of Dodge and Saunders, in the State of Nebraska.

(10) The Corpus Christi Defense-Rental Area, consisting of the Counties of Nueces and San Patricio, in the State of Texas.

(11) The Waco Defense-Rental Area, consisting of the County of McLennan, in the State of Texas.

(12) The Provo, Utah Defense-Rental Area, consisting of the County of Utah, in the State of Utah.

(13) The Salt Lake City-Ogden Defense-Rental Area, consisting of the Counties of Salt Lake, Davis, Morgan, and Weber, in the State of Utah.

(14) The Milwaukee Defense-Rental Area, consisting of the Counties of Kenosha, Milwaukee, Racine, and Waukesha, in the State of Wisconsin.

(b) This Maximum Rent Regulation No. 36A does not apply to the following:

(1) Rooms situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon;

(2) Rooms occupied by domestic servants, caretakers, managers, or other employees to whom the rooms are provided as part of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the rooms are a part;

(3) Rooms in hospitals, or rooms of charitable or educational institutions used in carrying out their charitable or educational purposes;

(4) Entire structures or premises used as hotels or rooming houses, as distinguished from the rooms within such hotels or rooming houses.

(c) The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except insofar as those provisions are inconsistent with this Maximum Rent Regulation No. 36A.

(d) An agreement by the tenant to waive the benefit of any provision of this Maximum Rent Regulation No. 36A is void. A tenant shall not be entitled by reason of this Maximum Rent Regulation to refuse to pay or to recover any portion of any rents due or paid for use or occupancy prior to the effective date of this Maximum Rent Regulation.

(e) Where a building or establishment which does not come within the defini-

tions of a hotel or rooming house contains one or more furnished rooms or other furnished housing accommodations rented on a daily, weekly or monthly basis, the landlord may, with the consent of the Administrator, elect to bring all housing accommodations within such building or establishment under the control of this Maximum Rent Regulation. A landlord who so elects shall file a registration statement under this Maximum Rent Regulation No. 36A for all such housing accommodations, accompanied by a written request to the Administrator to consent to such election.

If the Administrator finds that the provisions of this Maximum Rent Regulation establishing maximum rents are better adapted to the rental practices for such building or establishment than the provisions of the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses, he shall consent to the landlord's election. Upon such consent, all housing accommodations within such building or establishment which are or hereafter may be rented or offered for rent shall become subject to the provisions of this Maximum Rent Regulation, and shall be considered rooms within a rooming house for the purposes of the provisions relating to eviction.

The landlord may at any time, with the consent of the Administrator, revoke his election, and thereby bring under the control of the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses all housing accommodations previously brought under this Maximum Rent Regulation by such election. He shall make such revocation by filing a registration statement or statements under the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses, including in such registration statement or statements all housing accommodations brought under this Maximum Rent Regulation by such election. Such registration statement or statements shall be accompanied by a written request to the Administrator to consent to such revocation. The Administrator may defer action on such request if he has taken or is about to take action to decrease the maximum rents of any housing accommodations within such building or establishment. If the Administrator finds that the revocation so requested will not result in substantial increases in the maximum rents of housing accommodatio~ affected by such revocation, he shall give such consent. Upon such consent, all housing accommodations affected by such revocation shall become subject to the provisions of the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses.

§ 1388.4002 *Prohibitions.* (a) Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person shall demand or receive any rent for use or occupancy on and after the effective date of this Maximum Rent Regulation No. 36A of any room in a hotel or rooming house within the Defense-Rental Area higher than the maximum rents provided by this Maximum Rent Regulation; and no person shall offer, solicit, attempt, or agree to do any of the foregoing. Lower rents than those provided by this Maximum Rent Regulation may be demanded or received.

(b) No tenant shall be required to change his term of occupancy if that will result in the payment of a higher amount per day than the maximum rent established for his present term of occupancy. Where, on June 15, 1942, or between that date and the effective date of this Maximum Rent Regulation, a room was regularly rented or offered for rent for a weekly or monthly term of occupancy, the landlord shall continue to offer the room for rent for that term of occupancy, unless he offers another term of occupancy for a rent which results in the payment of an amount no higher per day.

§ 1388.4003 *Minimum services.* The maximum rents provided by this Maximum Rent Regulation No. 36A are for rooms including, as a minimum, services of the same type, quantity, and quality as those provided on the date or during the 30-day period determining the maximum rent. If, on the effective date of this Maximum Rent Regulation, the services provided for rooms are less than such minimum services, the landlord shall either restore and maintain the minimum services, or within 30 days after such effective date, file a petition pursuant to § 1388.4005 (b) for approval of the decreased services. In all other cases, except as provided in § 1388.4005 (b), the landlord shall provide the minimum services unless and until an order is entered pursuant to that section approving a decrease of such services.

§ 1388.4004 *Maximum rents.* This section establishes separate maximum rents for different terms of occupancy (daily, weekly or monthly) and numbers of occupants of a particular room. Maximum rents for rooms in a hotel or rooming house (unless and until changed by the Administrator as provided in §1388.4005) shall be:

(a) For a room rented or regularly offered for rent during the thirty days ending on March 1, 1942, the highest rent for each term or number of occupants for which the room was rented during that thirty-day period; or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(b) For a room neither rented nor regularly offered for rent during the thirty days ending on March 1, 1942, the highest rent for each term or number of occupants for which the room was rented during the thirty days commencing when it was first offered for rent after March 1, 1942; or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(c) For a room rented for a particular term or number of occupants for which no maximum rent is established under paragraphs (a) or (b) of this section, the first rent for the room after March 1, 1942; for that term and number of occupants, but not more than the maximum rent for similar rooms for the same term and number of occupants in the same hotel or rooming house.

(d) For a room constructed by the United States or any agency thereof, or by a State of the United States or any of its political subdivisions, or any agency of the State or any of its political subdivisions, and owned by any of the foregoing, the rent generally prevailing in the Defense-Rental Area for comparable rooms on March 1, 1942, as determined by the owner of such room: *Provided, however,* That any corporation formed under the laws of a State shall not be considered an agency of the United States within the meaning of this paragraph. The Administrator may order a decrease in the maximum rent as provided in § 1388.4005 (c) (1).

(e) For a room with which meals were provided during the thirty-day period determining the maximum rent without separate charge therefor, the rent apportioned by the landlord from the total charge for the room and the meals. The landlord's apportionment shall be fair and reasonable and shall be reported in the registration statement for such room. The Administrator at any time on his own initiative or on application of the tenant may by order decrease the maximum rent established by such apportionment if he finds that the apportionment was unfair or unreasonable.

Every landlord who provides meals with accommodations shall make separate charges for the two. No landlord shall require the taking of meals as a condition of renting any room unless the room was rented or offered for rent on that basis on June 15, 1942.

§ 1388.4005 *Adjustments and other determina ions.* In the circumstances enumerated in this section, the Administrator may issue an order changing the maximum rents otherwise allowable or the minimum services required. Except in cases under paragraphs (a) (7) and (c) (4) of this section, every adjustment of a maximum rent shall be on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable rooms on March 1, 1942: *Provided, however,* That no maximum rent shall be increased, because of a major capital improvement or an increase in services, furniture, furnishings or equipment, by more than the amount which the Administrator finds would have been on March 1, 1942 the difference in the rental value of the accommodations by reason of such improvement or increase. In cases involving construction due consideration shall be given to increased costs of construction, if any, since March 1, 1942. In cases under paragraphs (a) (7) and (c) (4) of this section the adjustment shall be on the basis of the rents which the Administrator finds were generally prevailing in the Defense-Rental Area for comparable rooms during the year ending on March 1, 1942.

(a) Any landlord may file a petition for adjustment to increase the maximum rent otherwise allowable, only on the grounds that:

(1) There has been, since the thirty-day period or the order determining the maximum rent for the room, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement and maintenance.

(2) There was, on or prior to March 1, 1942 and within the six months ending on that date, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, and the rent during the thirty-day period ending on March 1, 1942 was fixed by a lease which was in force at the time of such change.

(3) There has been a substantial increase in the services, furniture, furnishings or equipment provided with the room since the thirty-day period or the order determining its maximum rent.

(4) The rent during the thirty-day period determining the maximum rent was materially affected by the blood, personal or other special relationship between landlord and the tenant, or by an allowance or discount to a tenant of a class of persons to whom the landlord regularly offered such an allowance or discount, and as a result was substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable rooms on March 1, 1942.

(5) There was in force on March 1, 1942 a written lease, which had been in force for more than one year on that date, requiring a rent substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable rooms on March 1, 1942.

(6) The rent during the thirty-day period determining the maximum rent was established by a lease or other rental agreement which provided for a substantially higher rent at other periods during the term of such lease or agreement.

(7) The rent during the thirty-day period determining the maximum rent for the room was substantially lower than at other times of the year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different rents for different periods of the calendar year.

(b) If, on the effective date of this Maximum Rent Regulation No. 36A, the services provided for a room are less than those provided on the date or during the thirty-day period determining the maximum rent, the landlord shall either restore the services to those provided on the date or during the thirty-day period determining the maximum rent and maintain such services or, within 30 days after such effective date, file a petition requesting approval of the decreased services. Except as above provided, the landlord shall maintain the minimum services unless and until he has filed a petition to decrease services and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, he shall file a petition within five days after the change of services occurs. The order on any petition under this paragraph may require an appropriate adjustment in the maximum rent.

(c) The Administrator at any time, on his own initiative or on application of the tenant, may order a decrease of the maximum rent otherwise allowable, only on the grounds that:

(1) The maximum rent for the room is higher than the rent generally prevailing in the Defense-Rental Area for comparable rooms on March 1, 1942.

(2) There has been a substantial deterioration of the room other than ordinary wear and tear since the date or order determining its maximum rent.

(3) There has been a substantial decrease in the services, furniture, furnishings or equipment provided with the room since the date or order determining its maximum rent.

(4) The rent on the date determining the maximum rent for the room was substantially higher than at other times of the year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(d) If the rent on the date determining the maximum rent, or any other fact necessary to the determination of the maximum rent, is in dispute between the landlord and the tenant, or is in doubt, or is not known, the Administrator on petition of the landlord filed within 30 days after the effective date of this Maximum Rent Regulation No. 36A or at any time on his own initiative, may enter an order fixing the maximum rent by determining such fact; or if the Administrator is unable to ascertain such fact he shall enter the order on the basis of the rent which he finds was generally prevailing in the Defense-Rental Area for comparable rooms on March 1, 1942.

§ 1388.4006 *Restrictions on removal of tenant.* (a) So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant of a room within a hotel or rooming house shall be removed from such room, by action to evict or to recover possession, by exclusion from possession, or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated, unless:

(1) The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year but otherwise on the same terms and conditions as the previous lease or agreement except insofar as such terms and conditions are inconsistent with this Maximum Rent Regulation No. 36A; or

(2) The tenant has unreasonably refused the landlord access to the room for the purpose of inspection or of showing the room to a prospective purchaser, mortgagee or prospective mortgagee, or other person having a legitimate interest therein: *Provided, however,* That such refusal shall not be ground for removal or eviction if such inspection or showing of the room is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure, such violation after written notice by the landlord that the violation cease, or (ii) is committing or permitting a nuisance or is using or permitting a use of the room for an immoral or illegal purpose; or

(4) The landlord seeks in good faith to recover possession for the immediate purpose of demolishing the room or of substantially altering or remodeling it in a manner which cannot practicably be done with the tenant in occupancy and the plans for such alteration or remodeling have been approved by the proper authorities, if such approval is required by local law; or

(5) The landlord seeks in good faith not to offer the room for rent. If a tenant has been removed or evicted from a room under this paragraph (a) (5), such room shall not be rented for a period of six months after such removal or eviction without permission of the Administrator. The landlord may petition the Administrator for permission to rent the room during such six month period, and the Administrator shall grant such permission if he finds that the action was in good faith and not for the purpose of evading any provision of the Act or this Maximum Rent Regulation.

(b) No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the Act or this Maximum Rent Regulation and would not be likely to result in the circumvention or evasion thereof.

(c) At the time of commencing any action to remove or evict a tenant (except an action based on nonpayment of a rent not in excess of the maximum rent) the landlord shall give written notice thereof to the Area Rent Office stating the title and number of the case, the court in which it is filed, the name and address of the tenant and the grounds on which eviction is sought.

(d) The provisions of this section do not apply to:

(1) A subtenant or other person who occupied under a rental agreement with the tenant, where removal or eviction of the subtenant or other such occupant is

sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant; or

(2) A tenant occupying a room within a hotel on a daily or weekly basis; or a tenant occupying on a daily basis a room within a rooming house which has heretofore usually been rented on a daily basis.

No provision of this section shall be construed to authorize the removal of a tenant unless such removal is authorized under the local law.

§ 1388.4007 *Registration.* (a) Within 45 days after the effective date of this Maximum Rent Regulation No. 36A, every landlord of a room rented or offered for rent shall file a written statement on the form provided therefor, containing such information as the Administrator shall require, to be known as a registration statement. Any maximum rent established after the effective date of this Maximum Rent Regulation under paragraphs (b) or (c) of § 1388.4004 shall be reported either on the first registration statement or on a statement filed within 5 days after such rent is established.

(b) Every landlord shall conspicuously display in each room rented or offered for rent a card or sign plainly stating the maximum rent or rents for all terms of occupancy and for all numbers of occupants for which the room is rented or offered for rent. Where the taking of meals by the tenant or prospective tenant is a condition of renting such room, the card or sign shall so state. Should the maximum rent or rents for the room be changed by order of the Administrator, the landlord shall alter the card or sign so that it states the changed rent or rents.

(c) No payment of rent need be made unless the landlord tenders a receipt for the amount to be paid.

§ 1388.4008 *Inspection.* Any person who rents or offers for rent or acts as a broker or agent for the rental of a room and any tenant shall permit such inspection of the room by the Administrator as he may, from time to time, require.

§ 1388.4009 *Evasion.* The maximum rents and other requirements provided in this Maximum Rent Regulation shall not be evaded, either directly or indirectly, in connection with the renting or leasing or the transfer of a lease of a room, by requiring the tenant to pay or obligate himself for membership or other fees, or by modification of the practices relating to payment of commissions or other charges, or by modification of the services furnished with the room, or otherwise.

§ 1388.4010 *Enforcement.* Persons violating any provision of this Maximum Rent Regulation are subject to criminal penalties, civil enforcement actions and suits for treble damages as provided for by the Act.

§ 1388.4011 *Procedure.* All registration statements, reports and notices provided for by this Maximum Rent Regulation shall be filed with the Area Rent Office. All landlord's petitions and tenant's applications shall be filed with such office in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

§ 1388.4012 *Petitions for amendment.* Persons seeking any amendment of general applicability to any provision of this Maximum Rent Regulation may file petitions therefor in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

PART 1388—DEFENSE-RENTAL AREAS

[Maximum Rent Regulation 37]

HOUSING ACCOMMODATIONS OTHER THAN HOTELS AND ROOMING HOUSES

In the judgment of the Administrator, rents for housing accommodations within each of the Defense-Rental Areas set out in § 1388.4051 (a) of this Maximum Rent Regulation as designated in the Designations and Rent Declarations issued by the Administrator on April 28, 1942, have not been reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in the said Designations and Rent Declarations.

It is the judgment of the Administrator that by April 1, 1941, defense activities had not yet resulted in increases in rents for housing accommodations within the said Defense-Rental Areas inconsistent with the purposes of the Emergency Price Control Act of 1942. The Administrator has therefore ascertained and given due consideration to the rents prevailing for housing accommodations within each such Defense-Rental Area on or about July 1, 1941; and it is his judgment that the most recent date which does not reflect increases in rents for such housing accommodations inconsistent with the purposes of the Act is on or about that date. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this Maximum Rent Regulation for housing accommodations within each such Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this Maximum Rent Regulation is hereby issued.

AUTHORITY: §§ 1388.4051 to 1388.4064, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1388.4051 *Scope of regulation.* (a) This Maximum Rent Regulation No. 37 applies to all housing accommodations within each of the following Defense-Rental Areas (each of which is referred to hereinafter in this Maximum Rent Regulation as the "Defense-Rental Area"), as designated in the Designations and Rent Declarations (§§ 1388.1151 to 1388.1155 and 1388.1201 to 1388.1205, inclusive) issued by the Administrator on April 28, 1942, except as provided in paragraph (b) of this section:

(1) The Louisville Defense-Rental Area, consisting of the County of Jefferson, in the State of Kentucky, and the Counties of Clark and Floyd, in the State of Indiana.

(2) The Las Vegas Defense-Rental Area, consisting of the County of Clark, in the State of Nevada.

(b) This Maximum Rent Regulation No. 37 does not apply to the following:

(1) Housing accommodations situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon;

(2) Dwelling space occupied by domestic servants, caretakers, managers, or other employees to whom the space is provided as part of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the dwelling space is a part;

(3) Rooms or other housing accommodations within hotels or rooming houses, or housing accommodations which have been, with the consent of the Administrator, brought under the control of the Maximum Rent Regulation for Hotels and Rooming Houses pursuant to the provisions of that Regulation: *Provided*, That this Maximum Rent Regulation No. 37 does apply to entire structures or premises though used as hotels or rooming houses.

(c) The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except insofar as those provisions are inconsistent with this Maximum Rent Regulation No. 37.

(d) An agreement by the tenant to waive the benefit of any provision of this Maximum Rent Regulation No. 37 is void. A tenant shall not be entitled by reason of this Maximum Rent Regulation to refuse to pay or to recover any portion of any rents due or paid for use or occupancy prior to the effective date of this Maximum Rent Regulation.

§ 1388.4052 *Prohibition against higher than maximum rents.* Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person shall demand or receive any rent for use or occupancy on and after the effective date of this Maximum Rent Regulation No. 37 of any housing accommodations within the Defense-Rental Area higher than the maximum rents provided by this Maximum Rent Regulation; and no person shall offer, solicit, attempt, or agree to do any of the foregoing. Lower rents than those provided by this Maximum Rent Regulation No. 37 may be demanded or received.

§ 1388.4053 *Minimum services.* The maximum rents provided by this Maximum Rent Regulation No. 37 are for housing accommodations including, as a minimum, services of the same type, quantity, and quality as those provided on the date determining the maximum rent. If, on the effective date of this Maximum Rent Regulation, the services provided for housing accommodations are less than such minimum services the landlord shall either restore and maintain the minimum services or, within 30 days after such effective date, file a petition pursuant to § 1388.4055 (b) for approval of the decreased services. In all other cases, except as provided in § 1388.4055 (b), the landlord shall provide the minimum services unless and until an order is entered pursuant to that section approving a decrease of such services.

§ 1388.4054 *Maximum rents.* Maximum rents (unless and until changed by the Administrator as provided in § 1388.4055) shall be:

(a) For housing accommodations rented on July 1, 1941, the rent for such accommodations on that date.

(b) For housing accommodations not rented on July 1, 1941, but rented at any time during the two months ending on that date, the last rent for such accommodations during that two-month period.

(c) For housing accommodations not rented on July 1, 1941 nor during the two months ending on that date, but rented prior to the effective date of this Maximum Rent Regulation No. 37, the first rent for such accommodations after July 1, 1941. The Administrator may order a decrease in the maximum rent as provided in § 1388.4055 (c).

(d) For (1) newly constructed housing accommodations without priority rating first rented after July 1, 1941, and before the effective date of this Maximum Rent Regulation No. 37, or (2) housing accommodations changed between those dates so as to result in an increase or decrease of the number of dwelling units in such housing accommodations, or (3) housing accommodations changed between those dates from unfurnished to fully furnished, or from fully furnished to unfurnished, or (4) housing accommodations substantially changed between those dates by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, the first rent for such accommodations after such construction or change: *Provided, however*, That, where such first rent was fixed by a lease which was in force at the time of a major capital improvement, the maximum rent shall be the first rent after termination of such lease. The Administrator may order a decrease in the maximum rent as provided in § 1388.4055 (c).

(e) For (1) newly constructed housing accommodations without priority rating first rented on or after the effective date of this Maximum Rent Regulation No. 37 or (2) housing accommodations changed on or after such effective date so as to result in an increase or decrease of the number of dwelling units in such housing accommodations, or (3) housing accommodations not rented at any time between May 1, 1941, and such effective date, the rent fixed by the Administrator. The landlord shall, prior to renting and in time to allow 15 days for action thereon, file a petition requesting the Administrator to enter an order fixing the maximum rent therefor. Such order shall be entered on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on July 1, 1941. In cases involving construction due consideration shall be given to increased costs of construction, if any, since July 1, 1941.

If no order is entered on such petition within 15 days after filing, the landlord may rent such accommodations and the first rent therefor shall be the maximum rent. Within 5 days after so renting, the landlord shall report the maximum rent. The Administrator may order a decrease in such maximum rent as provided in § 1388.4055 (c).

(f) For housing accommodations constructed with priority rating from the United States or any agency thereof for which the rent has been heretofore or is hereafter approved by the United States or any agency thereof, the rent so approved but in no event more than the first rent for such accommodations.

(g) For housing accommodations constructed by the United States or any agency thereof, or by a State of the United States or any of its political subdivisions, or any agency of the State or any of its political subdivisions, and owned by any of the foregoing, the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on July 1, 1941, as determined by the owner of such accommodations: *Provided, however*, That any corporation formed under the laws of a State shall not be considered an agency of the United States within the meaning of this paragraph. The Administrator may order a decrease in the maximum rent as provided in § 1388.4055 (c).

§ 1388.4055 *Adjustments and other determinations.* In the circumstances enumerated in this section, the Administrator may issue an order changing the maximum rents otherwise allowable or the minimum services required. In those cases involving a major capital improvement, an increase or decrease in the furniture, furnishings or equipment, an increase or decrease of services, or a deterioration, the adjustment in the maxi-

mum rent shall be the amount the Administrator finds would have been on July 1, 1941 the difference in the rental value of the housing accommodations by reason of such change. In all other cases, except those under paragraphs (a) (7) and (c) (6) of this section, the adjustment shall be on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on July 1, 1941. In cases involving construction due consideration shall be given to increased costs of construction, if any, since July 1, 1941. In cases under paragraphs (a) (7) and (c) (6) of this section the adjustment shall be on the basis of the rents which the Administrator finds were generally prevailing in the Defense-Rental Area for comparable housing accommodations during the year ending on July 1, 1941.

(a) Any landlord may file a petition for adjustment to increase the maximum rent otherwise allowable, only on the grounds that:

(1) There has been on or after the effective date of this Maximum Rent Regulation No. 37 a substantial change in the housing accommodations by a major capital improvement as distinguished from ordinary repair, replacement and maintenance.

(2) There was, prior to July 1, 1941 and within the six months ending on that date, a substantial change in the housing accommodations by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, and the rent on July 1, 1941 was fixed by a lease which was in force at the time of such change.

(3) There has been a substantial increase in the services, furniture, furnishings or equipment provided with the housing accommodations since the date or order determining its maximum rent.

(4) The rent on the date determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant and as a result was substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on July 1, 1941.

(5) There was in force on July 1, 1941 a written lease, which had been in force for more than one year on that date, requiring a rent substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on July 1, 1941; or the housing accommodations were not rented on July 1, 1941, but were rented during the two months ending on that date, and the last rent for such accommodations during that two-month period was fixed by a written lease, which was in force more than one year prior to July 1, 1941, requiring a rent substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on July 1, 1941.

(6) The rent on the date determining the maximum rent was established by a lease or other rental agreement which provided for a substantially higher rent at other periods during the term of such lease or agreement.

(7) The rent on the date determining the maximum rent was substantially lower than at other times of year by reason of seasonal demand for such housing accommodations. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(b) If, on the effective date of this Maximum Rent Regulation No. 37 the services provided for housing accommodations are less than those provided on the date determining the maximum rent, the landlord shall either restore the services to those provided on the date determining the maximum rent and maintain such services or, within 30 days after such effective date, file a petition requesting approval of the decreased services. Except as above provided, the landlord shall maintain the minimum services unless and until he has filed a petition to decrease services and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, he shall file a petition within five days after the change of services occurs. The order on any petition under this paragraph may require an appropriate adjustment in the maximum rent.

(c) The Administrator at any time, on his own initiative or on application of the tenant, may order a decrease of the maximum rent otherwise allowable, only on the grounds that:

(1) The maximum rent for housing accommodations under paragraphs (c), (d), or (g) of § 1388.4054 is higher than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on July 1, 1941; or the maximum rent for housing accommodations under paragraph (e) of § 1388.4054 for which the rent was not fixed by the Administrator is higher than such generally prevailing rent.

(2) There has been a substantial deterioration of the housing accommodations other than ordinary wear and tear since the date or order determining its maximum rent.

(3) There has been a substantial decrease in the services, furniture, furnishings or equipment provided with the housing accommodations since the date or order determining its maximum rent.

(4) The rent on the date determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant and as a result was substantially higher than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on July 1, 1941.

(5) The rent on the date determining the maximum rent was established by a lease or other rental agreement which provided for a substantially lower rent at other periods during the term of such lease or agreement.

(6) The rent on the date determining the maximum rent was substantially higher than at other times of year by reason of seasonal demand for such housing accommodations. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(d) If the rent on the date determining the maximum rent, or any other fact necessary to the determination of the maximum rent, is in dispute between the landlord and the tenant, or is in doubt, or is not known, the Administrator on petition of the landlord filed within 30 days after the effective date of this Maximum Rent Regulation No. 37, or at any time on his own initiative, may enter an order fixing the maximum rent by determining such fact; or if the Administrator is unable to ascertain such fact he shall enter the order on the basis of the rent which he finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on July 1, 1941.

(e) Where, at the expiration or other termination of an underlying lease or other rental agreement, housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons occupying under a rental agreement with the tenant, the landlord may rent the entire premises for use by similar occupancy for a rent not in excess of the aggregate maximum rents of the separate dwelling units, or may rent the separate dwelling units for rents not in excess of the maximum rents applicable to such units.

Where housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons occupying under a rental agreement with the tenant, the tenant may petition the Administrator for leave to exercise any right he would have except for this Maximum Rent Regulation No. 37 to sell his underlying lease or other rental agreement. The Administrator may grant such petition if he finds that the sale will not result, and that sales of such character would not be likely to result, in the circumvention or evasion of the Act or this Maximum Rent Regulation. He may require that the sale be made on such terms as he deems necessary to prevent such circumvention or evasion.

§ 1388.4056 *Restrictions on removal of tenant.* (a) So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant shall be removed from any housing accommodations, by action to evict or to recover possession, by exclusion from possession, or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated, unless:

(1) The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year but otherwise on the same terms and conditions as the previous lease or agreement except insofar as such terms and conditions are inconsistent with this Maximum Rent Regulation No. 37; or

(2) The tenant has unreasonably refused the landlord access to the housing accommodations for the purpose of inspection or of showing the accommodations to a prospective purchaser, mortgagee or prospective mortgagee, or other person having a legitimate interest therein: *Provided, however,* That such refusal shall not be ground for removal or eviction if such inspection or showing of the accommodations is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure, such violation after written notice by the landlord that the violation cease, or (ii) is committing or permitting a nuisance or is using or permitting a use of the housing accommodations for an immoral or illegal purpose; or

(4) The tenant's lease or other rental agreement has expired or otherwise terminated, and at the time of termination the housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons who occupied under a rental agreement with the tenant; or

(5) The landlord seeks in good faith to recover possession for the immediate purpose of demolishing the housing accommodations or of substantially altering or remodeling it in a manner which cannot practicably be done with the tenant in occupancy and the plans for such alteration or remodeling have been approved by the proper authorities, if such approval is required by local law; or

(6) The landlord seeks in good faith to recover possession of the housing accommodations for immediate use and occupancy as a dwelling by himself, his family or dependents; or he has in good faith contracted in writing to sell the accommodations for immediate use and occupancy by a purchaser, who in good faith has represented in writing that he will use the accommodations as a dwelling for himself, his family or dependents; or the landlord seeks in good faith not to offer the housing accommodations for rent. If a tenant has been removed or evicted under this paragraph (a) (6) from housing accommodations, such accommodations shall not be rented for a period of six months after such removal or eviction without permission of the Administrator. The landlord may petition the Administrator for permission to rent the accommodations during such six-month period, and the Administrator shall grant such permission if he finds that the action was in good faith and not for the purpose of evading any provision of the Act or this Maximum Rent Regulation.

(b) No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the Act or this Maximum Rent Regulation No. 37 and would not be likely to result in the circumvention or evasion thereof.

(c) The provisions of this section do not apply to a subtenant or other person who occupied under a rental agreement with the tenant, where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant.

(d) At the time of commencing any action to remove or evict a tenant (except an action based on non-payment of a rent not in excess of the maximum rent) the landlord shall give written notice thereof to the Area Rent Office stating the title and number of the case, the court in which it is filed, the name and address of the tenant and the grounds on which eviction is sought.

(e) No provision of this section shall be construed to authorize the removal of a tenant unless such removal is authorized under the local law.

§ 1388.4057 *Registration.* Within 45 days after the effective date of this Maximum Rent Regulation No. 37, or within 30 days after the property is first rented, whichever date is the later, every landlord of housing accommodations rented or offered for rent shall file in triplicate a written statement on the form provided therefor to be known as a registration statement. The statement shall identify each dwelling unit and specify the maximum rent provided by this Maximum Rent Regulation for such dwelling unit and shall contain such other information as the Administrator shall require. The original shall remain on file with the Administrator and he shall cause one copy to be delivered to the tenant and one copy, stamped to indicate that it is a correct copy of the original, to be returned to the landlord. In any subsequent change of tenancy the landlord shall exhibit to the new tenant his stamped copy of the registration statement, and shall obtain the tenant's signature and the date thereof on the back of such statement. Within five days after renting to a new tenant, the landlord shall file a notice on the form provided therefor, on which he shall obtain the tenant's signature, stating that there has been a change in tenancy, that the stamped copy of the registration statement has been exhibited to the new tenant and that the rent for such accommodations is in conformity therewith.

No payment of rent need be made unless the landlord tenders a receipt for the amount to be paid.

When the maximum rent is changed by order of the Administrator the landlord shall deliver his stamped copy of the registration statement to the Area Rent Office for appropriate action reflecting such change.

§ 1388.4058 *Inspection.* Any person who rents or offers for rent or acts as a broker or agent for the rental of housing accommodations and any tenant shall permit such inspection of the accommodations by the Administrator as he may, from time to time, require.

§ 1388.4059 *Evasion.* The maximum rents and other requirements provided in this Maximum Rent Regulation No. 37 shall not be evaded, either directly or indirectly, in connection with the renting or leasing or the transfer of a lease of housing accommodations, by way of absolute or conditional sale, sale with purchase money or other form of mortgage, or sale with option to repurchase, or by modification of the practices relating to payment of commissions or other charges, or by modification of the services furnished with housing accommodations, or otherwise.

§ 1388.4060 *Enforcement.* Persons violating any provision of this Maximum Rent Regulation No. 37 are subject to criminal penalties, civil enforcement actions and suits for treble damages as provided for by the Act.

§ 1388.4061 *Procedure.* All registration statements, reports and notices provided for by this Maximum Rent Regulation No. 37 shall be filed with the Area Rent Office. All landlord's petitions and tenant's applications shall be filed with such office in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

§ 1388.4062 *Petitions for amendment.* Persons seeking any amendment of general applicability to any provision of this Maximum Rent Regulation No. 37 may file petitions therefor in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

PART 1388—DEFENSE-RENTAL AREAS

[Maximum Rent Regulation 38A]

HOTELS AND ROOMING HOUSES

In the judgment of the Administrator, rents for housing accommodations in each of the Defense-Rental Areas set out in § 1388.5001 (a) of this Maximum Rent Regulation, as designated in the Designations and Rent Declarations issued by the Administrator on April 28, 1942, have not been reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in the said Designations and Rent Declarations.

It is the judgment of the Administrator that by April 1, 1941, defense activities had not yet resulted in increases in rents for housing accommodations within the said Defense-Rental Areas inconsistent with the purposes of the Emergency Price Control Act of 1942. The Administrator has therefore ascertained and given due consideration to the rents prevailing for housing accommodations within each such Defense-Rental Area on or about July 1, 1941; and it is his judgment that the most recent date which does not reflect increases in rents for such housing accommodations inconsistent with the purposes of this Act is on or about that date. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this Maximum Rent Regulation for rooms in hotels and rooming houses within each such Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this Maximum Rent Regulation is hereby issued.

AUTHORITY: §§ 1388.5001 to 1388.5014, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1388.5001 *Scope of regulation.* (a) This Maximum Rent Regulation No. 38A applies to all rooms in hotels and rooming houses within each of the following Defense-Rental Areas (each of which is referred to hereinafter in this Maximum Rent Regulation as the "Defense-Rental Area"), as designated in the Designations and Rent Declarations (§§ 1388.1151 to 1388.1155 and 1388.1201 to 1388.1205, inclusive) issued by the Administrator on April 28, 1942, except as provided in paragraph (b) of this section:

(1) The Louisville Defense-Rental Area, consisting of the County of Jefferson, in the State of Kentucky, and the Counties of Clark and Floyd, in the State of Indiana.

(2) The Las Vegas Defense-Rental Area, consisting of the County of Clark, in the State of Nevada.

(b) This Maximum Rent Regulation No. 38A does not apply to the following:

(1) Rooms situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon;

(2) Rooms occupied by domestic servants, caretakers, managers, or other employees to whom the rooms are provided as part of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the rooms are a part;

(3) Rooms in hospitals, or rooms of charitable or educational institutions used in carrying out their charitable or educational purposes;

(4) Entire structures or premises used as hotels or rooming houses, as distinguished from the rooms within such hotels or rooming houses.

(c) The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except insofar as those provisions are inconsistent with this Maximum Rent Regulation No. 38A.

(d) An agreement by the tenant to waive the benefit of any provision of this Maximum Rent Regulation No. 38A is void. A tenant shall not be entitled by reason of this Maximum Rent Regulation to refuse to pay or to recover any portion of any rents due or paid for use or occupancy prior to the effective date of this Maximum Rent Regulation.

(e) Where a building or establishment which does not come within the definitions of a hotel or rooming house contains one or more furnished rooms or other furnished housing accommodations rented on a daily, weekly or monthly basis, the landlord may, with the consent of the Administrator, elect to bring all housing accommodations within such building or establishment under the control of this Maximum Rent Regulation No. 38A. A landlord who so elects shall file a registration statement under this Maximum Rent Regulation for all such housing accommodations, accompanied by a written request to the Administrator to consent to such election.

If the Administrator finds that the provisions of this Maximum Rent Regulation establishing maximum rents are better adapted to the rental practices for such building or establishment than the provisions of the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses, he shall consent to the landlord's election. Upon such consent, all housing accommodations within such building or establishment which are or hereafter may be rented or offered for rent shall become subject to the provisions of this Maximum Rent Regulation, and shall be considered rooms within a rooming house for the purposes of the provisions relating to eviction.

The landlord may at any time, with the consent of the Administrator, revoke his election, and thereby bring under the control of the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses all housing accommodations previously brought under this Maximum Rent Regulation by such election. He shall make such revocation by filing a registration statement or statements under the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses, including in such registration statement or statements all housing accommodations brought under this Maximum Rent Regulation by such election. Such registration statement or statements shall be accompanied by a written request to the Administrator to consent to such revocation. The Administrator may defer action on such request if he has taken or is about to take action to decrease the maximum rents of any housing accommodations within such building or establishment. If the Administrator finds that the revocation so requested will not result in substantial increases in the maximum rents of housing accommodations affected by such revocation, he shall give such consent. Upon such consent, all housing accommodations affected by such revocation shall become subject to the provisions of the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses.

§ 1388.5002 *Prohibitions.* (a) Regardless of any contract, agreement, lease or obligation heretofore or hereafter entered into, no person shall demand or receive any rent for use or occupancy on and after the effective date of this Maximum Rent Regulation No. 38A of any room in a hotel or rooming house within the Defense-Rental Area higher than the maximum rents provided by this Maximum Rent Regulation; and no person shall offer, solicit, attempt, or agree to do any of the foregoing. Lower rents than those provided by this Maximum Rent Regulation may be demanded or received.

(b) No tenant shall be required to change his term of occupancy if that will result in the payment of a higher amount per day than the maximum rent established for his present term of occupancy. Where, on June 15, 1942, or between that date and the effective date of this Maximum Rent Regulation, a room was regularly rented or offered for rent for a weekly or monthly term of occupancy, the landlord shall continue to offer the room for rent for that term of occupancy, unless he offers another term of occupancy for a rent which results in the payment of an amount no higher per day.

§ 1388.5003 *Minimum services.* The maximum rents provided by this Maximum Rent Regulation No. 38A are for rooms including, as a minimum, services of the same type, quantity, and quality as those provided on the date or during the 30-day period determining the maximum rent. If, on the effective date of this Maximum Rent Regulation, the services provided for rooms are less than such minimum services, the landlord shall either restore and maintain the minimum services, or within 30 days after such effective date, file a petition pursuant to § 1388.5005 (b) for approval of the decreased services. In all other cases, except as provided in § 1388.5005 (b), the landlord shall provide the minimum services unless and until an order is entered pursuant to that section approving a decrease of such services.

§ 1388.5004 *Maximum rents.* This section establishes separate maximum rents for different terms of occupancy (daily, weekly or monthly) and numbers of occupants of a particular room. Maximum rents for rooms in a hotel or rooming house (unless and until changed by the Administrator as provided in § 1388.5005) shall be:

(a) For a room rented or regularly offered for rent during the thirty days ending on July 1, 1941, the highest rent for each term or number of occupants for which the room was rented during that thirty-day period; or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(b) For a room neither rented nor regularly offered for rent during the thirty days ending on July 1, 1941, the highest rent for each term or number of occupants for which the room was rented during the thirty days commencing when it was first offered for rent after July 1, 1941; or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(c) For a room rented for a particular term or number of occupants for which no maximum rent is established under paragraphs (a) or (b) of this section, the first rent for the room after July 1, 1941, for that term and number of occupants, but not more than the maximum rent for similar rooms for the same term and number of occupants in the same hotel or rooming house.

(d) For a room constructed by the United States or any agency thereof, or by a State of the United States or any of its political subdivisions, or any agency of the State or any of its political subdivisions, and owned by any of the foregoing, the rent generally prevailing in the Defense-Rental Area for comparable rooms on July 1, 1941, as determined by the owner of such room: *Provided, however,* That any corporation formed under the laws of a State shall not be considered an agency of the United States within the meaning of this paragraph. The Administrator may order a decrease in the maximum rent as provided in § 1388.5005 (c) (1).

(e) For a room with which meals were provided during the thirty-day period determining the maximum rent without separate charge therefor, the rent apportioned by the landlord from the total charge for the room and the meals. The landlord's apportionment shall be fair and reasonable and shall be reported in the registration statement for such room. The Administrator at any time on his own initiative or on application of the tenant may by order decrease the maximum rent established by such apportionment if he finds that the apportionment was unfair or unreasonable.

Every landlord who provides meals with accommodations shall make separate charges for the two. No landlord shall require the taking of meals as a condition of renting any room unless the room was rented or offered for rent on that basis on June 15, 1942.

§ 1388.5005 *Adjustments and other determinations.* In the circumstances enumerated in this section, the Administrator may issue an order changing the maximum rents otherwise allowable or the minimum services required. Except in cases under paragraphs (a) (7) and (c) (4) of this section, every adjustment of a maximum rent shall be on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable rooms on July 1, 1941: *Provided, however,* That no maximum rent shall be increased, because of a major capital improvement or an increase in services, furniture, furnishings or equipment, by more than the amount which the Administrator finds would have been on July 1, 1941 the difference in the rental value of the accommodations by reason of such improvement or increase. In cases involving construction due consideration shall be given to increased costs of construction, if any, since July 1, 1941. In cases under paragraphs (a) (7) and (c) (4) of this section the adjustment shall be on the basis of the rents which the Administrator finds were generally prevailing in the Defense-Rental Area for comparable rooms during the year ending on July 1, 1941.

(a) Any landlord may file a petition for adjustment to increase the maximum rent otherwise allowable, only on the grounds that:

(1) There has been, since the thirty-day period or the order determining the maximum rent for the room, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement and maintenance.

(2) There was, on or prior to July 1, 1941 and within the six months ending on that date, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, and the rent during the thirty-day period ending on July 1, 1941 was fixed by a lease which was in force at the time of such change.

(3) There has been a substantial increase in the services, furniture, furnishings or equipment provided with the room since the thirty-day period or the order determining its maximum rent.

(4) The rent during the thirty-day period determining the maximum rent was materially affected by the blood, personal or other special relationship between landlord and the tenant, or by an allowance or discount to a tenant of a class of persons to whom the landlord regularly offered such an allowance or discount, and as a result was substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable rooms on July 1, 1941.

(5) There was in force on July 1, 1941, a written lease, which had been in force for more than one year on that date, requiring a rent substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable rooms on July 1, 1941.

(6) The rent during the thirty-day period determining the maximum rent was established by a lease or other rental agreement which provided for a substan-

tially higher rent at other periods during the term of such lease or agreement.

(7) The rent during the thirty-day period determining the maximum rent for the room was substantially lower than at other times of the year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different rents for different periods of the calendar year.

(b) If, on the effective date of this Maximum Rent Regulation No. 38A the services provided for a room are less than those provided on the date or during the thirty-day period determining the maximum rent, the landlord shall either restore the services to those provided on the date or during the thirty-day period determining the maximum rent and maintain such services or, within 30 days after such effective date, file a petition requesting approval of the decreased services. Except as above provided, the landlord shall maintain the minimum services unless and until he has filed a petition to decrease services and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, he shall file a petition within five days after the change of services occurs. The order on any petition under this paragraph may require an appropriate adjustment in the maximum rent.

(c) The Administrator at any time, on his own intiative or on application of the tenant, may order a decrease of the maximum rent otherwise allowable, only on the grounds that:

(1) The maximum rent for the room is higher than the rent generally prevailing in the Defense-Rental Area for comparable rooms on July 1, 1941.

(2) There has been a substantial deterioration of the room other than ordinary wear and tear since the date or order determining its maximum rent.

(3) There has been a substantial decrease in the services, furniture, furnishings or equipment provided with the room since the date or order determining its maximum rent.

(4) The rent on the date determining the maximum rent for the room was substantially higher than at other times of the year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(d) If the rent on the date determining the maximum rent, or any other fact necessary to the determination of the maximum rent, is in dispute between the landlord and the tenant, or is in doubt, or is not known, the Administrator on petition of the landlord filed within 30 days after the effective date of this Maximum Rent Regulation, or at any time on his own initiative, may enter an order fixing the maximum rent by determining such fact; or if the Administrator is unable to ascertain such fact he shall enter the order on the basis of the rent which he finds was generally prevailing in the Defense-Rental Area for comparable rooms on July 1, 1941.

§ 1388.5006 *Restrictions on removal of tenant.* (a) So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant of a room within a hotel or rooming house shall be removed from such room, by action to evict or to recover possession, by exclusion from possession, or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated, unless:

(1) The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year but otherwise on the same terms and conditions as the previous lease or agreement except insofar as such terms and conditions are inconsistent with this Maximum Rent Regulation No. 38A; or

(2) The tenant has unreasonably refused the landlord access to the room for the purpose of inspection or of showing the room to a prospective purchaser, mortgagee or prospective mortgagee, or other person having a legitimate interest therein: *Provided, however,* That such refusal shall not be ground for removal or eviction if such inspection or showing of the room is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure, such violation after written notice by the landlord that the violation cease, or (ii) is committing or permitting a nuisance or is using or permitting a use of the room for an immoral or illegal purpose; or

(4) The landlord seeks in good faith to recover possession for the immediate purpose of demolishing the room or of substantially altering or remodeling it in a manner which cannot practicably be done with the tenant in occupancy and the plans for such alteration or remodeling have been approved by the proper authorities, if such approval is required by local law; or

(5) The landlord seeks in good faith not to offer the room for rent. If a tenant has been removed or evicted from a room under this paragraph (a) (5), such room shall not be rented for a period of six months after such removal or eviction without permission of the Administrator. The landlord may petition the Administrator for permission to rent the room during such six month period, and the Administrator shall grant such permission if he finds that the action was in good faith and not for the purpose of evading any provision of the Act or this Maximum Rent Regulation No. 38A.

(b) No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the Act or this Maximum Rent Regulation and would not be likely to result in the circumvention or evasion thereof.

(c) At the time of commencing any action to remove or evict a tenant (except an action based on non-payment of a rent not in excess of the maximum rent) the landlord shall give written notice thereof to the Area Rent Office stating the title and number of the case, the court in which it is filed, the name and address of the tenant and the grounds on which eviction is sought.

(d) The provisions of this section do not apply to:

(1) A subtenant or other person who occupied under a rental agreement with the tenant, where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenency relationship between the landlord and the subtenant or other such occupant; or

(2) A tenant occupying a room within a hotel on a daily or weekly basis; or a tenant occupying on a daily basis a room within a rooming house which has heretofore usually been rented on a daily basis.

No provision of this section shall be construed to authorize the removal of a tenant unless such removal is authorized under the local law.

§ 1388.5007 *Registration.* (a) Within 45 days after the effective date of this Maximum Rent Regulation No. 38A every landlord of a room rented or offered for rent shall file a written statement on the form provided therefor, containing such information as the Administrator shall require, to be known as a registration statement. Any maximum rent established after the effective date of this Maximum Rent Regulation under paragraphs (b) or (c) of § 1388.5004 shall be reported either on the first registration statement or on a statement filed within 5 days after such rent is established.

(b) Every landlord shall conspicuously display in each room rented or offered for rent a card or sign plainly stating the maximum rent or rents for all terms of occupancy and for all numbers of occupants for which the room is rented or offered for rent. Where the taking of meals by the tenant or prospective tenant is a condition of renting such room, the card or sign shall so state. Should the maximum rent or rents for the room be changed by order of the Administrator, the landlord shall alter the card or sign so that it states the changed rent or rents.

(c) No payment of rent need be made unless the landlord tenders a receipt for the amount to be paid.

§ 1388.5008 *Inspection.* Any person who rents or offers for rent or acts as a broker or agent for the rental of a room and any tenant shall permit such inspection of the room by the Administrator as he may, from time to time, require.

§ 1388.5009 *Evasion.* The maximum rents and other requirements provided in this Maximum Rent Regulation No. 38A shall not be evaded, either directly or indirectly, in connection with the renting or leasing or the transfer of a lease of a room, by requiring the tenant to pay or obligate himself for membership or other fees, or by modification of the practices relating to payment of commissions or other charges, or by modification of the services furnished with the room, or otherwise.

§ 1388.5010 *Enforcement.* Persons violating any provision of this Maximum Rent Regulation No. 38A are subject to criminal penalties, civil enforcement actions and suits for treble damages as provided for by the Act.

§ 1388.5011 *Procedure.* All registration statements, reports and notices provided for by this Maximum Rent Regulation No. 38A shall be filed with the Area Rent Office. All landlord's petitions and tenant's applications shall be filed with such office in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

§ 1388.5012 *Petitions for amendment.* Persons seeking any amendment of general applicability to any provision of this Maximum Rent Regulation No. 38A may file petitions therefor in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

PART 1341—CANNED AND PRESERVED FOODS

[Maximum Price Regulation 185]

CANNED FRUITS AND CANNED BERRIES

In the judgment of the Price Administrator, seasonal conditions and other factors affecting the sale of canned fruits and canned berries by canners have resulted in the establishment under the General Maximum Price Regulation of maximum prices for such sales which are not generally fair and equitable as applied to the 1942 pack and which are not best calculated to assist in securing adequate production of such commodities. The Price Administrator has ascertained and given due consideration to the prices of canned fruits and canned berries prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as is practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this Regulation.

In the judgment of the Price Administrator, the maximum prices established for the canners of canned fruits and canned berries by this Regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this Regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

The maximum prices established herein are not below prices which will reflect to the producers of the raw agricultural commodities from which canned fruits and canned berries are manufactured, prices for their commodities equal to the highest of any of the following prices therefor determined and published by the Secretary of Agriculture: (1) 110 per centum of the parity price for each such commodity, adjusted by the Secretary of Agriculture for grade, location and seasonal differentials; (2) the market prices prevailing for each such commodity on October 1, 1941; (3) the market prices prevailing for each such commodity on December 15, 1941; or (4) the average prices for such commodity during the period July 1, 1919 to June 30, 1929.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[1] Maximum Price Regulation No. 185 is hereby issued.

*Copies may be obtained from the Office of Price Administration.

AUTHORITY: §§ 1341.101 to 1341.113, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong.

§ 1341.101 *Prohibition against dealing in canned fruits and canned berries above maximum prices.* (a) On and after July 29, 1942, regardless of any contract or other obligation, no canner shall sell or deliver any canned fruits or canned berries packed after the 1941 pack at a price higher than the maximum price established pursuant to this Maximum Price Regulation No. 185.

(b) No person in the course of trade or business shall buy or receive any canned fruits or canned berries from a canner at a price higher than the maximum price established by this Maximum Price Regulation No. 185; and

(c) No canner or other person shall agree, offer, solicit or attempt to do any of the foregoing.

§ 1341.102 *Canner's maximum prices for canned fruits and canned berries.* (a) The canner's maximum price per dozen f. o. b. factory, for each kind, grade, and container size of canned fruits or canned berries packed after the 1941 pack shall be: (1) The weighted average price per dozen f. o. b. factory charged by the canner for such kind, grade and container size during the first 60 days after the beginning of the 1941 pack; plus

(2) Ten percent of the weighted average price per dozen f. o. b. factory, as determined under paragraph (a) (1) of this section; plus

(3) The actual increase per dozen cans in the cost of the raw agricultural commodity delivered at the factory for the 1942 pack over the cost of the same raw agricultural commodity delivered at the factory for the 1941 pack.

(b) In determining the canner's maximum price:

(1) The "weighted average price" shall be the total gross sales dollars charged for each kind, grade and container size, divided by the number of dozens sold of such kind, grade and container size. All sales of products of the 1941 pack made in the usual course of business within the first 60 days after the beginning of the 1941 pack shall be included, except sales made to the armed forces of the United States. Sales made prior to such period but delivered within such period, shall not be included.

(2) The "actual increase in the cost of the raw agricultural commodity" shall be the difference per dozen cans of each kind, grade and container size, between;

(i) The weighted average cost to the canner of the raw agricultural commodity purchased for the 1941 pack, computed by dividing the total amount paid by the number of tons or other units purchased; and

(ii) The weighted average of the prices per ton or other unit, paid or contracted to be paid by the canner to the grower for the same raw agricultural commodity in 1942, based on not less than the first 75 percent of his 1942 purchases.

(iii) Any canner, to the extent he has incurred them, may include in the computation of his maximum prices, his increased costs of the raw agricultural commodity as determined under paragraph (b) (2) (i) and (b) (2) (ii) of this section, but not in excess of the amounts shown in the following table:

Raw agricultural commodity:	Maximum permitted increase per ton
Apricots	$23.00
Cherries, Red Sour Pitted	50.00
Cherries, Sweet	56.00
Figs	34.00
Peaches, Clingstone (including Clingstone Nectarines)	7.00
Peaches, Freestone (including Freestone Nectarines)	15.00
Pears	15.00
Plums	2.00
Prunes, Fresh	13.00
	Per pound
Blackberries	.03
Blueberries	.03
Boysenberries	.03
Cranberries	.03
Gooseberries	.03
Huckleberries	.03
Loganberries	.03
Raspberries, Black	.03
Raspberries, Red	.03
Strawberries	.03
Youngberries	.03

(iv) In converting the increased cost of the raw agricultural commodity into increased cost per dozen cans for each grade and container size, the increase shall be allocated to each grade and container size in the same proportion as costs of raw materials in 1941 were allocated to each grade and container size.

(v) The actual increase per dozen cans in the cost of the raw agricultural commodity shall not be computed until the canner has purchased 75 percent or more of his 1942 requirements. Such increase, as determined hereunder by a canner, shall be deemed to be his actual increase and shall not be subject to adjustment thereafter for later fluctuations in the cost of the raw agricultural commodity.

(vi) In determining and allocating to each container size the increased cost of the raw agricultural commodities used in canning fruit cocktail, fruit for salad, or the fruit and berry juices or nectars made from the fruits or berries listed in paragraph (b) (2) (iii) of this section, the increased cost of each component fruit or berry may be computed as set forth in the preceding paragraphs of this section and the increase apportioned to the various container sizes in the same proportion as the component fruits or berries are used in such container sizes.

(c) (1) If the maximum price for any grade and container size, except No. 10, of any canned fruits or canned berries cannot be determined under paragraphs (a) and (b) of this section, but if the canner has been able to determine his maximum price under said paragraphs for the dominant grade and container size of such canned fruits or canned berries, the maximum prices for the remaining grades and container sizes of the same canned fruits or canned berries, except No. 10 container size, shall be those prices which bear the same proportionate relationship to the maximum price for the dominant grade and container size as the price for each such grade and container size bore to the price of the dominant grade and container size in the canner's opening price list in 1941, or, if the canner had no opening price list in 1941, the same proportionate relationship as the weighted average price of each such grade and container size bore to the weighted average price of the dominant grade and container size in sales made during the first 15 days after the beginning of the 1941 pack of the canned fruits or canned berries for which a maximum price is being determined.

(i) In determining maximum prices under paragraph (c) of this section the dominant grade and container size shall be the one of which the canner packed the most cases in 1941, and the weighted average price shall be computed as set forth in paragraph (b) (1) of this section.

(2) If the canner is unable to determine the maximum price of one or more grades of a particular kind of canned fruit or canned berry in a No. 10 container size under paragraphs (a) and (b) of this section, but can so determine the maximum price for one or more other grades of such canned fruit or canned berry in a No. 10 container size, the maximum prices for the grades not so determined shall be established in the manner provided in paragraph (c) (1), using as the dominant grade the grade for which the price has been so determined, or, if the price of more than one grade has been so determined, using as the dominant grade the one of those for which a price has been so determined of which the canner packed the largest number in 1941.

(d) If the maximum price for any kind, grade and container size of any canned fruits or canned berries cannot be determined under paragraphs (a), (b) and (c) of this section, the canner's maximum price for such kind, grade and container size shall be the maximum price of the most closely competitive canner for the same kind, grade and container size.

(e) If the canner's maximum price cannot be determined under paragraphs (a), (b), (c) and (d) of this section, the maximum price shall be a price determined by the canner after specific authorization from the Office of Price Administration, Washington, D. C., on application setting forth (1) a description in detail of the kind, grade and container size of the canned fruits or canned berries for which a maximum price is sought; and (2) a statement of the facts which differentiate such kind, grade and container size of canned fruits or canned berries from the most similar kind, grade, and container size for which he has determined a maximum price, stating such most similar kind, grade and container size and the maximum price determined therefor. When such authorization is given, it will be accompanied by instructions as to the method for determining the maximum price. Within ten days after such price has been determined, the canner shall report the price to the Office of Price Administration, Washington, D. C., under oath or affirmation. The price so reported shall be subject to adjustment at any time by the Office of Price Administration.

(f) Any canner who believes that the maximum prices determined pursuant to the provisions of this section for any particular brand of canned fruits or canned berries are such that they subject him to a hardship with respect to such brand, may apply to the Office of Price Administration, Washington, D. C., for authorization to compute separately his maximum price for each kind, grade and container size of such brand under the foregoing paragraphs of this section. Such application shall set forth, under oath or affirmation, (1) the maximum prices which would be established under this section for each kind, grade and container size of such brand if such prices for such brand were computed separately under the foregoing paragraphs of this section, (2) the number of years in which the canner has packed under such particular brand, (3) the amount of each kind, grade and container size of that particular brand packed by him during the 1941 pack, (4) the amount of the same kind, grade and container size packed by him during the 1941 pack which was not packed under such brand, (5) the extent to which the brand in question was used and advertised during the year 1941, (6) the price relationship between the particular brand in question and his other brands or unbranded canned fruits and canned berries of the 1941 pack, (7) the number of brands, other than the particular brand in question, under which the canner packed the same kind of canned fruits or canned berries in 1941, and (8) such other facts as the canner may deem relevant.

(g) The maximum price for each kind, grade and container size for a canner who owns more than one factory shall be determined separately for each factory, except that if any group of two or more factories located in the same growing or canning area had the same f. o. b. factory prices in 1941, the maximum prices shall be determined uniformly for the entire group by using the combined figures for all of the factories in the group in computing the maximum price under paragraphs (a), (b) and (c) of this section, or if that cannot be determined, by using the price of the most closely competitive canner, under paragraph (d) of this section, as the maximum price of the entire group. In applying for the specific authorization of a price under paragraph (e) of this section, the application may be made for a uniform maximum price for all of the factories in such group.

(h) Any canner who sold and delivered a particular brand of canned fruits or canned berries packed by him during the calendar year 1941 on an established uniform delivered price basis by zone or area, may add to the maximum price per dozen f. o. b. factory computed under the foregoing paragraphs of this section for each grade and container size of such brand of canned fruits or canned berries, the freight charge he added to his f. o. b. factory price during the calendar year 1941, for such grade and container size of such

brand of canned fruits or canned berries in the same zone or area. The resulting price shall be the canner's maximum delivered price for such grade and container size of such brand of canned fruits or canned berries for the zone or area in which the same freight charge was used in 1941.

(i) In the event that a canner's maximum price determined under this Maximum Price Regulation No. 185 for United States Grade C (Standard) or better water pack red sour pitted cherries, No. 2 container size, amounts to less than $1.50 per dozen, the canner may use $1.50 as his maximum price for that grade and size and if his maximum price determined under this Regulation for the same commodity and grade in a No. 10 container size amounts to less than $7.50 per dozen, he may use $7.50 as his maximum price for that size and grade.

(j) No canner shall change his customary allowances, discounts or other price differentials, including price differentials between different classes of purchasers and price differentials between brands, except when authorized to compute brand differentials pursuant to paragraph (f) of this section, unless such change results in a lower price.

§ 1341.103 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 185 may be charged, demanded, paid or offered.

§ 1341.104 *Transfer of business or stock in trade.* If the business, assets or stock in trade of a canner are sold or otherwise transferred on or after the effective date of this Maximum Price Regulation No. 185, and the transferee carries on the business, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over to the transferee, all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions contained in his Maximum Price Regulation No. 185.

§ 1341.105 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 185 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to canned fruits or canned berries, alone or in conjunction with any other commodity or by way of any commission, service, transportation or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1341.106 *Records and reports.* Every canner who makes sales of canned fruits or canned berries packed after the 1941 pack, shall (a) preserve for examination by the Office of Price Administration for a period of two years all his existing records which were the basis for the computations required by § 1341.102, and (b) preserve for the same period all records of the same kind as he has customarily kept, relating to the prices which he charged for canned fruits or canned berries sold on and after July 29, 1942, and (c) file with the Office of Price Administration, Washington, D. C., within 10 days after determining his maximum prices for each kind of canned fruits or canned berries, a statement certified under oath or affirmation showing his weighted average price and his increase in the cost of the raw agricultural commodity, as determined under § 1341.102 hereof, together with the maximum price determined hereunder for each grade and container size of such kind of canned fruits or canned berries and all his customary allowances and discounts, and (d) in those cases in which the maximum price of any kind, grade and container size of canned fruits or canned berries was determined by the maximum price of the most closely competitive canner, showing the maximum price of such kind, grade and container size and the name and address of the canner whose maximum price was so adopted, and (e) in those cases in which a canner made sales and deliveries of a particular brand of canned fruits or canned berries packed by him in 1941 on an established uniform delivered price basis by zone or area, showing his maximum price per dozen f. o. b. factory for each grade and size of such brand of canned fruits or canned berries, the freight charge which he added to his f. o. b. factory price during the calendar year 1941 for each zone or area and the maximum delivered price for each kind, grade and container size of canned fruits or canned berries packed after the 1941 pack delivered in each zone or area, and (f) preserve for a period of two years a true copy of each such statement filed with the Office of Price Administration for examination by any person during ordinary business hours. Any canner who claims that substantial injury would result to him from making any such statement available to any other person, may file such copy of such statement with the appropriate field office of the Office of Price Administration. The information contained in such statement will not be published or disclosed unless it is determined that the withholding of such information is contrary to the purposes of this Maximum Price Regulation No. 185.

§ 1341.107 *Penalties.* Persons violating any provisions of this Maximum Price Regulation No. 185, are subject to the criminal penalties, civil enforcement actions and suits for treble damages provided for by the Emergency Price Control Act of 1942.

PART 1377—WOODEN CONTAINERS

[Maximum Price Regulation 186]

WESTERN WOODEN AGRICULTURAL CONTAINERS

In the judgment of the Price Administrator, the prices of western wooden agricultural containers have risen to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of western wooden agricultural containers prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices and charges established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1 [1] issued by the Office of Price Administration, Maximum Price Regulation No. 186 is hereby issued.

AUTHORITY: §§ 1377.101 to 1377.114, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1377.101 *Maximum prices for western wooden agricultural containers.* On and after July 29, 1942, regardless of any contract or other obligation, no person shall sell or deliver any western wooden agricultural containers, and no person shall buy or receive in the course of trade or business any western wooden agricultural containers at prices higher than the maximum prices set forth in Appendix A, § 1377.114, and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of western wooden agricultural containers to a purchaser, if, prior to July 29, 1942, such containers had been received by a carrier other than a carrier owned by the seller for shipment to such purchaser.

§ 1377.102 *Maximum charges for assembling shook into partial or complete wooden containers.* On and after July 29, 1942, regardless of any contract or other obligation, no person in the western area as defined in § 1377.109 (a) (4) shall charge and no person in such area shall pay higher prices for assembling or partially assembling shook into western wooden agricultural containers than the maximum charges set forth in Appendix A, § 1377.114; and no person shall agree, offer, solicit or attempt to do any of the foregoing.

§ 1377.103 *Less than maximum prices.* Lower prices than those set forth in Appendix A, § 1377.114, may be charged, demanded, paid or offered.

§ 1377.104 *Conditional agreements.* No person subject to this Maximum Price Regulation No. 186 shall enter into an agreement permitting the adjustment of the price of western wooden agricultural containers to prices which may be higher than the maximum prices in effect upon the date of the agreement: *Provided*, That if a petition for amendment (or for adjustment or for exception) has been duly filed, and such petition requires extensive consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of such petition. Requests for such an exception may be included in the aforesaid petition.

§ 1377.105 *Evasion.* The price limitation set forth in this Maximum Price Regulation No. 186 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to western wooden agricultural containers, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

(b) On and after July 29, 1942, every person in the western area engaged in the business of assembling shook into partial or complete containers, shall keep for inspection by the Office of Price Administration for a period of not less than two years, a complete and accurate record of all charges made in such business.

(c) Such persons shall keep such other records in addition to or in place of the records required in paragraphs (a) and (b) of this section and shall submit such reports to the Office of Price Administration as that Office may from time to time require or permit.

§ 1377.107 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 186, are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for the suspension of licenses provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 186, or any price schedule, regulation, or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation, are urged to communicate with the nearest Field, State, or Regional Office of the Office of Price Administration or its principal office in Washington, D. This package containing 15 books is not to be regarded as a substitute for the matches given away by retailers with purchases of tobacco products, and retailers who during March, 1942, gave away free matches to purchasers of tobacco products shall continue this practice. On shipments made prior to January 1, 1943, manufacturers shall insert the following in all cases of resale book matches, except cases prepared, at the time of issuance of this amendment, for shipment:

The Office of Price Administration has ruled that retailers who during March, 1942, gave away matches to purchasers of tobacco products must continue this practice.

The Office of Price Administration requires manufacturers to insert this notification in all cases of resale book matches, which are shipped prior to January 1, 1943. Cessation of this notification will not constitute a revocation of this ruling.

To this maximum manufacturer's delivered price of $2.50 per case may be added, if incurred, the Federal excise tax of 60¢ per case. For sales in the West Coast area, as generally defined by the industry, the manufacturer may add 9¢ per case of 1500 books to the above maximum price.

(f) Amendment No. 6 (§ 1347.12 (b) (3)) to Maximum Price Regulation No. 129 shall become effective July 30, 1942.

PART 1347—PAPER, PAPER PRODUCTS, RAW MATERIALS FOR PAPER AND PAPER PRODUCTS

[Maximum Price Regulation 187]

CERTAIN PAPERBOARD PRODUCTS

In the judgment of the Price Administrator the prices of folding cartons, corrugated fibre sheets, corrugated fibre boxes, solid fibre sheets, solid fibre boxes, set-up boxes, pads, partitions and other paperboard products partially or completely manufactured on the same converting equipment, but excluding liquid-tight containers, milk bottle caps, book matches and other commodities covered by Maximum Price Regulation No. 129[1] have risen to an extent and in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of the commodities listed above prevailing between October 1 and October 15, 1941, and has made adjustment for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this Regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1[2] issued by the Office of Price Administration, Maximum Price Regulation No. 187 is hereby issued.

AUTHORITY: §§ 1347.401 to 1347.414 inclusive, issued pursuant to Pub. Law 421, 77th Cong.

§ 1347.401 *Prohibition against dealing in paperboard products above maximum prices.* The meaning of certain provisions and terms of this Maximum Price Regulation No. 187 is further explained and defined in § 1347.412. The explanations and definitions are set forth in alphabetical order. The terms explained and defined appear in quotation marks the first time they appear in the text.

(a) Classifications: This Maximum Price Regulation No. 187 shall apply to the following described products whether partially or completely manufactured: Folding cartons, corrugated fibre sheets, corrugated fibre boxes, solid fibre sheets, solid fibre boxes, set-up boxes, pads, partitions and other paperboard products manufactured on the same converting equipment, but excluding liquid-tight containers, milk bottle caps, book matches and other commodities covered by Maximum Price Regulation No. 129.[3]

(b) On and after July 30, 1942, regardless of any contract, agreement, lease or other obligation, no "manufacturer" shall "sell" or deliver any of the products described in paragraph (a) of this section, and no manufacturer shall sell or supply any "services" in connection with the manufacture of such products at prices higher than the maximum prices provided in paragraph (c) of this section, and no "person" shall agree, to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of such products to a purchaser, if prior to July 30, 1942 such products had been received by a carrier other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(c) The manufacturer's maximum price for any given amount of any product or service described in this section shall not exceed the sum of the following factors calculated for the amount of the product or service being priced:

(1) Raw material costs: The delivered purchase price at which the "raw materials" are acquired by a converting plant, or the transfer price of an integrated mill to its converting plant, neither of which shall in any event exceed the maximum prices established for such raw materials by the Office of Price Administration. In computing such transfer price, the manufacturer shall use the same method, classifications, and differentials, as were used by such manufacturer in computing such transfer price during the period from October 1 to October 31, 1941, excepting that such manufacturer may change such method, classifications and differentials, if a lower price results from such change. If, during the period from October 1 to October 31, 1941, the manufacturer adopted or employed the practice of averaging or otherwise computing his raw material costs, he shall continue such practice in the same manner. The manufacturer shall continue to add the same percentage charge for waste in estimating prices and apply credits received from the sale or other disposition of waste material in the same manner in which such credits or charges were applied during the period from October 1 to October 31, 1941.

(2) "Applicable conversion charges." Charges for "hand and/or machine operations" incident to the "fabrication, assembly," marking and/or "packing" of "commodities of the same general class" shall not be computed in excess of the same "hourly, piece and setting up rates" and shall be based on the same "standards of production" as were in effect from October 1, 1941 to October 31, 1941, inclusive, and which were used in normally determining the selling prices of "commodities" and services contracted to be sold or supplied at a definite price during such period.

(i) The same "method or principle for applying conversion charges" shall be employed that was employed during the period from October 1, 1941 to October 31, 1941, inclusive, so that direct or indirect conversion charges shall be computed in the manner customarily employed during the period October 1–31, 1941, inclusive. Charges for a different type of conversion (e. g., hand rather than machine operations) shall not be substituted for customary conversion charges as a means of increasing the price of the product.

(3) "Margin." This margin is to be computed on a "percentage basis," or "rate per unit of base material" in accordance with the method, and shall be equivalent to the margin, used by the manufacturer during the period from October 1, 1941 to October 31, 1941, inclusive, in determining the "selling price f. o. b. shipping point" for the same or "comparable commodity or service" contracted to be sold at a definite price to a "purchaser of the same class" during such period.

(i) No seller shall change his customary allowances, discounts or other price differentials unless such change results in a lower price.

(4) *Charges for delivery.* Every manufacturer shall be required to continue to sell on a delivered price basis to such purchasers, zones or areas to which he customarily made shipments on a delivered price basis during the period from October 1 to October 31, 1941, inclusive.

(i) In the case of shipments to points within a free delivery zone or area within which no charge for delivery was added or would have been added by the manufacturer during the period from October 1, 1941 to October 31, 1941, inclusive, the seller shall not add to the maximum price computed pursuant to the provisions of paragraph (c) (1), (c) (2), and (c) (3), any charge for delivery.

(ii) In the case of shipments to points, with the exception of shipments to points described in paragraph (c) (4) (i), for which the manufacturer added a charge for delivery, the seller may add to the maximum prices computed pursuant to the provisions of paragraph (c) (1), (c) (2), and (c) (3), his customary and established delivery charge: *Provided*, That, in no instance may the amount of the delivery charge so added exceed the highest charge for delivery actually obtained or which would have been obtained for an identical shipment to the same purchaser, zones or areas during the period from October 1 to October 31, 1941, inclusive, by the means of transportation customarily employed for shipments to such purchaser, zones or areas, during such period.

§ 1347.402 *Transfers of business or stock in trade.* If the business, assets or stock in trade of any business are sold or otherwise transferred after July 29, 1942, and the transferee carries on the business, or continues to deal in the same type of commodities or services in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep "records" in accordance with § 1347.406 shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this Maximum Price Regulation No. 187.

§ 1347.403 *Export sales.* The maximum price at which a person may export the commodities covered by this Maximum Price Regulation No. 187, shall be determined in accordance with the provisions of the Maximum Export Price Regulation issued by the Office of Price Administration.

§ 1347.404 *Federal and State taxes.* Any tax upon, or incident to, the sale, delivery, processing, or use of a commodity, or the supplying of a service, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such commodity or service and in preparing the records of such seller with respect thereto:

(a) *As to a tax in effect during October 1941.* (1) If the seller paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and collected from the seller, but the seller did not customarily state and collect separately from the purchase price during October 1941 the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the seller may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining the maximum price under this Maximum Price Regulation No. 187.

(2) In all other cases, if, at the time the seller determines his maximum price, the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum price under this Maximum Price Regulation No. 187.

(b) *As to a tax or increase in a tax which becomes effective after October 31, 1941.* If the statute or ordinance imposing such tax or increase does not prohibit the seller from stating and collecting the tax or increase separately from the purchase price, and the seller does

separately state it, the seller may collect, in addition to the maximum price, the amount of the tax or increase actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased.

§ 1347.405 *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 187 may be charged, demanded, paid or offered.

§ 1347.406 *Base period records.* Every manufacturer selling commodities or services for which maximum prices are established by this Maximum Price Regulation No. 187 shall:

(a) Preserve for examination by the Office of Price Administration for a period of two years all his existing records relating to the prices which he charged for such of those commodities or services as he contracted to sell or supply at a definite price during the period from October 1, 1941 to October 31, 1941, inclusive.

(b) Within 21 days after July 29, 1942, the manufacturer shall file under oath with the Office of Price Administration, Washington, D. C., the pricing formulas, together with the charges for hand or machine operations on an hourly, piece or setting up basis, as employed by the manufacturer during the period from October 1, 1941 to October 31, 1941, inclusive, in determining selling prices on commodities or services contracted to be sold or supplied at a definite price during such period.

(c) Rates for any machine or hand operations which were not used in determining the selling prices of commodities and services contracted to be sold or supplied at a definite price during the period of October 1 to October 31, 1941 must be submitted to the Office of Price Administration, Washington, D. C., for approval or adjustment. The manufacturer who seeks such approval or adjustment shall file with the Office of Price Administration, Washington, D. C., an application setting forth:

(1) Description in detail of such machine or hand operation.

(2) A statement setting forth in detail the cost factors and the method used in determining such rates. After July 29, 1942, and until the rates for such operations are approved by the Office of Price Administration, all prices, quoted or charged, which have been based on such rates shall be subject to adjustment by the manufacturer. If such rates are adjusted by the Office of Price Administration, the prices based on such rates shall be adjusted by the manufacturer in accordance with such adjusted rates.

(d) Every person selling commodities or services for which, maximum prices are established by this Maximum Price Regulation No. 187 shall keep, and make available for examination by the Office of Price Administration, records of the same kind as he has customarily kept relating to the prices which he charged for such of those commodities or services as he sold after July 29, 1942, and, in addition, records showing the basis upon which he estimated and determined the maximum prices for such commodities or services.

§ 1347.407 *Evasion.* The price limitations established by this Maximum Price Regulation No. 187 shall not, directly or indirectly, be circumvented or evaded by modifying or discontinuing, or charging for or increasing the charge for, any commodity, or by altering any customary trade practice of the manufacturer, or by deteriorating the quality of any commodity, or by any other means. No manufacturer shall impose any terms or conditions of sale, or alter any terms or conditions of sale imposed or agreed to by such manufacturer during the period from October 1 to October 31, 1941, inclusive, or customarily imposed or agreed to by such manufacturer, in such a way as to increase the maximum price established by this Maximum Price Regulation No. 187 for any commodity.

Nothing herein shall be construed to prevent the manufacturer from making changes in merchandising services to effect economies helpful to or made necessary by the war effort, such as elimination of or changes in the frequency of delivery or changes in the character of packaging and wrapping.

§ 1347.408 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 187 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 187 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field office, state office, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1347.409 *Adjustable pricing.* Any manufacturer may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation, where a petition for amendment or for adjustment or exception requires extended consideration, the Price Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1347.410 *Petitions for amendment.* Persons seeking any modification of this Maximum Price Regulation No. 187 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1,[8] issued by the Office of Price Administration.

§ 1347.411 *Applicability of General Maximum Price Regulation.*[9] The provisions of this Maximum Price Regulation No. 187 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries for which maximum prices are established by this Maximum Price Regulation No. 187.

[Maximum Prices Authorized Under § 1499.18 (b) of the General Maximum Price Regulation [2]—Order 3]

WILLARD TOBACCO CO.

Willard Tobacco Co., of Hartsville, Tennessee has filed a Petition for Amendment of the General Maximum Price Regulation requesting specific adjustment of the maximum prices established for it for sales of tobacco twist on the grounds that such maximum prices cause it substantial hardship and are abnormally low in relation to the maximum prices established for competitive sellers of tobacco twist. Due consideration has been given to the Petition and an Opinion in support of this Order, issued simultaneously herewith, has been filed with the Division of the Federal Register.* For the reasons set out in the Opinion and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 it is ordered:

§ 1499.303 *Adjustment of maximum prices for tobacco twist manufactured by Willard Tobacco Co.*—(a) *Manufacturer.* Willard Tobacco Co. has reduced the sizes of the tobacco twist sold by it during March 1942 by making 12 instead of 11 of its large size twist per pound of tobacco and by making 24 instead of 22 of its small size twist per pound of tobacco. On and after July 1942, Willard Tobacco Co. may charge for its reduced sizes of tobacco twist the prices charged by it during March 1942 for its original sizes of tobacco twist, namely:

	Per dozen
Large	$1.92
Small	.96

For a period of three months after it commences to sell its reduced sizes of tobacco twist, Willard Tobacco Co. shall mark each package with a notice or shall enclose in each package a notice as follows: "Sale of reduced size of this product at maximum prices established for any seller for original size is authorized by Office of Price Administration Order No. 3 under § 1499.18 (b) of the General Maximum Price Regulation, issued July 25, 1942."

(b) *Wholesalers and retailers.* On and after July 27, 1942 any wholesaler or retailer may charge for Willard Tobacco Co.'s reduced size of tobacco twist (1) the maximum prices established for such seller for Willard Tobacco Co.'s original sizes of tobacco twist or (2) if no maximum prices have been established for such seller for Willard Tobacco Co.'s original sizes of tobacco twist, the maximum prices established for such seller under Section 2 of the General Maximum Price Regulation for Willard Tobacco Co.'s reduced size of tobacco twist.

(c) This Order No. 3 may be revoked or amended by the Price Administrator at any time.

(d) This Order No. 3 (§ 1499.303) shall become effective July 27, 1942.

[Docket No. A-1438]

EASTERN GAS & FUEL ASSOCIATES

ORDER GRANTING TEMPORARY RELIEF

In the matter of the petition of District Board No. 7 for the establishment of minimum prices for river and ex-river shipments of the coals of Midvale No. 2 Mine (Mine Index No. 122) of Eastern Gas & Fuel Associates (Koppers Coal Division), a code member in District 7.

This proceeding was instituted upon an original petition filed with the Bituminous Coal Division on May 4, 1942, by District Board No. 7, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The petition requested the establishment of minimum prices for river (free alongside delivery) and ex-river shipments for the coals produced at the Midvale No. 2 Mine (Mine Index No. 122) of the Eastern Gas & Fuel Associates (Koppers Coal Division), in District 7, high volatile, that will permit such coals to be shipped via the C&O Railway to Cabin Creek Junction and there to be loaded into floating equipment on the Kanawha River in proper coordination with the high volatile coals in District 8 for shipment via the Kanawha and Ohio Rivers. It was alleged in the petition that such coordination necessitated an adjustment of 25 cents per net ton on account of variations in freight rates on shipments from the Midvale No. 2 Mine and District 8 high volatile mines. The petition requested temporary relief.

On May 29, 1942, an Order was entered granting, in part, pending final disposition of the proceeding, the temporary relief prayed for. The temporary relief established prices for river shipments, free alongside deliveries, for coal produced at the Midvale No. 2 Mine for shipment by the Kanawha River to free alongside consumers at all destinations down stream from Cabin Creek Junction, West Virginia, to and including Belle, West Virginia. The prices thus temporarily established are the same, size for size and class for class, as shown on page 37 of the Schedule of Effective Minimum Prices for District No. 8 for All Shipments Except Truck. The temporary supplement states that no adjustments for freight rates are permissible.

Pursuant to an appropriate order and after notice to all interested persons, a hearing was held on June 30, 1942, before Floyd McGown, a duly designated Examiner of the Division, at the hearing room thereof, in Washington, D. C., at which the petitioner and Bituminous Consumers' Counsel appeared. No intervening petitions were filed. The record of the hearing has been submitted to the undersigned for further consideration on the matter of temporary relief, pending final disposition of the proceeding.

It appears that the Midvale No. 2 Mine is situated in the high volatile field of District 7 and that the high volatile coals produced in Districts 7 and 8 were coordinated on a basis of the same price, size for size and class for class. However, while river prices were established for the high volatile coals produced in District 8, no such prices were established for the high volatile coals of District 7. Subsequently, a freight rate of 55 cents per net ton, applicable only when the origin, destination, and entire haul are within the State of West Virginia, has been established applicable to the coals produced at the Midvale No. 2 Mine (Freight Origin Group 70) for movement over the C&O Railway to Cabin Creek Junction. District 8 high volatile coals produced at the mines in Freight Origin Group 123 move to Cabin Creek Junction on a freight rate of 35 cents and subject to a deduction of 5 cents per net ton as a further adjustment necessary to effect coordination, which adjustment appears on page 39 of the District 8 Price Schedule. Thus, District 8 high volatile coals in Freight Origin Group 123 will deliver to Cabin Creek Junction, a loading point on the Kanawha River, on a transportation charge, 25 cents per net ton lower than coals produced at the Midvale No. 2 Mine.

Daniel T. Buckley, an employee of the Koppers Coal Division of Eastern Gas & Fuel Associates, testified that granting of the 25 cent adjustment to equalize the freight rates would not give the Midvale No. 2 Mine any advantage over other high volatile mines in District 7 and would not have any effect with respect to the high volatile mines in District 8.

There was no objection to the allowance of the 25 cent adjustment expressed at the hearing.

It appears from the record that a reasonable showing of necessity has been made for the granting of additional temporary relief pending final disposition of this proceeding, by permitting the prices established in the temporary supplement attached to and forming a part of the Order dated May 29, 1942, to be reduced 25 cents per net ton when such coal is loaded on floating equipment at Cabin Creek Junction on the Kanawha River.

It is therefore ordered, That, pending final disposition of the above-entitled matter, additional temporary relief be and the same hereby is granted as follows: Commencing forthwith, the temporary supplement attached to and made a part of the Order dated May 29, 1942, entered herein, is hereby amended by deleting the provision reading as follows: "No adjustments for freight rates are permissible," and inserting thereon a footnote reading as follows: "When floating equipment is loaded on Kanawha

River, Mine Index No. 122, may reduce the above prices 25 cents per net ton."

Nothing contained herein shall be deemed to constitute a ruling or expression of views concerning the final disposition of these proceedings or the nature of the relief which may hereafter be granted.

Dated: July 25, 1942.

[Docket No. B-175]

J. BRUCE MEYER, CODE MEMBER

ORDER APPROVING AND ADOPTING THE PROPOSED FINDINGS OF FACT, PROPOSED CONCLUSIONS OF LAW OF THE EXAMINER, AND CEASE AND DESIST ORDER

This proceeding was instituted upon a complaint filed with the Bituminous Coal Division on January 6, 1942, by District Board No. 1. The complaint alleged that code member had wilfully violated the Bituminous Coal Code or the rules and regulations thereunder, and prayed that the Division either cancel or revoke his code membership, or, in its discretion, direct the code member to cease and desist from violations of the Code and rules and regulations thereunder.

A hearing was held in this matter on February 18, 1942, before W. A. Cuff, a duly designated Examiner of the Division at a hearing room thereof in Altoona, Pennsylvania. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. District Board No. 1 appeared and code member appeared without counsel.

The Examiner made and entered his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation in this matter, dated June 6, 1942, finding that code member wilfully violated the Order of the Director in General Docket No. 19, by selling between October 7, 1940 to December 5, 1940, 1427 tons of mine run coal produced at his Peters No. 2 Mine [1] Mine Index No. 1760, and delivered said coal by truck to a rail siding for rail shipment without having first obtained rail classification or prices therefor. The Examiner recommended that an order be entered cancelling and revoking the code membership of J. Bruce Meyer, and providing that prior to reinstatement into code membership there shall be paid by said J. Bruce Meyer to the United States a tax in the sum of $1,090.80 in accordance with the provisions of Section 5 (c) of the Act.

An opportunity was afforded to all parties to file exceptions and supporting briefs to the said Examiner's Report and no such exceptions or supporting briefs have been filed.

The undersigned has considered the record in this matter and has determined that the proposed findings of fact and proposed conclusions of law of the Examiner should be approved and adopted as his findings of fact and conclusions of law. The undersigned feels, however, that the purposes of the Act will be served in this matter by the entry of a cease and desist order,[2] and hence does not adopt the recommendation of the Examiner that an order be entered cancelling and revoking the membership in the Code of this code member.

Now, therefore, it is ordered, That the proposed findings of fact, and proposed conclusions of law of the Examiner be, and the same hereby are approved and adopted as the findings of fact and conclusions of law of the undersigned.

It is further ordered, That the code member, J. Bruce Meyer, his representatives, agents, servants, employees, attorneys, heirs, administrators, successors or assigns, cease and desist and they are hereby permanently enjoined and restrained from selling or offering to sell coal for which he had no rail price or classification, or from otherwise violating the Bituminous Coal Act, the Code, the Schedule of Effective Minimum Prices for District No. 1 for All Shipments Except Truck, the Marketing Rules and Regulations, and all appropriate orders of the Division.

It is further ordered, That the Division may, upon failure of code member herein to comply with this order, forthwith apply to the Circuit Court of Appeals of the United States within any circuit wherein the code member resides or carries on business for the enforcement hereof or take any other appropriate action.

Dated: July 25, 1942.

[Docket No. A-1517 Part II]

DISTRICT BOARD NO. 8

ORDER GRANTING TEMPORARY RELIEF; HEARING, ETC.

In the matter of the petition of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 8.

Memorandum opinion and order severing Docket No. A-1517 Part II from Docket No. A-1517, order granting temporary relief, in part, in Docket No. A-1517 Part II and notice of and order for hearing in Docket No. A-1517 Part II.

The original petition in the above-entitled matter which was filed with this Division requests the issuance of orders establishing temporary and permanent price classifications and minimum prices for the coals of certain mines in District No. 8.

As found in an order issued in Docket No. A-1517, a reasonable showing of necessity has been made for the granting of the relief prayed for by petitioner except as to the establishment of price

[1] During the month of February 1942, code member changed the name of his mine to that of Shannon No. 1, and notified the Division of this change in compliance with Order No. 288.

[2] On December 9, 1940, code member applied for, and has since obtained a rail classification and price for his coal by an order of the Director dated January 31, 1941 in Docket No. A-559.

[1] Not filed with the Division of the Federal Register.

classifications and minimum prices for the coals produced by Mine Index Nos. 136, 441 to 445, inclusive, 531, 614, 727, and 5517 of Stearns Coal & Lumber Co. for all shipments except truck from its Blue Heron Preparation Plant.

District Board No. 8 proposes price classifications and minimum prices for all shipments except truck from the Blue Heron Preparation Plant, some of which have heretofore been established for the coals of the various mines of Stearns Coal & Lumber Co. at various shipping points. In view of the probability that the coals of the various mines herein involved will be mixed and receive different preparation than they have formerly had, no reasonable showing has been made as to what price classifications and minimum prices should be established for these coals for shipment from the Blue Heron Preparation Plant, on a permanent basis.

Now therefore it is ordered, That the portion of Docket No. A-1517 relating to the coals of Mine Index Nos. 136, 441 to 445, inclusive, 531, 614, 727, and 5517 of Stearns Coal & Lumber Co. for all shipments except truck from its Blue Heron Preparation Plant be and the same hereby is severed from the remainder of Docket No. A-1517 and designated as A-1517 Part II.

It is ordered, That a hearing in the above-entitled matter under the applicable provisions of said Act and the rules of the Division be held on August 17, 1942, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street, N. W., Washington, D. C. On such day the Chief of the Records Section in room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Travis Williams or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit to the Acting Director proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in this proceeding and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before August 12, 1942.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein, may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of intervention or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the request of District Board No. 8 for the establishment of price classifications and minimum prices for all shipments except truck for the coals of Mine Index Nos. 136, 441 to 445, inclusive, 531, 614, 727, and 5517 of Stearns Coal & Lumber Co. from its Blue Heron Preparation Plant.

It is further ordered, That pending final disposition of Docket No. A-1517 Part II, temporary relief is granted as follows:

Commencing forthwith, Price Schedule No. 1 for District No. 8 for All Shipments Except Truck, is supplemented to include the price classifications and minimum prices set forth in the Schedule "R," annexed hereto and made a part hereof.

Notice is hereby given that applications to stay, terminate, or modify the temporary relief granted herein may be filed pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Dated: July 24, 1942.

[Docket No. A-780]

DELTA MINING CO., ET AL.

MEMORANDUM OPINION AND ORDER DENYING APPLICATION TO TERMINATE TEMPORARY RELIEF

In the matter of the petition of Delta Mining Company, Sahara Coal Company and the United Electric Coal Companies, code member producers in District No. 10, for minimum f. o. b. mine prices for F. A. S. delivery from District No. 10 to retail dealers at Minneapolis and St. Paul, pursuant to section 3 A, special river price instructions and exceptions, schedule of effective minimum prices for District No. 10, or in the alternative for establishment of just and equitable prices, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

This proceeding was instituted upon a joint petition filed with the Bituminous Coal Division on March 31, 1941, by Delta Coal Mining Company, Sahara Coal Company, and the United Electric Coal Companies, code members in District No. 10, pursuant to the provisions of section 3 A of the Special River Price Instructions and Exceptions of the Schedule of Effective Minimum Prices for District No. 10 for All Shipments Except Truck. The original petitioners sought authority to sell coal shipped from mines in District 10 via rail to the Mississippi River, thence via river to the municipal docks in Minneapolis and St. Paul for delivery to retail dealers, at minimum f. o. b. mine prices for free alongside delivery, instead of at the adjusted ex-river prices provided for those dealers. Numerous other code members in District 10 intervened in support of the petition, as did the City of Minneapolis. District Boards 7 and 11 intervened in opposition and other parties, including Consumers' Counsel, appeared generally.

The scheduled hearing ran for several days until May 29, 1941, when it was adjourned until July 15. By order of June 17, the Director granted a motion made during the hearing by the original petitioners to amend their petition to request as alternative relief the establishment for the coals in question of just and equitable prices under section 4 II (d) of the Bituminous Coal Act of 1937, and he extended the period for intervention and gave further notice of the continuance. The hearing was resumed on July 15 according to a schedule, and was concluded on July 22, 1941.

On June 4, during the recess of the hearing, the original petitioners filed a motion for temporary relief with accompanying brief. District Board 7 filed a brief in opposition. Following the close of the hearing, by a Memorandum Opinion and Order dated July 29, 1941, the Director stated that studied consideration of the record and of the results of temporary relief should be made prior to a ruling upon final relief, and granted temporary relief by amending the Schedule of Effective Minimum Prices for Districts No. 10 for All Shipments Except Truck. The important provisions of the amendment follows:

Under the Section "Prices for River (free alongside deliveries) and Ex-River shipments, Special River Price Instructions and Exceptions," "Special Cases C," page 53, add the following provision:

"Any code member producer, sales agent or registered distributor may sell coal for barge delivery to and over the municipal docks at Minneapolis and St. Paul at the minimum f. o. b. mine prices for free alongside delivery when shipped from the mines by rail and reloaded into barges on the Mississippi River for transshipment on the Mississippi River to retail coal dealers for resale at retail by such dealers located within the switching limits of these cities, whether such coal is for storage on the municipal docks or at inland retail coal yards."

Provided, however, That the relief herein granted shall apply only to coal shipped from the mine subsequent to the date hereof, and

Provided further, That any code member, sales agent or registered distributor offering for sale, selling or reselling any coal pursuant to this Order shall submit to the Bituminous Coal Division at 734 Fifteenth Street, NW., Washington, D. C., within five (5) days after such offer, sale or resale, a complete description of such offer, sale or resale, as is required by the Marketing Rules and Regulations of the Division, Order 313, and any other orders of the Division. The filing of this data at the offices of the Bituminous Coal Division in Washington, D. C., shall be in addition to that required for filing with the field office.

Petitioners have reported shipments by them of substantial tonnages under the terms of this order.

On June 18, 1942, District Board 7 filed an application to terminate the temporary relief herein, alleging in substance the following reasons:

(1) In granting temporary relief in order to aid the original petitioners in negotiating for the sale and shipment of coal to the Twin Cities during the balance of the 1941 navigation season, the Director found that, since more than one-half of the navigation season had passed, substantially less—and certainly no more—Illinois coal could be shipped by river to the Minneapolis-St. Paul area during that period than had been shipped during the 1940 season and that, therefore, temporary relief would not prejudice eastern producers. The records of the U. S. Engineer's Offices, however, show that total shipments of Illinois coal to the Minneapolis-St. Paul docks during the season 1941 increased 37.5 percent over the year 1940. District Board 7 believes that shipments made by petitioners subsequent to temporary relief during the balance of the 1941 navigation season exceeded the tonnage transported by river during the preceding season, and in the event that the records of the Division show this to be true, the Director's finding regarding prejudice would be proved erroneous, so the relief should be terminated.

(2) At the known rate of shipments of coal to the area during the last summer, the annual rate of river shipments would now greatly exceed that of 1940 and previous years. The reason cited for temporary relief—that eastern producers would not be prejudiced because half of the navigation season had already passed—is inapplicable to the new season of 1942.

(3) Some of the original petitioners shipping under terms of the temporary relief order are not complying with the requirements regarding the filing of reports. The privilege of shipment to retail dealers has been abused by shipments to affiliated companies. Lower prices are quoted by producers and distributors to their retail departments and to affiliates than to independent retailers, and no ultimate resales are reported.

(4) District Board 7 is advised that neither the prices to retail dealers nor the dealers' prices to consumers have been reduced subsequent to the granting of temporary relief, and that the f. o. b. truck price of Illinois coal at the docks is slightly higher than the ex-river price for the same coal. Thus it appears to the Board that the savings resulting from the order are used for the benefit of the producers and not passed along to consumers.

(5) In Docket No. A-227 temporary relief in the nature of prices for free alongside delivery to certain Chicago dealers was restricted to the quantity of coal previously shipped by river to them, and the shipments were required to be spread as far as practicable over the entire year. If temporary relief is not here terminated, it should be similarly restricted.

On July 15, 1942, the original petitioners filed a "Motion to Dismiss Application to Terminate Temporary Relief," al-

leging as grounds therefor that the application is speculative, misinterprets the Director's Order, draws inaccurate conclusions, and that it would injure petitioners and impair fuel distribution in time of war.

I have carefully considered each of the contentions of District Board 7, and find therein nothing requiring termination of temporary relief. As noted by the Board, the tonnage figures of the United States Engineer's Office are not restricted to the coals shipped to retail dealers under temporary relief, and, therefore, are not necessarily indicative of unexpectedly heavy shipments to such dealers. Nor would a rate of shipment in 1941 somewhat in excess of that in 1940 be, in itself, an indication of improper temporary relief where the shipments arise from a new river development. The pressing need for prompt relief in 1941 because of the short season has been replaced by even more urgent need for early stocking of winter coals and the relief of overburdened rail and Great Lakes transportation.

While the reports made by coal shippers in accordance with the temporary relief order leave something to be desired from the standpoint of information, they are in substantial compliance with the order. The method of disposition of coal through retail departments of the producers or their sales agents, and the prices at which coal has been sold to them and to independent retailers, are matters to be considered by the Trial Examiner along with other data supplied by the reports. Pending the filing of his report, the temporary relief will be continued.

Now, therefore, it is ordered, That the application of District Board 7 to terminate temporary relief be, and the same hereby is, denied, and the motion of original petitioners to dismiss that application is granted to that extent.

Dated: July 24, 1942.

Office of the Secretary.

CENTRAL VALLEY PROJECT

WAGE FIXING PROCEDURES

APRIL 22, 1942.

For the purpose of determining the prevailing rate of wages to be paid certain classes of Government employees on the three divisions of the Central Valley Project, and to enable the payment to such employees of time and one-half for work in excess of 40 hours a week, the following procedure is established:

I—Wage Board

A Wage Board, composed of there representatives of the Department, one selected from the Office of the Secretary of the Interior and at least one of the other two members selected from the Bureau of Reclamation, is hereby established to determine prevailing wages for similar work in the locality of the various divisions of the Project for persons employed by the Government in the various trades and occupations in the construction or operation and maintenance of the Central Valley Project, excluding employees whose wages are fixed on an annual basis pursuant to the Classification Act of 1923, as amended, and to make recommendations with respect to such wages to the Secretary of the Interior. The representatives selected from the Office of the Secretary of the Interior shall act as Chairman of the Board.

II—Procedure To Be Followed by Board

In determining the prevailing wages of various trades and occupations being considered by the Board in the locality of the Project, the Board shall procure evidence of the wages and compensation being paid to and perquisites received by those employed in these trades and occupations from local contractors, Federal agencies (including wage scales currently being paid pursuant to minima established pursuant to the Davis-Bacon Act), private industrial employers, and others employing labor in the locality, whether pursuant to union agreements or otherwise. Hearings for the purpose of adducing evidence of wages paid in the locality may be held when, in the judgment of the Board, this is required in order to determine the prevailing rates of wages.

Based on the evidence procured as to prevailing wages and the perquisites of employment in the locality in the classifications under consideration by the Wage Board, the Board shall make its recommendations as to the rates of wages to be paid to the Government employees of the classes above specified on the various divisions of the Central Valley Project to the Secretary of the Interior. The wages recommended shall become effective upon the date they are approved by the Secretary of the Interior, unless otherwise directed by the Secretary of the Interior: *Provided,* That the Secretary of the Interior may direct the Board to reconsider any recommendation in whole or in part when, in his judgment, the recommended wage does not accord with the evidence procured as to the prevailing wage in the locality or when there is insufficient evidence to support the wage recommended.

III—Effective Period of Approved Wage Determinations

Any wage rate fixed in the manner above provided shall remain in effect until that rate has been supplanted by a different rate determined by the Wage Board with the approval of the Secretary of the Interior. PARKER DAM POWER PROJECT

WAGE FIXING PROCEDURES

JUNE 2, 1942.

For the purpose of determining the prevailing rate of wages to be paid certain classes of Government employees at the Parker Dam Power Project, Parker Dam, California, and to enable the payment to such employees of time and one-half for work in excess of 40 hours a week, the following procedure is established:

I—Wage Board

A Wage Board, composed of three representatives of the Department, one selected from the Office of the Secretary of the Interior, and at least one of the other two members selected from the Bureau of Reclamation, is hereby established to determine prevailing wages for similar work in the locality of the Project for persons employed by the Government in the various trades and occupations in the construction or operation and maintenance of the Project, excluding employees whose wages are fixed on an annual basis pursuant to the Classification Act of 1923, as amended, and to make recommendations with respect to such wages to the Secretary of the Interior. The representative selected from the Office of the Secretary of the Interior shall act as Chairman of the Board.

II—Procedure To Be Followed by Board

In determining the prevailing wages of various trades and occupations being considered by the Board in the locality of the Project, the Board shall procure evidence of the wages and compensation being paid to and perquisites received by those employed in these trades and occupations from local contractors, Federal agencies (including wage scales currently being paid pursuant to minima established pursuant to the Davis-Bacon Act), private industrial employers, and others employing labor in the locality, whether pursuant to union agreements or otherwise. Hearings for the purpose of adducing evidence of wages paid in the locality may be held when, in the judgment of the Board, this is required in order to determine the prevailing rates of wages.

Based on the evidence procured as to prevailing wages and the perquisites of employment in the locality in the classifications under consideration by the Wage Board, the Board shall make its recommendations to the Secretary of the Interior as to the rates of wages to be paid to the Government employees of the classes above specified at the Project. The wages recommended shall become effective upon the date they are approved by the Secretary of the Interior, unless otherwise directed by him: *Provided,* That the Secretary of the Interior may direct the Board to reconsider any recommendation in whole or in part when, in his judgment, the recommended wage does not accord with the evidence procured as to the prevailing wage in the locality or when there is insufficient evidence to support the wage recommended.

III—Effective Period of Approved Wage Determinations

Any wage rate fixed in the manner above provided shall remain in effect until that rate has been supplanted by a different rate determined by the Wage Board with the approval of the Secretary of the Interior. Unless directed by the Secretary of the Interior to do so at other intervals, the Wage Board shall review wage rates at six-month intervals, beginning with the effective date of the first schedule of wages made in accordance with the procedure herein provided: *Provided,* That the Secretary of the Interior may direct a review at any other time, when, in his judgment, this is desirable.

Unless otherwise ordered, the Board shall be composed of these departmental representatives:

Duncan Campbell, selected from the Office of the Secretary of the Interior,

Charles A. Bissell, and S. A. McWilliams, selected from the Bureau of Reclamation.

HAROLD L. ICKES,
Secretary of the Interior.

PROCESSING OF SORGO INTO SORGO SYRUP IN LOUISIANA

APPLICATION FOR EXEMPTION FROM MAXIMUM HOURS PROVISIONS

In the matter of the application for the exemption of the processing of sorgo into sorgo syrup in Louisiana from the maximum hours provisions of the Fair Labor Standards Act of 1938, pursuant to section 7 (b) (3) of the Act and Part 526, as amended, of the regulations issued thereunder.

Whereas the American Sugar Cane League of the U. S. A., Inc., has filed an application for the exemption of the processing of sorgo into sorgo syrup in Louisiana from the maximum hours provisions of the Fair Labor Standards Act of 1938, pursuant to section 7 (b) (3) of the Act and Part 526, as amended, of the regulations issued thereunder; and

Whereas it appears from the said application that:

1. Sorgo is harvested in Louisiana during a period of twenty to forty days, beginning in the latter part of July; and

2. The processing of sorgo into sorgo syrup is similar to the process of converting sugar cane into syrup and is carried on in Louisiana in the same plants, using the same equipment and labor, which are used in the processing of the sugar cane into sugar, syrup, and molasses; and

3. The processing of sorgo into sorgo syrup in sugar processing plants in Louisiana takes place during a regularly recurring season of the year, shortly after it is harvested in order to prevent deterioration; and

4. The operating season of the plants in Louisiana engaged in the processing of sorgo into sorgo syrup and in the converting of sugar cane into sugar, syrup, and molasses bears a reasonable relationship to the fourteen workweeks exemption period provided in section 7 (b) (3) of the Act; and

5. Such plants do not engage in any other operations and close at the end of the operating season each year, except for maintenance, repair, clerical and sales work; and

Whereas it appears that the processing of sorgo into sorgo syrup in the sugar processing plants in Louisiana is an integral part of the cane sugar processing and milling branch of the cane sugar industry in Louisiana; and

Whereas the Administrator, on November 16, 1939, found that that portion of the sugar cane processing and milling branch of the cane sugar industry located in Louisiana is a branch of an industry and is of a seasonal nature, within the meaning of section 7 (b) (3) of the Fair Labor Standards Act of 1938, and of the regulations issued thereunder, and is therefore entitled to the exemption provided in section 7 (b) (3) of the Act;

Now, therefore, upon consideration of the facts stated in the said application the Administrator hereby determines, pursuant to § 526.5 (b) (ii),[1] as amended, of the regulations, that a *prima facie* case has been shown for amendment of the exemption granted under section 7 (b) (3) of the Act to that portion of the cane sugar processing and milling branch of the cane sugar industry which is located in Louisiana to include in the exemption granted to this industry the processing of sorgo into sorgo syrup.

The term "processing of sorgo into sorgo syrup" includes the operation of receiving, handling, unloading, and weighing the sorgo at the processing establishment, the extraction of the juice from the sorgo, the processing of this juice into sorgo syrup, but it does not include the subsequent processing of the sorgo syrup, and it includes the removal, handling, and conveying of the sorgo syrup to tank cars or storage tanks on or in the vicinity of the mill site, and the removal, conveying, burning, bagging, baling, and piling and storing in bags or in baled form on or in the vicinity of the mill site of bagasse resulting from the processing of sorgo into sorgo syrup, and the operations necessary or incident to the foregoing.

In accordance with the procedure established by § 526.5 (b) (ii), as amended, of the regulations, the Administrator, for fifteen days following the publication of this determination, will receive objection to the granting of the exemption and request for hearing from any person interested. Upon receipt of objection and request for hearing, the Administrator will set the application for hearing before himself or an authorized representative.

If no objection and request for hearing is received within fifteen days, the Administrator will make a finding upon the *prima facie* case.

Objections and request for hearing should be filed in writing at the National

TRI-CITY UTILITIES COMPANY AND ASSOCIATED ELECTRIC COMPANY

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 23rd day of July, A. D. 1942.

Notice is hereby given that a declaration and application have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Associated Electric Company, a registered holding company, and Tri-City Utilities Company, a wholly owned subsidiary of Associated Electric Company; and

Notice is further given that any interested person may, not later than August 7, 1942, at 5:30 p. m., E. W. T., request the Commission in writing that a hearing be held on such matters stating the reason for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration and application as filed, or as amended, may become effective and may be granted, as provided in Rule U-23 of the rules and regulations promulgated pursuant to said Act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Eighteenth and Locust Streets, Philadelphia, Pennsylvania.

All interested persons are referred to the said declaration and application, which are on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized below:

Tri-City Utilities Company was organized on April 28, 1942, under the laws of the Commonwealth of Kentucky, to assist Associated Electric Company in the disposition of certain properties owned by it but which properties are to be disposed of in connection with an integration program of Associated Electric Company and its subsidiaries. Recently Tri-City Utilities Company sold certain water production and distribution properties to the City of Mayfield, Kentucky, which sale generated approximately $400,000. It is anticipated by Tri-City that from time to time it will effect further sales of properties or assets. In order to make distribution to its parent, Associated Electric Company, of the proceeds of such sales Tri-City Utilities Company proposes to reduce its capital stock from time to time through the purchase and retirement of common stock at its par value in amounts equal to the cash available for such purposes. The total capitalization of Tri-City Utilities Company consists of common stock.

Associated Electric Company indicates that is proposes to use the cash received from Tri-City Utilities Company for one or more of the following purposes:

(a) For the purchase of bonds of Associated Electric Company;

(b) For the purchase of bonds or stocks of subsidiaries:

(c) For advances or contributions to subsidiary companies;

(d) For such other purposes as may be deemed desirable.

The filing indicates that in the judgment of the applicant and declarant sections 9 (a), 12 (c), 12 (d) and Rules U-42 and U-43 are applicable to the proposed transactions.

Upon such selection, the corps area commander will immediately forward the application with all attached papers and pertinent data obtained through interview or otherwise which were considered in the selection; the report of physical examination; statement of type of quarters to be assigned and the report through the corps area provost marshal, of investigation as to loyalty, integrity, and discretion to the War Department, accompanied by the required personnel forms. PART 1388—DEFENSE-RENTAL AREAS

[Amendment 2, Maximum Rent Regulation 19]

HOUSING ACCOMMODATIONS OTHER THAN HOTELS AND ROOMING HOUSES IN HAMPTON ROADS DEFENSE-RENTAL AREA

The title, preamble and paragraph (a) of § 1388.911[1] and the first sentence of § 1388.917[2] of Maximum Rent Regulation No. 19 are hereby amended to read as follows:

Maximum Rent Regulation No. 19 for Housing Accommodations Other Than Hotels and Rooming Houses in the Hampton Roads Defense-Rental Area.

In the judgment of the Administrator, rents for housing accommodations within the Hampton Roads Defense-Rental Area, as designated in the Designation and Rent Declaration issued by the Administrator on March 2, 1942, as amended on May 22, 1942, have not been reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in said Designation and Rent Declaration.

The Administrator has ascertained and given due consideration to the rents prevailing for housing accommodations within the Hampton Roads Defense-Rental Area on or about April 1, 1941. It is his judgment that defense activities had not resulted in increases in rents for such housing accommodations inconsistent with the purposes of the Emergency Price Control Act of 1942 prior to April 1, 1941, but did result in such increases commencing on or about that date. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this Maximum Rent Regulation No. 19 for housing accommodations within the Hampton Roads Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this Maximum Rent Regulation No. 19 is hereby issued.

* * * * *

§ 1388.917 *Registration.* On or before July 15, 1942 (or, as to housing accommodations within that part of the Defense-Rental Area other than the Independent Cities of Hampton, Newport News, Norfolk, Portsmouth, and South Norfolk, the County of Elizabeth City in its entirety, in the County of Norfolk the Magisterial Districts of Deep Creek, Tanners Creek, Washington, and Western Branch, in the County of Princess Anne the Magisterial Districts of Kempsville and Lynnhaven, and in the County of Warwick the Magisterial District of Newport, in the State of Virginia, on or before September 15, 1942), or within 30 days after the property is first rented, whichever date is the later, every landlord of housing accommodations rented or offered for rent shall file in triplicate a written statement on the form provided therefor to be known as a registration statement.

PART 1388—DEFENSE-RENTAL AREAS

[Amendment 2, Maximum Rent Regulation 22A]

HOTELS AND ROOMING HOUSES

The preamble and the first sentence and subparagraph (15) of paragraph (a) of § 1388.1551 of Maximum Rent Regulation No. 22A are hereby amended to read as follows:

In the judgment of the Administrator, rents for housing accommodations within each of the Defense-Rental Areas set out in § 1388.1551 (a) of this Maximum Rent Regulation, as designated in the Designations and Rent Declarations issued by the Administrator on March 2, 1942, as amended on April 28, 1942 and May 22, 1942 and on April 2, 1942, have not been reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in said Designations and Rent Declarations.

The Administrator has ascertained and given due consideration to the rents prevailing for housing accommodations within each such Defense-Rental Area on or about April 1, 1941. It is his judgment that defense activities had not resulted in increases in rents for such housing accommodations inconsistent with the purposes of the Emergency Price Control Act of 1942 prior to April 1, 1941, but did result in such increases commencing on or about that date. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this Maximum Rent Regulation for rooms in hotels and rooming houses within each such Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this Maximum Rent Regulation is hereby issued.

§ 1388.1551 *Scope of regulation.* (a) This Maximum Rent Regulation No. 22A applies to all rooms in hotels and rooming houses within each of the following Defense-Rental Areas (each of which is referred to hereinafter in this Maximum Rent Regulation as the "Defense-Rental Area"), as designated in the Designations and Rent Declarations (§§ 1388.51 to 1388.55, 1388.101 to 1388.105, 1388.151 to 1388.155, 1388.201 to 1388.205, 1388.251 to 1388.255, 1388.351 to 1388.355, 1388.501 to 1388.505, 1388.551 to 1388.555, 1388.601 to 1388.605, 1388.651 to 1388.655, 1388.701 to 1388.705, 1388.801 to 1388.805, 1388.851 to 1388.855, 1388.901 to 1388.905, 1388.951 to 1388.955, and 1388.1001 to 1388.1005, inclusive) [1] issued by the Administrator on March 2, 1942, as amended on April 28, 1942, and on April 2, 1942, except as provided in paragraph (b) of this section:

PART 1388—DEFENSE-RENTAL AREAS

[Amendment 1, Maximum Rent Regulation 28 [1]]

HOUSING ACCOMMODATIONS OTHER THAN HOTELS AND ROOMING HOUSES

The preamble and the first sentence and subparagraphs (1) and (8) of paragraph (a) of § 1388.1801 of Maximum Rent Regulation No. 28 are hereby amended to read as follows:

In the judgment of the Administrator, rents for housing accommodations within each of the Defense-Rental Areas set out in § 1388.1801 (a) of this Maximum Rent Regulation, as designated in the Designation and Rent Declaration issued by the Administrator on April 28, 1942, as amended on May 22, 1942, and on May 30, 1942, have not been reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in said Designation and Rent Declaration.

It is the judgment of the Administrator that by April 1, 1941, defense activities had not yet resulted in increases in rents for housing accommodations within the said Defense-Rental Areas inconsistent with the purposes of the Emergency Price Control Act of 1942. The Administrator has therefore ascertained and given due consideration to the rents prevailing for housing accommodations within each such Defense-Rental Area on or about March 1, 1942. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this Maximum Rent Regulation for housing accommodations within each such Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this Maximum Rent Regulation No. 28 is hereby issued.

§ 1388.1801 *Scope of regulation.* (a) This Maximum Rent Regulation No. 28 applies to all housing accommodations within each of the following Defense-Rental Areas (each of which is referred to hereinafter in this Maximum Rent Regulation as the "Defense-Rental Area"), as designated in the Designation and Rent Declaration (§§ 1388.1201 to 1388.1205, inclusive) issued by the Administrator on April 28, 1942, as amended on May 22, 1942, and on May 30, 1942, except as provided in paragraph (b) of this section:

(1) The San Francisco Bay Defense-Rental Area, consisting of the Counties of Alameda, Marin, Sacramento, San Francisco, San Joaquin, San Mateo, Santa Clara, Sonoma, and Yolo, in the State of California.

(8) The Northeastern New Jersey Defense-Rental Area, consisting of the Counties of Bergen, Essex, Hudson, Middlesex, Monmouth, Morris, Passaic, Somerset, Sussex, and Union, in the State of New Jersey: *Provided, however,* That with respect to that portion of the Northeastern New Jersey Defense-Rental Area consisting of the Counties of Bergen, Essex, Hudson, Middlesex, Monmouth, Morris, Passaic, Somerset, and Union, in the State of New Jersey, the words "the effective date of this Maximum Rent Regulation" in this Maximum Rent Regulation No. 28 shall mean July 1, 1942, and that with respect to the remaining portion of the Northeastern New Jersey Defense-Rental Area, the words "the effective date of this Maximum Rent Regulation" in this Maximum Rent Regulation shall mean August 1, 1942.

§ 1388.1814a *Effective dates of amendments.* (a) Amendment No. 1 (§ 1388.1801 (a)) to Maximum Rent Regulation No. 28 shall become effective August 1, 1942.

PART 1388—DEFENSE-RENTAL AREAS

[Amendment 1, Maximum Rent Regulation 32A [1]]

HOTELS AND ROOMING HOUSES

The preamble and the first sentence and subparagraphs (1) and (8) of paragraph (a) of § 1388.2001 of Maximum Rent Regulation No. 32A are hereby amended to read as follows:

In the judgment of the Administrator, rents for housing accommodations within each of the Defense-Rental Areas set out in § 1388.2001 (a) of this Maximum Rent Regulation, as designated in the Designation and Rent Declaration issued by the Administrator on April 28, 1942, as amended on May 22, 1942, and on May 30, 1942, have not been reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in said Designation and Rent Declaration.

It is the judgment of the Administrator that by April 1, 1941, defense activities had not yet resulted in increases in rents for housing accommodations within the said Defense-Rental Areas inconsistent with the purposes of the Emergency Price Control Act of 1942. The Administrator has therefore ascertained and given due consideration to the rents prevailing for housing accommodations within each such Defense-Rental Area on or about March 1, 1942. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this Maximum Rent Regulation for rooms in hotels and rooming houses within each such Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this Maximum Rent Regulation is hereby issued.

§ 1388.2001 *Scope of regulation.* (a) This Maximum Rent Regulation No. 32A applies to all rooms in hotels and rooming houses within each of the following Defense-Rental Areas (each of which is referred to hereinafter in this Maximum Rent Regulation as the "Defense-Rental Area"), as designated in the Designation and Rent Declaration (§§ 1388.1201 to 1388.1205, inclusive) issued by the Administrator on April 28, 1942, as amended on May 22, 1942, and on May 30, 1942, except as provided in paragraph (b) of this section:

(1) The San Francisco Bay Defense-Rental Area, consisting of the Counties of Alameda, Marin, Sacramento, San Francisco, San Joaquin, San Mateo, Santa Clara, Sonoma, and Yolo, in the State of California.

* * * * *

(8) The Northeastern New Jersey Defense-Rental Area, consisting of the Counties of Bergen, Essex, Hudson, Middlesex, Monmouth, Morris, Passaic, Somerset, Sussex, and Union, in the State of New Jersey: *Provided, however,* That with respect to that portion of the Northeastern New Jersey Defense-Rental Area consisting of the Counties of Bergen, Essex, Hudson, Middlesex, Monmouth, Morris, Passaic, Somerset, and Union, in the State of New Jersey, the words "the effective date of this Maximum Rent Regulation" in this Maximum Rent Regulation No. 32A shall mean July 1, 1942, and that with respect to the remaining portion of the Northeastern New Jersey Defense-Rental Area, the words "the effective date of this Maximum Rent Regulation" in this Maximum Rent Regulation shall mean August 1, 1942.

* * * * *

§ 1388.2014a *Effective dates of amendments.* (a) Amendment No. 1 (§ 1388.2001 (a)) to Maximum Rent Regulation No. 32A shall become effective August 1, 1942.

PART 1388—DEFENSE-RENTAL AREAS

[Maximum Rent Regulation 39]

HOUSING ACCOMMODATIONS OTHER THAN HOTELS AND ROOMING HOUSES IN THE VALLEJO DEFENSE-RENTAL AREA

In the judgment of the Administrator, rents for housing accommodations within

[1] 7 F.R. 4913, 5645.

[1] 7 F.R. 4926, 5645.

the San Francisco Bay Defense-Rental Area and other Defense-Rental Areas and a portion of a Defense-Rental Area set out in Maximum Rent Regulations Nos. 28 and 32A (§§ 1388.1801 to 1388.1814[1] and 1388.2001 to 1388.2014,[2] inclusive) were not reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in the Designation and Rent Declaration (§§ 1388.1201 to 1388.1205,[3] inclusive) issued by the Administrator on April 28, 1942, within sixty days after the issuance of the said Designation and Rent Declaration.

Accordingly, the Administrator issued Maximum Rent Regulations Nos. 28 and 32A for housing accommodations within each such Defense-Rental Area and the said portion of a Defense-Rental Area, effective July 1, 1942. Since the issuance of these Maximum Rent Regulations, the Administrator has found, and it is his judgment, that by April 1, 1941, defense activities already had resulted in increases in rents for housing accommodations within that portion of the San Francisco Bay Defense-Rental Area consisting of the three Counties of Contra Costa, Napa, and Solano, inconsistent with the purposes of the Emergency Price Control Act of 1942.

The Administrator has therefore ascertained and given due consideration to the rents prevailing for housing accommodations within the said three counties on or about January 1, 1941; and it is his judgment that the most recent date which does not reflect increases in rents for housing accommodations within the said three counties inconsistent with the purposes of the Act is on or about January 1, 1941. The Administrator is accordingly issuing an amendment to the said Designation and Rent Declaration issued on April 28, 1942, to strike out the said three counties from the San Francisco Bay Defense-Rental Area and to designate the said three counties as the Vallejo Defense-Rental Area. The Administrator is also issuing amendments to Maximum Rent Regulations Nos. 28 and 32A to strike out the said three counties from the description of the San Francisco Bay Defense-Rental Area set out in these Maximum Rent Regulations. The Administrator is issuing this Maximum Rent Regulation for housing accommodations within the said Vallejo Defense-Rental Area in the place of the Maximum Rent Regulation effective for such housing accommodations since July 1, 1942. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this Maximum Rent Regulation for housing accommodations within the said Vallejo Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this Maximum Rent Regulation is hereby issued.

AUTHORITY: §§ 1388.5051 to 1388.5064, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1388.5051 *Scope of regulation.* (a) This Maximum Rent Regulation No. 39 applies to all housing accommodations within the Vallejo Defense-Rental Area, as designated in the Designation and Rent Declaration (§§ 1388.1201 to 1388.1205, inclusive) issued by the Administrator on April 28, 1942, as amended (consisting of the Counties of Contra Costa, Napa, and Solano, in the State of California), except as provided in paragraph (b) of this section.

(b) This Maximum Rent Regulation does not apply to the following:

(1) Housing accommodations situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon;

(2) Dwelling space occupied by domestic servants, caretakers, managers, or other employees to whom the space is provided as part of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the dwelling space is a part;

(3) Rooms or other housing accommodations within hotels or rooming houses, or housing accommodations which have been, with the consent of the Administrator, brought under the control of the Maximum Rent Regulation for Hotels and Rooming Houses pursuant to the provisions of that Regulation: *Provided*, That this Maximum Rent Regulation does apply to entire structures or premises though used as hotels or rooming houses.

(c) The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except insofar as those provisions are inconsistent with this Maximum Rent Regulation.

(d) An agreement by the tenant to waive the benefit of any provision of this Maximum Rent Regulation is void. A tenant shall not be entitled by reason of this Maximum Rent Regulation to refuse to pay or to recover any portion of any rents due or paid for use or occupancy prior to the effective date of this Maximum Rent Regulation.

§ 1388.5052 *Prohibition against higher than maximum rents.* Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person shall demand or receive any rent for use or occupancy on and after the effective date of this Maximum Rent Regulation No. 39 of any housing accommodations within the Defense-Rental Area higher than the maximum rents provided by this Maximum Rent Regulation; and no person shall offer, solicit, attempt, or agree to do any of the foregoing. Lower rents than those provided by this Maximum Rent Regulation may be demanded or received.

§ 1388.5053 *Minimum services.* The maximum rents provided by this Maximum Rent Regulation No. 39 are for housing accommodations including, as a minimum, services of the same type, quantity, and quality as those provided on the date determining the maximum rent. If, on the effective date of this Maximum Rent Regulation, the services provided for housing accommodations are less than such minimum services the landlord shall either restore and maintain the minimum services or, within 30 days after such effective date, file a petition pursuant to § 1388.5055 (b) for approval of the decreased services. In all other cases, except as provided in § 1388.5055 (b), the landlord shall provide the minimum services unless and until an order is entered pursuant to that Section approving a decrease of such services.

§ 1388.5054 *Maximum rents.* Maximum rents (unless and until changed by the Administrator as provided in § 1388.5055) shall be:

(a) For housing accommodations rented on January 1, 1941, the rent for such accommodations on that date.

(b) For housing accommodations not rented on January 1, 1941, but rented at any time during the two months ending on that date, the last rent for such accommodations during that two month period.

(c) For housing accommodations not rented on January 1, 1941 nor during the two months ending on that date, but rented prior to the effective date of this Maximum Rent Regulation, the first rent for such accommodations after January 1, 1941. The Administrator may order a decrease in the maximum rent as provided in § 1388.5055 (c).

(d) For (1) newly constructed housing accommodations without priority rating first rented after January 1, 1941 and before the effective date of this Maximum Rent Regulation No. 39, or (2) housing accommodations changed between those dates so as to result in an increase or decrease of the number of dwelling units in such housing accommodations, or (3) housing accommodations changed between those dates from unfurnished to fully furnished, or from fully furnished to unfurnished, or (4) housing accommodations substantially changed between those dates by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, the first rent for such accommodations after such construction or change: *Provided, however*, That, where such first rent was fixed by a lease which was in force at the time of a major capital improvement, the maximum rent shall be the first rent after termination of such lease. The Administrator may order a decrease in the maximum rent as provided in § 1388.5055 (c).

(e) For (1) newly constructed housing accommodations without priority rating first rented on or after the effective date of this Maximum Rent Regulation, or (2) housing accommodations changed on or after such effective date so as to result in an increase or decrease of the number of dwelling units in such housing accommodations, or (3) housing accommodations not rented at any time between November 1, 1940 and such effective date, the rent fixed by the Administrator. The landlord shall, prior to renting and in time to allow 15 days for action thereon, file a petition requesting the Administrator to enter an order fixing the maximum rent therefor. Such order shall be entered on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941. In cases involving construction due consideration shall be given to increased costs of construction, if any, since January 1, 1941.

If no order is entered on such petition within 15 days after filing, the landlord may rent such accommodations and the first rent therefor shall be the maximum rent. Within 5 days after so renting, the landlord shall report the maximum rent. The Administrator may order a decrease in such maximum rent as provided in § 1388.5055 (c).

(f) For housing accommodations constructed with priority rating from the United States or any agency thereof for which the rent has been heretofore or is hereafter approved by the United States or any agency thereof, the rent so approved but in no event more than the first rent for such accommodations.

(g) For housing accommodations constructed by the United States or any agency thereof, or by a State of the United States or any of its political subdivisions, or any agency of the State or any of its political subdivisions, and owned by any of the foregoing, the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941, as determined by the owner of such accommodations; *Provided, however*, That any corporation formed under the laws of a State shall not be considered an agency of the United States within the meaning of this paragraph. The Administrator may order a decrease in the maximum rent as provided in § 1388.5055 (c).

§ 1388.5055 *Adjustments and other determinations.* In the circumstances enumerated in this section, the Administrator may issue an order changing the maximum rents otherwise allowable or the minimum services required. In those cases involving a major capital improvement, an increase or decrease in the furniture, furnishings or equipment, an increase or decrease of services, or a deterioration, the adjustment in the maximum rent shall be the amount the Administrator finds would have been on January 1, 1941 the difference in the rental value of the housing accommodations by reason of such change. In all other cases, except those under paragraphs (a) (7) and (c) (6) of this section, the adjustment shall be on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941. In cases involving construction due consideration shall be given to increased costs of construction, if any, since January 1, 1941. In cases under paragraphs (a) (7) and (c) (6) of this section the adjustment shall be on the basis of the rents which the Administrator finds were generally prevailing in the Defense-Rental Area for comparable housing accommodations during the year ending on January 1, 1941.

(a) Any landlord may file a petition for adjustment to increase the maximum rent otherwise allowable, only on the grounds that:

(1) There has been on or after the effective date of this Maximum Rent Regulation No. 39 a substantial change in the housing accommodations by a major capital improvement as distinguished from ordinary repair, replacement and maintenance.

(2) There was, prior to January 1, 1941, and within the six months ending on that date, a substantial change in the housing accommodations by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, and the rent on January 1, 1941, was fixed by a lease which was in force at the time of such change.

(3) There has been a substantial increase in the services, furniture, furnishings or equipment provided with the housing accommodations since the date or order determining its maximum rent.

(4) The rent on the date determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant and as a result was substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941.

(5) There was in force on January 1, 1941, a written lease, which had been in force for more than one year on that date, requiring a rent substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941; or the housing accommodations were not rented on January 1, 1941, but were rented during the two months ending on that date, and the last rent for such accommodations during that two-month period was fixed by a written lease, which was in force more than one year prior to January 1, 1941, requiring a rent substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941.

(6) The rent on the date determining the maximum rent was established by a lease or other rental agreement which provided for a substantially higher rent at other periods during the term of such lease or agreement.

(7) The rent on the date determining the maximum rent was substantially lower than at other times of year by reason of seasonal demand for such housing accommodations. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(b) If, on the effective date of this Maximum Rent Regulation the services provided for housing accommodations are less than those provided on the date determining the maximum rent, the landlord shall either restore the services to those provided on the date determining the maximum rent and maintain such services or, within 30 days after such effective date, file a petition requesting approval of the decreased services. Except as above provided, the landlord shall maintain the minimum services unless and until he has filed a petition to decrease services and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, he shall file a petition within five days after the change of services occurs. The order on any petition under this paragraph may require an appropriate adjustment in the maximum rent.

(c) The Administrator at any time, on his own initiative or on application of the tenant, may order a decrease of the maximum rent otherwise allowable, only on the grounds that;

(1) The maximum rent for housing accommodations under paragraphs (c), (d), or (g) of § 1388.5054 is higher than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941; or the maximum rent for housing accommodations under paragraph (e) of § 1388.5054 for which the rent was not fixed by the Administrator is higher than such generally prevailing rent.

(2) There has been a substantial deterioration of the housing accommodations other than ordinary wear and tear since the date or order determining its maximum rent.

(3) There has been a substantial decrease in the services, furniture, furnishings or equipment provided with the housing accommodations since the date or order determining its maximum rent.

(4) The rent on the date determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant and as a result was substantially higher than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941.

(5) The rent on the date determining the maximum rent was established by a lease or other rental agreement which provided for a substantially lower rent at other periods during the term of such lease or agreement.

(6) The rent on the date determining the maximum rent was substantially higher than at other times of year by reason of seasonal demand for such housing accommodations. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(d) If the rent on the date determining the maximum rent, or any other fact necessary to the determination of the maximum rent, is in dispute between the landlord and the tenant, or is in doubt, or is not known, the Administrator on petition of the landlord filed within 30 days after the effective date of this Maximum Rent Regulation, or at any time on his own initiative, may enter an order fixing the maximum rent by determining such fact; or if the Administrator is unable to ascertain such fact he shall enter the order on the basis of the rent which he finds was generally prevailing in the

Defense-Rental Area for comparable housing accommodations on January 1, 1941.

(c) Where, at the expiration or other termination of an underlying lease or other rental agreement, housing accommodations or a predominent part thereof are occupied by one or more subtenants or other persons occupying under a rental agreement with the tenant, the landlord may rent the entire premises for use by similar occupancy for a rent not in excess of the aggregate maximum rents of the separate dwelling units, or may rent the separate dwelling units for rents not in excess of the maximum rents applicable to such units.

Where housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons occupying under a rental agreement with the tenant, the tenant may petition the Administrator for leave to exercise any right he would have except for this Maximum Rent Regulation to sell his underlying lease or other rental agreement. The Administrator may grant such petition if he finds that the sale will not result, and that sales of such character would not be likely to result, in the circumvention or evasion of the Act or this Maximum Rent Regulation. He may require that the sale be made on such terms as he deems necessary to prevent such circumvention or evasion.

§ 1388.5056 *Restrictions on removal of tenant.* (a) So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant shall be removed from any housing accommodations, by action to evict or to recover possession, by exclusion from possession, or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated, unless:

(1) The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year but otherwise on the same terms and conditions as the previous lease or agreement except insofar as such terms and conditions are inconsistent with this Maximum Rent Regulation No. 39; or

(2) The tenant has unreasonably refused the landlord access to the housing accommodations for the purpose of inspection or of showing the accommodations to a prospective purchaser, mortgagee or prospective mortgagee, or other person having a legitimate interest therein: *Provided, however,* That such refusal shall not be ground for removal or eviction if such inspection or showing of the accommodations is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure, such violation after written notice by the landlord that the violation cease, or (ii) is committing or permitting a nuisance or is using or permitting a use of the housing accommodations for an immoral or illegal purpose; or

(4) The tenant's lease or other rental agreement has expired or otherwise terminated, and at the time of termination the housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons who occupied under a rental agreement with the tenant; or

(5) The landlord seeks in good faith to recover possession for the immediate purpose of demolishing the housing accommodations or of substantially altering or remodeling it in a manner which cannot practicably be done with the tenant in occupancy and the plans for such alteration or remodeling have been approved by the proper authorities, if such approval is required by local law; or

(6) The landlord seeks in good faith to recover possession of the housing accommodations for immediate use and occupancy as a dwelling by himself, his family or dependents; or he has in good faith contracted in writing to sell the accommodations for immediate use and occupancy by a purchaser, who in good faith has represented in writing that he will use the accommodations as a dwelling for himself, his family or dependents; or the landlord seeks in good faith not to offer the housing accommodations for rent. If a tenant has been removed or evicted under this paragraph (a) (6) from housing accommodations, such accommodations shall not be rented for a period of six months after such removal or eviction without permission of the Administrator. The landlord may petition the Administrator for permission to rent the accommodations during such six-month period, and the Administrator shall grant such permission if he finds that the action was in good faith and not for the purpose of evading any provision of the Act or this Maximum Rent Regulation.

(b) No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the Act or this Maximum Rent Regulation and would not be likely to result in the circumvention or evasion thereof.

(c) The provisions of this section do not apply to a subtenant or other person who occupied under a rental agreement with the tenant, where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant.

(d) At the time of commencing any action to remove or evict a tenant (except an action based on non-payment of a rent not in excess of the maximum rent) the landlord shall give written notice thereof to the Area Rent Office stating the title and number of the case, the court in which it is filed, the name and address of the tenant and the grounds on which eviction is sought.

(e) No provision of this section shall be construed to authorize the removal of a tenant unless such removal is authorized under the the local Law.

§ 1388.5057 *Registration.* Within 45 days after the effective date of this Maximum Rent Regulation No. 39, or within 30 days after the property is first rented, whichever date is the later, every landlord of housing accommodations rented or offered for rent shall file in triplicate a written statement on the form provided therefor to be known as a registration statement. The statement shall identify each dwelling unit and specify the maximum rent provided by this Maximum Rent Regulation for such dwelling unit and shall contain such other information as the Administrator shall require. The original shall remain on file with the Administrator and he shall cause one copy to be delivered to the tenant and one copy, stamped to indicate that it is a correct copy of the original, to be returned to the landlord. In any subsequent change of tenancy the landlord shall exhibit to the new tenant his stamped copy of the registration statement, and shall obtain the tenant's signature and the date thereof on the back of such statement. Within five days after renting to a new tenant, the landlord shall file a notice on the form provided therefor, on which he shall obtain the tenant's signature, stating that there has been a change in tenancy, that the stamped copy of the registration statement has been exhibited to the new tenant and that the rent for such accommodations is in conformity therewith.

No payment of rent need be made unless the landlord tenders a receipt for the amount to be paid.

When the maximum rent is changed by order of the Administrator the landlord shall deliver his stamped copy of the registration statement to the Area Rent Office for appropriate action reflecting such change.

§ 1388.5058 *Inspection.* Any person who rents or offers for rent or acts as a broker or agent for the rental of housing accommodations and any tenant shall permit such inspection of the accommodations by the Administrator as he may, from time to time, require.

§ 1388.5059 *Evasion.* The maximum rents and other requirements provided in this Maximum Rent Regulation No. 39 shall not be evaded, either directly or indirectly, in connection with the renting or leasing or the transfer of a lease of housing accommodations. by way of absolute or conditional sale, sale with purchase money or other form of mortgage, or sale with option to repurchase, or by modification of the practices relating to payment of commissions or other charges, or by modification of the services furnished with housing accommodations, or otherwise.

§ 1388.5060 *Enforcement.* Persons violating any provision of this Maximum Rent Regulation No. 39 are subject to criminal penalties, civil enforcement actions and suits for treble damages as provided for by the Act.

PART 1388—DEFENSE-RENTAL AREAS

[Maximum Rent Regulation 40A]

HOTELS AND ROOMING HOUSES IN THE VALLEJO DEFENSE-RENTAL AREA

In the judgment of the Administrator, rents for housing accommodations within the San Francisco Bay Defense-Rental Area and other Defense-Rental Areas and a portion of a Defense-Rental Area set out in Maximum Rent Regulations Nos. 28 and 32A (§§ 1388.1801 to 1388.1814[1] and 1388.2001 to 1388.2014,[2] inclusive) were not reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in the Designation and Rent Declaration (§§ 1388.1201 to 1388.1205,[3] inclusive) issued by the Administrator on April 28, 1942, within sixty days after the issuance of the said Designation and Rent Declaration.

Accordingly, the Administrator issued Maximum Rent Regulations Nos. 28 and 32A for housing accommodations within each such Defense-Rental Area and the said portion of a Defense-Rental Area, effective July 1, 1942. Since the issuance of these Maximum Rent Regulations, the Administrator has found, and it is his judgment, that by April 1, 1941, defense activities already had resulted in increases in rents for housing accommodations within that portion of the San Francisco Bay Defense-Rental Area consisting of the three Counties of Contra Costa, Napa, and Solano, inconsistent with the purposes of the Emergency Price Control Act of 1942.

The Administrator has therefore ascertained and given due consideration to the rents prevailing for housing accommodations within the said three counties on or about January 1, 1941; and it is his judgment that the most recent date which does not reflect increases in rents for housing accommodations within the said three counties inconsistent with the purposes of the Act is on or about January 1, 1941. The Administrator is accordingly issuing an amendment to the said Designation and Rent Declaration issued on April 28, 1942, to strike out the said three counties from the San Francisco Bay Defense-Rental Area and to designate the said three counties as the Vallejo Defense-Rental Area. The Administrator is also issuing amendments to Maximum Rent Regulations Nos. 28 and 32A to strike out the said three counties from the description of the San Francisco Bay Defense-Rental Area set out in these Maximum Rent Regulations. The Administrator is issuing this Maximum Rent Regulation for housing accommodations within the said Vallejo Defense-Rental Area in the place of the Maximum Rent Regulation effective for such housing accommodations since July 1, 1942. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this Maximum Rent Regulation for rooms in hotels and rooming houses within the said Vallejo Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this Maximum Rent Regulation No. 40A is hereby issued.

AUTHORITY: §§ 1388.6001 to 1388.6014, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1388.6001 *Scope of regulation.* (a) This Maximum Rent Regulation No. 40A applies to all rooms in hotels and rooming houses within the Vallejo Defense-Rental Area, as designated in the Designation and Rent Declaration (§§ 1388.1201 to 1388.1205, inclusive) issued by the Administrator on April 28, 1942, as amended (consisting of the Counties of Contra Costa, Napa, and Solano, in the State of California), except as provided in paragraph (b) of this section.

(b) This Maximum Rent Regulation does not apply to the following:

(1) Rooms situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon;

[1] 7 F.R. 4913, 5645.
[2] 7 F.R. 4926, 5645.
[3] 7 F.R. 3195, 3892, 4179.

(2) Rooms occupied by domestic servants, caretakers, managers, or other employees to whom the rooms are provided as part of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the rooms are a part;

(3) Rooms in hospitals, or rooms of charitable or educational institutions used in carrying out their charitable or educational purposes;

(4) Entire structures or premises used as hotels or rooming houses, as distinguished from the rooms within such hotels or rooming houses.

(c) The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except insofar as those provisions are inconsistent with this Maximum Rent Regulation.

(d) An agreement by the tenant to waive the benefit of any provision of this Maximum Rent Regulation is void. A tenant shall not be entitled by reason of this Maximum Rent Regulation to refuse to pay or to recover any portion of any rents due or paid for use or occupancy prior to the effective date of this Maximum Rent Regulation.

(e) Where a building or establishment which does not come within the definitions of a hotel or rooming house contains one or more furnished rooms or other furnished housing accommodations rented on a daily, weekly or monthly basis, the landlord may, with the consent of the Administrator, elect to bring all housing accommodations within such building or establishment under the control of this Maximum Rent Regulation. A landlord who so elects shall file a registration statement under this Maximum Rent Regulation for all such housing accommodations, accompanied by a written request to the Administrator to consent to such election.

If the Administrator finds that the provisions of this Maximum Rent Regulation establishing maximum rents are better adapted to the rental practices for such building or establishment than the provisions of the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses, he shall consent to the landlord's election. Upon such consent, all housing accommodations within such building or establishment which are or hereafter may be rented or offered for rent shall become subject to the provisions of this Maximum Rent Regulation, and shall be considered rooms within a rooming house for the purposes of the provisions relating to eviction.

The landlord may at any time, with the consent of the Administrator, revoke his election, and thereby bring under the control of the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses all housing accommodations previously brought under this Maximum Rent Regulation by such election. He shall make such revocation by filing a registration statement or statements under the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses, including in such registration statement or statements all housing accommodations brought under this Maximum Rent Regulation by such election. Such registration statement or statements shall be accompanied by a written request to the Administrator to consent to such revocation. The Administrator may defer action on such request if he has taken or is about to take action to decrease the maximum rents of any housing accommodations within such building or establishment. If the Administrator finds that the revocation so requested will not result in substantial increases in the maximum rents of housing accommodations affected by such revocation, he shall give such consent. Upon such consent, all housing accommodations affected by such revocation shall become subject to the provisions of the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses.

§ 1388.6002 *Prohibitions.* (a) Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person shall demand or receive any rent for use or occupancy on and after the effective date of this Maximum Rent Regulation No. 40A of any room in a hotel or rooming house within the Defense-Rental Area higher than the maximum rents provided by this Maximum Rent Regulation; and no person shall offer, solicit, attempt, or agree to do any of the foregoing. Lower rents than those provided by this Maximum Rent Regulation may be demanded or received.

(b) No tenant shall be required to change his term of occupancy if that will result in the payment of a higher amount per day than the maximum rent established for his present term of occupancy. Where, on June 15, 1942, or between that date and the effective date of this Maximum Rent Regulation, a room was regularly rented or offered for rent for a weekly or monthly term of occupancy, the landlord shall continue to offer the room for rent for that term of occupancy, unless he offers another term of occupancy for a rent which results in the payment of an amount no higher per day.

§ 1388.6003 *Minimum services.* The maximum rents provided by this Maximum Rent Regulation No. 40A are for rooms including, as a minimum, services of the same type, quantity, and quality as those provided on the date or during the thirty-day period determining the maximum rent. If, on the effective date of this Maximum Rent Regulation, the services provided for rooms are less than such minimum services, the landlord shall either restore and maintain the minimum services, or within 30 days after such effective date, file a petition pursuant to § 1388.6005 (b) for approval of the decreased services. In all other cases, except as provided in § 1388.6005 (b), the landlord shall provide the minimum services unless and until an order is entered pursuant to that section approving a decrease of such services.

§ 1388.6004 *Maximum rents.* This section establishes separate maximum rents for different terms of occupancy (daily, weekly or monthly) and numbers of occupants of a particular room. Maximum rents for rooms in a hotel or rooming house unless and until changed by the Administrator as provided in § 1388.6005 shall be:

(a) For a room rented or regularly offered for rent during the thirty days ending on January 1, 1941, the highest rent for each term or number of occupants for which the room was rented during that thirty-day period; or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(b) For a room neither rented nor regularly offered for rent during the thirty days ending on January 1, 1941, the highest rent for each term or number of occupants for which the room was rented during the thirty days commencing when it was first offered for rent after January 1, 1941; or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(c) For a room rented for a particular term or number of occupants for which no maximum rent is established under paragraphs (a) or (b) of this section, the first rent for the room after January 1, 1941, for that term and number of occupants, but not more than the maximum rent for similar rooms for the same term and number of occupants in the same hotel or rooming house.

(d) For a room constructed by the United States or any agency thereof, or by a State of the United States or any of its political subdivisions, or any agency of the State or any of its political subdivisions, and owned by any of the foregoing, the rent generally prevailing in the Defense-Rental Area for comparable rooms on January 1, 1941, as determined by the owner of such room: *Provided, however,* That any corporation formed under the laws of a State shall not be considered an agency of the United States within the meaning of this paragraph. The Administrator may order a decrease in the maximum rent as provided in § 1388.6005 (c) (1).

(3) For a room with which meals were provided during the thirty-day period determining the maximum rent without separate charge therefor, the rent apportioned by the landlord from the total charge for the room and the meals. The landlord's apportionment shall be fair and reasonable and shall be reported in the registration statement for such room. The Administrator at any time on his own initiative or on application of the tenant may by order decrease the maximum rent established by such apportionment if he finds that the apportionment was unfair or unreasonable.

Every landlord who provides meals with accommodations shall make separate charges for the two. No landlord shall require the taking of meals as a condition of renting any room unless the room was rented or offered for rent on that basis on June 15, 1942.

§ 1388.6005 *Adjustments and other determinations.* In the circumstances enumerated in this Section, the Administrator may issue an order changing the maximum rents otherwise allowable or the minimum services required. Except in cases under paragraphs (a) (7) and (c) (4) of this section, every adjustment of a maximum rent shall be on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable rooms on January 1, 1941: *Provided, however,* That no maximum rent shall be increased, because of a major capital improvement or an increase in services, furniture, furnishings or equipment, by more than the amount which the Administrator finds would have been on January 1, 1941, the difference in the rental value of the accommodations by reason of such improvement or increase. In cases involving construction due consideration shall be given to increased costs of construction, if any, since January 1, 1941. In cases under paragraphs (a) (7) and (c) (4) of this section the adjustment shall be on the basis of the rents which the Administrator finds were generally prevailing in the Defense-Rental Area for comparable rooms during the year ending January 1, 1941.

(a) Any landlord may file a petition for adjustment to increase the maximum rent otherwise allowable, only on the grounds that:

(1) There has been, since the thirty-day period or the order determining the maximum rent for the room, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement and maintenance.

(2) There was, on or prior to January 1, 1941, and within the six months ending on that date, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, and the rent during the thirty-day period ending on January 1, 1941, was fixed by a lease which was in force at the time of such change.

(3) There has been a substantial increase in the services, furniture, furnishings or equipment provided with the room since the thirty-day period or the order determining its maximum rent.

(4) The rent during the thirty-day period determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant, or by an allowance or discount to a tenant of a class of persons to whom the landlord regularly offered such an allowance or discount, and as a result was substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable rooms on January 1, 1941.

(5) There was in force on January 1, 1941, a written lease, which had been in force for more than one year on that date, requiring a rent substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable rooms on January 1, 1941.

(6) The rent during the thirty-day period determining the maximum rent was established by a lease or other rental agreement which provided for a substantially higher rent at other periods during the term of such lease or agreement.

(7) The rent during the thirty-day period determining the maximum rent for the room was substantially lower than at other times of year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(b) If, on the effective date of this Maximum Rent Regulation No. 40A, the services provided for a room are less than those provided on the date or during the thirty-day period determining the maximum rent, the landlord shall either restore the services to those provided on the date or during the thirty-day period determining the maximum rent and maintain such services, or, within 30 days after such effective date, file a petition requesting approval of the decreased services. Except as above provided, the landlord shall maintain the minimum services unless and until he has filed a petition to decrease services and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, he shall file a petition within five days after the change of services occurs. The order on any petition under this paragraph may require an appropriate adjustment in the maximum rent.

(c) The Administrator at any time, on his own initiative or on application of the tenant, may order a decrease of the maximum rent otherwise allowable, only on the grounds that:

(1) The maximum rent for the room is higher than the rent generally prevailing in the Defense-Rental Area for comparable rooms on January 1, 1941.

(2) There has been a substantial deterioration of the room other than ordinary wear and tear since the date or order determining its maximum rent.

(3) There has been a substantial decrease in the services, furniture, furnishings or equipment provided with the room since the date or order determining its maximum rent.

(4) The rent on the date determining the maximum rent for the room was substantially higher than at other times of year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(d) If the rent on the date determining the maximum rent, or any other fact necessary to the determination of the maximum rent, is in dispute between the landlord and the tenant, or is in doubt, or is not known, the Administrator on petition of the landlord filed within 30 days after the effective date of this Maximum Rent Regulation, or at any time on his own initiative, may enter an order fixing the maximum rent by determining such fact; or if the Administrator is unable to ascertain such fact he shall enter the order on the basis of the rent which he finds was generally prevailing in the Defense-Rental Area for comparable rooms on January 1, 1941.

§ 1388.6006 *Restrictions on removal of tenant.* (a) So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant of a room within a hotel or rooming house shall be removed from such room, by action to evict or to recover possession, by exclusion from possession, or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated, unless;

(1) The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year but otherwise on the same terms and conditions as the previous lease or agreement except insofar as such terms and conditions are inconsistent with this Maximum Rent Regulation No. 40A; or

(2) The tenant has unreasonably refused the landlord access to the room for the purpose of inspection or of showing the room to a prospective purchaser, mortgagee or porspective mortgagee, or other person having a legitimate interest therein: *Provided, however,* That such refusal shall not be ground for removal or eviction if such inspection or showing of the room is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure, such violation after written notice by the landlord that the violation cease, or (ii) is committing or permitting a nuisance or is using or permitting a use of the room for an immoral or illegal purpose; or

(4) The landlord seeks in good faith to recover possession for the immediate purpose of demolishing the room or of substantially altering or remodeling it in a manner which cannot practicably be done with the tenant in occupancy and the plans for such alteration or remodeling have been approved by the proper authorities, if such approval is required by local law; or

(5) The landlord seeks in good faith not to offer the room for rent. If a tenant has been removed or evicted from a room under this paragraph (a) (5), such room shall not be rented for a period of six months after such removal or eviction without permission of the Administrator. The landlord may petition the Administrator for permission to rent the room during such six month period, and the Administrator shall grant such permission if he finds that the action was in good faith and not for the purpose of evading any provision of the Act or this Maximum Rent Regulation.

(b) No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the

purposes of the Act or this Maximum Rent Regulation and would not be likely to result in the circumvention or evasion thereof.

(c) At the time of commencing any action to remove or evict a tenant (except an action based on non-payment of a rent not in excess of the maximum rent) the landlord shall give written notice thereof to the Area Rent Office stating the title and number of the case, the court in which it is filed, the name and address of the tenant and the grounds on which eviction is sought.

(d) The provisions of this section do not apply to:

(1) A subtenant or other person who occupied under a rental agreement with the tenant, where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant; or

(2) A tenant occupying a room within a hotel on a daily or weekly basis; or a tenant occupying on a daily basis a room within a rooming house which has heretofore usually been rented on daily basis.

No provision of this section shall be construed to authorize the removal of a tenant unless such removal is authorized under the local law.

§ 1388.6007 *Registration.* (a) Within 45 days after the effective date of this Maximum Rent Regulation No. 40A, every landlord of a room rented or offered for rent shall file a written statement on the form provided therefor, containing such information as the Administrator shall require, to be known as a registration statement. Any maximum rent established after the effective date of this Maximum Rent Regulation under paragraphs (b) or (c) of § 1388.6004 shall be reported either on the first registration statement or on a statement filed within 5 days after such rent is established.

(b) Every landlord shall conspicuously display in each room rented or offered for rent a card or sign plainly stating the maximum rent or rents for all terms of occupancy and for all numbers of occupants for which the room is rented or offered for rent. Where the taking of meals by the tenant or prospective tenant is a condition of renting such room, the card or sign shall so state. Should the maximum rent or rents for the room be changed by order of the Administrator, the landlord shall alter the card or sign so that it states the changed rent or rents.

(c) No payment of rent need be made unless the landlord tenders a receipt for the amount to be paid.

§ 1388.6008 *Inspection.* Any person who rents or offers for rent or acts as a broker or agent for the rental of a room and any tenant shall permit such inspection of the room by the Administrator as he may, from time to time, require.

§ 1388.6009 *Evasion.* The maximum rents and other requirements provided in this Maximum Rent Regulation No. 40A shall not be evaded, either directly or indirectly, in connection with the renting or leasing or the transfer of a lease of a room, by requiring the tenant to pay or obligate himself for membership or other fees, or by modification of the practices relating to payment of commissions or other charges, or by modification of the services furnished with the room, or otherwise.

§ 1388.6010 *Enforcement.* Persons violating any provision of this Maximum Rent Regulation No. 40A are subject to criminal penalties, civil enforcement actions and suits for treble damages as provided for by the Act.

§ 1388.6011 *Procedure.* All registration statements, reports and notices provided for by this Maximum Rent Regulation No. 40A shall be filed with the Area Rent Office. All landlord's petitions and tenant's applications shall be filed with such office in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

§ 1388.6012 *Petitions for amendment.* Persons seeking any amendment of general applicability to any provision of this Maximum Rent Regulation No. 40A may file petitions therefor in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247[1], inclusive).

PART 1388—DEFENSE-RENTAL AREAS

[Maximum Rent Regulation 41]

HOUSING ACCOMMODATIONS OTHER THAN HOTELS AND ROOMING HOUSES IN THE GAINESVILLE-STARKE DEFENSE-RENTAL AREA

In the judgment of the Administrator, rents for housing accommodations within the Gainesville-Starke Defense-Rental Area designated in the Designation and Rent Declaration issued by the Administrator on April 28, 1942, have not been reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in the said Designation and Rent Declaration.

It is the judgment of the Administrator that by April 1, 1941, defense activities already had resulted in increases in rents for housing accommodations within the Gainesville-Starke Defense-Rental Area inconsistent with the purposes of the Emergency Price Control Act of 1942. The Administrator has therefore ascertained and given due consideration to the rents prevailing for housing accommodations within the Gainesville-Starke Defense-Rental Area on or about January 1, 1941; and it is his judgment that the most recent date which does not reflect increases in rents for such housing accommodations inconsistent with the purposes of the Act is on or about that date. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this Maximum Rent Regulation for housing accommodations within the Gainesville-Starke Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this Maximum Rent Regulation No. 41 is hereby issued.

AUTHORITY: §§ 1388.6051 to 1388.6064, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1388.6051 *Scope of regulation.* (a) This Maximum Rent Regulation No. 41 applies to all housing accommodations within the Gainesville-Starke Defense-Rental Area designated in the Designation and Rent Declaration (§§ 1388.1051 to 1388.1055,[1] inclusive) issued by the Administrator on April 28, 1942 (consisting of the Counties of Alachua, Bradford, and Clay, in the State of Florida), except as provided in paragraph (b) of this section.

(b) This Maximum Rent Regulation does not apply to the following:

(1) Housing accommodations situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon;

(2) Dwelling space occupied by domestic servants, caretakers, managers, or other employees to whom the space is provided as part of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the dwelling space is a part;

(3) Rooms or other housing accommodations within hotels or rooming houses, or housing accommodations which have been, with the consent of the Administrator, brought under the control of the Maximum Rent Regulation for Hotels and Rooming Houses pursuant to the provisions of that Regulation: *Provided,* That this Maximum Rent Regulation does apply to entire structures or premises though used as hotels or rooming houses.

(c) The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except insofar as those provisions are inconsistent with this Maximum Rent Regulation.

(d) An agreement by the tenant to waive the benefit of any provision of this Maximum Rent Regulation is void. A tenant shall not be entitled by reason of this Maximum Rent Regulation to refuse to pay or to recover any portion of any rents due or paid for use or occupancy prior to the effective date of this Maximum Rent Regulation.

§ 1388.6052 *Prohibition against higher than maximum rents.* Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person shall demand or receive any rent for use or occupancy on and after the effective date of this Maximum Rent Regulation No. 41 of any housing accommodations within the Defense-Rental Area higher than the maximum rents provided by this Maximum Rent Regulation; and no person shall offer, solicit, attempt, or agree to do any of the foregoing. Lower rents than those provided by this Maximum Rent Regulation may be demanded or received.

§ 1388.6053 *Minimum services.* The maximum rents provided by this Maximum Rent Regulation are for housing accommodations including, as a minimum, services of the same type, quantity, and quality as those provided on the date determining the maximum rent. If, on the effective date of this Maximum Rent Regulation No. 41, the services provided for housing accommodations are less than such minimum services, the landlord shall either restore and maintain the minimum services or, within 30 days after such effective date, file a petition pursuant to § 1388.6055 (b) for approval of the decreased services. In all other cases, except as provided in § 1388.6055 (b), the landlord shall provide the minimum services unless, and until an order is entered pursuant to that section approving a decrease of such services.

§ 1388.6054 *Maximum rents.* Maximum rents (unless and until changed by the Administrator as provided in § 1388.6055) shall be:

(a) For housing accommodations rented on January 1, 1941, the rent for such accommodations on that date.

(b) For housing accommodations not rented on January 1, 1941, but rented at any time during the two months ending on that date, the last rent for such accommodations during that two-month period.

(c) For housing accommodations not rented on January 1, 1941 nor during the two months ending on that date, but rented prior to the effective date of this Maximum Rent Regulation No. 41, the first rent for such accommodations after January 1, 1941. The Administrator may order a decrease in the maximum rent as provided in § 1388.6055 (c).

(d) For (1) newly constructed housing accommodations without priority rating first rented after January 1, 1941 and before the effective date of this Maximum Rent Regulation, or (2) housing accommodations changed between those dates so as to result in an increase or decrease of the number of dwelling units in such housing accommodations, or (3) housing accommodations changed between those dates from unfurnished to fully furnished, or from fully furnished or unfurnished, or (4) housing accommodations substantially changed between those dates by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, the first rent for such accommodations after such construction or change: *Provided, however,* That, where such first rent was fixed by a lease which was in force at the time of a major capital improvement, the maximum rent shall be the first rent after termination of such lease. The Administrator may order a decrease in the maximum rent as provided in § 1388.6055 (c).

(e) For (1) newly constructed housing accommodations without priority rating first rented on or after the effective date of this Maximum Rent Regulation, or (2) housing accommodations changed on or after such effective date so as to result in an increase or decrease of the number of dwelling units in such housing accommodations not rented at any time between November 1, 1940 and such effective date, the rent fixed by the Administrator. The landlord shall, prior to renting and in time to allow 15 days for action thereon, file a petition requesting the Administrator to enter an order fixing the maximum rent therefor. Such order shall be entered on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941. In cases involving construction due consideration shall be given to increased costs of construction if any, since January 1, 1941.

If no order is entered on such petition within 15 days after filing, the landlord may rent such accommodations and the first rent therefor shall be the maximum rent. Within 5 days after so renting, the landlord shall report the maximum rent. The Administrator may order a decrease in such maximum rent as provided in § 1388.6055 (c).

(f) For housing accommodations constructed with priority rating from the United States or any agency thereof for which the rent has been heretofore or is hereafter approved by the United States or any agency thereof, the rent so approved but in no event more than the first rent for such accommodations.

(g) For housing accommodations constructed by the United States or any agency thereof, or by a State of the United States or any of its political subdivisions, or any agency of the State or any of its political subdivisions, and

[1] 7 F.R. 3192, 4797.

owned by any of the foregoing, the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941, as determined by the owner of such accommodations; *Provided, however,* That any corporation formed under the law of a State shall not be considered an agency of the United States within the meaning of this paragraph. The Administrator may order a decrease in the maximum rent as provided in § 1388.6055 (c).

§ 1388.6055 *Adjustments and other determinations.* In the circumstances enumerated in this section, the Administrator may issue an order changing the maximum rents otherwise allowable or the minimum services required. In those cases involving a major capital improvement, an increase or decrease in the furniture, furnishings or equipment, an increase or decrease of services, or a deterioration, the adjustment in the maximum rent shall be the amount the Administrator finds would have been on January 1, 1941 the difference in the rental value of the housing accommodations by reason of such change. In all other cases, except those under paragraphs (a) (7) and (c) (6) of this section, the adjustment shall be on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941. In cases involving construction due consideration shall be given to increased costs of construction, if any, since January 1, 1941. In cases under paragraphs (a) (7) and (c) (6) of this section the adjustment shall be on the basis of the rents which the Administrator finds were generally prevailing in the Defense-Rental Area for comparable housing accommodations during the year ending on January 1, 1941.

(a) Any landlord may file a petition for adjustment to increase the maximum rent otherwise allowable, only on the grounds that:

(1) There has been on or after the effective date of this Maximum Rent Regulation No. 41 a substantial change in the housing accommodations by a major capital improvement as distinguished from ordinary repair, replacement and maintenance.

(2) There was, prior to January 1, 1941 and within the six months ending on that date, a substantial change in the housing accommodations by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, and the rent on January 1, 1941, was fixed by a lease which was in force at the time of such change.

(3) There has been a substantial increase in the services, furniture, furnishings or equipment provided with the housing accommodations since the date or order determining its maximum rent.

(4) The rent on the date determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant and as a result was substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941.

(5) There was in force on January 1, 1941 a written lease, which had been in force for more than one year on that date, requiring a rent substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941; or the housing accommodations were not rented on January 1, 1941, but were rented during the two months ending on that date, and the last rent for such accommodations during that two-month period was fixed by a written lease, which was in force more than one year prior to January 1, 1941, requiring a rent substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941.

(6) The rent on the date determining the maximum rent was established by a lease or other rental agreement which provided for a substantially higher rent at other periods during the term of such lease or agreement.

(7) The rent on the date determining the maximum rent was substantially lower than at other times of year by reason of seasonal demand for such housing accommodations. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(b) If, on the effective date of this Maximum Rent Regulation, the services provided for housing accommodations are less than those provided on the date determining the maximum rent, the landlord shall either restore the services to those provided on the date determining the maximum rent and maintain such services or, within 30 days after such effective date, file a petition requesting approval of the decreased services. Except as above provided, the landlord shall maintain the minimum services unless and until he has filed a petition to decrease services and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, he shall file a petition within five days after the change of services occurs. The order on any petition under this paragraph may require an appropriate adjustment in the maximum rent.

(c) The Administrator at any time, on his own initiative or an application of the tenant, may order a decrease of the maximum rent otherwise allowable, only on the grounds that:

(1) The maximum rent for housing accommodations under paragraphs (c), (d), or (g) of § 1388.6054 is higher than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941; or the maximum rent for housing accommodations under paragraph (e) of § 1388.6054 for which the rent was not fixed by the Administrator is higher than such generally prevailing rent.

(2) There has been a substantial deterioration of the housing accommodations other than ordinary wear and tear since the date or order determining its maximum rent.

(3) There has been a substantial decrease in the services, furniture, furnishings or equipment provided with the housing accommodations since the date or order determining its maximum rent.

(4) The rent on the date determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant and as a result was substantially higher than the rent generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941.

(5) The rent on the date determining the maximum rent was established by a lease or other rental agreement, which provided for a substantially lower rent at other periods during the term of such lease or agreement.

(6) The rent on the date determining the maximum rent was substantially higher than at other times of year by reason of seasonal demand for such housing accommodations. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(d) If the rent on the date determining the maximum rent, or any other fact necessary to the determination of the maximum rent, is in dispute between the landlord and the tenant, or is in doubt, or is not known, the Administrator on petition of the landlord filed within 30 days after the effective date of this Maximum Rent Regulation, or at any time on his own initiative, may enter an order fixing the maximum rent by determining such fact; or if the Administrator is unable to ascertain such fact he shall enter the order on the basis of the rent which he finds was generally prevailing in the Defense-Rental Area for comparable housing accommodations on January 1, 1941.

(e) Where, at the expiration or other termination of an underlying lease or other rental agreement, housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons occupying under a rental agreement with the tenant, the landlord may rent the entire premises for use by similar occupancy for a rent not in excess of the aggregate maximum rents of the separate dwelling units, or may rent the separate dwelling units for rents not in excess of the maximum rents applicable to such units.

Where housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons occupying under a rental agreement with the tenant, the tenant may petition the Administrator for leave to exercise any right he would have except for this Maximum Rent Regulation to sell his underlying lease or other rental agreement. The Administrator may grant such petition if he finds that the sale will not result, and that sales of such character would not be likely to result, in the circumvention or evasion of the Act or this Maximum Rent Regulation. He may require that the sale be made on such terms as he deems necessary to prevent such circumvention or evasion.

§ 1388.6056 *Restrictions on removal of tenant.* (a) So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant shall be removed from any housing accommodations, by action to evict or to recover possession, by exclusion from possession, or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated, unless:

(1) The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year but otherwise on the same terms and conditions as the previous lease or agreement except insofar as such terms and conditions are inconsistent with this Maximum Rent Regulation; or

(2) The tenant has unreasonably refused the landlord access to the housing accommodations for the purpose of inspection or of showing the accommodations to a prospective purchaser, mortgagee or prospective mortgagee, or other person having a legitimate interest therein: *Provided, however,* That such refusal shall not be ground for removal or eviction if such inspection or showing of the accommodations is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure, such violation after written notice by the landlord that the violation cease, or (ii) is committing or permitting a nuisance or is using or permitting a use of the housing accomodations for an immoral or illegal purpose; or

(4) The tenant's lease or other rental agreement has expired or otherwise terminated, and at the time of termination the housing accommodations or a predominant part thereof are occupied by one or more subtenants or other persons who occupied under a rental agreement with the tenant; or

(5) The landlord seeks in good faith to recover possession for the immediate purpose of demolishing the housing accommodations or of substantially altering or remodeling it in a manner which cannot practicably be done with the tenant in occupancy and the plans for such alteration or remodeling have been approved by the proper authorities, if such approval is required by local law; or

(6) The landlord seeks in good faith to recover possession of the housing accommodations for immediate use and occupancy as a dwelling by himself, his family or dependents; or he has in good faith contracted in writing to sell the accommodations for immediate use and occupancy by a purchaser, who in good faith has represented in writing that he will use the accommodations as a dwelling for himself, his family or dependents; or the landlord seeks in good faith not to offer the housing accommodations for rent. If a tenant has been removed or evicted under this paragraph (a) (6) from housing accommodations, such accommodations shall not be rented for a period of six months after such removal or eviction without permission of the Administrator. The landlord may petition the Administrator for permission to rent the accommodations during such six-month period, and the Administrator shall grant such permission if he finds that the action was in good faith and not for the purpose of evading any provision of the Act or this Maximum Rent Regulation No. 41.

(b) No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the Act or this Maximum Rent Regulation and would not be likely to result in the circumvention or evasion thereof.

(c) The provisions of this section do not apply to a subtenant or other person who occupied under a rental agreement with the tenant, where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant.

(d) At the time of commencing any action to remove or evict a tenant (except an action based on nonpayment of a rent not in excess of the maximum rent) the landlord shall give written notice thereof to the Area Rent Office stating the title and number of the case, the court in which it is filed, and the name and address of the tenant and the grounds on which eviction is sought.

(e) No provision of this section shall be construed to authorize the removal of a tenant unless such removal is authorized under the local law.

§ 1388.6057 *Registration.* Within 45 days after the effective date of this Maximum Rent Regulation No. 41, or within 30 days after the property is first rented, whichever date is the later, every landlord of housing accommodations rented or offered for rent shall file in triplicate a written statement on the form provided therefor to be known as a registration statement. The statement shall identify each dwelling unit and specify the maximum rent provided by this Maximum Rent Regulation for such dwelling unit and shall contain such other information as the Administrator shall require. The original shall remain on file with the Administrator and he shall cause one copy to be delivered to the tenant and one copy, stamped to indicate that it is a correct copy of the original, to be returned to the landlord. In any subsequent change of tenancy the landlord shall exhibit to the new tenant his stamped copy of the registration statement, and shall obtain the tenant's signature and the date thereof on the back of such statement. Within five days after renting to a new tenant, the landlord shall file a notice on the form provided therefor, on which he shall obtain the tenant's signature, stating that there has been a change in tenancy, that the stamped copy of the registration statement has been exhibited to the new tenant and that the rent for such accommodations is in conformity herewith.

No payment of rent need be made unless the landlord tenders a receipt for the amount to be paid.

When the maximum rent is changed by order of the Administrator the landlord shall deliver his stamped copy of the registration statement to the Area Rent Office for appropriate action reflecting such change.

§ 1388.6058 *Inspection.* Any person who rents or offers for rent or acts as a broker or agent for the rental of housing accommodations and any tenant shall permit such inspection of the accommodations by the Administrator as he may, from time to time, require.

§ 1388.6059 *Evasion.* The maximum rents and other requirements provided in this Maximum Rent Regulation No. 41 shall not be evaded, either directly or indirectly, in connection with the renting or leasing or the transfer of a lease of housing accommodations, by way of absolute or conditional sale, sale with purchase money or other form of mortgage, or sale with option to repurchase, or by modification of the practices relating to payment of commissions or other charges, or by modification of the services furnished with housing accommodations, or otherwise.

§ 1388.6060 *Enforcement.* Persons violating any provision of this Maximum Rent Regulation No. 41 are subject to criminal penalties, civil enforcement actions and suits for treble damages as provided for by the Act.

§ 1388.6061 *Procedure.* All registration statements, reports and notices provided for by this Maximum Rent Regulation No. 41 shall be filed with the Area Rent Office. All landlord's petitions and tenant's applications shall be filed with such office in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

§ 1388.6062 *Petitions for amendment.* Persons seeking any amendment of general applicability to any provision of this Maximum Rent Regulation No. 41 may file petitions therefor in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247[1], inclusive).

PART 1388—DEFENSE-RENTAL AREAS

[Maximum Rent Regulation 42A]

HOTELS AND ROOMING HOUSES IN THE GAINESVILLE - STARKE DEFENSE - RENTAL AREA

In the judgment of the Administrator, rents for housing accommodations within the Gainesville-Starke Defense-Rental Area designated in the Designation and Rent Declaration issued by the Administrator on April 28, 1942, have not been reduced and stabilized by State or local regulation, or otherwise, in accordance with the recommendations set forth in the said Designation and Rent Declaration.

It is the judgment of the Administrator that by April 1, 1941, defense activities already had resulted in increases in rents for housing accommodations within the Gainesville-Starke Defense-Rental Area inconsistent with the purposes of the Emergency Price Control Act of 1942. The Administrator has therefore ascertained and given due consideration to the rents prevailing for housing accommodations within the Gainesville-Starke Defense-Rental Area on or about January 1, 1941; and it is his judgment that the most recent date which does not reflect increases in rents for such housing accommodations inconsistent with the purposes of the Act is on or about that date. The Administrator has made adjustments for such relevant factors as he has determined and deemed to be of general applicability in respect of such housing accommodations, including increases or decreases in property taxes and other costs.

In the judgment of the Administrator, the maximum rents established by this Maximum Rent Regulation for rooms in hotels and rooming houses within the Gainesville-Starke Defense-Rental Area will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

Therefore, under the authority vested in the Administrator by the Act, this Maximum Rent Regulation No. 42A is hereby issued.

AUTHORITY: §§ 1388.7001 to 1388.7014, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1388.7001 *Scope of regulation.* (a) This Maximum Rent Regulation No. 42A applies to all rooms in hotels and rooming houses within the Gainesville-Starke Defense-Rental Area designated in the Designation and Rent Declaration (§§ 1388.1051 to 1388.1055,[1] inclusive) issued by the Administrator on April 28, 1942 (consisting of the Counties of Alachua, Bradford, and Clay, in the State of Florida), except as provided in paragraph (b) of this section.

(b) This Maximum Rent Regulation does not apply to the following:

(1) Rooms situated on a farm and occupied by a tenant who is engaged for a substantial portion of his time in farming operations thereon;

(2) Rooms occupied by domestic servants, caretakers, managers, or other employees to whom the rooms are provided as part of their compensation and who are employed for the purpose of rendering services in connection with the premises of which the rooms are a part;

(3) Rooms in hospitals, or rooms of charitable or educational institutions used in carrying out their charitable or educational purposes;

(4) Entire structures or premises used as hotels or rooming houses, as distinguished from the rooms within such hotels or rooming houses.

(c) The provisions of any lease or other rental agreement shall remain in force pursuant to the terms thereof, except insofar as those provisions are inconsistent with this Maximum Rent Regulation.

(d) An agreement by the tenant to waive the benefit of any provision of this Maximum Rent Regulation is void. A tenant shall not be entitled by reason of this Maximum Rent Regulation to refuse to pay or to recover any portion of any rents due or paid for use or occupancy prior to the effective date of this Maximum Rent Regulation.

(e) Where a building or establishment which does not come within the definitions of a hotel or rooming house contains one or more furnished rooms or other furnished housing accommodations rented on a daily, weekly or monthly basis, the landlord may, with the consent of the Administrator, elect to bring all housing accommodations within such building or establishment under the control of this Maximum Rent Regulation. A landlord who so elects shall file a registration statement under this Maximum Rent Regulation for all such housing accommodations, accompanied by a written request to the Administrator to consent to such election.

If the Administrator finds that the provisions of this Maximum Rent Regulation establishing maximum rents are better adapted to the rental practices for such building or establishment than the provisions of the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses, he shall consent to the landlord's election. Upon such consent, all housing accommodations within such building or establishment which are or hereafter may be rented or offered for rent shall become subject to the provisions of this Maximum Rent Regulation, and shall be considered rooms within a rooming house for the purposes of the provisions relating to eviction.

The landlord may at any time, with the consent of the Administrator, revoke his election, and thereby bring under the control of the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses all housing accommodations previously brought under this Maximum Rent Regulation by such election. He shall make such revocation by filing a registration statement or statements under the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses, including in such registration statement or statements all housing accommodations brought under this Maximum Rent Regulation by such election. Such registration statement or statements shall be accompanied by a written request to the Administrator to consent to such revocation. The Administrator may defer action on such request if he has taken or is about to take action to decrease the maximum rents of any housing accommodations within such building or establishment. If the Administrator finds that the revocation so requested will not result in substantial increases in the maximum rents of housing accommodations affected by such revocation, he shall give such consent. Upon such consent, all housing accommodations affected by such revocation shall become subject to the provisions of the Maximum Rent Regulation for Housing Accommodations other than Hotels and Rooming Houses.

[1] 7 F.R. 3192, 4797.

§ 1388.7002 *Prohibitions.* (a) Regardless of any contract, agreement, lease or other obligation heretofore or hereafter entered into, no person shall demand or receive any rent for use or occupancy on and after the effective date of this Maximum Rent Regulation No. 42A of any room in a hotel or rooming house within the Defense-Rental Area higher than the maximum rents provided by this Maximum Rent Regulation; and no person shall offer, solicit, attempt, or agree to do any of the foregoing. Lower rents than those provided by this Maximum Rent Regulation may be demanded or received.

(b) No tenant shall be required to change his term of occupancy if that will result in the payment of a higher amount per day than the maximum rent established for his present term of occupancy. Where, on June 15, 1942, or between that date and the effective date of this Maximum Rent Regulation, a room was regularly rented or offered for rent for a weekly or monthly term of occupancy, the landlord shall continue to offer the room for rent for that term of occupancy, unless he offers another term of occupancy for a rent which results in the payment of an amount no higher per day.

§ 1388.7003 *Minimum services.* The maximum rents provided by this Maximum Rent Regulation No. 42A are for rooms including, as a minimum, services of the same type, quantity, and quality as those provided on the date or during the thirty-day period determining the maximum rent. If, on the effective date of this Maximum Rent Regulation, the services provided for rooms are less than such minimum services, the landlord shall either restore and maintain the minimum services, or within 30 days after such effective date, file a petition pursuant to § 1388.7005 (b) for approval of the decreased services. In all other cases, except as provided in § 1388.7005 (b), the landlord shall provide the minimum services unless and until an order is entered pursuant to that section approving a decrease of such services.

§ 1388.7004 *Maximum rents.* This Section establishes separate maximum rents for different terms of occupancy (daily, weekly or monthly) and numbers of occupants of a particular room. Maximum rents for rooms in a hotel or rooming house (unless and until changed by the Administrator as provided in § 1388.7005) shall be:

(a) For a room rented or regularly offered for rent during the thirty days ending on January 1, 1941, the highest rent for each term or number of occupants for which the room was rented during that thirty-day period; or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(b) For a room neither rented nor regularly offered for rent during the thirty days ending on January 1, 1941, the highest rent for each term or number of occupants for which the room was rented during the thirty days commencing when it was first offered for rent after January 1, 1941; or, if the room was not rented or was not rented for a particular term or number of occupants during that period, the rent for each term or number of occupants for which it was regularly offered during such period.

(c) For a room rented for a particular term or number of occupants for which no maximum rent is established under paragraphs (a) or (b) of this section, the first rent for the room after January 1, 1941, for that term and number of occupants, but not more than the maximum rent for similar rooms for the same term and number of occupants in the same hotel or rooming house.

(d) For a room constructed by the United States or any agency thereof, or by a State of the United States or any of its political subdivisions, or any agency of the State or any of its political subdivisions, and owned by any of the foregoing, the rent generally prevailing in the Defense-Rental Area for comparable rooms on January 1, 1941, as determined by the owner of such room: *Provided, however,* That any corporation formed under the laws of a State shall not be considered an agency of the United States within the meaning of this paragraph. The Administrator may order a decrease in the maximum rent as provided in § 1388.7005 (c) (1).

(3) For a room with which meals were provided during the thirty-day period determining the maximum rent without separate charge therefor, the rent apportioned by the landlord from the total charge for the room and the meals. The landlord's apportionment shall be fair and reasonable and shall be reported in the registration statement for such room. The Administrator at any time on his own initiative or on application of the tenant may by order decrease the maximum rent established by such apportionment if he finds that the apportionment was unfair or unreasonable.

Every landlord who provides meals with accommodations shall make separate charges for the two. No landlord shall require the taking of meals as a condition of renting any room unless the room was rented or offered for rent on that basis on June 15, 1942.

§ 1388.7005 *Adjustments and other determinations.* In the circumstances enumerated in this section, the Administrator may issue an order changing the maximum rents otherwise allowable or the minimum services required. Except in cases under paragraphs (a) (7) and (c) (4) of this section, every adjustment of a maximum rent shall be on the basis of the rent which the Administrator finds was generally prevailing in the Defense-Rental Area for comparable rooms on January 1, 1941: *Provided, however,* That no maximum rent shall be increased, because of a major capital improvement or an increase in services, furniture, furnishings or equipment, by more than the amount which the Administrator finds would have been on January 1, 1941, the difference in the rental value of the accommodations by reason of such improvement or increase. In cases involving construction due consideration shall be given to increased costs of construction, if any, since January 1, 1941. In cases under paragraphs (a) (7) and (c) (4) of this section the adjustment shall be on the basis of the rents which the Administrator finds were generally prevailing in the Defense-Rental Area for comparable rooms during the year ending January 1, 1941.

(a) Any landlord may file a petition for adjustment to increase the maximum rent otherwise allowable, only on the grounds that:

(1) There has been, since the thirty-day period or the order determining the maximum rent for the room, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement and maintenance.

(2) There was, on or prior to January 1, 1941, and within the six months ending on that date, a substantial change in the room by a major capital improvement as distinguished from ordinary repair, replacement and maintenance, and the rent during the thirty-day period ending on January 1, 1941, was fixed by a lease which was in force at the time of such change.

(3) There has been a substantial increase in the services, furniture, furnishings, or equipment provided with the room since the thirty-day period or the order determining its maximum rent.

(4) The rent during the thirty-day period determining the maximum rent was materially affected by the blood, personal or other special relationship between the landlord and the tenant, or by an allowance or discount to a tenant of a class of persons to whom the landlord regularly offered such an allowance or discount, and as a result was substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable rooms on January 1, 1941.

(5) There was in force on January 1, 1941, a written lease, which had been in

force for more than one year on that date, requiring a rent substantially lower than the rent generally prevailing in the Defense-Rental Area for comparable rooms on January 1, 1941.

(6) The rent during the thirty-day period determining the maximum rent was established by a lease or other rental agreement which provided for a substantially higher rent at other periods during the term of such lease or agreement.

(7) The rent during the thirty-day period determining the maximum rent for the room was substantially lower than at other times of year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(b) If, on the effective date of this Maximum Rent Regulation No. 42A, the services provided for a room are less than those provided on the data or during the thirty-day period determining the maximum rent, the landlord shall either restore the services to those provided on the date or during the thirty-day period determining the maximum rent and maintain such services, or, within 30 days after such effective date, file a petition requesting approval of the decreased services. Except as above provided, the landlord shall maintain the minimum services unless and until he has filed a petition to decrease services and an order permitting a decrease has been entered thereon; however, if it is impossible to provide the minimum services, he shall file a petition within five days after the change of services occurs. The order on any petition under this paragraph may require an appropriate adjustment in the maximum rent.

(c) The Administrator at any time, on his own initiative or on application of the tenant, may order a decrease of the maximum rent otherwise allowable, only on the grounds that:

(1) The maximum rent for the room is higher than the rent generally prevailing in the Defense-Rental Area for comparable rooms on January 1, 1941.

(2) There has been a substantial deterioration of the room other than ordinary wear and tear since the date or order determining its maximum rent.

(3) There has been a substantial decrease in the services, furniture, furnishings or equipment provided with the room since the date or order determining its maximum rent.

(4) The rent on the date determining the maximum rent for the room was substantially higher than at other times of year by reason of seasonal demand for such room. In such cases the Administrator's order may if he deems it advisable provide for different maximum rents for different periods of the calendar year.

(d) If the rent on the date determining the maximum rent, or any other fact necessary to the determination of the maximum rent, is in dispute between the landlord and the tenant, or is in doubt, or is not known, the Administrator on petition of the landlord filed within 30 days after the effective date of this Maximum Rent Regulation, or at any time on his own initiative, may enter an order fixing the maximum rents by determining such fact; or if the Administrator is unable to ascertain such fact he shall enter the order on the basis of the rent which he finds was generally prevailing in the Defense-Rental Area for comparable rooms on January 1, 1941.

§ 1388.7006 *Restrictions on removal of tenant.* (a) So long as the tenant continues to pay the rent to which the landlord is entitled, no tenant of a room within a hotel or rooming house shall be removed from such room, by action to evict or to recover possession, by exclusion from possession, or otherwise, nor shall any person attempt such removal or exclusion from possession, notwithstanding that such tenant has no lease or that his lease or other rental agreement has expired or otherwise terminated, unless:

(1) The tenant, who had a written lease or other written rental agreement, has refused upon demand of the landlord to execute a written extension or renewal thereof for a further term of like duration but not in excess of one year but otherwise on the same terms and conditions as the previous lease or agreement except insofar as such terms and conditions are inconsistent with this Maximum Rent Regulation No. 42A; or

(2) The tenant has unreasonably refused the landlord access to the room for the purpose of inspection or of showing the room to a prospective purchaser, mortgagee or prospective mortgagee, or other person having a legitimate interest therein: *Provided, however,* That such refusal shall not be ground for removal or eviction if such inspection or showing of the room is contrary to the provisions of the tenant's lease or other rental agreement; or

(3) The tenant (i) has violated a substantial obligation of his tenancy, other than an obligation to pay rent, and has continued, or failed to cure, such violation after written notice by the landlord that the violation cease, or (ii) is committing or permitting a nuisance or is using or permitting a use of the room for an immoral or illegal purpose; or

(4) The landlord seeks in good faith to recover possession for the immediate purpose of demolishing the room or of substantially altering or remodeling it in a manner which cannot practically be done with the tenant in occupancy and the plans for such alteration or remodeling have been approved by the proper authorities, if such approval is required by local law; or

(5) The landlord seeks in good faith not to offer the room for rent. If a tenant has been removed or evicted from a room under this paragraph (a) (5), such room shall not be rented for a period of six months after such removal or eviction without permission of the Administrator. The landlord may petition the Administrator for permission to rent the room during such six month period, and the Administrator shall grant such permission if he finds that the action was in good faith and not for the purpose of evading any provision of the Act or this Maximum Rent Regulation.

(b) No tenant shall be removed or evicted on grounds other than those stated above unless, on petition of the landlord, the Administrator certifies that the landlord may pursue his remedies in accordance with the requirements of the local law. The Administrator shall so certify if the landlord establishes that removals or evictions of the character proposed are not inconsistent with the purposes of the Act or this Maximum Rent Regulation and would not be likely to result in the circumvention or evasion thereof.

(c) At the time of commencing any action to remove or evict a tenant (except an action based on non-payment of a rent not in excess of the maximum rent) the landlord shall give written notice thereof to the Area Rent Office stating the title and number of the case, the court in which it is filed, the name and address of the tenant and the grounds on which eviction is sought.

(d) The provisions of this section do not apply to:

(1) A subtenant or other person who occupied under a rental agreement with the tenant, where removal or eviction of the subtenant or other such occupant is sought by the landlord of the tenant, unless under the local law there is a tenancy relationship between the landlord and the subtenant or other such occupant; or

(2) A tenant occupying a room within a hotel on a daily or weekly basis; or a tenant occupying on a daily basis a room within a rooming house which has heretofore usually been rented on daily basis.

No provision of this section shall be construed to authorize the removal of a tenant unless such removal is authorized under the local law.

§ 1388.7007 *Registration.* (a) Within 45 days after the effective date of this Maximum Rent Regulation No. 42A every landlord of a room rented or offered for rent shall file a written statement on the form provided therefor, containing such information as the Administrator shall require, to be known as a registration statement. Any maximum rent established after the effective date of this Maximum Rent Regulation under paragraphs (b) or (c) of § 1388.7004 shall be reported either on the first registration statement or on a statement filed within 5 days after such rent is established.

(b) Every landlord shall conspicuously display in each room rented or offered for rent a card or sign plainly stating the maximum rent or rents for all terms of occupancy and for all numbers of occupants for which the room is rented or offered for rent. Where the taking of meals by the tenant or prospective tenant is a condition of renting such room, the card or sign shall so state. Should the maximum rent or rents for the room be changed by order of the Administrator, the landlord shall alter the card or sign so that it states the changed rent or rents.

(c) No payment of rent need be made unless the landlord tenders a receipt for the amount to be paid.

§ 1388.7008 *Inspection.* Any person who rents or offers for rent or acts as a broker or agent for the rental of a room and any tenant shall permit such inspection of the room by the Administrator as he may, from time to time, require.

§ 1388.7009 *Evasion.* The maximum rents and other requirements provided in this Maximum Rent Regulation No. 42A shall not be evaded, either directly or indirectly, in connection with the renting or leasing or the transfer of a lease of a room, by requiring the tenant to pay or obligate himself for membership or other fees, or by modification of the practices relating to payment of commissions or other charges, or by modification of the services furnished with the room, or otherwise.

§ 1388.7010 *Enforcement.* Persons violating any provision of this Maximum Rent Regulation No. 42A are subject to criminal penalties, civil enforcement actions and suits for treble damages as provided for by the Act.

§ 1388.7011 *Procedure.* All registration statements, reports and notices provided for by this Maximum Rent Regulation No. 42A shall be filed with the Area Rent Office. All landlord's petitions and tenant's applications shall be filed with such office in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247,[1] inclusive).

§ 1388.7012 *Petitions for amendment.* Persons seeking any amendment of general applicability to any provision of this Maximum Rent Regulation may file petitions therefor in accordance with Procedural Regulation No. 3 (§§ 1300.201 to 1300.247, inclusive).

(e) *Sales of fabrics by manufacturers of apparel.* The maximum price for sales and deliveries of a woolen or worsted apparel fabric by a manufacturer of apparel shall be the actual price paid therefor plus the actual freight charges paid by him for the transportation thereof to his place of business.

(f) *Customary discounts, trade practices and transportation costs.* (1) Every person making sales of woolen or worsted apparel fabrics subject to this section, except in the case of sales to custom or merchant tailors, and to special order departments of manufacturers of apparel and retail establishments shall continue his customary quantity discounts and price differentials to different purchasers and different classes of purchasers.

(g) *Invoice requirements.* (1) On and after June 22, 1942, every person making sales of woolen or worsted apparel fabrics subject to paragraphs (a), (b) or (c) of this section, except sales to retail stores, custom or merchant tailors, and special order departments of manufacturers of apparel shall, with respect to each such sale, deliver to the purchaser an invoice or similar document setting forth, in addition to the terms thereof: (i) the manufacturer's net invoice price, (ii) the freight charges paid, (iii) the division factor used, and (iv) in the case of mill ends, close outs, seconds and irregular pieces, the manufacturer's maximum price therefor determined in accordance with this Maximum Price Regulation No. 163.

(2) On and after July 31, 1942, every person making sales of woolen or worsted apparel fabrics to retail stores, custom or merchant tailors and special order departments of manufacturers of apparel shall, with respect to each such sale, deliver to the purchaser an invoice or similar document setting forth, in addition to the terms thereof, a statement that the division factor used in computing the selling price was not lower than the applicable division factor provided for by this section, showing such division factor in figures.

For the reasons set forth in an Opinion issued simultaneously herewith and filed with the Division of the Federal Register,* and pursuant to and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 and § 1499.3 (b) of the General Maximum Price Regulation, it is hereby ordered that:

§ 1499.260 *Method by which brass mills may determine maximum prices for brass mill products which cannot be priced under § 1499.2 of the General Maximum Price Regulation.* (a) Whenever a brass mill cannot determine the maximum price for any brass mill product, manufactured by it, under § 1499.2 of the General Maximum Price Regulation, such brass mill is hereby authorized to determine the maximum price for such product by applying the same pricing formula or method of calculating prices used by it on March 31, 1942. In applying such pricing formula or method of calculating prices, the brass mill shall use the same unit cost factors (i. e. the same wage and machine hour rates, the same per pound prices of materials, and the same unit overhead) and the same percentage of profit over costs, extra charges, discounts and allowances, which it would have used on March 31, 1942, even though such unit cost factors may have increased since that date.

(b) Within 10 days after a brass mill has determined a maximum price pursuant to the provisions of paragraph (a) of this order, it shall report such price to the Office of Price Administration. Such report shall also set forth (1) a description in detail of the commodity for which such price was determined, (2) a statement of facts which differentiate such commodity from other commodities delivered or offered for delivery during March, 1942 by such brass mill and by other competitive sellers of the same class and (3) a statement that the maximum price reported was determined in accordance with the method established by paragraph (a) of this order and the facts in support of such statement. The brass mill, in this connection, shall submit its estimate sheet showing how the maximum price was determined, or if it did not use an estimate sheet, it shall submit a statement breaking down the price reported into the following categories: (i) material cost, (ii) manufacturing costs, including machining (machine hour rate and units per hour to be specified), (iii) plant overhead, (iv) administrative overhead and (v) profit. The maximum price reported by a brass mill in accordance with the provisions of this paragraph (b) shall be subject to adjustment at any time by the Price Administrator.

(c) As used in this Order No. 46:

(1) "A brass mill" means a manufacturing establishment which fabricates copper and copper base alloys into semi-finshed and fabricated products. It may or may not do its own alloying.

(2) "Brass mill product" means any new plate, sheet, strip, roll, coil, wire, rod, bar, tube, tubing, pipe, extrusion, forging, anode or other shape made from copper or copper base alloy by a brass mill. It does not include any rod, coil, wire, casting or other shape for which a maximum price is established by Revised Price Schedule No. 82—Wire, Cable and Cable Accessories,[3] or Maximum Price Regulation No. 125—Non-Ferrous Castings,[3] or Maximum Price Regulation No. 136—Machines and Parts,[4] or by any other price regulation heretofore or hereafter issued by the Office of Price Administration.

(3) "Copper base alloy" means any alloy metal in the composition of which the percentage of copper metal by weight equals or exceeds 40% of the total weight of the alloy.

(d) This Order No. 46 may be revoked or amended by the Price Administrator at any time.

(e) This Order No. 46 (§ 1499.260) shall become effective July 27, 1942.

(Pub. Law 421, 77th Cong.)

Issued this 27th day of July 1942.

PART 1340—FUEL

[Maximum Price Regulation 189]

BITUMINOUS COAL SOLD FOR DIRECT USE AS BUNKER FUEL

Maximum prices for bituminous coal used for bunkering vessels at points on the Great Lakes and their connecting or tributary waters have heretofore been established by Maximum Price Regulation No. 120, where such coal was delivered from a mine or preparation plant, or by Maximum Price Regulation No. 122, where delivery was made from other facilities.

In the judgment of the Price Administrator the supplying of bituminous coal for use as bunker fuel, whether delivery is made from a mine or preparation plant or other facility, presents, under existing conditions, a specialized problem from the standpoint of coal marketing and requires for its proper regulation a separate Maximum Price Regulation.

At the request of the Price Administrator the Bituminous Coal Division, United States Department of Interior, has cooperated with the Price Administrator in the formulation of the maximum prices established by this regulation in accordance with the arrangement effectuated by the letters, dated March 9 and March 13, 1942, exchanged between the Price Administrator and the Secretary of the Interior. So far as practicable, representative members of the industry which will be affected by this regulation have been consulted and their advice obtained.

In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[1] issued by the Office of Price Administration, Maximum Price Regulation No. 189 is hereby issued.

AUTHORITY: §§ 1340.301 to 1340.314, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1340.301 *Maximum prices for bituminous coal sold for direct use as bunker fuel.* On and after August 1, 1942, regardless of any contract, agreement, lease, or other obligation, no supplier of bunker fuel shall sell or dispose of bituminous coal in any quantity, for direct use as bunker fuel at points on the Great Lakes or their connecting or tributary waters or at tidewater at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1340.313; and no person shall, in the course of trade or business, buy or receive bituminous coal so sold or disposed of, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1340.313; and no person shall agree, offer, solicit or attempt to do any of the foregoing: *Provided,* That a supplier of bunker fuel is hereby permitted to receive not more than the maximum prices set forth in Appendix A, incorporated herein as § 1340.313, as to bituminous coal delivered for direct use as bunker fuel on and after May 18, 1942; and any person to whom bunker fuel was so delivered on and after May 18, 1942 may pay such prices.

§ 1340.302 *Less than maximum prices.* Lower prices than those set forth in Appendix A (§ 1340.313) may be charged, demanded, paid or offered: *Provided,* That where the supplier of bunker fuel is subject to the jurisdiction of the Bituminous Coal Division and where the effective minimum price now or hereafter established by the Bituminous Coal Division for any particular shipment of bunker fuel by such supplier is higher than the maximum price provided in this Maximum Price Regulation No. 189 for such a shipment, the particular shipment may be made at not more than the applicable minimum price.

§ 1340.303 *Adjustable pricing.* No person subject to the provisions of this Maximum Price Regulation No. 189 shall enter into any agreement permitting the adjustment of the prices of bituminous coal provided by this Maximum Price Regulation No. 189 to prices which may be higher than such maximum prices, except that any person may offer or agree to adjust or fix prices to, or at prices not in excess of, the maximum prices in affect at the time of delivery. In an appropriate situation, where a petition for amendment or for adjustment or exception requires extended consideration, the Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1340.304 *Evasion.* The price limitations set forth in this Maximum Price

[1] 7 F.R. 971.

Regulation No. 189 shall not be evaded, whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to, bituminous coal for direct use as bunker fuel for vessels on the Great Lakes or their connecting or tributary waters or at tidewater, as defined herein, alone or in conjunction with bituminous coal used for other purposes or with any other commodity, or by way of commission, service, transportation or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding or otherwise.

§ 1340.305 *Records and reports.* (a) Every supplier of bunker fuel shall keep for inspection by the Office of Price Administration for a period of not less than two years complete and accurate records of each such sale and purchase of bunker fuel made by him on and after May 18, 1942, showing the date thereof; the price received by him for the bituminous coal sold as bunker fuel; and the price, if any, paid by him for such coal; the name and address of the purchaser; the name and address of the pier or other facility from which delivery was made; the name, flag and gross tonnage of the vessel bunkered; the method of transportation or handling employed in transferring the fuel from land transportation or storage facilities to vessel bunkers; the quantity delivered; and where known, the names and mine index numbers (Bituminous Coal Division designations) of the mines at which the coal sold for bunker fuel originated, and the kind, size, quality, brand or trade name.

C., a statement setting forth:

(2) All price circulars, lists or schedules issued by such person on or before January 15, 1942, with respect to bunker fuel, and in effect during any portion of the period January 1–15, 1942, inclusive;

(4) The charges, if any, made for any special services during the period January 1–15, 1942, inclusive, together with a description of the special service rendered; and

(5) The cash and quantity discounts and other allowances (except freight rate absorptions) made or available to purchasers of bunker fuel during the period January 1–15, 1942, inclusive.

(c) Not later than August 25, 1942, except where additional time may be granted by the Office of Price Administration in individual cases, every supplier of bunker fuel at points on the Great Lakes and their connecting or tributary waters shall file with the Bituminous Coal Division of the United States Department of the Interior, at 734 15th Street NW., Washington, D. C., a statement setting forth:

(1) All prices charged by such person between April 15 and April 30, 1942, inclusive, for bituminous coal sold for direct use as bunker fuel at each point at which the coal was sold and for each size, kind and quality of coal for each class of purchaser;

(d) Persons who are suppliers of bunker fuel shall submit such other reports and keep such other records as the Office of Price Administration may from time to time require.

§ 1340.306 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 189 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 189 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest district, state, field or regional office of the Office of Price Administration or its principal office in Washington, D. C., or with the nearest statistical bureau of the Bituminous Coal Division, United States Department of the Interior, or its principal office in Washington, D. C.

§ 1340.307 *Applications for adjustment or exception and petitions for amendment.* (a) The Administrator may by order grant an adjustment to, or exception from, the maximum price established under this Maximum Price Regulation No. 189 for any supplier of bunker fuel in any case in which such supplier of bunker fuel shows:

(1) That its maximum price is abnormally low in relation to the maximum prices established for competitive suppliers of bunker fuel; and

(2) That such abnormality subjects it to substantial hardship.

Applications under this paragraph (a) shall be filed in accordance with Procedural Regulation No. 1, issued by the Office of Price Administration.

(b) Any person seeking relief, for which no provision is made in the foregoing paragraph (a) of this section, from the maximum price established under this Maximum Price Regulation No. 189 may present the special circumstances of his case in an application for an order of adjustment or exception. Such application shall be filed in accordance with Procedural Regulation No. 1, and shall set forth the facts relating to the hardship to which such maximum price subjects the applicant, together with the statement of the reasons why he believes that the granting of relief in his case, and in all like cases, will not defeat or impair the policy of the Emergency Price Control Act of 1942 and of this Maximum Price Regulation No. 189 to eliminate the danger of inflation.

(c) Persons seeking any modification of this Maximum Price Regulation No. 189, or an adjustment or exception not provided for in paragraphs (a) and (b) of this section may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1.

§ 1340.308 *Definitions.* (a) When used in this Maximum Price Regulation No. 189, the term:

(1) "Person" includes an individual, corporation, partnership, association, or other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government or any of its political subdivisions, or any agency of any of the foregoing.

It does not include persons who sell coal to another person for general use or for delivery by such other person as bunker fuel. § 1340.310 *Maximum price instructions.* (a) The following maximum price instructions are applicable to the maximum prices set forth in § 1340.313 (Appendix A hereof).

(2) Where such charges are not included in the maximum prices provided in § 1340.313 (Appendix A hereof) there may be added to such maximum prices the charges for such service items as (specifically but not exclusively) leveling, trimming and lightering, or for the furnishing or procuring of these or other services. In the case of sales of bunker fuel at points at tidewater, such charges shall not exceed the charges made for the same service during the period January 1–15, 1942, inclusive, by the same supplier of bunker fuel; and in the case of sales of bunker fuel at points on the Great Lakes and their connecting or tributary waters, shall not exceed the charges made for the same service by the same supplier of bunker fuel in the period April 15–30, 1942, inclusive.

(3) The rate of interest on overdue accounts or a note, draft or trade acceptance, or other form of indebtedness accepted in payment of an account shall not exceed the rate charged on similar transactions by the same supplier of bunker fuel during the period January 1–15, 1942, inclusive, in the case of sales of bunker fuel at points at tidewater and the period April 15–30, 1942, inclusive, in the case of sales of bunker fuel at points on the Great Lakes and their connecting or tributary waters (except to the extent that such rate may be lower than the rate of interest required to be charged by the seller on delinquent accounts under the orders of the Bituminous Coal Division of the United States, Department of the Interior).

(4) There shall be deducted from the maximum price established in § 1340.313 (Appendix A hereof) the cash and quantity discounts and other allowances (except freight rate absorptions) made or available to the purchasers by the same supplier of bunker fuel during the period January 1–15, 1942, inclusive, in the case of sales of bunker fuel at points at tidewater and the period April 15–30, 1942, inclusive, in the case of sales of bunker fuel at points on the Great Lakes and their connecting or tributary waters.

§ 1340.311 *Federal and State taxes.* Any tax upon, or incident to, the sale, delivery, processing, or use of bituminous coal as bunker fuel, or the supplying of a service in connection therewith, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the supplier's maximum price for such commodity or service and in preparing the records of such supplier with respect thereto:

(a) As to a tax in effect during the period January 1–15, 1942 with respect to sales of bituminous coal as bunker fuel at points at tidewater or during the period April 15–30, 1942, with respect to sales of bituminous coal as bunker fuel at points on the Great Lakes or their connecting or tributary waters: (1) If the supplier paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and collected from the supplier, but the supplier did not customarily state and collect separately from the purchase price during the period January 1–15, 1942, or the period April 15–30, 1942, as the case may be, the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the supplier may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining the maximum price under this Maximum Price Regulation No. 189.

(2) In all other cases, if, at the time the supplier determines his maximum price, the statute or ordinance imposing such tax does not prohibit the supplier from stating and collecting the tax separately, the supplier may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the supplier by the vendor from whom he purchased, and in such case the supplier shall not include such amount in determining the maximum price under this Maximum Price Regulation No. 189.

(b) As to a tax or increase in a tax which becomes effective after January 15, 1942 with respect to sales of bituminous coal as bunker fuel at points at tidewater or after April 30, 1942 with respect to sales of bituminous coal as bunker fuel at points on the Great Lakes and their connecting or tributary waters: If the statute or ordinance imposing such tax or increase does not prohibit the supplier from stating and collecting the tax or increase separately from the purchase price, and the supplier does separately state it, the supplier may collect, in addition to the maximum price, the amount of the tax or increase actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the supplier by the vendor from whom he purchased.

§ 1340.312 *Posting of maximum prices, sales slips, and receipts.* (a) On and after August 15, 1942, every person who is a supplier of bunker fuel subject to this Maximum Price Regulation No. 189 shall post the maximum price per ton of all bunker fuel offered for sale by him at the places in the business establishment where such coal is offered for sale. The maximum price shall be stated as follows: "Ceiling price $ "; or "Our ceiling $ ".

(b) On and after August 15, 1942, any person subject to this Maximum Price Regulation No. 189 who has customarily given a purchaser a sales slip or receipt or itemized statement or similar evidence of purchase shall continue to do so. Upon request from a purchaser any person subject to this Maximum Price Regulation No. 189 shall give the purchaser a receipt showing the name and address of the supplier, the price charged therefor, and, where known, the kind, size, and quality of the coal sold.

TITLE 46—SHIPPING

Chapter II—Coast Guard: Inspection and Navigation

Subchapter C—Motorboats, and Certain Vessels Propelled by Machinery Other Than by Steam, More Than 65 Feet in Length

PART 29—ENFORCEMENT

Section 29.8 of Subchapter C—Motorboats, and Certain Vessels Propelled by Machinery Other Than by Steam, More Than 65 Feet in Length, Part 29, Enforcement, of this title, as amended, is further amended to read as follows:

§ 29.8 *Procedure relating to numbering of motorboats.* (a) Application for a certificate of award of number will be made by the owner to the District Coast Guard Officer having jurisdiction over the area in which the owner resides.

(b) The following undocumented vessels are required to be numbered:

(1) All boats equipped with permanently fixed engines.

(2) All boats over 16 feet in length equipped with detachable engines.

(3) All boats not more than 16 feet in length equipped with detachable engines as the ordinary means of propulsion.

(c) The following undocumented vessels are not required to be numbered:

(1) All boats not exceeding 16 feet in length equipped with detachable engines and falling within the following classes:

(i) Rowboats and canoes designed and intended for the use of oars or paddles as the ordinary means of propulsion.

(ii) Sailboats.

(iii) Boats designed and used solely for the purpose of racing or operation incident to racing.

(d) A certificate of award of number of an undocumented vessel operated in whole or in part by machinery, when such vessel is not commissioned, shall be kept on board at all times and shall be accessible to the person in charge except when such papers are in the custody of the District Coast Guard officer. This requirement does not apply to any such vessels if they do not exceed 17 feet in length, measured from end to end over the deck, excluding sheer, nor to any vessels, regardless of length, if the design or fittings are such that the carrying of the certificate of award of number on board would render it imperfect, illegible, or would otherwise tend to destroy its usefulness as a means of ready identification.

(e) For the duration of the war, the issuance of a certificate of award of number under the Numbering Act of June 7, 1918, as amended (46 U.S.C., Sup. 288), to a vessel the sale or transfer of which in whole or in part is subject to Section 37 of the Shipping Act, 1916, as amended (46 U.S.C. 835), shall be governed by the following:

(1) Where such vessel has been, since May 27, 1941, sold or transferred in whole or in part without the approval of the U. S. Maritime Commission, no new certificate of award of number shall be issued. Such attempted sale or transfer is void and is not a change of ownership within the meaning of the Act of June 7, 1918, as amended. The original citizen owner may retain the certificate of award of number issued to the vessel in his name as owner. If the bill of sale on the reverse side of the certificate of award of number has been executed, such bill of sale should be canceled by marking such bill of sale "Void." The following are not changes of ownership within the meaning of the Act of June 7, 1918, as amended:

(i) By a citizen to a person not a citizen of the United States.

(ii) By a citizen to a person not a citizen of the United States and then resold by such person to the same citizen.

(iii) By a citizen to a person not a citizen of the United States and then resold by such person to another citizen.

(iv) By a citizen to a person not a citizen of the United States and then resold by such person to another person not a citizen of the United States.

(2) In cases of sale or transfer since May 27, 1941, with the approval of the U. S. Maritime Commission, the procedure outlined in paragraph (a) of this section shall be followed and, in addition, there shall be filed with the application for a certificate of award of number a certified copy of the transfer order of the U. S. Maritime Commission approving such sale or transfer. The District Coast Guard Officer shall endorse upon the certificate of award of number the following: sale (or transfer) to noncitizen approved by the U. S. Maritime Commission transfer order No. ——— dated ———.

(f) For the duration of the war and six months thereafter, every undocumented motor vessel, which is required to be numbered, and which is found on the navigable waters of the United States, shall have the number painted on its structure in the following manner:

(1) The number awarded shall be painted horizontally in block characters, reading from left to right, on each side of the vessel, as near the forward end as legibility of the entire number for surface and aerial identification permits.

(2) The number shall be painted with paint which contrasts to the color of the hull, i. e., if the hull is light the color of the numbers shall be dark, or if the hull is dark the color of the numbers shall be light.

(3) The number shall be painted parallel with the water line and the distance between the water line and the bottom of the number shall not be less than the minimum height of the number. The height of the number shall be in accordance with the following scale:

Length of vessel:	Height of letters (inches)
Under 20'0"	6–8
20'0" and under 40'0"	10
40'0" and under 60'0"	18
60'0" and over	24

The width of the characters of the number and the thickness of the individual numbers will be in accordance with accepted engineering practices.

(4) If the construction of the boat permits, the number shall also be painted on a conspicuous part of the top side for the purpose of serial identification. The number shall be placed athwart ships or fore and aft, depending upon which of these two areas is the larger, and shall be painted in a color which contrasts to the color of the top side, and the size of the individual numbers shall be in proportionate ratio to the scale set forth in the preceding paragraph.

(g) The owner of a numbered boat shall be required, within 10 days, to notify the District Coast Guard Officer having jurisdiction over the area in which he resides if:

(1) the boat is lost, destroyed, or abandoned;

(2) he moves his permanent residence to a place in another Customs District or to a place within the jurisdiction of another District Coast Guard Officer;

(3) The boat is transferred from one person to another.

In all such cases the notice shall be accompanied by a surrender of the certificate of award of number if the same is in existence.

(h) The statute upon which these regulations are based does not amend section 14 of the Act of March 4, 1915, requiring the marking of lifeboats. Therefore, motor lifeboats which are carried on a merchant vessel of the United States as a part of the vessel's lifesaving apparatus are only required to be marked in accordance with the provisions of Section 14 of the Act of March 4, 1915, and need not be issued individual certificates of award of number. (R.S. 161, Sec. 5, 40 Stat. 602, as amended; 5 U.S.C. (1940 ed.) 22, 46 U.S.C. (1940 ed.) 288; E.O. 9074, 7 F.R. 1587).

Chapter II—Coast Guard: Inspection and Navigation, is amended by the addition of the following new Subchapter:

Subchapter P—General Provisions

PART 180—ENFORCEMENT

§ 180.1 *Reports of violations.* Reports of violations of navigation laws and regulations administered and enforced by the Coast Guard shall be submitted to the District Coast Guard Officer having jurisdiction over the area in which the violations occurred. The person charged with a violation shall be notified of the penalties which he has incurred and of his opportunity to make application to the appropriate officer for administrative relief by way of remission or mitigation. If the person charged does not avail himself of the opportunity to apply for administrative relief, he shall be assessed the full amount of the statutory penalties involved. Where any amount due has not been paid within the prescribed period, the case will be referred to an appropriate United States Attorney for court action. (R.S. 161, Sec. 5, 40 Stat. 602, as amended; 5 U.S.C. (1940 ed.) 22, 46 U.S.C. (1940 ed.) 288; E.O. 9074. 7 F.R. 1587).

The matter concerned herewith is in regard to the application of the B. F. Goodrich Company for a determination of the status of coal produced at a mine of the said company in Tuscarawas County, Ohio. The said application alleges that such coal is exempt from section 4 of the Act because it is coal produced, transported and consumed by the applicant within the meaning of section 4 II (1) of the Bituminous Coal Act of 1937.

ALFRED STIDHAM TIRE CO.

SUSPENSION ORDER

Suspension Order No. 3 under Tire Rationing Regulations restricting transactions by Alfred Stidham and Alfred Stidham Tire Company.

Alfred Stidham, doing business as Alfred Stidham Tire Company, 1336 Fourteenth Street NW., Washington, D. C., herein called respondent, is engaged in selling tires and tubes and is subject to the Tire Rationing Regulations [1] and the Revised Tire Rationing Regulations [2] issued by the Office of Price Administration. There was duly served on respondent a notice of specific charges of violations of the Tire Rationing Regulations, and a notice of hearing thereon. Pursuant to said notice a hearing upon said charges was held on June 10, 1942 in Washingon, D. C. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to such charges was presented before an authorized presiding officer. Such evidence having been duly considered by the Deputy Administrator,

It is hereby determined:

(a) That respondent has violated the Tire Rationing Regulations in that respondent between February 9, 1942 and February 17, 1942 sold, transferred and delivered seven hundred and forty-four (744) new tires to Diamond Service Company without the presentation of a certificate issued pursuant to said Tire Rationing Regulations.

(b) That respondent has violated the Revised Tire Rationing Regulations in that respondent between March 6, 1942 and April 17, 1942 sold, transferred and delivered one hundred and thirty-eight (138) new tires and one hundred and twenty-six (126) new tubes to consumers without the presentation of a certificate issued pursuant to the Revised Tire Rationing Regulations, in the instances set forth with particularity in the notice of charges in these proceedings.

Because of the great scarcity and critical importance of new tires and tubes, violations of the Tire Rationing Regulations and Revised Tire Rationing Regulations necessarily result in the diversion of new tires and tubes from military and essential civilian uses into nonessential uses, in a manner contrary to the public interest and detrimental to national defense. It further appears to the Deputy Administrator, on the evidence before him, that further violations of these Regulations are likely unless appropriate administrative action is taken.

It is therefore ordered:

(a) During the period in which this Suspension Order No. 3 shall be in effect,

(1) Respondent, his successors or assigns, shall not accept any deliveries or transfers of nor in any manner directly or indirectly receive from any source any new tires, new tubes, recapped or retreaded tires.

(2) Respondent, his successors or assigns, shall not accept any purchase orders or enter into any contracts or commitments for the sale or delivery of, nor in any manner directly or indirectly sell, transfer or deliver any new tires, new tubes, recapped or retreaded tires.

(3) No person shall in any manner directly or indirectly sell, transfer or deliver any new tires, new tubes, recapped or retreaded tires to respondent, his successors or assigns, regardless of whether such new tires, new tubes, recapped or retreaded tires have been previously purchased and completely paid for.

(b) Nothing in this Order shall be construed to prohibit respondent from receiving and recapping or retreading tires the carcasses of which are supplied to respondent by other persons for recapping or retreading on behalf of such persons and redelivering such retreaded or recapped tires to such persons.

(c) Any terms used in this Order that are defined in the Revised Tire Rationing Regulations shall have the meaning there given them.

(d) This Order shall become effective 12:01 A. M., July 29th, 1942 and unless sooner terminated shall expire 12:01 A. M., September 27th, 1942. (Pub. Law 421, 77th Cong.; Sec. 2 (a) of Pub. and are subject to the Tire Rationing Regulations [1] issued by the Office of Price Administration. There was duly served on the respondents a notice of specific charges of violations of the Tire Rationing Regulations, and a notice of hearing thereon. Pursuant to said notice a hearing upon said charges was held on June 11, 1942, in Washington, D. C. There appeared a representative of the Office of Price Administration and respondents. The evidence pertaining to such charges was presented before an authorized presiding officer. Such evidence having been duly considered by the Deputy Administrator,

It is hereby determined:

(a) That respondents have violated the Tire Rationing Regulations in that respondents on February 11, 1942 sold, transferred and delivered one hundred and fifty-five (155) new tires to Diamond Service Company without the presentation of a certificate issued pursuant to said Tire Rationing Regulations.

Because of the great scarcity and critical importance of new tires and tubes, violations of the Tire Rationing Regulations and Revised Tire Rationing Regulations necessarily result in the diversion of new tires and tubes from military and essential civilian uses into nonessential uses, in a manner contrary to the public interest and detrimental to national defense. It further appears to the Deputy Administrator, on the evidence before him, that further violations of these Regulations are likely unless appropriate administrative action is taken.

It is therefore ordered:

(a) During the period in which this Suspension Order No. 4 shall be in effect,

(1) Respondents, their successors or assigns, shall not accept any deliveries or transfers of, nor in any manner directly or indirectly receive from any source any new tires, new tubes, or recapped or retreaded tires.

(2) Respondents, their successors or assigns, shall not accept any purchase orders or enter into any contracts or commitments for the sale or delivery of, nor in any manner directly or indirectly sell, transfer or deliver any new tires, new tubes, or recapped or retreaded tires.

(3) No person shall in any manner directly or indirectly sell, transfer or deliver any new tires, new tubes, or recapped or retreaded tires to respondents, their successors or assigns, regardless of whether such new tires, new tubes, or recapped or retreaded tires have been previously purchased and completely paid for.

(b) Nothing in this Order shall be construed to prohibit respondents from receiving and recapping or retreading tires the carcasses of which are supplied to respondents by other persons for recapping or retreading on behalf of such persons and redelivering such retreaded or recapped tires to such persons.

(c) Any terms used in this Order that are defined in the Revised Tire Rationing Regulations shall have the meaning there given them.

WOOD AUTO SUPPLY CO.

SUSPENSION ORDER

Suspension Order No. 5 under Tire Rationing Regulations restricting transactions by W. P. Wood and Wood Auto Supply Company.

W. P. Wood, doing business as Wood Auto Supply Company, 207 West Broadway, Okemah, Oklahoma, hereinafter called respondent, is engaged in selling tires and tubes and is subject to the Tire Rationing Regulations [1] and the Revised Tire Rationing Regulations [2] issued by the Office of Price Administration. There was duly served on respondent a notice of specific charges of violations of the Tire Rationing Regulations and a notice of hearing thereon. Pursuant to said notice a hearing upon said charges was held on June 30, 1942, in Okemah, Oklahoma. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to such charges was presented before an authorized presiding officer. Such evidence having been duly considered by the Deputy Administrator,

It is hereby determined:

That respondent has violated said Tire Rationing Regulations and Revised Tire Rationing Regulations in that respondent,

(a) on December 31, 1941 falsely represented to the Office of Price Administration his stocks of new tires and tubes on hand on December 12, 1941.

(b) on February 17, 1942 falsely represented to the Office of Price Administration his stock of new tires and tubes on hand on December 12, 1941.

(c) has failed to make proper reports of stocks of new tires and tubes on hand on December 12, 1941.

(d) has failed on January 31, February 28, and March 31, 1942, to make an inventory of all new tires and tubes in his possession or control and to keep a record thereof.

(e) has failed to keep and preserve records concerning inventories and sales of new tires and tubes for inspection by the Office of Price Administration.

Because of the great scarcity and critical importance of new tires and tubes, failure to make true reports and to keep accurate records as required by the Tire Rationing Regulations and Revised Tire Rationing Regulations by hindering and obstructing the proper administration of such Regulations necessarily result in the diversion of new tires and tubes from military and essential civilian uses into nonessential uses, in a manner contrary to the public interest and detrimental to national defense. It further appears to the Deputy Administrator, on the evidence before him, that further violations of these Regulations are likely unless appropriate administrative action is taken.

It is therefore ordered:

(a) During the period in which this Suspension Order No. 5 shall be in effect,

(1) Respondent, his successors or assigns, shall not accept any deliveries or transfers of, nor in any manner directly or indirectly receive from any source any new tires or new tubes.

(2) Respondent, his successors or assigns, shall not accept any purchase orders or enter into any contracts or commitments for the sale or delivery of, nor in any manner directly or indirectly sell, transfer or deliver any new tires or new tubes.

(3) No person shall in any manner directly or indirectly sell, transfer or deliver any new tires, or new tubes to respondent, his successors or assigns, regardless of whether such new tires or new tubes have been previously purchased and completely paid for.

(b) Any terms used in this Order that are defined in the Revised Tire Rationing Regulations shall have the meaning there given them.

(c) This Order shall become effective 12:01 A. M., July 29, 1942, and unless sooner terminated shall expire 12:01 A. M., August 28, 1942. (Pub. Law 421, 77th Cong.; Sec. 2 (a) of Pub. NEW ORLEANS PUBLIC SERVICE INC.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 24th day of July, A. D. 1942.

Notice is hereby given that an application or declaration (or both) has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by New Orleans Public Service Inc. ("New Orleans"), a subsidiary of Electric Power & Light Corporation, a registered holding company, which in turn is a subsidiary of Electric Bond and Share Company, likewise a registered holding company; and

Notice is further given that any interested person may, not later than August 6, 1942, at 5:30 P. M., E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such application or declaration, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transactions as provided in Rule U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania.

All interested persons are referred to said application or declaration, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized below:

At June 30, 1942, there were outstanding $1,624,500 principal amount of New Orleans City and Lake Railway Company Consolidated First Mortgage 50-Year, 5% Gold Bonds, due January 1, 1943, assumed by New Orleans. New Orleans states that at June 30, 1942, it had on hand $4,188,744 in cash which together with estimated net receipts for the balance of the year, is, in its opinion, more than sufficient to meet all its expenses, pay the assumed bonds at maturity, and leave an adequate working balance. New Orleans states that it is drawing no interest on its cash balances and as these bonds which are currently maturing are not callable, it proposes to use its available cash to purchase such bonds from the owners thereof, paying therefor a price in excess of principal amount which will provide a yield to the company of not less than ⅜ of one percent per annum. The application or declaration sets forth that such bonds will not, in any event, be purchased at less than their principal amount. It is intended that the bonds so purchased will be surrendered for cancellation to the trustee under the mortgage securing the bond issue.

New Orleans proposes to solicit bondholders directly by mail and by the use of its personnel and without the payment of special fees, commissions, or other remuneration. According to the application or declaration expenses to be incurred in connection with the transaction will be negligible.

By the Commission.

Secretary.

PART 324—MINIMUM PRICE SCHEDULE, DISTRICT NO. 4

ORDER GRANTING RELIEF

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 4 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 4; and requesting the establishment of an additional price instruction to be added to the schedule of effective minimum prices for District No. 4 for all shipments except truck to permit the establishment of price classifications and minimum prices for coals prepared at a preparation plant not a part of the mine at which said coals were produced.

An original petition pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 4; and further requesting the establishment of an additional price instruction to be added to the Schedule of Effective Minimum Prices for District No. 4 for All Shipments Except Truck which would permit coals passing through a preparation plant not constituting a part of the facilities of the mine at which said coals were produced to take the same prices for the various kinds and qualities and sizes of coal as if said preparation plant were located at the mine where said coal was actually produced; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth, and that the following action is necessary in order to effectuate the purposes of the Act.

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 324.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R–I, § 324.8 (*Numerical list of mines*) is amended by adding thereto Supplement R–II, § 324.2 (*Seasonal discounts*) is amended by adding thereto Supplement R–III, § 324.9 (*Recapitulation of price classifications*) is amended by adding thereto Supplement R–IV, § 324.11 (*Special prices*—(a) *Railroad fuel prices for all movements exclusive of lake cargo railroad fuel*) is amended by adding thereto Supplement R–V, and § 324.24 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the rules and regulations governing practice and procedure before the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless it shall otherwise be ordered.

No relief is granted herein as to the coals of C. C. Fay (Rail and Lake Coal Company), Brilliant No. 2 Mine, such coals having been heretofore classified and priced in Docket No. A–1105 for truck shipments and in Docket No. A–1105, Part II, for rail shipments.

No relief is granted herein as to the coals of the B. & T. Coal Company, B. & T. Coal Company Mine, Mine Index No. 2325, for truck shipments, such coals having been heretofore classified and priced in Docket No. A–119. As to rail shipments therefrom, the petition alleges that Mine Index No. 2325 is located in Wills Township, whereas the records of the Division indicate this mine is located in Wheeling Township, and until this discrepancy is clarified, no relief is granted herein for rail shipment.

No relief is granted herein as the coals of Weed Mine, Mine Index No. 2725, of Plymouth Cooperative Mining Company (Wallace Pidcock), nor the Schumacher Mine, Mine Index No. 1007, of the Schumacher Coal Company (Stanley Schumacher), inasmuch as coals from Mine Index No. 2725 were classified and priced in Docket No. A–1373 under the name of John Glass, and coals from Mine Index No. 1007 were classified and priced in Docket No. A–260 under the name of Schumacher Coal Company (Wade Hampton).

No relief is granted herein as to that part of the petition requesting the establishment of an additional price instruction to be added to the Schedule of Effective Minimum Prices for District No. 4 for All Shipments Except Truck, which would permit coals passing through a preparation plant not constituting a part of the facilities of the mine at which said coals were produced to take the same prices for the various kinds, sizes, and qualities of coal as if said preparation plant were located at the mine where said coal was actually produced, for the reasons set forth in the Order designating the portion of Docket No. A–1504 relating to such relief as Docket No. A–1504, Part II.

Dated: July 11, 1942.

PART 343—MINIMUM PRICE SCHEDULE, DISTRICT NO. 23

ORDER GRANTING RELIEF, ETC.

Memorandum opinion and order terminating hearing, revising temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 23 for the establishment of price classifications and minimum prices for the coals of the Costello Creek No. 2 Mine (Mine Index No. 163) in Subdistrict I in District No. 23.

A petition pursuant to section 4 II (d) of the Bituminous Coal Act of 1937 was duly filed with this Division by the above-named party requesting the establishment of certain price classifications and minimum prices, both temporary and permanent, for the coals produced from the Costello Creek No. 2 Mine, Mine Index No. 163, in Subdistrict I of District No. 23.

On May 2, 1942 (7 F.R. 3413), a Memorandum Opinion and Order was issued in this matter temporarily establishing for the coals of the Costello Creek No. 2 Mine, the same price classifications and minimum prices as those in effect for the coals produced from other mines located in Subdistrict I. The price classifications and minimum prices proposed by petitioner for the coals of the Costello Creek No. 2 Mine were, however, lower than the minimum prices heretofore established and currently in effect for coals, in the same size groups, produced from the mines of other code members in Subdistrict I in amounts ranging from 25 cents per ton to $1.50 per ton, and since the petition did not contain facts sufficient to warrant the permanent establishment of the proposed price classifications and minimum prices without a hearing, a hearing in this matter was scheduled to be held at Washington, D. C. on June 2, 1942.

The hearing was opened, as scheduled, on that day but petitioner was not represented. The hearing was thereupon continued pending further order of the Acting Director.

Subsequent to the date of hearing, petitioner submitted to the Division additional data in support of the price classifications and minimum prices proposed by it for the Costello Creek No. 2 Mine coals. In the light of the additional data submitted, it appears that a reasonable showing of necessity has been made for the granting of relief as requested in the original petition, and pending final disposition of the above-entitled matter, it is now proper that the price classifications and minimum prices proposed by the petitioner for the coals of the Costello Creek No. 2 Mine should be temporarily established in lieu of the price classifications and minimum prices temporarily in effect for that mine.

It further appears that a hearing is no longer necessary and accordingly, the hearing scheduled and pending in this matter should be terminated.

Now, therefore, it is ordered, That pending final disposition of the original petition in this matter, the temporary relief granted by the Memorandum Opinion and Order of May 2, 1942, for the coals of the Costello Creek No. 2 Mine, Mine Index No. 163, of code member W. E. Dunkle, in Subdistrict I in District No. 23, is revised as follows: Commencing forthwith § 343.4 (*Code member price index*), § 343.5 (*General prices; minimum prices for shipment via rail transportation*), and § 343.21 (*General prices*) are supplemented to include, for the coals of the Costello Creek No. 2 Mine, Mine Index No. 163, in Subdistrict I in District No. 23, the price classifications and minimum prices set forth below in lieu of those price classifications and minimum prices heretofore temporarily established and currently in effect for the coals of that mine.

It is further ordered, That the hearing in this matter be and it hereby is terminated.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and application to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure Before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order unless it shall otherwise be ordered.

PART 324—MINIMUM PRICE SCHEDULE, DISTRICT NO. 4

[Docket No. A-937]

AMENDMENT OF RELIEF ORDER

Order amending order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 4 for the establishment of price classifications and minimum prices for the coals or certain mines in District No. 4.

On July 21, 1941, an Order Granting Temporary Relief and Conditionally Providing for Final Relief was issued in the above-entitled matter (6 F.R. 3913). Price classifications and minimum prices were established, among other things, for the coals of the Pine Hollow Mine (Mine Index No. 212) of W. J. Eaton (Pine Hollow Coal Company) for all shipments except truck from Lisbon, Ohio, on the Pittsburgh, Lisbon & Western Railroad, but not on the Erie Railroad as was also requested.

It appears that the price classifications and minimum prices in the said Order of the Pine Hollow Mine (Mine Index No. 212) for all shipments except truck should be applicable for shipment from Lisbon, Ohio, on both the Pittsburgh, Lisbon & Western Railroad and the Erie Railroad.

Now, therefore, it is ordered, That the said Order of July 21, 1941 (6 F.R. 3913), and § 324.7 (*Alphabetical list of code members*), § 324.8 (*Numerical list of Mines*), § 324.2 (*Seasonal discounts*), § 324.10 General prices, and § 324.11 (*Special prices*—(a) *Railroad fuel prices for all movements exclusive of lake cargo railroad fuel*) be amended to establish

the price classifications and minimum prices therein of the Pine Hollow Mine (Mine Index No. 212) for all shipments except truck for shipment from Lisbon, Ohio, on the Erie Railroad in addition to the Pittsburgh, Lisbon & Western Railroad; and to assign this mine to Freight Origin Group No. 75 instead of 73.

It is further ordered, That in all other respects said Order of July 21, 1941, be, and it hereby is, continued in full force and effect.

Dated: July 28, 1942.

[SEAL] DAN H. WHEELER,
Acting Director.

INLAND BONDING COMPANY

JULY 27, 1942.

This Supplement is issued to delete from the list of companies holding certificates of authority from the Secretary of the Treasury as acceptable sureties on Federal bonds the name of the Inland Bonding Company. That Company has requested permission from the Treasury to retire from the writing of bonds in favor of the United States, and pursuant to that request the Secretary of the Treasury has, of even date with this Supplement, revoked, the certificate of authority issued on May 1, 1942 pursuant to the Act of Congress approved August 13, 1894, as amended, which certificate authorized the Inland Bonding Company to qualify as sole surety on Federal bonds.

Section 226.1, Part 226, Chapter II, title 31 of the Code of Federal Regulations of the United States of America (Treasury Department Circular No. 570, revised [1]) is hereby amended by deleting therefrom the name "Inland Bonding Company, South Bend" which appears in said Part 226 under the subtitle "Indiana", in the list of surety companies acceptable on Federal bonds.

PART 1021—FURNACES

[Interpretation 1 of Limitation Order L-22 [2]]

The following official interpretation is hereby issued with respect to § 1021.1 *General Limitation Order L-22:*

Paragraph (b) of General Limitation Order No. L-22 provides that during the calendar year 1942 no Class A Manufacturer or Class B Manufacturer may incorporate into furnaces iron and/or steel in excess of certain specified quotas. However, nothing in General Limitation Order No. L-22 restricts the manufacture of replacement parts for furnaces. Consequently such replacement parts may be manufactured over and above the established quotas. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. PART 1085—MAINTENANCE AND EXPANSION OF PLANTS CANNING FRUITS AND VEGETABLES

[Preference Rating Order P-115, as amended July 29, 1942 [1]]

Preference Rating Order P-115 (§ 1085.1) is hereby amended to read as follows:

§ 1085.1 *Preference Rating Order P-115*—(a) *Definitions.* For the purposes of this order:

(1) "Producer" means any person located in the United States, its territories and possessions, engaged in the business of canning or otherwise processing fruits and vegetables, or any person, located in the Dominion of Canada, to whom and in whose name a copy of this order is specifically issued.

(2) "Canning" means the preparation of fruits and vegetables for market by packing such fruits and vegetables (either alone or in combination with other commodities) in hermetically sealed containers and sterilizing by the use of heat and includes all operations required for or usually incidental to such preparation.

(3) "Processing" means the preparation of fruits or vegetables for market otherwise than by canning, including freezing, dehydration, and fresh packing.

(4) "Material" means any commodity, equipment, accessory, part, assembly, or product of any kind, used in the canning or processing of fruits and vegetables, but does not include any planting or harvesting equipment or equipment used in the transportation of food products.

(5) "Maintenance" means minimum upkeep necessary to enable the producer's existing plant and equipment to be used at its maximum rate of operation permissible under Conservation Order M-81 (To Conserve the Supply and Direct the Distribution of Tin Plate and Terne Plate) and other like orders.

(6) "Repair" means restoration of a producer's machinery, plant or equipment to sound working condition after physical depreciation, wear and tear, damage, destruction of parts or the like have impaired its fitness for service but not to an extent involving major reconstruction.

(7) "Material required for operation" means operating supplies not to be physically incorporated in the finished product, nor used as packaging or fuel.

(8) "Replacement" means substitution of new machinery, plant or equipment for existing machinery, plant or equipment, when not constituting repair.

(9) "Addition and expansion" means introduction of additional plant or equipment, other than replacements, to increase the productive capacity of a producer's existing plant or equipment, without enlarging existing building space.

(10) "Supplier" means any person with whom a contract or purchase order has been placed for delivery of material to a producer or to another supplier.

(b) *Assignment of preference ratings.* Preference ratings are hereby assigned, subject to the restrictions and conditions of paragraphs (c) and (d) hereof:

(1) A-1-a to deliveries, to a producer, of material directly required for emergency maintenance or repair, to avert spoilage of fruit or vegetables because of an actual breakdown or suspension of a producer's operations.

(2) A-1-j to deliveries, to a producer, of material required for repair, maintenance, or operation, or which will be physically incorporated into material which will be delivered for such use.

(3) A-1-c to deliveries to a producer of material required for replacement, addition or expansion, or which will be physically incorporated into material which will be delivered for such use, excluding, however, any deliveries:

(i) For the construction of new buildings, or the establishment of new plants,

(ii) For the establishment of new production lines, except for the canning of peas and tomatoes, or

(iii) For any other purpose that, in the opinion of the Director General for Operations at the time application is made, as provided in paragraph (d) (3) below, is not in the public interest, does not promote the national defense, or is in conflict with the policy of Conservation Order M-81 [3] (To Conserve the Supply and Direct the Distribution of Tin Plate and Terne Plate) or other like orders.

(c) *Restrictions on application of ratings by producer.* (1) Every contract and purchase order for material, to which a preference rating is to be applied hereunder, must specify the date or dates by which delivery is required, and except as hereinafter noted the preference rating may be applied only to such material, or portion thereof, which under the contract or purchase order, is to be delivered to the producer for his operations during the calendar year 1942. The producer may apply the ratings only to those quantities and kinds of materials essential to enable him to maintain his canning or processing schedules for the calendar year 1942, except as hereinafter noted in this section. Any producer may apply a rating hereunder to obtain material necessary to maintain canning schedules during the calendar year 1943 in plants located in the Hawaiian Islands.

(2) The producer shall not apply any preference rating assigned by (b) (1) above to deliveries of material to replace other material withdrawn from his inventory or stores for maintenance, repair or operation.

(3) The producer shall not apply any preference rating assigned by (b) (2) above if, in view of the current rate of consumption of his inventory or stores for repair and maintenance or operation, the delivery of the material to be rated would increase such inventory or stores above the minimum permitted or provided in paragraph (e) below.

(4) The producer shall not apply any preference rating hereunder unless the material to be delivered cannot be secured when required without such rating.

(d) *Application of preference rating.* (1) A producer or any supplier, in order to apply or extend the preference ratings assigned hereunder shall comply with Priorities Regulation No. 3, [4] as it may be amended from time to time.

(2) If preference rating A-1-a is applied, the producer must, immediately upon placing his order for such material, telegraph to the War Production Board the following with respect to such order:

(i) The name and address of the supplier;

(ii) The reasons why such order required assignment of preference rating as emergency maintenance or repair;

(iii) A specific description of the material included in the order, and

(iv) The invoice cost of each item of such material.

(3) If the material is required for replacement, expansion or addition, the producer shall not apply preference rating A-1-c, unless he shall have communicated with the War Production Board, describing the material needed and the nature of the proposed replacement, expansion or addition, and shall have received from the Director General for Operations a specific authorization to apply such rating, notwithstanding the fact that he may have previously been authorized to apply a rating of A-3. Such application for authorization may be made by a written statement on Form PD-285 or, in any emergency, by telegram giving substantially the information called for by said Form PD-285.

(e) *Inventory provisions.* A producer shall not accept deliveries (whether rated hereunder or not) of material for repair and maintenance or operation which will increase the inventory or stores available to the producer for such purposes to an amount greater than the minimum necessary for repair and maintenance and to sustain the current level of operations of the producer, and the ratio of such inventory and stores to current operations shall in no event exceed the ratio of average inventory to average operation for the years 1938, 1939, and 1940.

(f) *Records.* In addition to the records required to be kept under Priorities Regulation No. 1, a producer, and each supplier placing or receiving any purchase order or contract rated hereunder, shall each retain, for a period of two years, for inspection by representatives of the War Production Board, endorsed copies of all such purchase orders or contracts, whether accepted or rejected, segregated from all other purchase orders or contracts or filed in such manner that they can be readily segregated for such inspection.

(g) *Reports.* Each producer and each supplier who applies a preference rating hereunder shall file such reports as may be required from time to time by the War Production Board; and until further notice any producer or supplier who applies a preference rating hereunder for emergency maintenance or repair, or for repair, maintenance, or operation, shall file Form PD-81A on or before the *10th* day of each month.

(h) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref.: P-115.

(i) *Violations.* Any person who wilfully violates any provision of this order or who by any act or omission falsifies records to be kept or information to be furnished pursuant to this order may be prohibited from receiving further deliveries of any material subject to allocation, and such further action may be taken as is deemed appropriate, including a recommendation for prosecution under section 35 (a) of the Criminal Code (18 U.S.C. 80).

(j) *Revocation or amendment.* This order may be revoked or amended at any time as to any producer or any supplier. In the event of revocation, deliveries already rated pursuant to this order shall be completed in accordance with said rating, unless the rating has been specifically revoked with respect thereto. No additional applications of the rating to any other deliveries shall thereafter be made by the producer or supplier affected by such revocation.

(k) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to the provisions of all priorities regulations as issued or amended from time to time, except to the extent that any provision of this order may be inconsistent therewith, in which case such provision shall govern. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. PART 1296—PYRIDINE

[Conservation Order M-185]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of pyridine, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1296.1 *Conservation Order M-185*—(a) *Definitions.* For the purposes of this order:

(1) "Pyridine" means that particular fraction of the material commonly known as "tar bases" recovered as a by-product in the destructive distillation of coal, which fraction, upon distillation will have a dry point not above 117° C.

(2) "Pure pyridine" means the chemical compound known by that name.

(3) "Two-degree pyridine" means pyridine which, when dehydrated, distills completely within a temperature range of 2° C., which range includes the true boiling point of pure pyridine (115° C.).

(4) "Crude pyridine bases" means any mixture of pure pyridine and its homologs from which pyridine may be obtained.

(5) "Producer" means any person who produces pyridine and includes any person who has pyridine produced for him pursuant to toll agreement.

(6) "Distributor" means any person who has purchased or purchases pyridine from a producer for purposes of resale.

(b) *Restrictions on use and delivery of pyridine.* On and after September 1, 1942 no producer or distributor shall use or deliver pyridine except as specifically directed or authorized by the Director General for Operations upon application pursuant to paragraph (e) hereof: *Provided, however,* That no such specific authorization shall be required for:

(1) The use by any producer or distributor of ten (10) gallons or less of pyridine in any one month;

PART 3022—SILVER

[Conservation Order M-199]

The fulfillment of the requirements for the defense of the United States has created a shortage in the supply of silver for defense, for private account, and for export, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3022.1 *Conservation order M-199*—(a) *Definitions.* For the purposes of this order:

(1) "Silver" means silver bullion, silver scrap and other secondary forms of silver, and any alloy, compound, salt, or mixture containing more than one-half of one per cent of silver by weight.

(2) "Foreign silver" means any silver except that which has been produced since July 1, 1939, from mines situated inside of the territorial limits of the United States, its territories and possessions. It also includes foreign silver scrap and other secondary forms of foreign silver, and any alloy, compound, salt, or other mixture containing more than one-half of one per cent of foreign silver by weight. *Provided, however,* That scrap and other secondary forms of silver resulting from the processing of silver produced since July 1, 1939, from mines situated inside of the territorial limits of the United States, its territories and possessions, shall be considered as excepted from the category of "foreign silver," as such term is used herein, only as long as such scrap and secondary form of silver remains in the ownership of the person whose processing operations produced it.

(3) "Restricted use" means a use of silver in the manufacture of a product or part thereof or in any other use appearing upon List A hereto attached.

(4) "Inventory" of a person includes the inventory of affiliates and subsidiaries of such person, and the inventory of others where such inventory is under the control of or under common control with or available for the use of such person.

(5) "Manufacturer" means any person who uses silver by incorporating it physically in the products or parts thereof which he manufactures or who uses or consumes silver in any manufacturing process.

(6) "Supplier" means any person who imports, smelts, alloys, melts, rolls, or

refines silver, or who sells silver to manufacturers. The term includes distributors.

(7) "Process" means cut, draw, machine, stamp, melt, cast, forge, roll, turn, spin, or otherwise shape. It also means assemble.

(8) "Put into process" means the first change by the manufacturer in the form of material from that form in which it is received by him.

(9) The term "assemble" shall not be deemed to include the putting together of an article after delivery to a sales outlet or consumer in knockdown form pursuant to an established custom. The term "assemble" shall also not be deemed to include adding finished parts to an otherwise finished article when the placing of one or more finished parts or the size or type of one or more finished parts is determined by the use to which the ultimate consumer is to put the article.

(b) *Restrictions upon sale or delivery of foreign silver for restricted uses.* No supplier shall sell foreign silver except to a supplier or a manufacturer. Between July 29, 1942, and October 1, 1942, except to fill orders bearing a preference rating of A-3 or higher, no supplier shall sell or deliver foreign silver to any manufacturer for restricted uses in excess of one-twelfth of the aggregate amount by weight of such foreign silver sold or delivered by him to such manufacturer for restricted uses during the calendar year 1941 or in excess of one-sixth of the aggregate amount by weight of such foreign silver sold or delivered to him by such manufacturer for restricted uses during the period from January 1, 1942, to July 1, 1942, whichever is greater; and after October 1, 1942, except to fill orders bearing a preference rating of A-3 or higher, no supplier shall sell or deliver any foreign silver to any manufacturer for restricted uses. No supplier shall sell or deliver foreign silver to any person if he knows, or has reason to believe, such silver is to be received or used in violation of the terms of this order.

(c) *Restrictions upon purchase or receipt of foreign silver for restricted uses.* Between July 29, 1942, and October 1, 1942, except to fill orders bearing a preference rating of A-3 or higher, no manufacturer shall purchase or receive foreign silver for restricted uses in excess of one-twelfth of the aggregate amount by weight of such foreign silver purchased or received by such manufacturer for restricted uses during the calendar year 1941 or in excess of one-sixth of the aggregate amount by weight of such foreign silver purchased or received by such manufacturer for restricted uses during the period from January 1, 1942, to July 1, 1942, whichever is greater; and after October 1, 1942, except to fill orders bearing a preference rating of A-3 or higher, no manufacturer shall purchase or receive any foreign silver for restricted uses.

(d) *Restrictions upon manufacture of foreign silver for restricted uses.* Between July 29, 1942, and October 1, 1942, except to fill orders bearing a preference rating of A-3 or higher, no manufacturer shall put into process foreign silver for restricted uses in excess of one-twelfth of the aggregate amount by weight of such foreign silver put into process by such manufacturer for restricted uses during the year 1941 or in excess of one-sixth of the aggregate amount by weight of such foreign silver put into process by such manufacturer for restricted uses during the period from January 1, 1942, to July 1, 1942, whichever is greater. Except to fill orders bearing a preference rating of A-3 or higher, no manufacturer shall put into process any foreign silver for restricted uses, nor shall he process further any partially-processed products or parts thereof of foreign silver on List A, unless the products or parts will be finished by October 1, 1942. After October 1, 1942, except to fill orders bearing a preference rating of A-3 or higher, no manufacturer shall put into process or process any foreign silver for restricted uses.

(e) *Delivery certificate for foreign silver.* No supplier shall deliver foreign silver to any manufacturer and no manufacturer shall receive foreign silver from any supplier unless the manufacturer shall make and deliver to the supplier, or endorse on the purchase order, a certificate, manually signed by the manufacturer or a responsible official thereof, in substantially the following form, to-wit:

The undersigned hereby certifies that he is familiar with the terms of Conservation Order M-199; that he is a manufacturer as such term is used in such order; and that the foreign silver covered by the accompanying order of even date shall be received and used as permitted by said Order M-199.

Dated ----------
Name ----------
By ----------

Such certificate shall constitute a representation by the manufacturer to the supplier and the War Production Board of the facts stated therein. The supplier shall be entitled to rely on such representation unless he knows or has reason to believe it to be false.

(f) *General exception.* None of the restrictions in this order as to sale, purchase, delivery, receipt, or use of foreign silver shall be applicable to the United States or any of its departments or governmental agencies.

(g) *Repair exception.* The restrictions of this order shall not apply to a person repairing a used article on or off the premises of the owner, if the person making the repair does not use foreign silver weighing in the aggregate more than 5 ounces and if any putting into process or processing done by such person is for the purpose of making the specific repair.

(h) *Limitations of inventories.* No manufacturer shall receive delivery of foreign silver, in the form of raw materials, semi-processed materials, finished parts, or sub-assemblies, nor shall he put into process any raw material, in quantities which in either case shall result in an inventory of raw, semi-processed, or finished material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the use of foreign silver by this order.

(i) *Reports.* Each supplier and each manufacturer and every other person affected by this order shall file such reports as may be requested from time to time by the Director General for Operations.

(j) *Miscellaneous provisions*—(1) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of silver conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the War Production Board by letter or other written communication, in triplicate, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(2) *Applicability of order.* The prohibitions and restrictions contained in this order shall apply to the use of material in all items hereafter manufactured irrespective of whether such items are manufactured pursuant to a contract made prior or subsequent to the effective date hereof. Insofar as any other order of the Director General for Operations may have the effect of limiting or curtailing to a greater extent than herein provided, the use of foreign silver in the production of any item, the limitations of such other order shall be observed.

(3) *Applicability of Priorities Regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the Priorities Regulations of the War Production Board, as amended from time to time.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Miscellaneous Minerals Branch, Washington, D. C. Ref.: M-199.

(5) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Chapter XI—Office of Price Administration

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[Amendment 23 to Revised Tire Rationing Regulations [1]]

TIRES AND TUBES, RETREADING AND RECAPPING OF TIRES AND CAMELBACK

In § 1315.801, paragraph (a) (2) and (f) (2) are amended to read as set forth below:

Transfers and Deliveries of New Tires and Tubes, Retreaded or Recapped Tires and Camelback

§ 1315.801 *Permitted and prohibited transfers of new tires and tubes.* (a) • • •

(2) Unless specifically exempted, all physical transfers involving a change in the location or use of tires or tubes are included. Thus, if a dealer in tires or tubes removes a tire from his stock and mounts it on a vehicle owned by him, a transfer has occurred within the meaning of these Revised Tire Rationing Regulations. Furthermore, a change in physical location involving a movement of a tire from one establishment to another is a transfer, although routine shifts in stock within a single building are not transfers within these regulations. It should be noted, however, that freedom to move tires and tubes is expressly permitted by this § 1315.801 (c) and (f) (2) in a wide number of cases.

• • • • • •

(f) *Other transfers.* • • •

(2) *By wholesaler or manufacturer without changing ownership or control: new tires and tubes kept on any premises by manufacturer.* (i) Any wholesaler may, without certificate, transfer new tires or tubes to any premises owned, operated or controlled by such person and not used in performing the functions of a distributor or retailer, provided that no change in ownership or control of such tires or tubes is thereby effected. Records of such transfer shall be kept and reports in connection therewith shall be made as may be required by the Office of Price Administration.

(ii) Any person who manufactures tires and tubes and who complies with the following conditions may, without certificate, transfer new tires or tubes to, or keep them upon any premises, provided that no change in ownership or control of such tires or tubes is thereby effected:

(*a*) Except as provided hereinafter, the manufacturer shall not transfer to or keep such tires and tubes upon any premises, whether or not new tires or tubes were previously kept at such premises, unless he has been authorized in writing by the Office of Price Administration, Washington, D. C. Application for such authorization shall be made in writing by the manufacturer and shall state the number of such tires and tubes to be transferred to or kept upon each of such premises, the location of said premises, and the name and address of the person who owns or controls the premises. The Office of Price Administration may in its discretion deny, modify, or revoke any authorization at any time. The number of premises authorized for each manufacturer shall not exceed 250.

(*b*) The manufacturer shall also submit with his first application for authorization, a statement of all consigned stocks kept by him upon any premises in the United States or any of its territories or possessions, both as of December 11, 1941, and as of the date of application. The statement shall set forth the name and address of each such consignee and the number of consigned tires and tubes in his possession. Subsequent applications for authorization of additional premises shall set forth any changes which have occurred in the facts contained in the original statement of consigned stocks.

(*c*) A manufacturer may not keep more than 500 new tires and 500 new tubes at any time on an authorized premise unless the Office of Price Administration authorizes him in writing to keep a greater stock, or unless the authorized premise is a regional branch of the manufacturer. A regional branch means any premise wholly controlled by the manufacturer at which the usual functions of the manufacturer's business, apart from production, are performed, provided that such premise is not used in performing the functions of a distributor or retailer.

(*d*) The tires or tubes shall be kept segregated from any others owned, possessed or controlled by a person other than the manufacturer and shall be made readily identifiable upon inspection by signs, labels or similar means. The manufacturer shall at all times have access to the portion of such premises on which the tires and tubes are so segregated.

(*e*) Except in the case of transfer without certificate expressly permitted by other provisions of these Revised Tire Rationing Regulations, or transfer by a manufacturer from one of his authorized premises to another, no tires or tubes shall be transferred from such premises unless the manufacturer or his duly authorized agent shall have first received in exchange therefor and in accordance with the requirements of these regulations a nontransferable certificate for the purchase of new tires or tubes, OPA Form No. R-2, a nontransferable emergency certificate, OPA Form No. R-20, a nontransferable receipt, OPA Form No. R-12, or Part B of any such certificate or receipt. The manufacturer shall not designate as his agent to receive the certificates, receipts, or Parts B thereof, any person who operates or controls the premises or any employee of such person or anyone in any manner interested in or connected with the business of such person.

(*f*) Records of all transfers to or from authorized premises shall be kept by the manufacturer at such premises and at his principal place of business. The manufacturer shall make monthly reports thereof to the Office of Price Administration, Washington, D. C., commencing with the month of August, 1942. Such reports shall be filed not later than the fifth day of the calendar month following the period covered by the report. They shall include an inventory based upon a physical count, showing the total number of new tires and tubes at the end of the preceding monthly period on each of the premises, together with all transfers to and from such stocks during said monthly period and shall list, by serial number if there is one, the certificates or receipts or Parts B thereof, upon which the transfers were made and the number, by size and type, of tires or tubes represented by each such certificate or receipt.

(*g*) The provisions of paragraph (f) (2) of this section shall apply to tires and tubes located at authorized premises and shall not apply to tires or tubes located at the place of manufacture; or in a public warehouse; or to stocks consigned before December 11, 1941, to a distributor or retailer or replenished thereafter in accordance with these Regulations. In the case of segregated stocks an "authorized premise" means only that portion of the premise upon which the segregated stock is located.

(w) Amendment No. 23 (§ 1315.801) to Revised Tire Rationing Regulations shall become effective July 29, 1942.

Added: §§ 1364.62 (a) (11) and 1364.63 (c) as set forth below:

§ 1364.52 *Maximum prices for beef and veal carcasses and wholesale cuts.* • • •

(d) The maximum price for each grade of each beef or veal carcass or wholesale cut which is purchased for any institution of any State, or political subdivision thereof, or of the United States by an authorized purchasing agency (other than purchases for the armed forces of the United States or the Federal Surplus Commodities Corporation) shall be either:

(1) The highest price which such agency contracted to pay for such grade of carcass or cut in contracts specifying comparable delivery and entered into during the thirty-day period commencing on March 16, 1942, or actually paid for such grade of carcass or cut delivered during such period; or

Such price shall be determined as follows:

(i) *In those cases where a closely competitive seller of the same class has established a maximum price under § 1499.2 (a) of the General Maximum Price Regulation[1] or under subparagraph (1) or (2) of this section for the same or a similar garment.* The seller's maximum price shall be the maximum price so established by the most closely competitive seller of the same class:

PART 1499—COMMODITIES AND SERVICES

[Maximum Price Regulation 188]

MANUFACTURERS' MAXIMUM PRICES FOR SPECIFIED BUILDING MATERIALS AND CONSUMERS' GOODS OTHER THAN APPAREL

The General Maximum Price Regulation [2] provides, in general, that commodities sold by a manufacturer shall be priced at the price of a same or similar article sold during March, 1942; and lacking the price of a same or similar article, at a price to be determined by the seller after specific authorization by the Office of Price Administration in advance of the offering of the commodity for sale.

In the case of a considerable list of building materials and consumers'-goods at the manufacturers' level, so many new articles which are not "similar" to an already sold article within the meaning of the General Maximum Price Regulation are customarily offered for sale as unnecessarily to retard manufacturers in their pricing.

This Maximum Price Regulation No. 188, accordingly, sets forth for these manufacturers a different procedure than that used in the General Maximum Price Regulation, although the base date thereof is preserved. By eliminating pricing by the price of a similar article, it limits the number of articles which may be priced at the maximum price of another article. But in the pricing of most new articles the manufacturer may follow self-executing pricing methods which obviate advance resort to this Office.

In the judgment of the Price Administrator, the maximum prices established by this Regulation are necessary to check inflation and to effectuate the purposes of the Emergency Price Control Act of 1942, and to adjust the provisions of the General Maximum Price Regulation to the particular circumstances of manufacturers of certain building materials and consumers' goods.

The statement of considerations involved in the issuance of this Maximum Price Regulation No. 188 is issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,[3] issued by the Office of Price Administration, Maximum Price Regulation No. 188 is hereby issued:

AUTHORITY: §§ 1499.151 to 1499.166, inclusive, issued under the authority contained in Pub. Law 421, 77th Cong.

§ 1499.151 *Applicability of the General Maximum Price Regulation.*[1] The provisions of §§ 1499.1 to 1499.3, inclusive, of the General Maximum Price Regulation shall not apply to sales or deliveries by manufacturers of certain building materials and of certain consumers' goods set forth in § 1499.166, Appendix A, of this Maximum Price Regulation No. 188. All other sections of the General Maximum Price Regulation, together with existing and subsequent amendments and supplementary regulations, shall apply to sales and deliveries by such manufacturers, and are hereby incorporated by reference into this Maximum Price Regulation No. 188.

§ 1499.152 *Prohibition against dealing in certain articles of building materials and consumers' goods above maximum prices.* (a) On and after August 1, 1942, regardless of any contract or other obligation:

(1) No manufacturer shall sell or deliver any article set forth in Appendix A (§ 1499.166) of this Maximum Price Regulation No. 188 at a price higher than the maximum price permitted by this Maximum Price Regulation No. 188; and

(2) No person in the course of trade or business shall buy or receive any such article from a manufacturer at a price higher than the maximum price permitted by this Maximum Price Regulation No. 188:

Provided, That in the case of articles for which a maximum price has been established under §§ 1499.156 or 1499.157 of this Maximum Price Regulation No. 188, if the purchaser shall receive from the seller a written affirmation that the seller has calculated the maximum price for the article in accordance with § 1499.156 or § 1499.157 and has filed a report with the Office of Price Administration and complied with the waiting provisions of § 1499.156 or § 1499.157 and if in such case the purchaser shall have no knowledge of the maximum price and no cause to doubt the accuracy of the affirmation, and provided the price paid is not in excess of the maximum price as affirmed by the seller, the purchaser shall have complied with this section.

(b) The provisions of paragraph (a) (2) of this section shall not be applicable to any war procurement agency or any contracting officer thereof, and any such contracting officer or any paying finance officer shall be relieved of any and every liability, civil or criminal, imposed by this Maximum Price Regulation No. 188 or by the Emergency Price Control Act of 1942.

(c) On and after August 1, 1942, no manufacturer shall sell (including an offer for sale) or deliver any article set forth in Appendix A (§ 1499.166) of this Maximum Price Regulation No. 188 for which a maximum price must be determined under §§ 1499.156, 1499.157, or 1499.158 until he has complied with the reporting and waiting provisions of the applicable one of those three sections.

§ 1499.153 *Maximum prices for articles of building materials and consumers' goods finally priced before August 1, 1942*—(a) *Articles priced in March 1942.* The maximum price for any article which was delivered or offered for delivery in March, 1942, by the manufacturer, shall be the highest price charged by the manufacturer during March, 1942 (as defined in § 1499.163), for the article.

(b) *Articles priced on and after April 1, 1942 and before August 1, 1942.* The maximum price for any article not delivered or offered for delivery in March 1942 by the manufacturer, for which a maximum price was finally determined in accordance with the provisions of § 1499.2 or § 1499.3 of the General Maximum Price Regulation [1] or in accordance with the provisions of Temporary Maximum Price Regulations Nos. 3 [2] or 5,[4] and which was offered for sale before August 1, 1942, shall be the price so determined.

(c) *Reports of maximum prices.* On or before August 20, 1942, the manufacturer shall report to the Office of Price Administration, Washington, D. C., all maximum prices determined under paragraph (b) of this section which have not already been reported in accordance with the provisions of the General Maximum Price Regulation or Temporary Maximum Price Regulations Nos. 3 or 5. Such reports shall contain a description of the article, and shall indicate the method of determining the maximum prices. All such maximum prices shall be subject to adjustment (not to apply retroactively) at any time upon written order of the Office of Price Administration.

§ 1499.154 *Maximum prices for articles of building materials and consumers' goods not finally priced before August 1, 1942.* This section shall apply to articles first offered for sale before August 1, 1942, for which no maximum price was finally determined, and to all articles first offered for sale on or after August 1, 1942.

The maximum price for any such article shall be the price determined by the first one of the four methods set forth in §§ 1499.155, 1499.156, 1499.157, and 1499.158 which applies to the article.

§ 1499.155 *First pricing method—minor changes.* The maximum price of any article differing from any article for which a maximum price has already been established, only by reason of minor changes in material, design, or construction which do not reduce cost of materials or prevent its offering fairly equivalent serviceability shall be the maximum price of the article already priced.

§ 1499.156 *Second pricing method: changes necessitated by shortages of materials or parts*—(a) *Maximum prices.* The maximum price of any article which cannot be priced under § 1499.155 and which differs from an article for which a maximum price has already been established, only because of changes necessitated by shortage of materials or parts used in the original article, shall be the maximum price of the original article adjusted by adding or subtracting the increase or decrease in unit direct cost resulting from the changes.

In calculating unit direct cost for the original article, the manufacturer shall compute on the basis of the wage rates, material prices, and operating conditions provided in paragraph (b) of § 1499.157 for *comparable articles.* In calculating unit direct cost for the changed article the manufacturer shall compute on the basis of the wage rates, material prices, and operating conditions provided in paragraph (b) of § 1499.157 for the *article being priced.*

(b) *Reports of maximum prices*—(1) *Articles first offered for sale before August 1, 1942.* In the case of an article first offered for sale before August 1, 1942, for which a maximum price must be determined under this section, the manufacturer shall report the maximum price as computed by him to the Office of Price Administration, Washington, D. C., on or before August 20, 1942. The report shall contain a description of the original and of the changed article, a detailed explanation of the changes made (including any innovation in manufacturing process) and the reasons therefor, details of the computation of unit direct cost and of the maximum price.

At any time prior to September 4, 1942, the manufacturer may offer for sale, sell or deliver the article at a tentative price

if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the price so determined. Fifteen days after mailing the report, in the absence of a contrary direction from the Office of Price Administration, he may offer for sale or complete the sale of the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time upon the written order of the Office of Price Administration.

(2) *Articles first offered for sale during August, 1942.* In the case of articles first offered for sale during August 1942, the manufacturer shall submit the report required in (1) on or before September 10, 1942.

At any time prior to September 25, 1942, the manufacturer may offer for sale, sell, or deliver the article at a tentative price if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the maximum price so determined. Fifteen days after mailing the report, in the absence of a contrary direction from the Office of Price Administration, he may offer for sale or complete the sale of the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time upon the written order of the Office of Price Administration.

(3) *Articles first offered for sale on or after September 1, 1942.* In case of an article first offered for sale on or after September 1, 1942, the manufacturer shall submit to the Office of Price Administration, Washington, D. C., the report required in (1) prior to first offering the article for sale. Fifteen days after the mailing of the report, in the absence of a contrary direction from the Office of Price Administration, the manufacturer may offer for sale the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time upon the written order of the Office of Price Administration.

§ 1499.157 *Third pricing method: pricing by comparable articles.* The maximum price of any article which cannot be priced under § 1499.155 or § 1499.156 and which is comparable to an article currently being sold by the manufacturer for which a maximum price has already been established, shall be the price derived by the pricing formula set forth in this section.

NOTE.—The meaning of certain terms used in this section is further explained in subsequent provisions of the section. The terms so explained are in quotation marks the first time that they appear in the text.

(a) *Pricing formula.* To establish a maximum price the manufacturer shall:

(1) Determine the "unit direct cost" for the article being priced.

(2) Select from his line of "comparable articles" currently being sold for which maximum prices have already been established, two comparable articles: the one which has a unit direct cost immediately higher and the one which has a unit direct cost immediately lower than the unit direct cost of the article being priced. If a comparable article has the same unit direct cost as the article being priced, it shall be selected in addition to the comparable articles immediately above and below. If all comparable articles are either above or below, the one closest in unit direct cost shall be selected.

(3) Determine both the average percentage and the average dollar mark-up over unit direct cost for the comparable articles selected.

(4) Apply to the unit direct cost of the article being priced either the average percentage or the average dollar mark-up, whichever will yield the lower price. The resulting price shall be the maximum price.

(Example of the above computation)

Unit direct cost of article being priced = $9.00

Unit direct costs of comparable articles selected according to (2)	Maximum selling price for each such article	Dollar mark-up for each such article	Average percentage mark-up for such articles
$10.00 7.00	$14.00 9.00	$4.00 2.00	$23.00 (Sum of maximum prices). −17.00 (Sum of unit direct costs).
17.00	23.00	6.00÷2=$3.00	6.00÷$17.00=35.3%

Unit direct cost+average percentage mark-up = $9.00+$3.18 = $12.18.
Unit direct cost+average dollar mark-up = $9.00+$3.00 = $12.00.
Maximum selling price of article being priced (the lower of above two sums) = $12.00.

In applying the formula, the manufacturer shall determine the class of purchaser to which he expects to sell the largest volume of the article being priced. In calculating the mark-up over unit direct cost for the comparable articles selected he shall use the maximum prices for such articles applicable to the same class of purchaser as that determined for the article being priced. If a comparable article does not have such a maximum price, he shall make appropriate adjustments of his established maximum price for the comparable article to obtain such a maximum price. The maximum price derived by the formula for the article being priced shall be the maximum price applicable to such largest volume class of purchaser. It shall be adjusted for other classes of purchasers according to § 1499.159.

(b) *Computation of unit direct cost.* To establish the unit direct cost of the comparable articles and of the article being priced, the manufacturer shall compute the cost per unit of direct labor and materials on the basis of the following wage rates, material prices, and operating conditions:

(1) *Wage rates.* The wage rates applicable to any article shall be the highest wage rates, in effect in the manufacturer's plant for any substantial portion of March, 1942, for each class of labor involved in the production of the article. If the manufacturer did not employ a given class of labor in March, 1942, he shall use the highest wage rate paid for any substantial portion of March 1942, by the nearest employer operating under comparable conditions who employed that class of labor during that month.

(2) *Material prices* — (i) *Comparable articles.* If a comparable article was priced and offered for sale before August 1, 1942, the price of any material used in it shall be the highest price charged during March 1942 (as defined in § 1499.163) by the "manufacturer's supplier."

If the comparable article was priced and first offered for sale on or after August 1, 1942, the price of any material used in it shall be computed as above, unless (a) the Office of Price Administration has established a lower maximum price for the sale of the materials to the manufacturer by his supplier, and (b) such lower price was used in calculating the maximum selling price for the comparable article (under § 1499.156 or of this section); in that event such lower price shall be the price of the material.

(ii) *Articles being priced.* The price of any material used in the article being priced shall be the highest price charged during March 1942 (as defined in § 1499.163) by the manufacturer's supplier; except that if the Office of Price Administration has established a lower maximum price for the sale of the material to the manufacturer by his supplier, such lower price shall govern.

(iii) *Manufacturer's supplier.* The manufacturer's supplier shall be (a) his March, 1942, supplier of the material, or (b) lacking a March, 1942 supplier of the material, his most recent supplier of the material. If neither of these exists, it shall be his potential supplier.

(3) *Operating conditions.* Using the wage rates and material prices determined under (1) and (2), the manufacturer shall compute the cost per unit of direct labor and materials for an article according to the methods customarily employed by him in computing his cost. For comparable articles he shall compute on the basis of productive techniques employed in his plant and of the actual volume of production prevailing during the most recent period in which the comparable article was produced prior to the time of mailing the report required by paragraph (e) of this section. For the article being priced he shall compute on the basis of productive techniques

employed in his plant at the time of mailing such report and on the basis of the volume of production he reasonably expects.

(c) *Computation of mark-up*—(1) *Percentage.* The average percentage mark-up over unit direct costs shall be calculated by computing the percentage mark-up between the sum of the unit direct costs and the sum of the maximum prices of the comparable articles selected.

(2) *Dollar mark-up.* The average dollar mark-up over unit direct cost shall be calculated by averaging the individual dollar mark-ups between the unit direct costs and the maximum prices of the comparable articles selected.

(d) *Comparable articles.* An article shall be deemed comparable to another article which although differing therefrom by more than minor changes within the meaning of § 1499.155 of this Maximum Price Regulation No. 188, has the same general use as the other article and is recognized by the industry as being the same general type of product, even though different materials and construction are used.

(e) *Reports of maximum prices*—(1) *Articles first offered for sale before August 1, 1942.* In the case of an article first offered for sale before August 1, 1942, for which a maximum price must be determined under this section, the manufacturer shall report the maximum price as computed by him to the Office of Price Administration, Washington, D. C., on or before August 20, 1942. The report shall contain a description of the article being priced and of any innovation in manufacturing process involved and an explanation of the computation of the cost and the maximum price It shall also describe each of the comparable articles, giving for each the maximum prices for all classes of purchasers and, if practicable, the volume of production for the three calendar months immediately preceding the filing of the report.

At any time prior to September 4, 1942, the manufacturer may offer for sale, sell, or deliver the article at a tentative price if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the price so determined. Fifteen days after mailing the report, in the absence of a contrary direction from the Office of Price Administration, he may offer for sale or complete the sale of the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively), at any time upon the written order of the Office of Price Administration.

(2) *Articles first offered for sale during August, 1942.* In the case of articles first offered for sale during August, 1942, the manufacturer shall submit the report required in (1) on or before September 10, 1942.

At any time prior to September 25, 1942, the manufacturer may offer for sale, sell, or deliver the article at a tentative price if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the maximum price so determined. Fifteen days after mailing the report, in the absence of a contrary direction from the Office of Price Administration, he may offer for sale or complete the sale of the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time upon the written order of the Office of Price Administration.

(3) *Articles first offered for sale on or after September 1, 1942.* In case of an article first offered for sale on or after September 1, 1942, the manufacturer shall submit to the Office of Price Administration, Washington, D. C., the report required in (1) prior to first offering the article for sale. Fifteen days after the mailing of the report, in the absence of a contrary direction from the Office of Price Administration, the manufacturer may offer for sale the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time upon the written order of the Office of Price Administration.

§ 1499.158 *Fourth pricing method—specific authorization by the Office of Price Administration*—(a) *Maximum prices.* The maximum price for any article which cannot be priced under §§ 1499.155, 1499.156, or 1499.157, or which cannot be priced under §§ 1499.155, 1499.156, or 1499.157 without undue hardship, shall be the price, in line with the level of maximum prices established by this Maximum Price Regulation No. 188, specifically authorized by the Office of Price Administration.

(b) *Reports of maximum prices.* Prior to first offering the article for sale the manufacturer shall submit to the Office of Price Administration, Washington, D. C., a report applying for specific authorization of a maximum price. The report shall contain a description in detail of the article (including the manufacturing process), a statement of the facts which make it necessary to price the article under this section, and the proposed maximum price, with a detailed explanation of its computation. If the manufacturer bases his report on undue hardship, he shall include in it all the information required by paragraph (e) of § 1499.157. Upon receipt of the authorization, the manufacturer may offer the article for sale in accordance with the terms of the authorization.

§ 1499.159 *Price differentials and economies effected by new or changed articles*—(a) *Price differentials.* Every manufacturer shall continue all his allowances, discounts, and other price differentials in effect in March, 1942. In the case of articles priced under §§ 1499.155, 1499.156, 1499.157, or 1499.158 of this Maximum Price Regulation No. 188, every manufacturer shall in the case of sales to different classes of purchasers adjust the maximum prices determined for one general class of purchaser to reflect all allowances, discounts, and other price differentials which he was accustomed to make on that type of article.

(b) *Economies effected by new or changed articles.* Wherever after the introduction of a new or changed article the manufacturer realizes savings in indirect costs and expenses because of its introduction, the Office of Price Administration will by order require that such economies be reflected in the maximum price for such new or changed article. Wherever possible, such savings should be indicated in the reports required by §§ 1499.156, 1499.157 and 1499.158.

§ 1499.160 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 188 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to, an article of building material or consumers' goods, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1499.161 *Applications for adjustment and petitions for amendment*—(a) *Applications for adjustment.* (1) The Office of Price Administration, or any duly authorized officer thereof, may by order adjust the maximum price established under this Maximum Price Regulation No. 188 for any seller other than a seller at retail in any case in which such seller shows:

(i) That such maximum price causes him substantial hardship and is abnormally low in relation to the maximum prices established for competitive sellers of the same or similar commodities; and

(ii) That establishing for him a maximum price bearing a normal relation to the maximum prices established for competitive sellers of the same or similar commodities, will not cause or threaten to cause an increase in the level of retail prices.

Applications for adjustment under this subparagraph (1) shall be filed in accordance with Procedural Regulations No. 1.[2]

(2) Any person seeking relief, for which no provision is made in the foregoing subparagraph (1) of this section, from a maximum price established under this Maximum Price Regulation No. 188 may present the special circumstances of his case in an application for an order of adjustment. Such an application shall be filed in accordance with Procedural Regulation No. 1[2] and shall set forth the facts relating to the hardship to which such maximum price subjects the applicant together with a statement of reasons why he believes that the granting of relief in his case and in all like cases will not defeat or impair the policy of the Emergency Price Control Act of 1942 and of this Maximum Price Regulation No. 188 to eliminate the danger of inflation.

(b) *Petitions for amendment.* Any person seeking a modification of any pro-

vision of this Maximum Price Regulation No. 188 (other than an adjustment provided by paragraph (a)) may file a petition for amendment in accordance with the provisions of Procedural Regulation No. 1 issued by the Office of Price Administration.

§ 1499.162 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 188 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 188 or any price schedule, regulation or order issued by the Office of Price Administration, or of any acts or practices which constitute such a violation are urged to communicate with the nearest district, state, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1499.163 *Definitions.* (a) When used in this Maximum Price Regulation No. 188, the term:

(1) "Article" means any building material or consumers' good set forth in Appendix A (§ 1499.166) which is manufactured or sold as a distinct item.

(2) "Highest price charged during March, 1942" means

(i) The highest price which the manufacturer charged to a purchaser of the same class for delivery of the article or material during March, 1942; or

(ii) If the manufacturer made no such delivery during March, 1942, such manufacturer's highest offering price to a purchaser of the same class for delivery of the article or material during that month.

(3) "Manufacturer" means a person operating an establishment which produces, fabricates, finishes, or assembles a building material or consumers' goods.

(4) "Purchaser of the same class" and "class of purchaser" refers to the practice adopted by the seller in setting different prices for commodities for sales to different purchasers or kinds of purchasers (for example, manufacturer, wholesaler, jobber, retailer, government agency, public institution, individual consumer) or for purchasers located in different areas or for different quantities or under different conditions of sale.

§ 1499.164 *Geographical applicability.* The provisions of this Maximum Price Regulation No. 188 shall be applicable to the forty-eight states and the District of Columbia.

§ 1499.165 *Effective date.* This Maximum Price Regulation No. 188 (§§ 1499.151 to 1499.166, inclusive) shall become effective August 1, 1942, for all sales and deliveries except sales and deliveries to the United States or any agency thereof, or to the Government of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States," or any agency of any such Government. For such sales and deliveries it shall become effective September 1, 1942.

§ 1499.166 *Appendix A: Articles covered by the regulation.* The following articles of building materials and consumer goods shall be covered by this Maximum Price Regulation No. 188:

PART 1499—COMMODITIES AND SERVICES

[Maximum Prices Under § 1499.3 (b) of the General Maximum Price Regulation,[1] Order No. 49]

DOG OR CAT FOODS

For reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 and § 1499.3 (b) of the General Maximum Price Regulation, it is hereby ordered:

§ 1499.263 *Formula for determining maximum prices of certain new types of dog or cat foods by manufacturers.* (a) Any manufacturer who formerly produced a wet dog or cat food packed in tin cans and who intends to produce and sell in its place a dehydrated or otherwise processed dry dog or cat food containing substantially the same ingredients as his former wet dog or cat food, and for which dry product he cannot determine his maximum price under § 1499.2 of the General Maximum Price Regulation, is hereby authorized to determine his maximum price for said dry dog or cat food by the following formula:

Each manufacturer shall compute his maximum price for a shipping case of such dry dog or cat food f. o. b. plant by: (1) dividing the average price f. o. b. plant (weighted according to volume) charged by him for a shipping case of the canned wet dog or cat food produced by him in largest volume during March, 1942 (or if no canned wet dog or cat food was produced by him during March, 1942, during the last full month canned wet dog or cat food was produced by him) by the actual cost of food ingredients and containers used for a shipping case of that dog or cat food during that month; and (2) multiplying the figure so obtained by a figure equal to the cost, based on average March 1942 prices, of the food ingredients and containers used in the manufacture of a shipping case of the dry dog or cat food (whether or not such dry dog or cat food was actually produced in March 1942).

The maximum price so determined shall be subject to discounts, allowances and terms no less favorable than those formerly given with respect to the canned wet dog or cat food, shall include commissions, advertising or other allowances and all other charges and shall not be increased by any charges for the extension of credit.

(b) Within ten days after any such maximum price has been determined, the manufacturer shall report such price to the Office of Price Administration in Washington, D. C. in writing, setting forth each of the figures used in paragraph (a) of this order and the actual computation of the maximum price. This writing must be accompanied by an affidavit that the costs and figures used in the computations are true and correct.

(c) If at any time after computing and reporting a maximum price under paragraph (a) of this order, a manufacturer shall change any of the food ingredients or the container used in this product, the manufacturer shall, within ten days after such change, recompute the maximum price for this product under the formula set out in paragraph (a) of this order. If such recomputation results in a figure which is more than ten cents ($0.10) per shipping case lower than the prior maximum price, the manufacturer shall report and use this figure as his new maximum price as provided in paragraph (b) of this order. Nothing in this paragraph shall be construed to authorize any increase in any maximum price determined hereunder.

(d) Sellers of such dry dog or cat food, other than manufacturers, shall determine and report their maximum price for this new commodity under the provisions of § 1499.3 (a) of the General Maximum Price Regulation. The manufacturer shall so advise, in writing, all wholesalers, jobbers and retailers to whom he sells and he shall also require all wholesalers and jobbers to so advise, in writing, all retailers to whom they sell.

(e) This order No. 49 may be revoked or amended by the Office of Price Administration at any time.

(f) This order No. 49 (§ 1499.263) shall become effective July 30, 1942. (Pub. Law 421, 77th Cong.)

Issued this 29th day of July 1942.

Administrator.

(b) Preference shall be given to articles, materials, and supplies, manufactured, produced or mined in the United States, purchased for the account of the War Shipping Administration, whenever convenient in the judgment of the purchasing officer, employee, and Agent or General Agent conducting the business of vessels under service agreements.

(c) Proper officials of the War Shipping Administration are hereby authorized to enter into contracts, and into amendments or modifications of existing contracts, without regard to the provisions of Title III of the Act of March 3, 1933 (Public No. 428, Seventy-Second Congress, 47 Stat. 1520, 41 U.S.C. Such open policies will be subject to the standard war risk import open cargo policy form of the War Shipping Administration hereinafter referred to as the Warshipopencargo Form and published in the FEDERAL REGISTER as a part hereof. All such policies will be issued on behalf of the War Shipping Administration by Underwriting Agents appointed by the Administration for this purpose. All applications for open policies must specify the basis of valuation to be incorporated therein. The Assured shall have the option at the time of application of selecting one of the two following alternative bases of valuation:

(1) Invoice cost, plus transportation and insurance charges actually incurred with respect to the insured shipment, plus such percentage thereof as may be specified in the policy but not exceeding 10%. Where invoice is in foreign currency, amount to be converted to U. S. dollars at the mean rate of exchange at New York upon date of shipment as indicated by the bill of lading or otherwise.

(2) A value per unit to be specified in the policy.

Regardless of which option is selected the assured shall recover only his actual out of pocket loss and the policy shall embody the following clause:

In the event of loss the assured shall be required to file an affidavit to the effect that the amount claimed does not exceed the actual bona fide pecuniary loss of the assured, exclusive of any allowance for anticipated or accrued profit arising out of the insured venture. Such affidavit shall be subject to the provisions of section 35 (a) of the Criminal Code.

(b) All applications for open cargo war risk insurance policies must maintain with the War Shipping Administration either a collateral deposit fund or a surety bond subject to the following regulations:

(1) Applicant wishing to establish a collateral deposit fund in compliance with the foregoing may do so by depositing with the underwriting agent of the War Shipping Administration through whom the open policy is to be issued a certified check or cashier's check payable to the order of the Treasurer of the United States in an amount as hereinafter provided, together with a letter of transmission in duplicate in accordance with the attached form. Such deposit when received will be held under a serial number assigned thereto until the cancellation of said open cargo policy and until final settlement of all premiums due thereunder has been effected. Until such time no part of such collateral deposit fund will be returned to the depositor unless otherwise specifically agreed by the War Shipping Administration. Assureds depositing additional certified or cashier's checks or money orders with the underwriting agent in order that their collateral deposit fund may be at all times sufficient to comply with Clause 13 of Part II of said Open War Risk Insurance Policy should refer to the serial number given to the original deposit as provided in paragraph (c) of this section.

In the event any assured fails to pay all premiums due under any open war risk insurance policy issued to him by the War Shipping Administration as the same become due and payable, the War Shipping Administration reserves the right to cancel the policy in accordance with its terms and to deduct such due amounts from such assured's collateral deposit fund.

No deposit will be accepted in accordance with the terms of this supplement unless amounting to $1,000.00 or more.

(2) Applicant wishing to furnish a surety bond in compliance with the foregoing shall present to the underwriting agent of the War Shipping Administration through whom the policy is issued a surety bond executed by the assured as principal and by the surety, the bond to be in the amount desired by the assured: *Provided, however,* That in no event shall it be for an amount less than $1,000.00. The sufficiency of the surety shall be subject to approval by the War Shipping Administration: *Provided, however,* That the underwriting agent may accept on behalf of the War Shipping Administration a surety bond executed by a surety on the approved list of the Treasury Department for the acceptance of bonds to secure obligations due the United States, provided the bond is within the maximum amount for which the surety is so authorized to write bonds as shown by the said approved list.

If the proposed surety is not on said approved list, the underwriting agent, before accepting the surety bond, shall first secure the specific written approval of the Assistant Deputy Administrator for Fiscal Affairs, War Shipping Administration, or his properly authorized designee.

In the event any assured fails to pay all premiums due under any open war risk insurance policy issued to him by the War Shipping Administration as the same become due and payable, the policy will be subject to cancellation and the premium involved will become a liability collectible under said bond.

The form of bond shall be as hereinafter set forth, and no variation therefrom shall be permitted except with the express written approval of the Director of Wartime Insurance and the General Counsel, War Shipping Administration.

(3) The amount of collateral deposit fund or surety bond as aforesaid must in no event be less than $1,000.00 and must at all times be maintained by the assured in an amount sufficient so that at all times such amount is in excess of the unpaid premium due with respect to any and all risks which have attached under the terms of the open policy. Failure to comply with this provision will automatically void such policy.

(c) *Provisional reports.* Within thirty days after issuance of each open policy the assured must file in duplicate with the underwriting agent a list of all anticipated imports coming within the scope of the policy, identifying each item by a serial number and by a statement as to approximate quantity or value and anticipated date of shipment if known; thereafter, not less frequently than once monthly the assured must report to the underwriting agent in duplicate all further commitments as to imports with respect to goods coming within the scope of the policy. All such provisional reports must be on standard form in accordance with the attached:

(d) *Closing reports.* Not later than the twenty-fifth day of each month, the assured must make reports to the underwriting agents of all shipments as prescribed in Clause 12 of Part II of Warshipopencargo Form and must pay premium in accordance with the terms thereof. Such reports must be in duplicate and upon standard form in accordance with the attached specimen, and must be supported by the execution of the affidavit embodied in said form.

In the event that the assured has no shipments to report during any given month the standard form of closing report must nonetheless be filed as prescribed herein, with the notation thereon, "It is certified that no shipments coming within the scope of the policy arrived at port of destination in continental United States during the preceding month, and that during said month no knowledge has come to the assured of shipments attaching under

the terms of the policy which will not arrive by reason of loss, frustration or other similar cause".

(e) All closing reports as called for by the preceding paragraph must be accompanied by a certified check for the full amount of the premium, computed on the basis provided for in the policy. Such checks must be made payable to the order of the Treasurer of the United States.

(f) *Return premiums.* No return premiums will be payable to the assured except in event of error in application of rate or in computation of premium, or in event goods are not shipped or are short-shipped. All claims for return premiums must be filed in standard form prescribed by the War Shipping Administration, per specimen form attached. Such form must be filed in quadruplicate with the underwriting agents who will transmit the same to the War Shipping Administration for payment.

(g) No special policy of insurance will be issued with respect to shipments covered under open policies provided in accordance with this section.

(h) All claims for losses recoverable under the terms of open cargo war risk insurance policies issued by the War Shipping Administration should be filed by the assured with the underwriting agent by whom the policy was issued. Such claims should be supported by the customary documents required in connection with war risk insurance claims, together with the affidavit referred to in paragraph (a) of this section, and such further data as may now or hereafter be required by the War Shipping Administration.

(i) The following standard forms, to be used in carrying out the foregoing, are hereby prescribed:

§ 305.42 *Standard form of underwriting agency agreements.*

UNDERWRITING AGENCY AGREEMENT

This agreement made and entered into this ---- day of ----------, 194--, by and between the Administrator of the War Shipping Administration, acting for and on behalf of the United States of America, (hereinafter called the "Administrator") and ---------- ----------, a corporation organized and existing under the laws of ----------, and admitted to do the business of marine insurance in one or more of the States of the United States, having an office for the transaction of business at ---------- (hereinafter called the "Underwriting Agent").

Witnesseth:

Whereas under and pursuant to the President's Executive Order 9054 of February 7, 1942, and Public Law 523 of the Seventy-seventh Congress, the Administrator is authorized under certain circumstances to provide marine insurance and reinsurance against loss or damage by the risks of war, and to exercise this power through such officials or agencies and in such manner as he may determine; and

Whereas the Administrator has determined to exercise certain of these powers for the insurance of cargo through certain private insurance corporations, including the Underwriting Agent, upon the terms and conditions hereinafter set forth;

Now, therefore, in consideration of the premises and of the mutual covenants and agreements, and upon the terms and conditions hereinafter set forth, the parties hereto agree as follows:

1. The Administrator hereby authorizes the Underwriting Agent, as Agent, and not as an independent contractor, to perform the functions hereinafter provided for, subject to the terms and conditions hereinafter specified, and in accordance with the Memoranda of Instructions which may be issued hereunder by the Administrator from time to time.

2. The Underwriting Agent agrees to utilize its offices and facilities to make available to the public the insurance of cargoes against war risks furnished by the Administrator. The Underwriting Agent may act through its Home Office, branch offices or agencies in the United States, its territories or possessions, which are authorized to write marine insurance on behalf of the Underwriting Agent.

The duties of the Underwriting Agent shall be as follows:

(a) The Underwriting Agent shall issue policies covering the class or classes of property and subject to the rates and conditions named by the Administrator. The insurer under such policies shall be the Administrator, and the policy shall be executed or countersigned by the Underwriting Agent.

(b) The Underwriting Agent shall keep a full and complete record of all such policies, and shall also record any premium, collateral deposit fund, or surety bonds required by the terms of such policy, so that a record may be available at all times to the Administrator, both as to all policies issued and as to all collateral deposit funds or surety bonds provided by the assured in connection with such policies.

(c) The Underwriting Agent shall receive customary Provisional Reports from policyholders, and subject to such regulations as

may be adopted by the Administrator, shall take the necessary steps to follow up the same.

(d) The Underwriting Agent shall accept monthly Closing Reports from each policyholder for transmission to a clearing organization which shall be appointed or created by the Administrator for this and other purposes. The Underwriting Agent shall also receive certified checks drawn to the Treasurer of the United States for the premiums involved, if the premiums have not been previously paid, which checks shall be deposited by the Underwriting Agent in the Federal Reserve Bank nearest to its office, or in such other bank as may be authorized by the Administrator to receive such deposits. The Underwriting Agent is to receive from the bank in which the deposits are made receipts therefor in such number as may be prescribed in general instructions to the Agent and handle the receipts so received in accordance with such general instructions.

(e) The Underwriting Agent shall prepare a monthly summary of all such Closing Reports on a standard form to be approved by the Administrator and transmit the same, together with supporting Closing Reports and receipts for deposits made as above provided, to the clearing organization.

(f) The Underwriting Agent shall receive from holders of policies issued by such Underwriting Agent any claims for return premiums in a standard form to be prescribed by the Administrator and shall certify thereon, if such is the fact, that the amounts with respect to which such return is claimed were previously included in closing reports submitted to the Administrator and that based upon the statements included in such application by the Assured the return premium applied for is payable in accordance with the regulations of the Administration. Such applications and certifications shall be transmitted promptly to the clearing organization.

(g) The Underwriting Agent shall receive reports of losses, prepare adjustments and vouchers, and other data, required by the Administrator, and submit the same with its recommendation as to whether claims are in order for settlement to the Administrator through the clearing organization.

(h) The Underwriting Agent will cooperate with other Underwriting Agents acting in a similar capacity to establish and maintain, through the American Institute of Marine Underwriters or otherwise, an advisory underwriting committee to deal with specific underwriting problems, subject to regulations of the Administrator, and such other advisory committees as may seem necessary to safeguard the interest of the Administrator, including a loss committee to act as a recipient for information as to losses, and to pass upon any recommendations made by the Underwriting Agent as to losses in excess of an amount to be fixed by the Administrator.

3. The Underwriting Agent shall receive for its services such amount as the Administrator may from time to time determine to be fair and reasonable compensation. Such compensation shall be determined by the Administrator at such sums as reasonably approximate expenses of Underwriting Agents generally under this form of agreement without contemplation of profit. In addition to such fair and reasonable compensation the Underwriting Agent shall receive reimbursement for out of pocket expenditures reasonably incurred, meaning payments to persons not regularly employed by the Underwriting Agent, but excluding payments to attorneys unless such employment has been authorized by the Administrator: *Provided however*, That all such expenditures shall be subject to the review of the Administrator: *And, further provided*, That such expenditures shall not include any fee or other consideration paid to an insurance broker or other person acting in a similar intermediary capacity.

A statement of the compensation due to the Underwriting Agent (including reimbursement for out of pocket expenses as herein provided) shall be submitted by the Underwriting Agent to the Administrator monthly or at such other intervals as the Administrator may direct, with an appropriate voucher, and the amount of such compensation, if approved, shall be promptly paid to the Underwriting Agent.

4. In the discharge of the duties and obligations arising under this agreement, the Underwriting Agent shall conform to a standard of performance and accuracy reasonably to be expected of an insurance company in the administration of its own business, and consistent with the highest degree of good faith. It is agreed, however, that as the Underwriting Agent is acting without expectation of profit, it shall not be responsible for errors or omissions of agents and employees in whose selection and supervision it has exercised reasonable care, (other than willful misconduct on the part of the principal officers of said Underwriting Agents) excepting that the Underwriting Agent assumes full and complete responsibility for the disposition of any funds received by it or its employees or agents under and pursuant to this agreement. The exercise of reasonable care in the selection of agents by the Underwriting Agent shall be deemed to include a determination by the Underwriting Agent that the agent so selected is experienced in the transaction of such phases of the marine insurance business as may be delegated to such agent by the Underwriting Agent. It is understood that the Underwriting Agent is or may be engaged in writing war risk insurance on hulls and cargoes for its own account, and it is agreed that it may write such insurance notwithstanding its operations on behalf of the Administrator.

5. All books, records and accounts covering the operations and activities under this agreement shall be kept separate from those relating to other business of the Underwriting Agent, in accordance with regulations made from time to time by the Administrator, and shall at all times be subject to inspection by the Administrator.

6. It is recognized that in the conduct of its operations and activities hereunder the Underwriting Agent shall act only as agent for the Administrator, who shall be the principal in connection with all such operations and activities. The Underwriting Agent shall have no authority other than as provided in this Agreement and in Memoranda of Instructions issued hereunder, and any unauthorized acts of said Underwriting Agent shall be null and void, and of no effect. It is agreed that the Administrator will issue to the Underwriting Agent a Certificate of Designation authorizing the Underwriting Agent to execute and issue war risk cargo policies of insurance in the name of the United States of America and to perform the other duties and functions provided for herein. It is further agreed, in view of the fact that the statutory power of the Administrator to write insurance is conditioned on the existence of certain facts of which the Underwriting Agent may have no knowledge or means of knowledge, that the Underwriting Agent may insert in all policies above its signature, a statement that it acts solely under the said Certificate of Designation and makes no warranty, either express or implied, of its own authority or the authority of the Administrator to sign or issue the said documents.

7. Notwithstanding the provisions of paragraph 3 hereof, in the event that the Underwriting Agent, after giving notice to the Administrator, shall be compelled to pay to any state, territory, or possession of the United States, or political subdivision thereof any tax or fee or interest or penalty relating thereto claimed to be due by reason of the business transacted pursuant to this agreement and which would not have been payable except for the operation of the Underwriting Agent hereunder, the Underwriting Agent shall be reimbursed by the Administrator therefor, and for any special expenses necessarily incurred in connection therewith. Moreover, if the Administrator shall reject any claim for loss under any policy of insurance issued pursuant to this agreement and if legal proceedings be instituted against the Underwriting Agent with respect to such claim, or if the Underwriting Agent shall be obligated to defend any legal suit or proceeding on account of its action in rejecting any application or failing to issue any policy or in canceling any policy, or in denying the payment of any return premium, the Administrator shall, upon due notice at his expense, defend such proceeding and if in any such proceeding the Underwriting Agent be compelled to make payment, the Administrator shall reimburse the Underwriting Agent for the amount thereof, provided always the action of the Underwriting Agent complained of shall have been consistent with the standard of performance required hereunder. In any of the foregoing cases, the Underwriting Agent shall render to the Administrator such reasonable cooperation and assistance as the Administrator may require.

8. This agreement shall take effect as of the date of its execution by the Administrator and continue in force until terminated. It may be terminated, as of midnight on the last day of any calendar month by either party giving at least fifteen (15) days prior written notice to the other party by registered mail. Such termination shall not affect the obligation of the parties hereunder with respect to any insurance written or expenses incurred prior thereto.

9. Any act or thing herein required or permitted to be done hereunder by the Administrator may be done by such other official or officials of the War Shipping Administration as the Administrator may designate.

10. (a) The Underwriting Agent warrants that it has not employed any person to solicit or secure this agreement upon any agreement for a commission, percentage, brokerage, or contingent fee. Breach of this waranty shall give the United States the right to annul this agreement, or, in its discretion, to deduct from any amount payable hereunder the amount of such commission, percentage, brokerage, or contingent fee.

(b) In any act performed under this agreement the Underwriting Agent shall not discriminate against any citizen of the United States of America on the ground of race, creed, color or national origin.

1. No person elected or appointed a member of or delegate to Congress or a Resident Commissioner, directly or indirectly, himself or by any other person in trust for him, or for his use or benefit, or on his account shall hold or enjoy this agreement in whole or in part, except as provided in Section 206 Title 18, U.S.C. The Underwriting Agent shall not employ any member of Congress, either with or without compensation, as an attorney, agent, officer or director.

In witness whereof the parties hereto have duly executed this Agreement in triplicate as of the day and year first above written.

Part II

1. This insurance is only against the risks of capture, seizure, destruction, or damage by men of war, piracy, takings at sea, arrests, restraints and detainments, and other warlike operations and acts of kings, princes, and peoples in prosecution of hostilities or in the application of sanctions under international agreements, whether before or after declaration of war and whether by a belligerent or otherwise, including factions engaged in civil war, revolution, rebellion or insurrection, or civil strife arising therefrom, and including the risks of aerial bombardment, floating or stationary mines, and stray or derelict torpedoes; but excluding claims for delay, deterioration and/or loss of market, and warranted not to abandon (on any ground other than physical damage to ship or cargo) until after condemnation of the property insured. Also warranted not to abandon in case of blockade, and free from any claims for loss or expense in consequence of blockade or of any attempt to evade blockade; but in the event of blockade, to be at liberty to proceed to an open port and there end the voyage.

2. Warranted free from any claim based upon loss of, or frustration of, the insured voyage or adventure caused by arrests, restraints or detainments.

3. This insurance does not cover any loss or damage caused by or resulting from any of the following causes:

(a) Commandeering, preemption, requisition, or nationalization by the government (de facto or otherwise) of the country to or from which the goods are insured.

(b) Seizure or destruction under quarantine or customs regulations.

(c) Capture, seizure, arrest, restraint, detainment, or condemnation by the Government of the United States of America, or of any State, territory, or possession thereof, or by any government which is or may become party signatory of the "United Nations Pact" promulgated on or about January 2, 1942.

4. This insurance shall not attach to the interest hereby insured or to any part thereof:

(a) Prior to being on board an overseas vessel (for the purpose of this clause 4 an overseas vessel shall be deemed to mean a

vessel carrying the interest from one port or place to another where such voyage involves a sea passage by that vessel);

(b) after being discharged overside from an overseas vessel at the final port of discharge, or after expiry of fifteen days counting from midnight of the day on which the overseas vessel is safely anchored or moored at the final port of discharge, whichever shall first occur;

(c) at a port or place of transshipment to another overseas vessel after the expiry of fifteen days (counting from midnight of the day on which the overseas vessel entering with the interest is safely anchored or moored) until the interest is on board the oncarrying overseas vessel.

In the event of the exercise of any liberty granted to the Shipowner or Charterer under the contract of affreightment whereby such contract is terminated at a port or place other than the destination named therein such port or place shall be deemed the final port of discharge for the purpose of this clause 4.

5. Subject to the terms of clause 4 above and to any conditions or warranties which may be endorsed hereon, it is agreed that this insurance shall not be vitiated by deviation, overcarriage, change of voyage, or by any error or unintentional omission in the description of interest, vessel or voyage, provided the same be communicated to the War Shipping Administration as soon as known to the Assured and an additional premium paid if required.

6. And in case of any loss or misfortune, it shall be lawful and necessary to and for the Assured, his or their factors, servants and assigns, to sue, labor, and travel for, in and about the defense, safeguard, and recovery of the said goods and merchandise, or any part thereof without prejudice to this insurance; nor shall the acts of the Assured or Assurers, in recovering, saving, and preserving the property insured, in case of disaster, be considered a waiver or an acceptance of an abandonment; and to the charges whereof, the said Assurés will contribute according to the rate and quantity of the sum hereby insured.

7. General Average and salvage charges (resulting from a peril hereby insured against) payable according to Foreign Statement or York-Antwerp Rules if in accordance with the contract of affreightment.

8. Notwithstanding anything to the contrary contained in this Policy, it is understood and agreed:

(a) That no claim for freight, storage, or other expense due to the requisition or commandeering of the title or use of any vessel by or with the consent of the country whose flag she flies shall be payable under this insurance, and if as a result of such requisition or commandeering the insured cargo is discharged at a port or place other than the port or place of destination, the port or place of discharge shall be deemed a port or place of transshipment within the meaning of clause 4 (c) of this Policy.

(b) That if any vessel shall be ordered into or detained in any port by the United States Government or by any government which is or may become party signatory of the "United Nations Pact" and the goods hereby insured shall be discharged at such port, then, if the goods be not the subject of proceedings of the nature set forth in clause 3 (a), such port or place of discharge shall be deemed a port or place of transhipment within the meaning of clause 4 (c) of this Policy.

9. If the ordinary course of transit of the goods hereby insured is interrupted or terminated by the shipper, consignee, or assured or any party acting on their behalf, this insurance shall forthwith terminate unless otherwise specially agreed by the War Shipping Administration.

10. This insurance shall include loss, damage or destruction of the property insured caused by saboteurs or other enemy agents.

11. It is a condition of this insurance that with respect to all risks coming within the scope of this Policy, the Assured shall file with the Underwriting Agent Provisional Reports in the manner and form required by such regulations as may be promulgated by the War Shipping Administration from time to time.

12. It is warranted that not later than the 25th day of each month, the Assured will file with the Underwriting Agent closing reports in the manner and form required by such regulations as may be promulgated by the War Shipping Administration from time to time of all shipments coming within the scope of this policy:

(1) Which have arrived at port of destination in the Continental United States during the preceding month, and,

(2) With respect to which inability to so arrive is by reason of loss, frustration, or other similar cause, comes to the knowledge of the Assured during the preceding month.

And will pay premium thereon at the rate prescribed by the War Shipping Administration and in effect:

a. On date of Ocean Bill of Lading, or

b. If Ocean Bill of Lading not issued, on date of equivalent shipping document, or

c. If no Ocean Bill of Lading or equivalent shipping document issued, or if same are undated, on date goods are laden on overseas vessel.

13. It is warranted that the Assured will at all times maintain with the War Shipping Administration a Collateral Deposit Fund sufficient in amount to satisfy all premiums due under this Policy with respect to risks which have attached hereunder and upon which premiums have not already been paid, or that in lieu of such Collateral Deposit Fund a surety bond in form prescribed by the War Shipping Administration will be filed with the Underwriting Agent and maintained in full force and effect. If at any time the Collateral Deposit Fund or surety bond is not sufficient to cover all shipments at risk hereunder on which the premium has not been paid, all shipments which would otherwise become at risk hereunder after the said bond or fund is exhausted shall be excluded from any coverage under this Policy. Such collateral deposit fund or surety bond must be maintained in accordance with all rules and regulations of the War Shipping Administration.

14. The Assured warrant and agree that it will regularly keep books, records and accounts in such manner and form that all information available to the Assured as to the amounts at risk and the amounts of losses incurred and premiums due can be readily ascertained therefrom by the War Shipping Administration. The Assured, as often as may be reasonably required, shall exhibit such books, records and accounts to any person designated by the War Shipping Administration, and submit to examinations under oath by any person named by the War Shipping Administration, and subscribe the same.

15. This insurance shall not be invalidated by any error or omission in the filing of Provisional or Closing Reports which is demonstrated to the satisfaction of the Administrator to have been inadvertent or unintentional, or by any failure to report which is demonstrated to the satisfaction of the Administrator to have arisen from causes beyond control of the Assured.

[Administrative Order 101]

WAGE ADJUSTMENT BOARD

ESTABLISHMENT

The government agencies in charge of building and construction work essential to the successful prosecution of the war and the Building and Construction Trades Department of the American Federation of Labor agreed on May 22, 1942, subject to annual renewals, to stabilize wage rates for the duration of the war at the level in effect on July 1, 1942, and that a Wage Adjustment Board would be created to determine whether any wage adjustment should be made when it is claimed that such a wage rate is inadequate. A copy of the agreement is attached as an annex to this order. The President of the United States, by memorandum of May 14, 1942 directed the Secretary of Labor to create the Wage Adjustment Board and give to it such service and assistance as is required.

Therefore, to accomplish the purpose of the Act of March 3, 1931, as amended by the Act of August 30, 1935, and of section 1(a) of the Act of January 30, 1942 (Pub. No. 421, 77th Cong.), and to provide machinery for the wage stabilization agreement of the international and national labor organizations in the building construction industry, it is hereby ordered:

(a) The Wage Adjustment Board for the Building Construction Industry, hereafter called the Board, is established in the United States Department of Labor. The Board shall consist of a chairman, to be appointed from the Department of Labor, and of three representatives of the contracting agencies of the United States and of three representatives of the labor organizations in the building construction industry, to be named by me from time to time. A majority of members of the Board shall constitute a quorum.

(b) The Board shall have power to investigate and to recommend an adjustment of wage rates under the above agreement of the labor organizations in the building construction industry. It shall consider requests for wage adjustments when presented by local labor organizations with the approval of the international or national labor organization and submitted through and approved by the Building Trades Department of the American Federation of Labor. It shall have power to make the necessary rules of procedure. The Board's recommendation with respect to a request for wage adjustment shall be transmitted to the Secretary of Labor, to the Building Trades Department, and to any interested contracting agency of the United States.

(c) Upon request of the Board, the Solicitor of the Department of Labor shall conduct an investigation, hold any necessary hearings, and make a report to the Board as to the prevailing rates of wages for any or all classes of laborers and mechanics in the building construction industry in any locality, or as to the relation of such wage rates to those generally prevailing in the industry, trade or locality, or whether such wage rates do not sufficiently take into account any abnormal changes in conditions.

(d) In determining the prevailing rates of wages under the Act of March 3, 1931, as amended by the Act of August 30, 1935, I shall, unless compelling evidence to the contrary be presented, accept as prevailing those wage rates which were prevailing on July 1, 1942, unless adjusted by recommendation of the Board under paragraph 2 hereof.

Secretary of Labor.

Chapter III—Bureau of Mines

PART 301—CONTROL OF EXPLOSIVES AND THEIR INGREDIENTS IN TIME OF WAR OR NATIONAL EMERGENCY

REVOCATION OF LICENSES

To the regulations heretofore promulgated[1] under authority of the Federal Explosives Act of December 26, 1941 (55 Stat. 863), there is added the following section:

§ 301.22 *Revocation of licenses*—(a) *Cause of revocation.* The Director may revoke a license for disloyalty or hostility to the United States or for violation of any of the provisions of the act or of these regulations.

(b) *Procedure for revocation.* (1) When the Director has reason to believe, upon the basis of facts of which he has knowledge or reliable information, that a licensee is disloyal or hostile to the United States, he may summarily revoke all licenses issued to that licensee or he may, in his discretion, give the licensee the notice and opportunity to be heard provided in this section.

(2) Revocation of a license on the ground that its holder has violated any of the provisions of the act or of these regulations may be ordered by the Director only after he has given to the licensee written notice and an opportunity to be heard. The notice may be given to the licensee personally or by mail addressed to the licensee's last known business or residence address or to the address shown on the license to be revoked or the application for it. It shall specify the charges upon which it is proposed to revoke the license, notify the licensee that he may file with the Director, within 15 days of the date of the notice or such other time as the Director may specify, an answer admitting or denying each and every charge or justifying those acts charged which are not denied, and fix a time and place for hearing in the event that the licensee wishes to be heard.

(3) Unless, within the time fixed for filing his answer, the licensee files an answer which denies each and every charge or states justification for the acts charged which are not denied and demands a hearing, the Director may revoke the license forthwith. If, within the time fixed for filing his answer, the licensee files an answer denying each and every charge or stating justification for the acts charged which are not denied and demands a hearing, and if the Director is not satisfied with the answer, the hearing shall be held at the time and place fixed in the notice.

(4) The hearing may be held before the Director or such representative as he may appoint. The licensee may appear by or be represented by counsel. If the hearing is held before the Director, he shall state his findings and conclusions in writing and transmit a copy to the licensee or to his counsel. If it is held before a representative of the Director, he shall report his findings and recommendations to the Director in writing and shall transmit a copy of the report to the licensee or to his counsel. Within 15 days after the date of the report or such other time as the Director may specify, the licensee may file in writing with the Director his exceptions to the report. After the filing of these exceptions or the expiration of the time allowed for filing them, the Director shall take such action as is appropriate upon the record before him and notify the licensee or his counsel accordingly.

(c) *Surrender of revoked license.* Upon notice of the revocation of any license, the licensee shall immediately surrender to the Director or to his authorized representative the license revoked and all copies thereof. (55 Stat. 863)

Subchapter B—Export Control

[Amendment No. XVI]

PART 804—INDIVIDUAL LICENSES

UNIT PROCESS PROCEDURE

Part 804—Individual licenses, is hereby amended by adding the following new section:

§ 804.11 *Unit process procedure.* (a) Several applications for licenses may be submitted to the Export Control Branch for processing as a unit when (1) all applications specify the same consignee, ultimate consignee and ultimate purchaser, and (2) all commodities covered by the applications are intended for use together, the lack of any one of which will render the others useless.

(b) When several applications are submitted for unit processing, the following requirements must be observed:

(1) All questions on each individual application must be answered in full.

(2) All individual applications must be firmly stapled to a legal binder or backing sheet with the words "Unit Process" typed on the top-edge flap thereof.

(3) A single reference number and a single acknowledgment card must be used for the group of applications.

(c) When several applications are submitted for unit processing, all applications will be approved, or all will be rejected. If all are approved, the same shipping priority rating, as provided for in Part 809 of this subchapter, will be given to each license in the group.

(d) The group of applications may include one or more applications for commodities which are exportable under general license, in order to insure the issuance of a uniform shipping priority rating for all related commodities.

(e) If a group of applications is rejected, the applicant may appeal from such rejection. In such case the applicant must file an appeal for the entire group of applications. The appeal shall be addressed to the Export Control Branch and shall include the following papers, securely fastened together:

(1) The group of rejected applications or photostatic copies thereof.

(2) A complete new set of applications, each application in triplicate, covering the identical items for which licenses were originally rejected.

(3) A single acknowledgment card.

(4) A letter in duplicate setting forth the reasons why the applicant believes

the group of applications should be reconsidered. Additional information which was not presented on the original applications and which the applicant feels would justify a reversal of the decision of the Export Control Branch must be submitted. PART 997—PRODUCTION AND DELIVERY OF MACHINE TOOLS

[Interpretation 3 of General Preference Order E-1-b]

The following official interpretation is hereby issued by the Director General for Operations with respect to § 997.2 *General Preference Order E-1-b:*[2]

The principles set forth in Interpretation No. 2 of General Preference Order No. E-1-b have not been altered by the issuance of AAA and AA-1, AA-2, AA-3, and AA-4 ratings pursuant to Priorities Regulation No. 12.[3]

The application of such a higher rating to a delivery of a machine tool to a service purchaser who has an urgency standing does not change in any way the date of delivery of the tool. The date of delivery will still be determined solely by the urgency standing and the required delivery date.

The application of such a higher rating to a delivery of a machine tool to a service purchaser who does not have an urgency standing merely advances the delivery over those to other service purchasers who are members of the same group, and who likewise have no urgency standings; and it operates solely within the percentage quota assigned to that group. The higher rating does not affect any deliveries to service purchasers to whom urgency standings have been assigned. It likewise does not affect any deliveries scheduled to be made within the thirty or sixty-day frozen period provided by paragraph (1) of the order. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 30th day of July 1942.

Director General for Operations.

PART 1097—SHEARLINGS AND OTHER WOOL SKINS

[General Conservation Order M-94 As Amended July 30, 1942]

Section 1097.1 *General Conservation Order M-94*[1] is hereby amended to read as follows:

Whereas the uncertainty of future shipments of shearlings and the fulfillment of requirements for the defense of the United States have resulted in a shortage in the supply of shearlings for defense, for private account, and for export, and it is necessary in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution of shearlings, and to allocate the supply thereof in the manner hereinafter in this order provided.

Now, therefore, it is hereby ordered, That:

§ 1097.1 *General Conservation Order M-94*—(a) *Definitions.* For the purposes of this order:

(1) "Wool skin" shall mean the skin of a sheep or lamb bearing wool, domestic or foreign, a so-called California lambskin or other native lambskin, whether raw, semi-processed, or finished, of 46's grade or higher.

(2) "Shearlings" shall mean a wool skin having a wool growth of 2" or less, or originally of a wool length in excess of 2" which has been clipped after flaying by any person so as to leave a wool growth of 2" or less thereon.

(3) "Domestic shearling" shall mean any shearling produced in the Continental United States.

(4) "Mouton" shall mean a shearling which has been fur dressed, dyed and made water repellent, and is of the type normally used in the manufacture of women's fur coats.

(5) "Process" shall mean tanning, dressing, dyeing or finishing.

(6) "Person" shall mean any individual, partnership, association, trust, corporation or any organized group of persons whether or not incorporated.

(7) "Tanner" shall mean any person engaged in tanning or otherwise processing shearlings or other wool skins, and shall include a fur dresser.

(8) "Contractor" shall mean any person engaged in causing shearlings or other wool skins to be tanned or otherwise processed by others for his account.

(9) "Producer" shall mean any person who takes off wool skins in the United States.

(10) "Grade No. 4 shearlings" shall mean domestic shearlings (bare to ⅛" and clipper-cut skins less than ¼") defined as grade No. 4 in the Office of Price Administration Maximum Price Regulation No. 141,[2] § 1314.111 (a).

(b) *Restrictions on purchases and disposition*—(1) *Restrictions on purchases of shearlings.* Unless specifically authorized by the Director General for Operations, no tanner or contractor not engaged in processing shearlings to fill defense orders placed by the Army Air Forces shall purchase or make any contract or other arrangement for the purchase of any raw shearlings (other than grade No. 4 shearlings), and no tanner or contractor engaged in processing shearlings to fill such orders shall purchase any raw shearlings except to the extent necessary to obtain shearlings to be processed in filling orders then placed by the Army Air Forces.

(2) *Restrictions on disposition of wool skins.* Upon receiving from tanners or contractors a description of the nature and extent of their requirements of domestic wool skins with a wool growth in excess of 1" needed to fill Army Air Forces orders, producers of such skins shall offer to fill such requirements, without discriminating in price or terms of sales in favor of other customers: *Provided, however*, That no producer need offer to such tanners or contractors more than a total of 50% of his estimated production during any given calendar month: *And provided further*, That a producer who clips any such wool skins to a length less than 1" for sale to such tanners or contractors to enable them to fill orders placed by the Army Air Forces may include such skins in computing the above 50% quantity. It shall be prima facie proof of discrimination in price if the price to the aforesaid tanners or contractors is higher than the highest price of similar skins comprised in the remainder of the producer's monthly production when sold, or in the event of sales or deliveries by a producer to his own or a subsidiary or affiliated wool pullery, if the price less the estimated cost of salting is higher than the estimated value of the wool and pickled skin yield less the estimated cost of pulling and pickling.

(c) *Restriction on processing.* No person shall hereafter process or cause to be processed any shearling (other than grade No. 4 shearlings), except in the course of filling orders then placed by the Army Air Forces and to the extent necessary to obtain processed shearlings to fill such orders.

[2] 7 F.R. 3231, 3660, 4615.
[3] 7 F.R. 4833.

[1] 7 F.R. 1024, 2102.

[2] 7 F.R. 3520.

(d) *Restrictions on pulled wool.* No person shall hereafter pull or cause to be pulled any wool from any freshly flayed or salted domestic or any foreign sheep skin or lamb skin when the wool is of such a length and type as to constitute a wool growth of 1" or less and of 46's grade or higher, except skins black or mottled with black or so torn or damaged as to be unsuited to tanning purposes and grade No. 4 shearlings.

(e) *Prohibition against processing of No. 4 domestic shearlings by certain persons.* No person engaged in processing shearlings to fill defense orders placed by the Army Air Forces shall purchase or process any grade No. 4 shearlings, nor shall such shearlings be offered for sale to such person by any other person.

(f) *Restrictions on processed shearlings.* Any person owning or possessing processed or semi-processed shearlings not needed to fill his then existing defense orders shall not finish or cause to be finished such shearlings (other than any shearlings (1) of a natural black or mottled with black color, or (2) having a wool pile which will finish with less than a ¼" wool pile, or (3) which were processed prior to December 12, 1941, and are held in stock in a color other than beige, cream, white or logwood) in any manner not acceptable under specifications respecting processed shearlings in any military or naval contract which is unfilled on the date of this order or in any future military contracts and may use such shearlings only for filling such contracts.

(g) *Release of moutons and imperfect shearlings.* (1) Any person not engaged in processing shearlings to fill orders placed by the Army Air Forces, having, owning or possessing:

(i) Moutons which had been processed on or before December 12, 1941, or

(ii) Processed shearlings which cannot be used to fill defense orders because of imperfections in the wool or leather of the same

may apply to have such moutons or processed shearlings, or both, released from the terms or provisions of this order by making written application to the Director General for Operations, manually signed on behalf of the person requesting such release by a person duly authorized to make such application, containing a statement of the reasons why such moutons or shearlings, or both, should be released and having at the end thereof the following statement:

The undersigned hereby represents to the Director General for Operations that the statements contained herein are true and correct with full knowledge that he may be prosecuted under section 35 (a) of the Criminal Code (18 U.S.C. 80) for any false representations contained herein.

(2) Any person engaged in processing shearlings to fill orders placed by the Army Air Forces shall submit his entire production and inventory of processed shearlings (other than those of the character specified in subparagraphs (1), (2) and (3) of paragraph (f) above) for inspection by an Army Air Forces inspector for the purpose of segregating the same into the following classes:

Class A—Shearlings suitable for flying suits, mechanics' suits, flying boots and flying helmets in accordance with Army Air Forces Specification 8–113–B, as amended, to be designated as No. 1 skins.

Class B—Shearlings possibly suitable for flying suits, mechanics' suits, flying boots and flying helmets in accordance with Army Air Forces Specification 8–113–B, as amended, to be designated as No. 2 and No. 3 skins.

Class C—Shearlings not suitable for flying suits, mechanics' suits, flying boots and flying helmets in accordance with Army Air Forces Specification 8–113–B, as amended, to be designated as No. 4 skins.

Shearlings of Classes A and B shall be reserved for filling Army Air Forces and other defense orders. Army Air Forces orders shall be accorded preference over other defense orders in respect of shearlings of Class A, and defense orders other than Army Air Forces orders shall be accorded preference over Army Air Forces orders in respect of shearlings of Class B.

Copies of each release certificate of said inspector covering any shearlings in Class C shall be furnished by the processor to the War Production Board, Ref.: M–94. Thereafter, shearlings covered by any such certificate may be sold to any person, subject to any priorities regulation then in force.

(h) *Reports.* (1) On or before the tenth day of each month every tanner and contractor shall file with the War Production Board a report of his operations for the preceding month on form PD–421, as revised.

(2) All persons affected by this order shall execute and file with the War Production Board such other reports and questionnaires as may be required by said Board from time to time.

(i) *Repeal of telegraphic order.* This order shall and hereby does repeal and revoke the telegraphic order sent by the Director of Priorities to shearling tanners on December 12, 1941.

(j) *Appeal.* Any person affected by this order, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of shearlings and moutons conserved, or that compliance with this order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the War Production Board by letter or telegram, or upon such forms as may hereafter be prescribed, Reference M–94, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(k) *Communications to the War Production Board.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Branch, Washington, D. C.—Ref.: M–94.

(l) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control, and may be deprived of priorities assistance. [Supplementary Order M–111–d]

§ 1134.5 *Supplementary Order M–111–d.* Pursuant to Order M–111,[1] as amended May 1, 1942, which this order supplements:

(a) The Director General for Operations hereby determines that, except as provided for in paragraph (b) below, the quota of tea for any packer or any wholesale receiver under paragraphs (d) (1) or (d) (2), respectively, of Order M–111, as amended May 1, 1942, shall be, for the month of August 1942 and for each subsequent month until otherwise ordered, 50% of the average monthly net deliveries made by him (if he was a packer) or accepted by him (if he was a wholesale receiver) during the corresponding quarter of 1941.

(b) The areas listed in Column 1 of Schedule A attached, as it may be amended from time to time, are designated as increased-population areas. For the month of August 1942 and for each subsequent month until otherwise ordered, the quota assigned under paragraph (a) above to any packer or any wholesale receiver directly or indirectly serving any one or more of such areas is increased by a supplementary quota for each such area served, computed by (1) determining the amount of his quota under paragraph (a) above, (2) determining the portion of that amount allocable to deliveries to or for each such area, and (3) applying to that portion the percentage listed for that area in Column 2 of said Schedule A. Such supplementary quota shall be available only for ultimate distribution within such area. All similar quota increases previously authorized for increased-population areas by the Director General for Operations or by the Director of Industry Operations, through the granting of appeals or otherwise, shall cease to be effective after July 31, 1942, irrespective of whether or not such areas are included in the areas listed in Schedule A. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Chapter XI—Office of Price Administration

Part 1388—Defense-Rental Areas

[Designation and Rent Declaration 29]

DESIGNATION OF 26 DEFENSE-RENTAL AREAS AND RENT DECLARATION RELATING TO SUCH AREAS

The Emergency Price Control Act of 1942 provides that whenever in the judgment of the Price Administrator such action is necessary or proper in order to effectuate the purposes of that Act, he shall issue a declaration setting forth the necessity for, and recommendations with reference to, the stabilization or reduction of rents for any defense-area housing accommodations within a particular defense-rental area; and that if within sixty days after the issuance of any such recommendations rents for any such accommodations within such defense-rental area have not in the judgment of the Price Administrator been stabilized or reduced by State or local regulation, or otherwise, in accordance with the recommendations, the Price Administrator may by regulation or order establish such maximum rent or maximum rents for such accommodations as in his judgment will be generally fair and equitable and will effectuate the purposes of that Act; and

In the judgment of the Price Administrator, defense activities have resulted or threaten to result in increases in the rents for housing accommodations in the areas designated in § 1388.1321 inconsistent with the purposes of the Emergency Price Control Act of 1942; and

In the judgment of the Price Administrator, it is necessary and proper in order to effectuate the purposes of the said Act to issue this declaration, setting forth the necessity for, and recommendations with reference to, the stabilization or reduction of rents for defense-area housing accommodations within the defense-rental areas designated in § 1388.1321;

Therefore, under the authority vested in the Price Administrator by said Act, this designation and rent declaration is issued.

[1] The words "Defense-Rental Area" shall follow the name listed in the table in each case to constitute the full name of a defense-rental area, e. g., "Yuma Defense-Rental Area", "Bristol-Kingsport Defense-Rental Area."

§ 1388.1322 *Necessity.* The necessity for the stabilization or reduction of rents for defense-area housing accommodations in the defense-rental areas designated in § 1388.1321 is as follows:

The designated areas now are or will be the location of establishments of the armed forces of the United States or war production industries. An increase in employment has taken place in most of these areas and is about to take place in the other areas. Such increases in employment reflecting the expansion of war activities have resulted or threaten to result in increased demands for rental housing accommodations by persons residing in these areas.

In each of the designated areas defense activities have resulted or threaten to result in an increase in rents for housing accommodations inconsistent with the purposes of the Emergency Price Control Act of 1942. As war activities continue to expand, the demand for housing accommodations will become more extensive, and further rent increases and threatened rent increases will materialize unless prevented. Accordingly, it is necessary that rents for such housing accommodations in each of the designated areas be reduced or stabilized.

§ 1388.1323 *Recommendations.* It is the judgment of the Price Administrator that by April 1, 1941, defense activities had not yet resulted in increases in rents for housing accommodations within any of the defense-rental areas designated in § 1388.1321 inconsistent with the purposes of the Act. Accordingly, the Price Administrator has ascertained and given due consideration to the rents prevailing for housing accommodations within each of the designated areas on or about March 1, 1942. The Price Administrator has considered, so far as practicable, relevant factors deemed by him to be of general applicability, including fluctuations in property taxes and other costs. It is the judgment of the Price Administrator that the recommendations hereinafter set forth are generally fair and equitable and will effectuate the purposes of the Act.

Recommendations with reference to the stabilization or reduction of rents for housing accomodations within each of the designated defense-rental areas are as follows:

(a) The maximum rent for housing accommodations rented on March 1, 1942 should be the rent for such accommodations on that date. Appropriate provision consistent with such maximum rent date should be made for the maximum rent for housing accommodations not rented on March 1, 1942. In appropriate cases, including those relating to new construction or substantial changes of housing accommodations, provision consistent with the Emergency Price Control Act of 1942 should be made for the determination, adjustment, and modification of maximum rents of housing accommodations, but in principle such rents should not be greater than the rents generally prevailing for comparable accommodations in the particular area on March 1, 1942.

(b) Appropriate provision should be made with respect to the restraint of evictions and other actions relating to the recovery of possession.

(c) Appropriate provision should be made to prevent the circumvention or evasion of maximum rents by any method whatever.

§ 1388.1324 *Maximum rent regulation.* If within sixty days after the issuance of this designation and rent declaration, rents for housing accommodations within any defense-rental area designated in § 1388.1321 have not in the judgment of the Price Administrator been stabilized or reduced by State or local regulation, or otherwise, in accordance with the foregoing recommendations, the Price Administrator may by regulation or order establish such maximum rent or maximum rents for such accommodations as in his judgment will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

§ 1388.1325 *Effective date.* This designation and rent declaration (§§ 1388.1321 to 1388.1325, inclusive) shall become effective July 29, 1942.

Issued this 29th day of July 1942.

LEON HENDERSON,
Administrator.

Case and package size	*Delivered cost to first direct buyer from manufacturer (per case or less)*
Pancake flour:	
Case of 24–20 oz. packages	$1.60
Case of 24–16 oz. packages	1.45
Buckwheat pancake flour:

Fractions shall be rounded to the next higher cent.

Any person selling at wholesale shall determine his maximum price for sales of less-than-case quantities by taking the proportionate share of his maximum price as determined above, and adding the charge he made during March 1942 for broken-case-lots.

EXCEPTION FROM THE PROVISIONS OF THE WALSH-HEALEY PUBLIC CONTRACTS ACT

Whereas, exception orders dated May 14, 1942,[1] and July 9, 1942, respectively, have been issued by me pursuant to the powers vested in me by section 6 of the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U. PART 145—GENERAL REGULATIONS GOVERNING EXCHANGES

PROPOSALS FOR EXCHANGES, IN ADVANCE OF THE FILING OF FORMAL APPLICATIONS

JULY 16, 1942.

Sec.
145.1 Purpose.
145.2 Procedure.
145.3 Memorandum for the record.
145.4 Results of discussions.
145.5 Formal application.

AUTHORITY: §§ 145.1 to 145.5, inclusive, issued under R.S. 453, 2478; 43 U.S.C. 2, 1201.

[1] 7 F.R. 3672.
[2] 7 F.R. 5317.

§ 145.1 *Purpose.* The purpose of §§ 145.2 to 145.5, inclusive, is to outline procedure under which the State, private owners, a field representative of the General Land Office, and a field representative of the Grazing Service, in connection with proposed exchanges of lands in grazing districts may confer, in advance of the filing of formal applications, and if possible, reach a common understanding or agreement as to the feasibility of the exchange, the values of the offered and selected lands and the mineral and other features involved. The procedure while designed to expedite action on applications is not mandatory. It will not prevent the filing of formal applications, without informal proposals, if desired.

§ 145.2 *Procedure.* A proposal for an exchange must be prepared in duplicate. The original must be filed in the land office for the district in which the selected lands are situated and the duplicate with the proper regional grazier.

The register will forward the original proposal to the proper regional field examiner and advise the General Land Office of such action. The regional grazier, upon receipt of the duplicate proposal, will call a meeting of the interested parties for the purpose of discussing the questions presented. The time and place for the meeting should be acceptable to all persons concerned.

§ 145.3 *Memorandum for the record.* After the discussions have been concluded, the representative of the Grazing Service and the representative of the General Land Office will each prepare, in duplicate, a "Memorandum for the Record," stating briefly the facts as to the discussions, and the conclusions reached. The original of each memorandum will be forwarded to the Commissioner of the General Land Office and the duplicate to the Director of Grazing.

§ 145.4 *Results of discussions.* The conclusions reached as a result of the discussions will be advisory only and will not be binding upon the Commissioner of the General Land Office, the Director of Grazing, or the Secretary of the Interior.

§ 145.5 *Formal application.* After a proposal for an exchange has been considered, the State or the owner of the private land, if an exchange is desired, must file in the proper district land office a formal application for exchange, in accordance with the applicable regulations. The failure to reach an agreement on an informal proposal will not bar the applicant from submitting a formal application for appropriate action. The formal application, in all cases, should recite briefly the conclusions reached on the informal proposal. Action on the formal application will be taken in accordance with the applicable laws and regulations.

Acting Commissioner.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Order No. 104]

TERRITORY OF HAWAII

WAIVER OF CERTAIN PROVISIONS REGARDING OPERATOR'S LICENSES

At a session of the Federal Communications Commission held in its offices in Washington, D. C., on the 28th day of July 1942,

The Commission having received information that, due to the shortage of licensed radio operators in the Territory of Hawaii, certain Hawaiian police departments are experiencing great difficulty in obtaining licensed operators to operate portable-mobile units of their radio communications systems; and

It appearing that action of this Commission permitting certain American nationals employed by such police departments to engage in limited radio operation in connection with their official duties would alleviate this condition; and

It further appearing that such action by this Commission would be in the public interest, necessity, and convenience;

Now, therefore, it is ordered, That, subject to the conditions hereinafter stated, the provisions contained in section 318 of the Communications Act of 1934, as amended, be, and they are hereby, waived, in so far as such provisions require that American nationals regularly employed by police departments in the Territory of Hawaii hold operator's licenses in order to operate mobile police radio transmitting apparatus in connection with their official duties; and

[1] 7 F.R. 4304.

It is further ordered, That, subject to the following conditions, such American nationals, be, and they are hereby, authorized to engage, without operator's licenses, in the operation of mobile police radio transmitting apparatus to the extent permitted to holders of restricted radiotelephone operator permits, until further order of the Commission:

(1) Such American nationals must be regular employees of a Hawaiian police department;

(2) Such American nationals must meet all requirements for a restricted radiotelephone operator permit, except that of United States citizenship, and must hold a certificate issued by the Federal Communications Commission showing that such requirements have been met. The procedure for obtaining such certificate shall be the same as for obtaining a restricted radiotelephone operator's permit;

(3) When an application is filed by an American national to engage in unlicensed operation in accordance with this order, there must be filed by the police department employing the applicant, a statement showing that:

(a) The applicant is a regular employee of such police department;

(b) Waiver of existing license requirements is requested by such police department so that the applicant may legally operate police radio units as a part of his official duties;

(c) A thorough investigation of applicant and his background has been made, and his loyalty to the United States appears to be unquestionable; and

(d) Such waiver is requested because the police department has been unable to obtain licensed personnel for its mobile radio units, and has been unable to fulfill those provisions of § 2.53 (a) (2)[1] of the Rules and Regulations of the Federal Communications Commission, which would permit the applicant to engage in unlicensed operation of police radio units without the necessity of this waiver.

(4) The applicant shall submit along with his application to engage in unlicensed radio operation in accordance with this order a statement by the Department Commander to the effect that he has no objection to the granting of the application;

(5) Such unlicensed operation by the aforementioned American nationals shall be limited to mobile radio police units forming a part of the equipment of a police department in the Territory of Hawaii, and shall be limited to operation required in the performance of the applicant's official duties.

(6) A certificate issued to an American national authorizing him to operate a mobile radio police unit shall automatically become void in the event his employment with the police department which sponsored his application terminates for any reason.

(7) It shall be the duty of the police department which sponsored the application of such American national to advise the Commission immediately in the event his employment with the police department should be terminated for any reason and, upon such termination, it shall be the duty of the American national to return his certificate to the Commission.

By the Commission.

[Docket No. AO 169]

CUMBERLAND, MD., MARKETING AREA

NOTICE OF HEARING ON MILK HANDLING

Notice is hereby given of a hearing to be held at the City Hall Auditorium, Cumberland, Maryland, beginning at 10:00 a. m., e. w. t., August 17, 1942, with respect to a proposed marketing agreement and a proposed order regulating the handling of milk in the Cumberland, Maryland, marketing area.

This notice is given pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 *et seq.*), and in accordance with the applicable rules of practice thereunder (7 CFR 900.1-900.17; 6 F.R. 6570, 7 F.R. 3350).

This public hearing is for the purpose of receiving evidence with respect to a proposed marketing agreement and order, the provisions of which are hereinafter set forth in detail, which has been proposed, with the exception of sections 10 through 13, by the Tri-State Milk Producers Association. Sections 10 through 13 are standard provisions and have been included in the proposal at the request of the Agricultural Marketing Administration. The proposal provides for the payment to producers on the so-called market-wide pool basis. Evidence will also be received at the hearing with respect to the payment to producers through the use of the so-called individual handler's pool. The proposed marketing agreement and order have not received the approval of the Secretary of Agriculture, and at the hearing evidence will be received relative to all aspects of the marketing conditions which are dealt with by the proposed marketing agreement and order. The provisions of the proposed marketing agreement and order are as follows:

SEC. 1. *Definitions*—(a) *Terms.* The following terms shall have the following meanings:

(6) The term "handler" means any person, irrespective of whether such person is also a producer or a cooperative association of producers, who engages in such handling of milk or cream for bottling purposes disposed of in the marketing area as is in the current of interstate commerce in milk and its products.

(5) Promptly verify the information contained in the reports submitted by handlers; and

(6) Check weight and butterfat test of milk received from producers by each handler each month and report the results of the butterfat tests to producers or to their cooperative association. The market administrator may designate an independent agency to check the weight and butterfat test of milk received by handlers.

SEC. 3. *Reports of handlers*—(a) *Submission of reports.* Each handler shall report to the market administrator, in the detail and on forms prescribed by the market administrator, as follows:

(1) On or before the 6th day after the end of each delivery period (i) the receipts of milk at each plant from producers, and the weighted average butterfat test thereof, (ii) the receipts of milk at each plant from handlers and cooperative associations, and the average butterfat test thereof, (iii) the receipts of cream at each plant from handlers and cooperative associations, and the average butterfat test thereof, (iv) the receipts at each plant of the milk, if any, produced by him, and the average test thereof, (v) the receipts of milk at each plant from new producers, and the average test thereo, (vi) the name and address of each new producer, (vii) the utilization of all milk and cream received, computed pursuant to section 4 (d), and (viii) the names of handlers from whom or to whom milk or cream was received or delivered.

(3) On or before the 15th day after the end of each delivery period, at the request of the market administrator, his producer pay roll, which shall show (i) the total delivery of milk for each producer with the average butterfat test thereof, (ii) the net amount of payment to each producer made pursuant to section 8, and (iii) any deductions and charges made by the handler, and authorizations therefor.

(b) *Verification of reports.* Each handler shall provide the market administrator or his agent with reasonable access to:

(1) Those records and facilities which are necessary for the verification of the information contained in the reports submitted in accordance with this section, and for the verification of the payments required by section 5 and section 8;

(2) Those facilities necessary for the checking of the weighing and sampling of the milk and for determining the utilization of milk by the handler; and

(3) The plants and storage facilities under his control.

SEC. 4. *Classification of milk*—(a) *Basis of classification.* All milk purchased or received by a handler from producers, new producers, cooperative associations, and other handlers, including milk produced by him, if any, shall be classified by the market administrator in the classes set forth in paragraph (b) of this section.

(b) *Classes of utilization.* Except as provided in paragraph (c) of this section, the classes of utilization of milk shall be as follows:

(1) Class I milk—All milk disposed of for consumption in fluid form, such as fluid milk, fluid cream, skim milk, and flavored milk drinks, and all milk the utilization of which is not classified in Class II.

(2) Class II milk—All milk used in the manufacture of products not disposed of for consumption in fluid form, and all milk specifically accounted for as actual plant shrinkage but not to exceed 2 percent of the total receipts of milk from producers.

(c) *Interhandler sales.* Milk, skim milk, and cream delivered by a handler to another handler shall be Class I milk: *Provided*, That if a different classification is agreed upon in writing between the receiving handler and the selling handler then the milk, skim milk, and cream shall be classified according to such written agreement: *Provided*, That in no event the amount so reported in any class be greater than the amount used in that class by the receiving handler.

(d) *Computation of the volume of milk to be accounted for by the handler in each class.* For each delivery period, the market administrator shall compute for each handler the volume of milk that he is to account for in each class as follows:

(1) Class I milk—Multiply the weight of the various units disposed of by such handler which are classified as Class I milk by the number of units irrespective of butterfat test thereof, add thereto the pounds of Class I milk delivered to other handlers, and classified pursuant to paragraph (c) of this section, and add the pounds of milk specifically accounted for as actual plant shrinkage in excess of 2 percent of the total receipts of milk from producers.

(2) Class II milk—The total pounds of milk received from producers minus the pounds of milk accounted for in Class I.

SEC. 5. *Minimum prices*—(a) *Class prices.* Each handler shall pay not less than the following prices, at the time and in the manner set forth in section 8.

(1) Class I milk—$------ per hundredweight:

(2) Class II milk—An amount per hundredweight equal to the combined value of butterfat and skim milk computed as follows:

(i) Butterfat—Add all market quotations (using midpoint of any weekly range as one quotation) of prices for a 40-quart can of sweet cream approved for Pennsylvania only, and for Pennsylvania, Newark, and Lower Merion Township, in the Philadelphia, Pennsylvania, market, reported for each week ending within the month by the United States Department of Agriculture, divide by the number of quotations, subtract 28 cents, divide by 33.48, multiply by 4, and subtract 23½ cents.

(ii) Skim milk—Any plus amount which is equal to 7.5 times the average of all the hot roller process dry skim milk quotations for "other brands, animal feed" and for "other brands, human consumption", carlots, bags, or barrels, in both cases (using midpoint of any range as one quotation) as published for such month in the "Producers Price Current", less 4.5 cents.

SEC. 6. *Application of provisions.* No provision hereof shall apply to a handler who is also a producer and who purchases or receives no milk from producers or an association of producers, except that such handler shall make reports to the market administrator at such time and in such manner as the market administrator may request.

SEC. 7. *Determination of prices to producers*—(a) *Net pool obligations.* The net pool obligations of each handler for milk received from producers during each month shall be a sum of money equal to the hundredweight of milk in each class, determined pursuant to section 4, for each handler, times the prices applicable thereto pursuant to section 5.

(b) *Computation of the uniform price.* The market administrator shall compute the composite price per hundredweight, f. o. b. handlers' bottling plants, for each delivery period as follows: add the values determined pursuant to paragraph (a) of this section for all handlers and divide by the total hundredweight of milk received from producers by such handlers.

(c) *Announcement of prices to be paid producers and of other market information.* The market administrator shall mail to all handlers and shall publicly announce, on or before the 9th day after the end of each delivery period, the composite price for milk containing 4 percent butterfat to be paid producers for milk received from them during such delivery period, as determined in accordance with paragraph (b) of this section.

SEC. 8. *Payments to producers*—(a) (1) *Semimonthly payments.* On or before the 20th day of each month each handler shall make a payment to producers for milk delivered during the first 15 days of such month at not less than the uniform price during the preceding month.

(2) *Final payment.* On or before the 12th day after the end of each month each handler shall make full payment, subject to paragraphs (b) and (f) of this section, to each producer for the total value of milk received from such producer during such month at not less than the uniform price per hundredweight computed pursuant to section 7, after taking credit for payment made pursuant to section 8 (a) (1).

(b) *Butterfat differential.* If any handler has purchased or received from any producer or association of producers during the delivery period milk having an average butterfat content other than 4 percent, such handler in making the payments pursuant to paragraph (a) of this section to such producer shall add to the uniform price for such producer or association of producers for each one-tenth of 1 percent of average butterfat content above 4 percent of average butterfat content and shall subtract from the uniform price for such producer or association of producers for each one-tenth of 1 percent of average butterfat content below 4 percent not more than 4 cents per hundredweight. The butter-

fat content of milk received shall be determined by taking the average of not less than 5 separate butterfat tests made from fresh samples during each delivery period. The market administrator may designate an independent laboratory to make these tests. If a laboratory is not designated by the market administrator, these tests may be conducted by an independent laboratory agreed upon by the handlers and the producers, in which case the expense of such butterfat testing shall be borne jointly and equally by each handler and each producer delivering to him, and the producers' share may be deducted from the amount paid them by handlers, provided the handler shall be responsible for any errors in these tests.

(c) *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to paragraphs (d) and (g) of this section and out of which he shall make all payments to handlers pursuant to paragraphs (e) and (f) of this section.

(d) *Payments to the producer-settlement fund.* On or before the 12th day after the end of each delivery period, each handler shall pay to the market administrator, for payment to producers through the producer-settlement fund, the amount by which his net pool obligations computed pursuant to section 7 (a) exceed the sum obtained by multiplying the hundredweight of milk received from producers by the uniform price announced pursuant to section 7 (c).

(e) *Payments out of producer-settlement fund.* On or before the 12th day after the end of each delivery period, the market administrator shall pay to each handler, for payment to producers, the amount, if any, by which the sum obtained by multiplying the hundredweight of milk received from producers by the uniform price announced pursuant to section 7 (c) exceeds his net pool obligations pursuant to section 7 (a). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. No handler who, on the 12th day after the end of each delivery period, has not received the balance of such reduced payment from the market administrator shall be deemed to be in violation of paragraph (a) of this section if he reduces his payments to producers by not more than the amount of the reduction in payment from the producer-settlement fund. Nothing in this paragraph shall abrogate the right of a cooperative association to make payment to its member producers in accordance with the payment plan of such cooperative association.

(f) *Adjustment of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments to the producer-settlement fund pursuant to paragraph (d) of this section, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 5 days, make payment to the market administrator of the amount so billed. Whenever vertification discloses that the payment is due from the market administrator to any handler pursuant to paragraph (e) of this section, the market administrator shall, within 5 days, make such payment to such handler. Whenever vertification by the market administrator of the payment by a handler to any producer discloses payment to such producer of less than is required by this section, the handler shall make up such payment to the producer not later than the time of making payment to producers next following such disclosure.

SEC. 9. *Expense of administration*—(a) *Payments by handlers.* As his prorata share of the expense of the administration hereof, each handler, except those handlers exempted pursuant to section 6 shall pay to the market administrator on or before the 12th day after the end of each delivery period an amount equal to 4 cents per hundredweight with respect to all milk received by him from producers, or produced by him during such delivery period, or such lesser amount, the exact amount to be determined by the market administrator, subject to review by the Secretary. If the market administrator designates an independent agency to determine the butterfat content of milk received by handlers from producers as permitted under section 8 (c) each handler shall pay to the market administrator an amount equal to not more than 7½ cents per test, the exact amount to be determined by the market administrator: *Provided*, That one-half of any amount collected for such tests of any producer's milk may be deducted from the payments handlers are required to make the respective producers under section 8.

(b) *Marketing services.* If the market administrator designates an independent agency to determine the butterfat content of milk received by the handlers from producers as permitted under section 8 (c) each handler shall deduct from his payments to each producer an amount equal to not more than 7½ cents per test the exact amount to be determined by the market administrator and shall pay such deduction to the market administrator on or before the 15th day after the end of each delivery period. Such moneys shall be used by the market administrator to pay the independent laboratory for the vertification of weight, sampling, and testing of milk received from producers.

(c) *Suits by market administrator.* The market administrator may maintain a suit in his own name against any handler for the collection of such handler's prorata share of expense set forth in this section.

SEC. 10. *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

SEC. 11. *Effective time, suspension, and termination*—(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated, pursuant to paragraph (b) of this section.

(b) *Suspension and termination.* Any or all provisions hereof, or any amendment hereto, shall be suspended or terminated as to any or all handlers after such reasonable notice as the Secretary may give, and shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty.* If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder the final accrual or ascertainment of which requires further acts by any handlers, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

The market administrator, or such other person as the Secretary may designate (1) shall continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct; and (3) if so directed by the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant hereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof, the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid and owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

SEC. 12 *Liability*—(a) *Liability of handlers.* The liability of the handlers hereunder is several and not joint, and no handler shall be liable for the default of any other handler.

The following provisions are applicable to the marketing agreement only:

SEC. 13. *Counterparts and additional parties*—(a) *Counterparts of marketing agreement.* This agreement may be executed in multiple counterparts and when one counterpart is signed by the Secretary all such counterparts shall constitute, when taken together, one and the same instrument, as if all such signatures were obtained in one original.

(b) *Additional parties to marketing agreement.* After this agreement first takes effect, any handler may become a party to this agreement if a counterpart thereof is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party.

Copies of the proposed marketing agreement and order may be procured from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, in Room 1019 South Building, Washington, D. C., or may be there inspected.

LIST OF PRODUCTS ON WHICH THE UNITED STATES WILL CONSIDER GRANTING CONCESSIONS TO IRAN

NOTE: The rates of duty indicated are those now applicable to products of Iran. When the rate is one which has been reduced pursuant to a previous trade agreement by 50 percent (the maximum permitted by the Trade Agreements Act), this fact is indicated by the symbol MR. When the rate represents a reduction pursuant to a previous trade agreement, but less than a 50-percent reduction, this is indicated by the symbol R. When an item has been bound free of duty in a previous trade agreement, this is indicated by the symbol B.

For the purpose of facilitating identification of the articles listed, reference is made in the list to the paragraph numbers of the tariff schedules in the Tariff Act of 1930. The descriptive phraseology is, however, in a number of cases limited to a narrower field than that covered by the numbered tariff paragraph. In such cases only the articles described by the descriptive phraseology of the list will come under consideration for the granting of concessions.

In the event that articles which are at present regarded as classifiable under the descriptions included in the list are excluded therefrom by judicial decision or otherwise prior to the conclusion of the agreement, the list will nevertheless be considered as including such articles.

NORTH BOSTON LIGHTING PROPERTIES, ET AL.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 29th day of July, 1942.

In the matter of North Boston Lighting Properties, New England Power Association, Beverly Gas and Electric Company, Gloucester Electric Company, Haverhill Electric Company, Salem Gas Light Company, and Suburban Gas and Electric Company.

Notice is hereby given that applications or declarations (or both) have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by North Boston Lighting Properties (hereinafter called Nobo), Beverly Gas and Electric Company, Gloucester Electric Company, Haverhill Electric Company, Salem Gas Light Company and Suburban Gas and Electric Company, all subsidiaries of New England Power Association, a registered holding company, and by said New England Power Association; and

Notice is further given that any interested person may, not later than August 15, 1942 at 1:00 P. M., E. W. T., request the Commission in writing that a hearing be held on such matters, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such applications or declarations, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act or the Commission may exempt such transactions as provided in Rule U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania.

All interested persons are referred to said applications or declarations, which are on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized below:

Nobo proposes to refund its presently outstanding $13,000,000 of 3½% Secured Notes maturing October 1, 1947. This will be done by borrowing $13,000,000 from certain banks as follows:

The First National Bank of Boston	$6,000,000
The Chase National Bank of the City of New York	4,500,000
Chemical Bank & Trust Co	1,250,000
Guaranty Trust Co. of New York	1,250,000

The proceeds thereof together with certain other available funds of Nobo will be used to pay off said 3½% Secured Notes on or before October 1, 1942, at their redemption price of 101½.

Each of the loans from the above named banks will be evidenced by a single promissory note of Nobo bearing interest at the rate of 2½% per annum payable semi-annually and maturing October 1, 1947. All or any part of the principal of each of said notes may be paid at any time prior to maturity with a premium of 1%, except that no premium shall be payable if the payment is made in connection with, or as part of a general refinancing following a liquidation of Nobo or a simplication of the corporate structure of the holding company system of which Nobo is a part, effected pursuant to an order of, or to a plan approved by order of the Securities and Exchange Commission under the Public Utility Holding Company Act of 1935.

Payment of principal and interest on said notes will be secured by Nobo's pledging with the custodian (The First National Bank of Boston) all of its holdings of the capital stock of the following subsidiary companies: Beverly Gas and Electric Company, Eastern Massachusetts Electric Company, Gloucester Electric Company, Haverhill Electric Company, Malden Electric Company, Malden and Melrose Gas Light Company, Salem Electric Lighting Company, Salem Gas Light Company and Suburban Gas and Electric Company. In addition, Nobo will pledge with the custodian certain unsecured promissory notes to be issued to it by certain of its subsidiary companies as follows:

Beverly Gas & Electric	$700,000
Gloucester Electric Co	320,000
Haverhill Electric Co	1,089,375
Salem Gas Light Co	485,000
Suburban Gas & Electric Co	785,000

Each of said notes will mature ten months after date of issue and will bear interest at the rate of 3% per annum. They are to be issued to evidence the presently existing indebtedness of their respective issuers to Nobo, now represented by certain overdue 3% notes and open accounts payable.

It is estimated that the refunding will result in aggregate net savings to Nobo of approximately $433,400.

By the Commission.
